Issue Type	Component/s	Summary	Documentation Required	Changed Files	Case Number	Jira nr.
Enhancement	CDI	Improved KBManager display for CDI targets with CDI Search Rights: Subscription. These targets can only be searched in CDI in case you have a subscription. To indicate you have a subscription, you need to activate the target in SFX to ensure this collection will become searchable in CDI. It is not possible to activate the collection for discovery in CDI. KBManager was changed to reflect these requirements.
