Set your students up for success with RefWorks!

As you prepare your students for higher education, introduce them today to the tools they will use in the future. RefWorks is the ultimate reference management service for students to find, access, and capture references, collaborate with their peers and produce papers with authoritative citations.

Students Can:
- Find, access, and capture research materials from virtually any source including ProQuest platforms
- Manage data in multiple formats – including PDF, PowerPoint, Word, Excel and HTML, stored in one workplace
- Work in an entirely cloud-based environment, which requires no syncing
- Experience a consistent interface regardless of how and where they access RefWorks
- Edit references and read, annotate and highlight full-text individually or in a group via folder sharing, online and in real time
- Integrate with today's top writing tools – Google Docs and Microsoft Word, using RefWorks add-ons (RefWorks for Google Docs, RefWorks Citation Manager or Write-N-Cite)
- Generate bibliographies and authoritative citations automatically

Educators Can:
- Use folder sharing to disseminate course materials from virtually any source
- Utilize RefWorks as a visual aid when discussing student progress on research gathering
- Use RefWorks in their educational role and for other work, using Projects to maintain separate reference collections

Librarians/Admins Can:
- Customize and manage user accounts
- Measure usage with analytics and reporting
- Manage copyright compliance of full-text sharing, thus reducing the risk of copyright infringement
