

# ExLibris Pivot-RP

## Overview

Competition for research funding continues to rise, globally. Yet research offices and research administrators are being pressed to do more for their researchers with less resources.

Researchers and research administrators need a platform that identifies new funding opportunities and potential collaborators while offering insights and short-cuts to help research organisations win a larger share of available funding.

With more than 20 years of experience, Pivot-RP unifies Pivot® and Research Professional in one platform, bringing together the most trusted funding awareness solutions for hundreds of the world's leading research institutions. Pivot-RP accelerates the research process by connecting researchers to the most comprehensive global source of funding opportunities and facilitates collaborator discovery.

Pivot-RP is part of the Ex Libris research information management suite. It tightly integrates with Ex Libris Esploro, enabling users to search for funding opportunities directly from Esploro.

## Pivot-RP Essentials

**Maximise funding opportunities**

**Discover current global news and insights**

**Demonstrate the impact of the Research Office**

**Leverage editorially curated, timely and accurate data**

**Raise researcher exposure**

**Get world class support for administrators and end-users**

# Delivering Value to Research Stakeholders

## Accelerate Research Funding Activity

- **Access** the broadest global coverage of available funding opportunities in a single, editorially curated database
- **Discover** tens of thousands of funding opportunities worth billions of dollars from across the widest variety of funding types
- **Track** and share funding opportunities with colleagues, get alerts and updates on deadlines and other significant changes
- **Enable** the Pivot-RP Funding Advisor that automatically recommends funding based on a researcher's specific profile
- **Locate** potential collaborators from within and outside your institution across millions of scholarly profiles
- **Include** internal funding opportunities to promote additional funding available for your institution
- **Communicate** effectively and efficiently across your organisation with built-in groups, recurring newsletters, and many features to share funding information
- **Search** thousands of conferences requesting "call for papers" to present and publish with the built-in Conferences and Papers Invited database

Increase research exposure by claiming and maintaining your personal profile.

- Discover new funding opportunities and collaborators
- Sync with ORCID or assign a proxy to manage your profile
- Set preferences for alerts and boost recommendations

### Funding Insight: Searchable Awarded Grants

Pivot-PR provides researchers and administrators with insights to help them increase success rates and make more informed decisions about whether they should apply to specific grants or funder calls. Search and discover more than 3.5 million previously awarded grants, across dozens of international global funders and growing.

Sort by title, funder, host institution, principal investigators, year, award amount, currency and more. View rich award details including abstracts, sub-components and chronology of recurring awards. Identify potential collaborators by reviewing lists of previous winners and linking to their profiles.

Research Administrators can use this data to inform research strategy as well as benchmarking their institutions vs. peer institutions.

### Seamless Partner Integration

Integrate seamlessly with tools like: Cayuse, InfoReady Review™, and ORCID.

### World Class Support

Pivot-RP is backed by a world class, geographically distributed, support team. Get help for administrators and end-users, including via live Chat.

## Highly Customisable Interface

Pivot-RP provides a highly customisable, intuitive, and user friendly interface allowing seamless integration with institutional branding. The user interface increases engagement and offers the ability to promote other research office services and guide users to important resources.

## Global News and Intelligence

Researchers need trusted intelligence for making better decisions. **Research Professional News** provides timely and trusted information focused on research policy, research politics, research funding and higher education around the world including regional, national and international coverage.

**Stay ahead of research policy news** - Enhance your institution's decision-making process using research funding and policy news that is carefully collated, organized, and distilled by an expert editorial team.

## Proactive Approach to Funding Communications

**Find and match** funding opportunities with colleagues and faculty by utilising integrated researcher profiles created for your institution by the Pivot-RP editorial team. Profiles match your institutions' organisational structure and include all of your researchers, faculty and staff across all departments.

**Easily disseminate and communicate** funding opportunities with built-in customisable newsletters, announcements and sharing tools.

- **Curate** highly focused lists of funding on specific topics
- **Embed** search results on any of your institutional websites
- **Set public interest groups** on any topic and make visual to all users at your institutions
- **Publish internal funding opportunities**, set deadlines and add notes to opportunities
- **Find peer reviewers** for the funding review process
- **Leverage the libraries' collection** and access to articles by linking from profiles to full text
- **Utilise** extensive reports and analytics to share funding information, generate a variety of reports, track individual usage activity, and demonstrate the value of the service
- **Extend communications and outreach** leveraging powerful, integrated communication tools to extend the research office's capabilities to share funding news and information proactively and efficiently to targeted sets of individuals and groups
