

ExLibris Pivot-RP

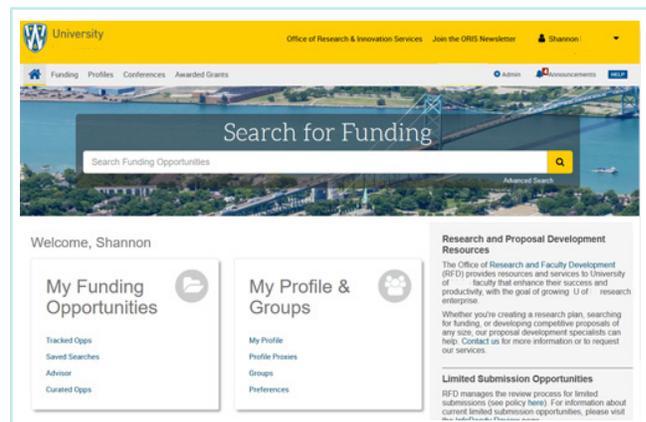

Better Communication. More Funding Success.

The saying “communication is key” is true. In the competitive environment to find funding for research, discovering and communicating about funding opportunities is key to both individual and institutional success.

Pivot-RP provides many tools for research administrators to deliver results. With the creation of a communication plan and the tools found in Pivot-RP, research offices can efficiently and effectively support the research community at their institution. Pivot-RP enables research administrators to broaden their reach and impact. Built-in sharing tools, such as customizable newsletters, announcements and embedded links, make it easy to disseminate and communicate information about funding opportunities.

Customize Pivot-RP to guide researchers to important resources

Easily customize the Pivot-RP interface to reflect your institution's logo, branding and color scheme. These customization options will also be reflected across newsletters, funding alert emails, and internal and limited submission opportunities to help you better promote your services to faculty, researchers and other stakeholders. In addition, customize the right column with text, links and images to promote your research office.

Curate Lists and Searches to the most relevant funding

Save researchers time and effort by presenting curated lists of funding opportunities and pre-scoped searches to guide users to the most topically relevant content for their specific research interests. Easily include links to curated lists and searches in emails, newsletters, department web pages, social media, or any other communication channels.

Embed Search Results to boost visibility

Embed Pivot-RP funding search results directly on department or research office web pages, allowing users to see opportunities of interest without having to log in to Pivot-RP.

Target the right researchers with Public and Private Groups

Researchers can create private groups of users to share funding information with frequent collaborators. Admins can also set up public interest groups on any topic and make them visible to all users at their institution. Users can then self-subscribe to be included in newsletters, sharing of opportunities, and other communications that may be relevant to the group.

Automate Communications with Newsletters

Newsletters are a great way to send highly targeted communications to specific groups of users. Pivot-RP administrators can scale their reach by setting-up recurring newsletters that will always deliver the most current funding opportunities to relevant audiences with minimal effort.

Tips & Resources

If you have questions, please Contact Us.

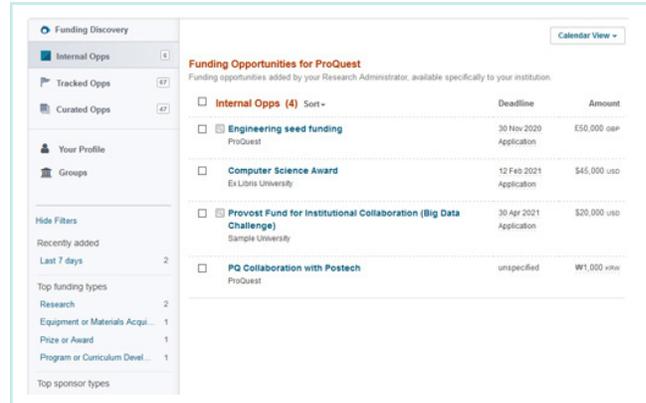

Use In-app Announcements to deliver special messages

Create announcements for users at your institution that will appear at the top of the screen whenever a user logs in to Pivot-RP. This is a great way to reinforce important information about the research office or remind users about internal deadlines, resources, or procedures for apply for funding.

Add Internal Funding Opportunities

Add and publish internal funding opportunities, set internal deadlines, and add notes to opportunities. Users can find internal funding alongside other external funding opportunities all in the same tool.

The screenshot shows a web interface for 'Funding Discovery'. On the left, there are navigation tabs: 'Internal Opps', 'Tracked Opps', 'Curated Opps', 'Your Profile', and 'Groups'. Below these are 'Hide Filters' and 'Recently added' sections. The main area displays 'Funding Opportunities for ProQuest' with a table of opportunities. A 'Calendar View' button is in the top right.

	Deadline	Amount
<input type="checkbox"/> Internal Opps (4) Sort-		
<input type="checkbox"/> Engineering seed funding ProQuest	30 Nov 2020 Application	\$50,000 usp
<input type="checkbox"/> Computer Science Award Ex Libris University	12 Feb 2021 Application	\$45,000 usp
<input type="checkbox"/> Provost Fund for Institutional Collaboration (Big Data Challenge) Sample University	30 Apr 2021 Application	\$20,000 usp
<input type="checkbox"/> PQ Collaboration with Postech ProQuest	unspecified	\$1,000 vhw

A Trusted Partner in Maximizing Funding Success

Pivot-RP is backed by a team of editors that ensures your researchers see the most comprehensive, up-to-date and accurate global funding information.

Ex Libris provides world class support and training to help research administrators scale their efforts to efficiently maximize access to funding opportunities.
