The Voyager Release Methodology

Major release (for example, 10.0.0)

Introduces new functionality, particularly enhancements that may require database changes. Also, may include bug fixes.

Minor release (for example, 10.4.0)

Introduces new enhancements but will usually not require database changes. May also include bug fixes

Service packs (for example, 9.2.1)

Usually includes bug fixes only. The release number is built by combining the following: Major.Minor.Service Pack.

Note: All releases are cumulative meaning that bug fixes are rolled up to each version.
