

December 2022 Instructor Highlights

January 2023 Sneak Preview

· NERS #7744 Indication for courses that intentionally don't have reading lists

Main Features

Create Parent Reading Lists That Can Be Easily Discovered and Copied

December 2022 Leganto

Parent lists can be used as templates for other lists and/or courses. List owners, Leganto course operators, and librarians can assemble lists of resources (such as for a specific course or a specific topic) and indicate that the list is a parent list. Other instructors can easily discover parent reading lists and can copy the full list, specific sections, or individual citations to their own reading lists.

When the parameter **mark_as_parent** (Configuration Menu > Leganto > Features > Leganto Features) is set to true (default), the edit list form in Leganto includes a checkbox to Mark as parent list.

Title*:	Soci	ological Analysis 2018-2019 Optional	
Description:		urse considers how to explain social phenomena. Each week a lecture introduces a particular type of explanation, and a semina cal research on a related topic. The topic illustrates this type of explanation in practice, revealing its strengths and weaknesses.

parent indication that a list is a parent list

When parent reading list (Configuration > Leganto > Features > Find List Settings) is Enabled, the parent list checkbox is available in the Find Lists search for librarians and instructors. As with other types of lists, instructors can only discover and access parent lists that have been published to All Students or Anyone.

Find Lists 。			
Search List: Lookup reading lists by list title, course title, course code or course instructors			
Course Status: All	- Subject: ALL -

Option for a librarian to mark a list as a parent list

Note

If you rollover or duplicate a parent list, the parent tag is removed from the new list and the Mark as parent list checkbox is cleared.

Note

This feature will be available for analytics in the January release.

For more information, see Creating a Parent Reading List.

Test the LTI 1.3 Connection from Alma

December 2022 Leganto

When configuring LTI 1.3 (Configuration > General > External Systems > Integration Profiles > LTI Tool), a Test URL button is now available to test your connection for the URL in **Public Keyset URL** to help with troubleshooting. The Test URL indicates if the connection is successful or if the connection failed.

Resolved Issues

- December 2022 Leganto SF: 06514039
 In some cases, the Primo Sign in link appeared when it shouldn't have. This was fixed.
- December 2022 Leganto SF: 06531138 In some cases, items could be added to locked lists. This was fixed.
- December 2022 Leganto SF: 06505007
 Previously, Private notes were viewable when viewing Leganto in Student Mode. This was fixed.
- December 2022 Leganto SF: 06486072
 Previously, the Reading List Sort by: label Last created incorrectly displayed as createdate (not listed). This was fixed.
- December 2022 Leganto SF: 06503951
 When selecting annotations in Canvas on small screens, the screen focus did not jump to the section to which the annotation applied. This was fixed.
- December 2022 Leganto SF: 06493418
 For type Streamed Video, the Alma Pages field now translates to Duration.
- December 2022 Leganto SF: 06465690
 Previously, when changing the language setting, the Leganto UI did not update the language for Leganto labels until the page was refreshed. This was fixed.
- December 2022 Leganto SF: 06405797

In some cases, the Alma API ran very slowly, causing a timeout error when running jobs. This was fixed.

December 2022 Leganto SF: 06298387

•

When a rollover was linked to more than one course, the multiple rollover prevention did not work correctly. This was fixed.
