## **2022 Highlights: Other**

- Moodle PI Enhancements
- Bulk App Role Subscriptions
- Library PI Enhancements
- New campusM APIs
- Institutional SSO Login for App Manager
- Native App Personalization Synced to Cloud
- Bus Tracking Product Integration
- Accessibility Enhancements

# Roadmap 2023: Helping you help your students

© 2023 Ex Libris | Confidential & Proprietary

# **App Profile**

Create and populate your profile on first entry to app | Add image, interests and more into profile | Set social media links right in the app | Connect with colleagues and teachers right from the start | Choose what to share and what not to share

#### **Task Board Enhancements**

#### **User-Defined Tasks**

Ability for end users to create and manage their own tasks within the Task Board

#### **Reminder Notifications**

Ability for end users to add reminders for tasks and receive them as app notifications

#### **Search and Filter**

Ability for end users to search and filter their tasks

#### **Library Self-Serve**

• Exploration of Self-Serve support for selected vendors

## campusM Connect

Making it easier for users to connect, collaborate and share resources within a safe digital environment

#### **Creative Studio: Draft Content Workflow**

Enable the creation of draft content pages and publish selectively

Permission can be set to define who can draft and who can publish content

#### **Product Integrations**

Continuing to provide best-in-class integrations with your digital portfolio

SpringShare Integrations
Summon over Alma Integration

# React Mobile Continuous Mobile Technology Upgrade

React Mobile technology stack for unified native development | Faster, more consistent native development | Smooth, native interactions and animations enhance user experience | Improved performance | Accessible by design

# **My Calendar**

Modern, intuitive design that delights the user | Consolidate time/date-based activities into one view | Scalable view gives holistic insight into day, week, month, year

# **My Maps**

Root and branch overhaul of Maps and locations interactions | Data layer overview provides filterable insight at a glance

# **Search & Notifications**

Notification Categories and icons improve visibility and interaction | Search and filter by category

# The campusM Data Model

Transforming distinct product integrations into instant connections

Part of Clarivate

#### DayView: Drive action with a user-centered overview

DayView displays class schedules, events, tasks, exams and more in one place on the home screen. This enables students to see what they need to know, when they need to know it, enabling them to act and make smarter decisions.

### adminM: Administration in the palm of your hand

Provide in-app access to key app administration tasks ands information, including:

- Key usage analytics
- Notifications
- Event Management
- Service and release information

#### **Smart Tiles**

Next-generation dynamic Live Tiles will make the home screen more interactive, attractive, and informative

- Events Smart Tile
- Interactive Lists Smart Tile
- Nested Menus Smart Tile
- Day View Smart Tile

Part of Clarivate

#### **Delivery Sequence**

# Thank you!
