CDI, Alma, and Discovery

Discovery

- **Central Discovery Index**
- **Includes over 5 billion citations**
- **Accessible in both of Ex Libris' discovery systems**
- **Most resources are free to search**
- **Some A&I databases require a subscription to search**

Delivery

- **Linking to content via Alma**
- **Full-text content in its own database/repository**
- **Direct linking or use of link resolver**
- **May require authentication or authorization to access**

How does this all work?

How does this work?

Primo provides simple, one-stop searching for books and e-books, videos, articles, digital media, and more.

Primo also helps you manage your research. Sign-in in order to:

- Renew books and videos
- Create favorites lists
- Export citations to Refworks and Endnote Web
- View full search results. (Some databases, only show results when you're signed in.)

Where can I get help?

[Ask a librarian how to start your search](#)

Questions? Comments?

[Let us know what you think!](#)

The screenshot displays the ExLibris search interface. At the top left is the ExLibris logo. The navigation bar includes links for LIBRARY SEARCH, JOURNAL SEARCH, ILL REQUEST, and FETCH ITEM, along with a menu icon. On the right side of the navigation bar are icons for refresh, a pin, a 'Sign in' link, and a 'Menu' dropdown. The search bar contains the text 'chocolate and health' and a clear 'X' button. To the right of the search bar, it shows 'Alma University & Central Index' with a dropdown arrow, a microphone icon, and a magnifying glass icon. The text 'ADVANCED SEARCH' is visible to the right of the search bar. The main content area below the search bar is currently blank.

User Roles

1 - 6 of 6

<input type="checkbox"/>	Active	Role Name	Role Area
<input type="checkbox"/>	<input checked="" type="checkbox"/>	CDI Inventory Operator	Inventory
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Electronic Inventory Operator	Inventory
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Electronic Inventory Operator Extended	Inventory
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Repository Manager	Inventory

CDI Inventory Operator: Able to activate/change Central Discovery Index resources and settings

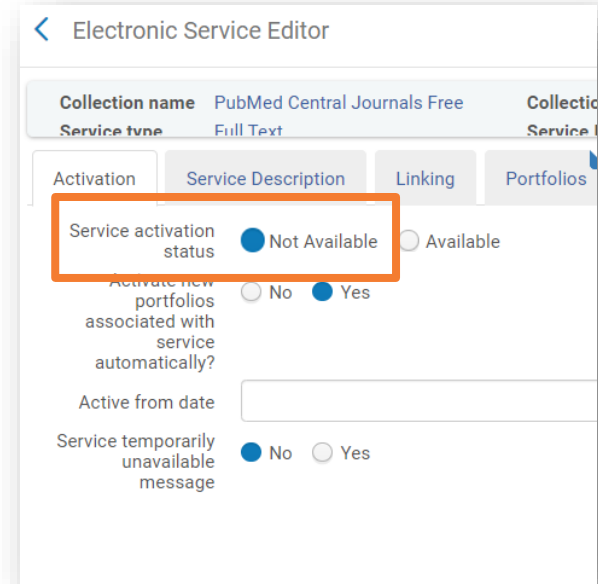

Electronic Inventory Operator/Extended: Able to activate/deactivate e-resources, add local electronic collections and portfolios, and create and manage sets. With the extended role, able to delete electronic inventory as well.

Repository Manager: Able to add/edit/delete notes, create/remove blocks, manage inventory operators, assign e-resource activations to operators, manage inventory and repository jobs, and add/edit/delete and link inventory in the MD Editor

Option 1: Activate/Deactivate Collection in Alma

If you set the **Service Activation status** to “Not Available”:

- Shows as “No Access” in search results
- Links to full text will not appear in full record

The screenshot shows the 'Electronic Service Editor' interface. At the top, there are tabs for 'Activation', 'Service Description', 'Linking', and 'Portfolios'. Below the tabs, the 'Service activation status' is set to 'Not Available', which is highlighted with an orange box. Other settings include 'Activate new portfolios associated with service automatically?' set to 'Yes', 'Active from date' (empty), and 'Service temporarily unavailable message' set to 'No'.

Electronic Service Editor

Collection name PubMed Central Journals Free
Service type Full Text

Service activation status Not Available Available

Activate new portfolios associated with service automatically? No Yes

Active from date

Service temporarily unavailable message No Yes

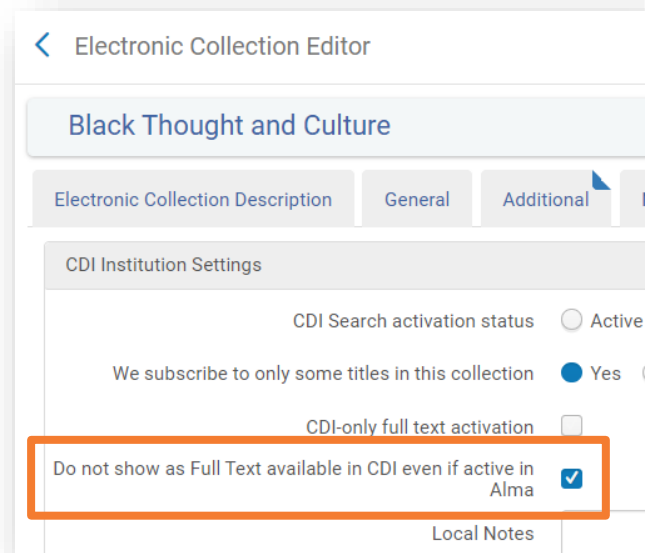

Option 2: ‘Do not show as Full Text available ...’

If collection is **Active** in Alma, you can select “**Do not show as Full Text available in CDI even if active in Alma**”:

- Shows as ‘unavailable’ in search results
- Links to full text will still appear in full record

Why do this?

Use Case: Prevent OA content from cluttering search results

The screenshot shows the 'Electronic Collection Editor' interface for a collection named 'Black Thought and Culture'. The 'CDI Institution Settings' section is visible, with the following options:

- CDI Search activation status: Active
- We subscribe to only some titles in this collection: Yes
- CDI-only full text activation:
- Do not show as Full Text available in CDI even if active in Alma:**

The 'Do not show as Full Text available in CDI even if active in Alma' checkbox is highlighted with an orange border.

Option 3: Exclude Ebooks from CDI Search Results

Use your own eBook catalog records (in your Primo local index) instead of the eBook records from CDI.

- All eBook records will be filtered from the CDI results
- Users will see only your eBook catalog records **in blended searches**.
- Chapter-level records are not affected and will still be returned as part of the CDI results.

[Configuration > Discovery > Search Configuration > Search Profiles](#)

Define a Custom Search Profile

Search Profile Details

Code * MyInst_and_CI Display Name * Search everything

Description Blended - All records belonging to your ins

List of Scopes included in the Search Profile

Code	Name	Description	Filter by Availability	Exclude CDI eBooks	...
1	CentralIndex	All records within your Central Index profile	<input checked="" type="checkbox"/>	<input type="checkbox"/>	...
2	MyInstitution	All records belonging to your institution	<input type="checkbox"/>	<input type="checkbox"/>	...

Option 4: 'Activate for Full Text in CDI only'

If collection is INACTIVE in Alma, you can mark it as 'Available Online' only in CDI

- Shows as 'Available' in search results
- Direct link to full text will appear in full record
- For collections that use the **link in record** rather than the link resolver

The screenshot displays the Alma interface for a collection record. At the top, there are tabs for 'Institution' and 'Community'. Below these, a 'Sort by: Rank' dropdown is visible. The main content area shows a collection record for 'China, America and the Pacific'. The record details include: Type: Selective package, Service: Full Text, Full Text Linking in CDI: Link in record (highlighted with an orange box), Interface name: Adam Matthew Digital, Linking Level: Book, Creation Date: 06/21/2017 10:38:35 EDT, Modification Date: 07/11/2021 09:02:22 EDT, Provider coverage: Yes, Search Rights in CDI: Free, and Full Text Rights in CDI: Subscription (Linkresolver). On the right side, there are fields for Collection ID: 613790000000, MMS ID: 9981328241000, and a 'Portfolio List (1882)' button. A dropdown menu is open, showing options: 'Activate for Full Text in CDI only' (highlighted with an orange box), 'Descriptive Record', 'Order', and 'Report To Ex Libris'.

Option 5: 'We subscribe to only some titles ...'

- If collection that is a selective package is Active in Alma, you have the option to mark the entire collection content as 'Available Online' in CDI regardless of the portfolio's activation in Alma
- For collections that use the **link in record** rather than the link resolver

EasyActive Setting

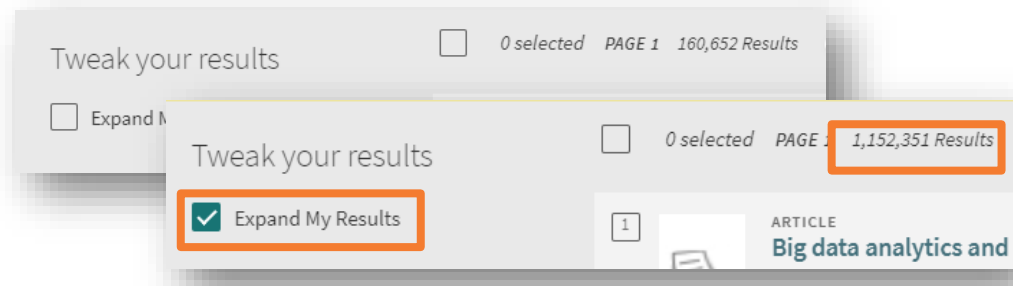

EasyActive—

- Majority of the collections in CDI are searchable
- Exceptions include collections that require a subscription to search (such as A&I databases)

[https://knowledge.exlibrisgroup.com/Alma/Product_Documentation/010Alma_Online_Help_\(English\)/Electronic_Resource_Management/060_Alma_Single_Activation_Source_for_CDI/040Single_Activation_with_the_EasyActive_Setting#EasyActive_Setting](https://knowledge.exlibrisgroup.com/Alma/Product_Documentation/010Alma_Online_Help_(English)/Electronic_Resource_Management/060_Alma_Single_Activation_Source_for_CDI/040Single_Activation_with_the_EasyActive_Setting#EasyActive_Setting)

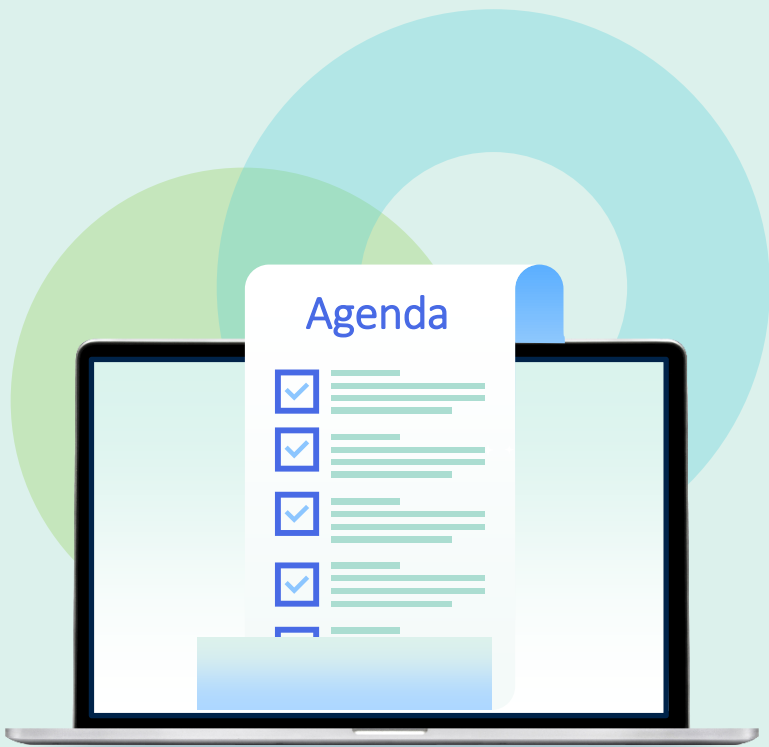

Fully Flexible Setting

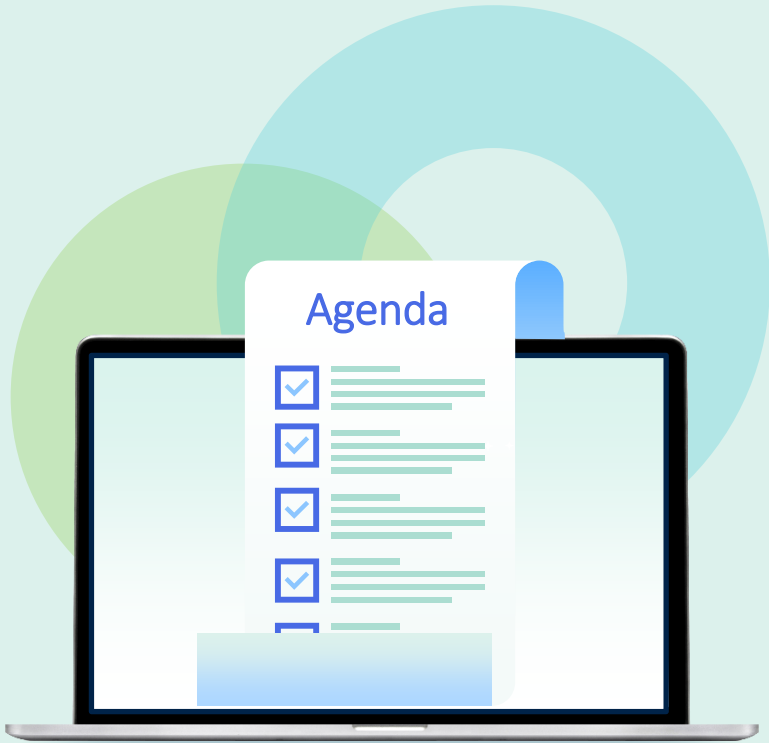

Fully Flexible—

- This model may be in use if your library was using Primo before the migration to Alma
- Activations in Alma are automatically searchable in the CDI (no second step)
- You choose which resources appear in an expanded search (like you did in the Primo Back Office)
- Ex Libris offers an option to [move from Fully Flexible to EasyActive](#)

[https://knowledge.exlibrisgroup.com/Alma/Product_Documentation/010Alma_Online_Help_\(English\)/Electronic_Resource_Management/060_Alma_Single_Activation_Source_for_CDI/020Single_Activation_with_the_Fully_Flexible_Setting](https://knowledge.exlibrisgroup.com/Alma/Product_Documentation/010Alma_Online_Help_(English)/Electronic_Resource_Management/060_Alma_Single_Activation_Source_for_CDI/020Single_Activation_with_the_Fully_Flexible_Setting)

1. Why can't I find the article for which I am looking?

The screenshot shows the ExLibris search interface. At the top, there is a navigation bar with the ExLibris logo on the left and several menu items: LIBRARY SEARCH, JOURNAL SEARCH, FETCH ITEM, TAGS, and a dropdown menu. On the right side of the navigation bar, there are icons for a refresh button, a pin, and the user name 'Jean Dill'. Below the navigation bar is a search bar containing the text 'Using cognitive strategies overcomes cognitive load in online learning environments'. To the right of the search bar, there is a dropdown menu set to 'Articles', a microphone icon, and a magnifying glass icon. Below the search bar, the main content area displays 'No records found' and a message: 'There are no results matching your search "Using cognitive strategies overcomes cognitive load in online learning environments".' Below this message, there is a section titled 'Suggestions:' with a bulleted list of five items: 'Make sure that all words are spelled correctly.', 'Try a different search scope.', 'Try different keywords.', 'Try more general keywords.', and 'Try fewer keywords.'. To the right of the main content area, there is a 'Refine Results' section with a checkbox labeled 'Expand My Results'.

Expanded search includes the article, but it's 'No Online Access'

The screenshot displays the ExLibris search interface. At the top, the ExLibris logo is on the left, and navigation options like 'LIBRARY SEARCH', 'JOURNAL SEARCH', 'FETCH ITEM', and 'TAGS' are in the center. On the right, there are icons for refresh, a pin, and a user profile 'Jean Dill'. Below this is a search bar containing the text 'Using cognitive strategies overcomes cognitive load in onl' and a dropdown menu set to 'Articles'. To the right of the search bar is an 'ADVANCED SEARCH' link. Below the search bar, there are options for '0 selected', '1 Results', 'Save query', and 'Personalize'. The main search results area shows a single article entry. The article title is 'Using cognitive strategies overcomes cognitive load in online learning environments' by Jamie Costley. Below the title, it says 'Interactive Technology and Smart Education, 2020-04-27, Vol.17 (2), p.215-228'. A quote from the article is visible: 'Purpose This study aims to look at the relationship between extraneous cognitive load and germane cognitive load and how the use of cognitive learning...'. At the bottom of the article entry, there is a link that says 'No Online Access >'. To the right of the article entry, there is a 'Refine Results' box with a checked option for 'Expand My Results'. Below the article entry, there is a 'Newspapers search >' section with a description: 'These search results do not include newspapers. View results from our entire collection of newspapers, or search specifically within Featured newspapers.'

Activate the collection/portfolio, confirm the coverage dates
