# Agenda

- The power of resource sharing
- A look into the present
- Customer Success
- A look into the future
- Q & A

## The power of resource sharing

# A community strategy

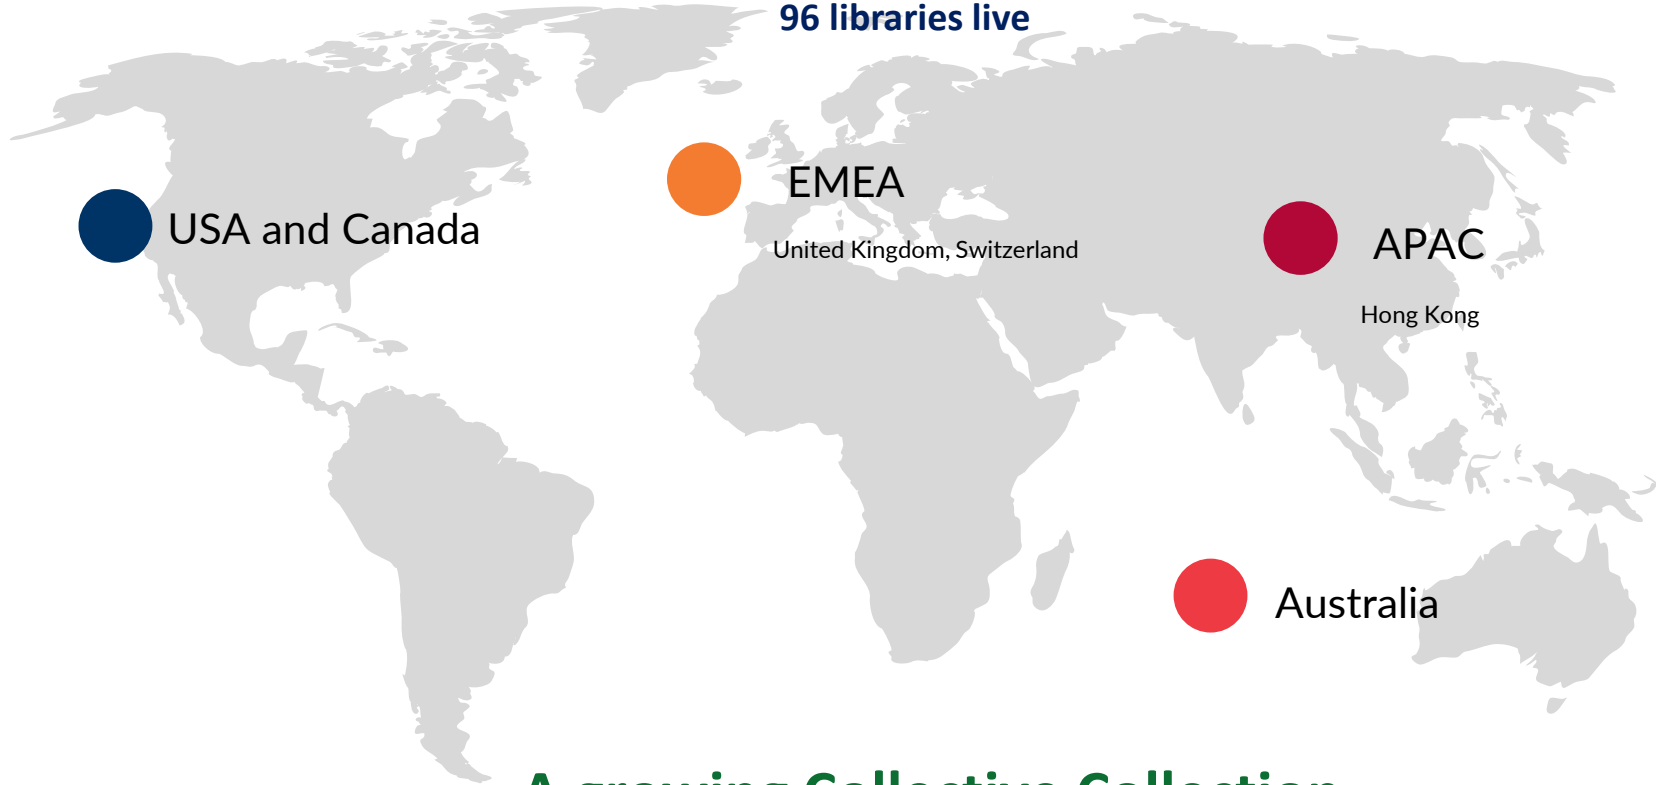

*"We're trying to move away from a 'just in case' scenario with regards to our collection to a 'just in time' scenario. We have been trying to reduce our print collections and increase our electronic collections. Resource sharing really fits in with that vision. **We don't have to have everything in our collection**, but we endeavor to be able to get anything that anyone wants as quickly as possible. It's our philosophy."*

**Sarah Fredline, University Librarian, Bond University**

Hi all,

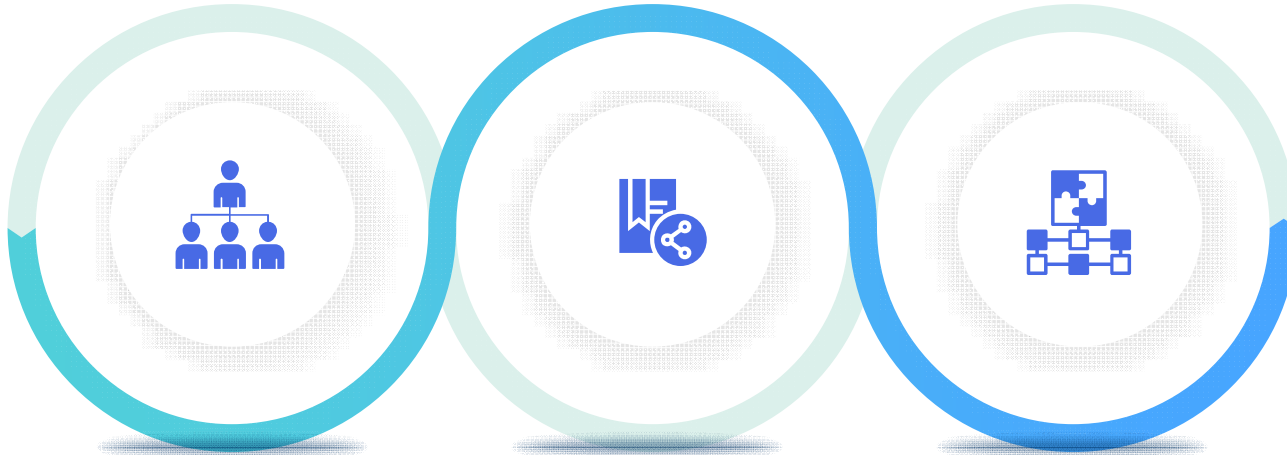

Have a great idea to make Rapido or RapidILL better?

It's time to submit your requests for the 2023 Rapido AND RapidILL enhancements round.

# Rapido at the core

## Personalize

Provide an intuitive and personalized experience to make resources easily accessible

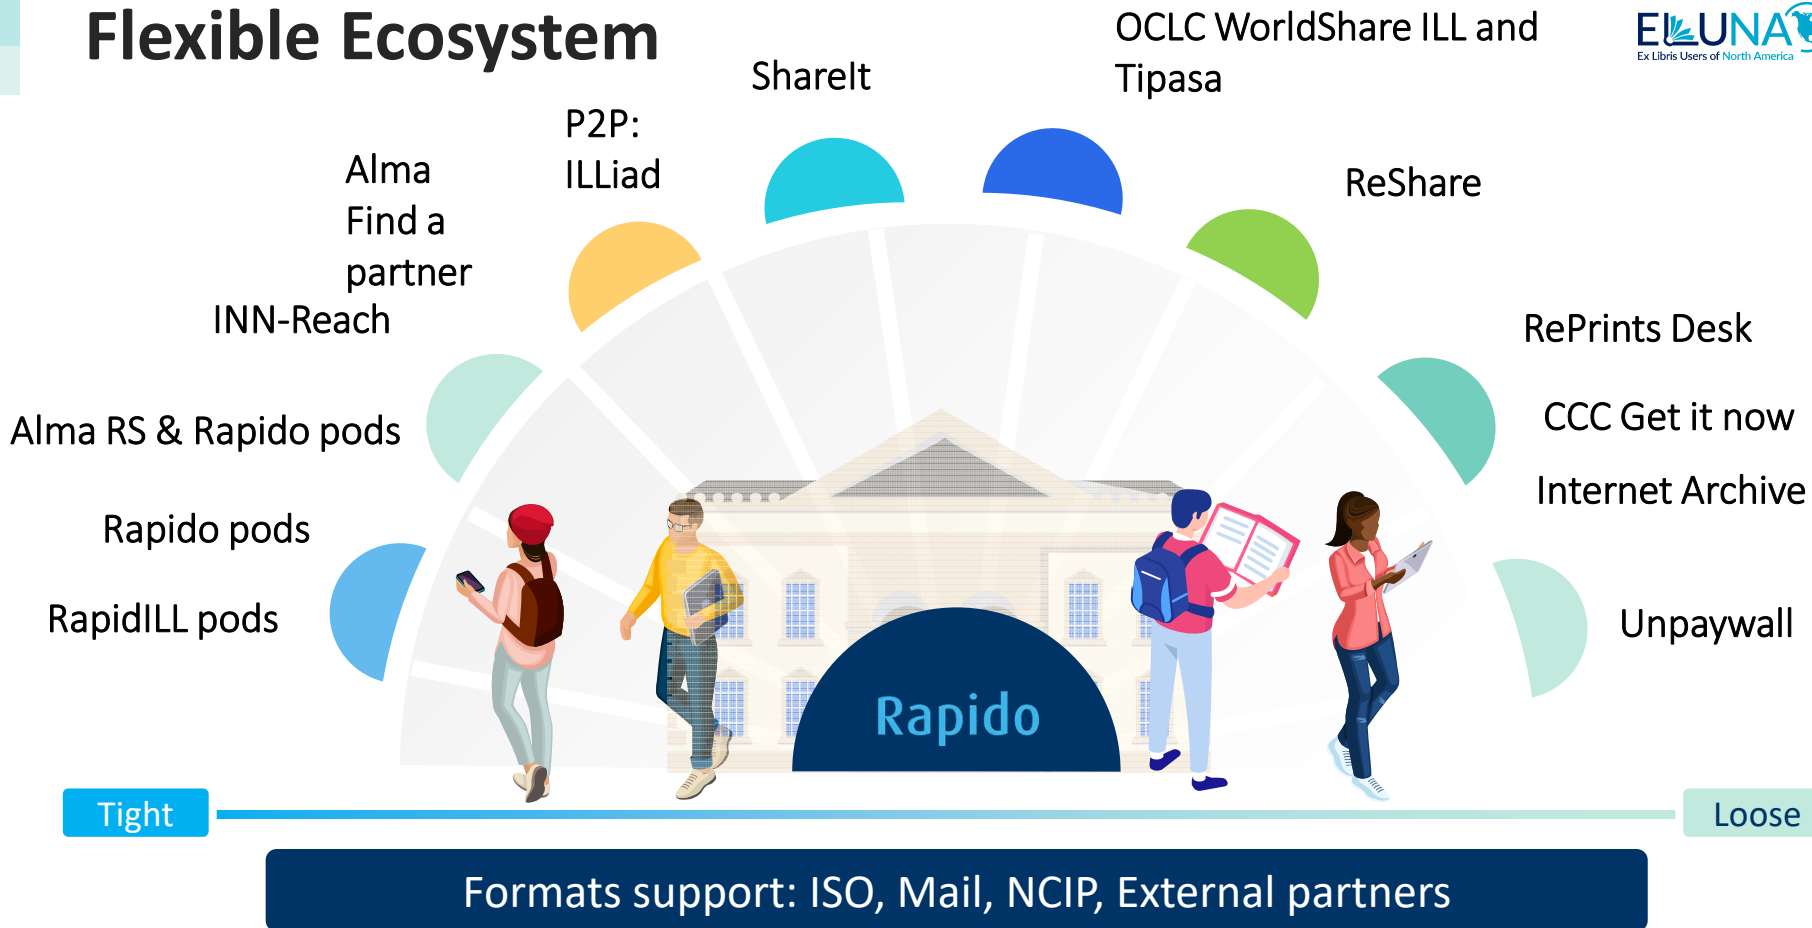

## Connect

Unlock global and equitable collaboration to expand your collection

## Optimize

Let the system handle the request volumes for you

# Flexible Ecosystem

# How Rapido libraries work with Alma partners

- Per requested resource, Rapido can offer a dynamic list of partners based on the Ex Libris Resource Sharing Directory

**Borrowing Request**

# The Ex Libris Resource Sharing Directory

## Exlibris Resource Sharing Directory

### Help make resource sharing open and accessible by joining the Exlibris Resource Sharing Directory!

Any Alma library can easily opt into the directory. Being in the directory lets other Alma institutions know how they can interact with you regardless of either of your preferred resource sharing platform.

#### How do I opt-in?

Set up is done in Alma and is a very simple process taking a few minutes.

The set up consists of letting people know who you are, where to find you and what you are able to loan.

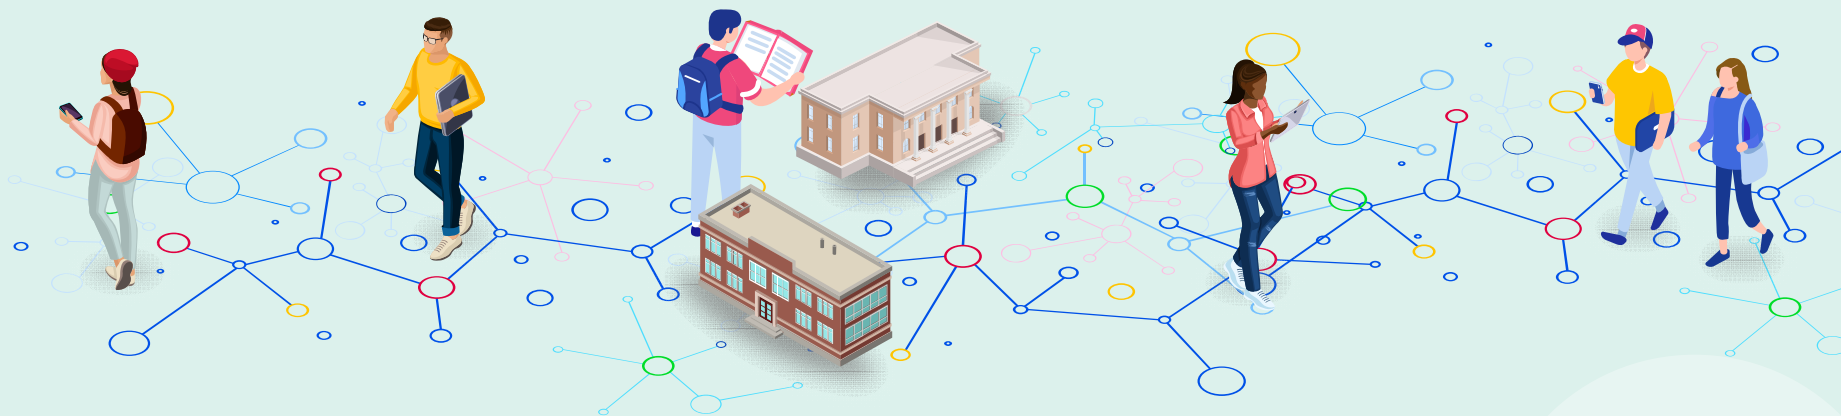

# Easy resource sharing

## Data Sharing Profile

### RESOURCE SHARING

Confirm making holdings information of my institution searchable and visible to other Alma and Rapido institutions for purposes of availability and requestability of items for resource sharing. This could provide an opportunity for your institution to establish new resource sharing partnerships and networks with other institutions that agree to do so. Allowing your institution's holdings information to be shared for this purpose does not mean that your institution is required to allow resource sharing with any other institutions. None of your users' personal data is used. \*

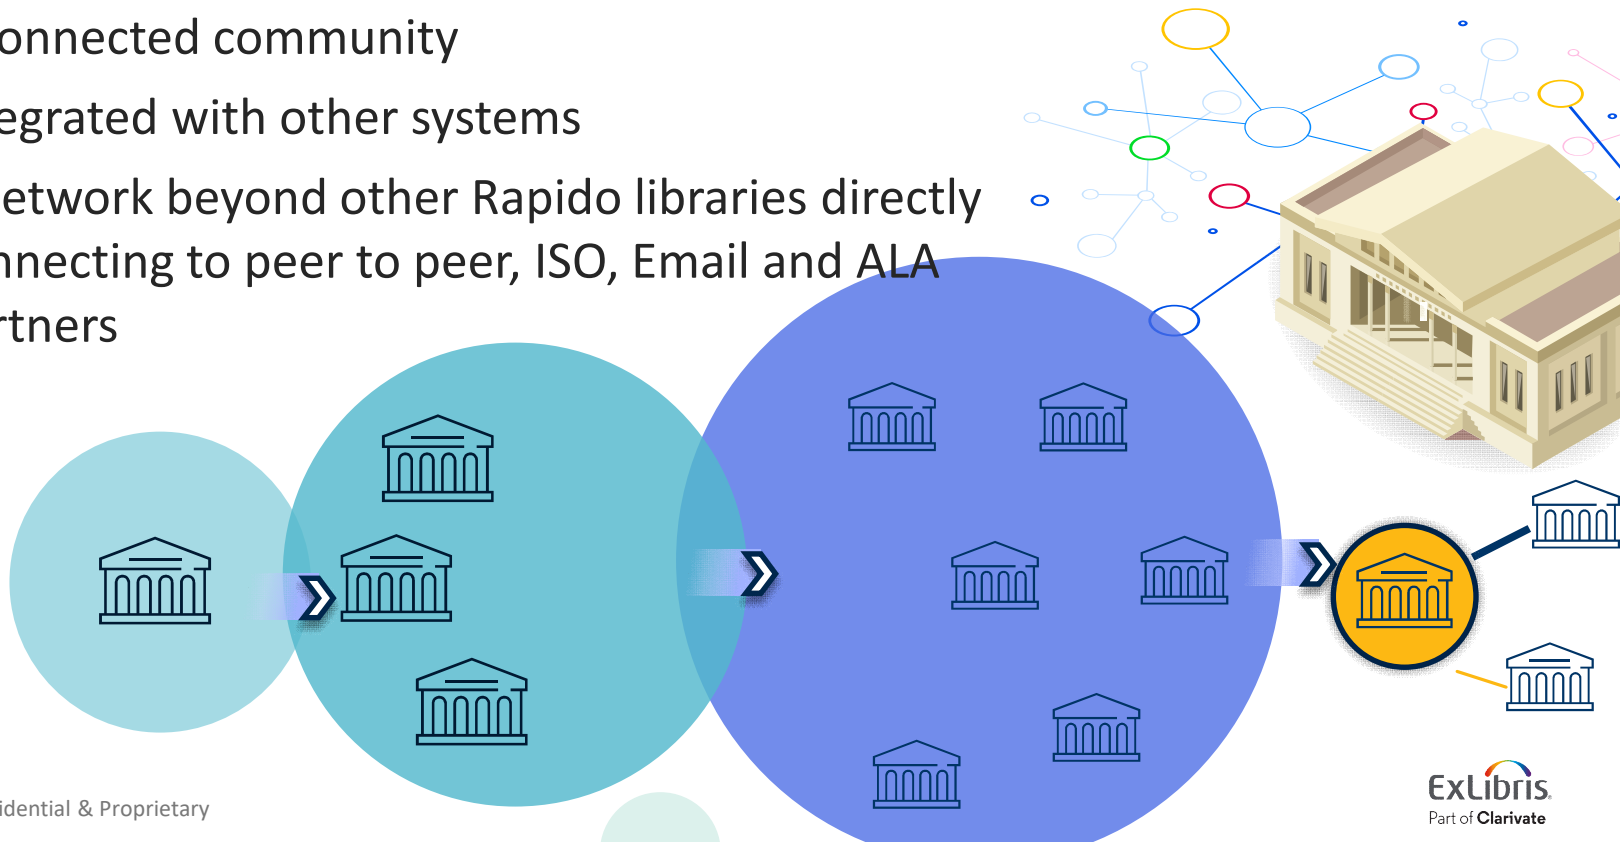

Yes  No

## A look into the present

# Connect

- Rapido is
  - a connected community
  - integrated with other systems
  - a network beyond other Rapido libraries directly connecting to peer to peer, ISO, Email and ALA partners

# Personalize

- Library staff fine tune their use of Rapido with their use of sets, alerts, labels, mediation rules, and copyright rules
- Use display logic rules and configurations to customize the request experience by user group
- Patron account shows all requests and loans in one place

# Using Labels

The screenshot displays the 'Borrowing Requests' interface. At the top, it shows 'Borrowing Requests (1 - 20 of 1,242)' and a 'Save as a New Set' button. Below this is a search bar with 'Author' selected and a 'Sort by: Update Date' dropdown. The main area contains a list of three requests. The first request is selected, and its details are shown in a right-hand pane. The details include the title 'Sjögren-Syndrom / Journal der Deutschen Dermatologischen Gesellschaft', the requester 'Staff, Ex Libris', and the date '29/Sep/2022 16:45:42 IDT'. A label 'multiple\_requests' is visible next to the request. In the right-hand pane, a search box contains 'app', and a dropdown menu shows several options, with 'app' highlighted in a red box. Other options include 'approved', 'need\_by\_date\_approved', and 'SELF\_OWNED\_APPROVED'.

Labels can be manually added as needed using free text when managing **Borrowing/Lending Requests**

Labels can automatically be added to borrowing requests based on a Borrowing Mediation rule or Copyright rule that adds labels to requests due to the condition.

# Exclude Non-Workdays Days from Expiry Period

The Expiry days can either be defined on a partner or on a pod lending policy. A job runs that deletes unhandled expired requests. To prevent lending requests from expiring during non-workdays, Rapido enables you to set days to exclude from the expiry period calculation

The screenshot displays the configuration interface for Rapido. On the left, a vertical navigation menu includes: Alma DEV, Acquisitions, Resources, Discovery, Resource Sharing, User Management, and General. The main content area is divided into sections: Configuration (Members, No Rapido Offer Message, Manage Rapido Alerts, Institutional Borrowing Policy, Manage Download Electronic Resource, Associate Pickup Location with RS Member, Resource Sharing Working Days), Rapido Rules, Rapido Request Forms Customization (Hide Get It From Other Locations), and General (Other Settings, Move to Branch Automation, Rapido Jobs Configuration). The 'Resource Sharing Working Days' section is highlighted with an orange border. Below this, a modal window titled 'Resource Sharing Working Days' is open, showing a dropdown menu for 'Days of the week' with 'Saturday' and 'Sunday' selected. The modal includes a 'Back' button and a 'Save' button.

# Determine when your users see offers

Rapido enables you to configure when to present resource sharing requests and when to hide them.

- Does your institution want to show the offers before sign-in?
- For which users (user groups) to present resource sharing services?
- Should the offers be presented if the library owns the resource?
- Should the offers be presented if the library has the resource available?
- Should the offers be presented if a full text service is available for the resource?
- Should the offers be available when a purchase request exists for the resource?
- For which specific Resource types should offers be presented?

# Known offers for library users

Show all topics

## Customer success

# Connect

- Customer Success meetings begin after the implementation experience ends
- Meet regularly to ensure success
- One on one or bring the whole team

# Personalize

- Understand the context of your use of Rapido
- Work through your questions
- Build your knowledge
- Address your needs with existing functionality
- Discuss to define the goals of your institution
- Support your use of analytics to measure your goals and success

# Optimize

- Support your definition of success
- Review day to day workflows together to highlight any opportunities for a library to align their work with their goals
- Stay current on items from releases to maximize the use of Rapido

## A look into the future

# Connect

- Workflows for **net lending** institutions, enabling them to lend high volume of resources for different type of borrowers such as libraries, organization and independent researchers without dependencies on requiring an ILS from this borrowers and making existing workflows as efficient as possible

# Connect

- Easy creation of new networks and partnerships
  - Automation of peer-to-peer processes (such as automatic creation of partners)
  - Enabling institutions to contribute partners to the Ex Libris Resource Sharing Directory
  - Opening the Resource Sharing Directory in order for any institution to contribute partner information and in addition be able to identify potential partners for resource sharing
  - Enhancing our current integrations with other systems and adding new integrations

# Personalize

- Enhancement and development to make the Rapido Title Index more exact, such as enabling institutions to control records displayed
- Enable institutions to report on records that have incorrect metadata
- Removing from discovery resources that are not suitable for resource sharing
- New Rapido tiles for specific resources such as newspapers

# Optimize

- eBook resource sharing, making resource sharing sustainable and optimal.
- eBook optimized workflows automatic both for lending and borrowing institutions
- Increase visibility to staff and view from Rapido the offers displayed to users via discovery
- Making it easier to customize letters and slips
