Leganto as Part of the Unified Solution

Senior Manager, Product Management

Establish the Library as a Teaching and Learning Partner

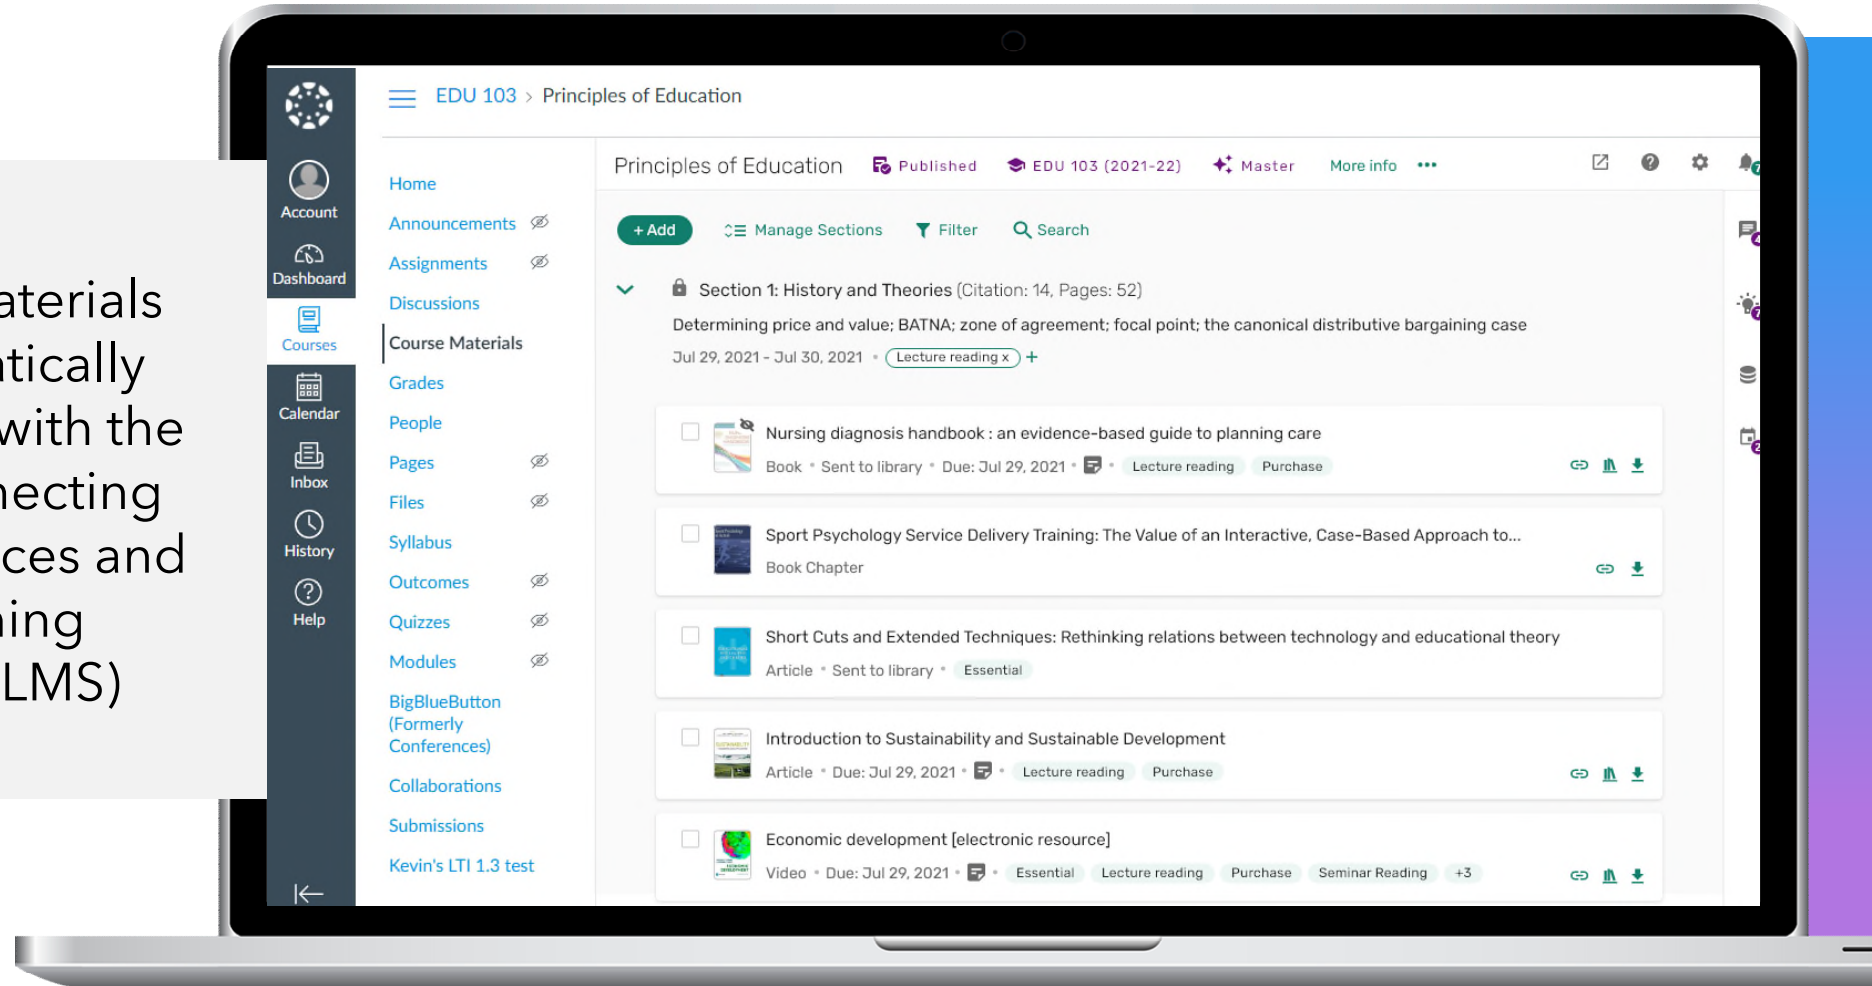

- **Increase the use** of library collections, librarians' expertise, and library services in support of courses

- **Streamline the workflows** to support course materials, leveraging the Alma platform

- Take advantage of **actionable insights** to demonstrate library value

What is Leganto?

Leganto is a course materials solution which automatically links course materials with the library collection, connecting library resources, services and workflows to the Learning Management System (LMS)

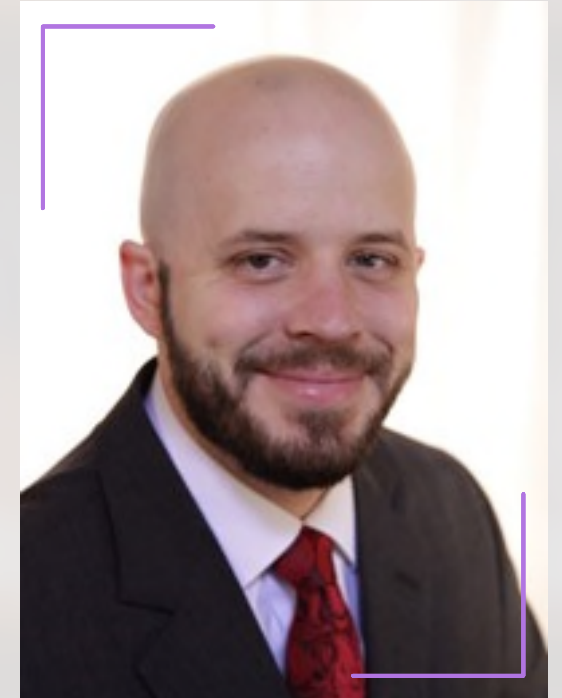

Highlight the Library's Value

People had sort of forgotten about the library in the teaching & learning space. Leganto reminds people that the library does have a role to play, and that we're able to provide access to all course resource needs to support classes.

- Ryan Buller

Access Services Librarian at the University of Denver

Efficiency from Shared Services

*The seamless integration really helps us because we have all of our resources in Primo or Alma. **It's easier to find items, collect them, and add them to reading lists.** That's one of the main efficiencies that Leganto brings to our process in the Library.*

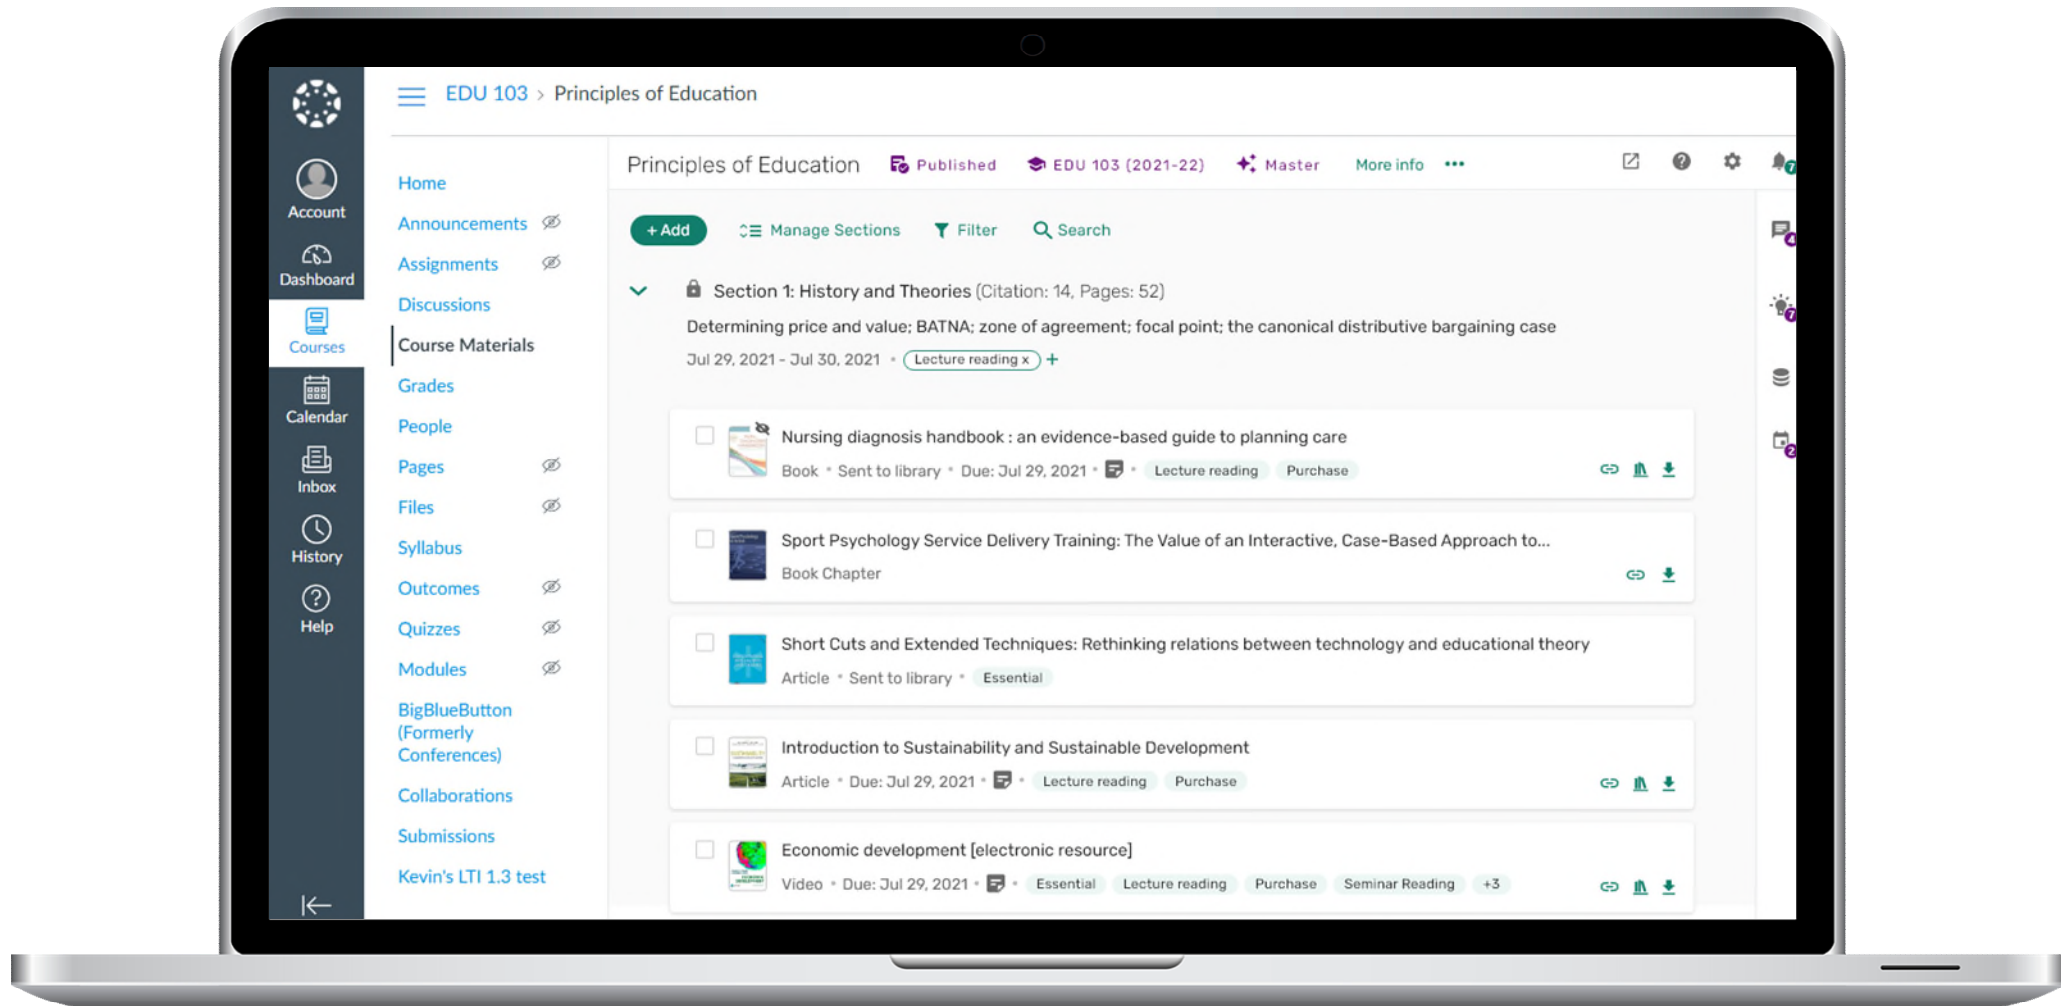

*- **Kriselda Samson**
Manager of Digital Projects and Programs
The University of Sydney*
