Expanded Career Stage Filtering

Advisor Alerts

Enable Career Stage preferences for Advisor Alerts to get the most relevant profile-based recommendations.

Set the career stage filter through the 'My Preferences' Notifications tab -> Alert Preferences.

Deadline Notification Preferences

When I add opps to **Tracked**, send deadline reminder via: ☐ Announcements ☐ My Email 2 weeks before a deadline

Alert Preferences

Advisor Alert: ☒ Enabled

Filter Advisor Alert by Career Stage:
For more relevant recommendations, you may wish to NARROW your results using any of the career stages below. If you select one or more options then only funding opportunities with the selected career stages will be included in your weekly advisor recommendations. If you select no filters, then all career stages are by default included in weekly Advisor Alerts.

- ☐ Early Career and Emerging in Field
- ☐ Graduate Student or Pre-doc
- ☐ Mid-Career to Established in Field
- ☐ Undergraduate Student
- ☐ Not Applicable

Other Options to Modify Your Personal Recommendations:

Keywords:
Recommendations are heavily influenced by the keywords on your profile. You can visit your [Profile](#) page and select 'Edit Profile' to add or modify keywords.

Filters:
On the **Advisor Alert** page you can select filters on the left side to narrow your results to only show opportunities that include the specific filter criteria selected. These filter preferences will automatically be saved and your next weekly advisor alert will then be limited by default with those filters. From the Advisor Alert page, you can always de-select filters to expand your results.

Funding Results

You can also conduct a simple search and narrow down your result set by using the career stage filter in the faceted navigation side-bar.

Advanced Search

For better clarity Career Stage is now a separate filter from applicant type.

Select one or more career stages on the Advanced Search form to include or exclude opportunities that are relevant to researchers by different career stages:

Note: Advanced Searches that now include both Career Stage AND Applicant Type may return much fewer results than expected. A partial workaround is to exclude applicant types not desired.

Ability to Share Admin Ownership

#1 idea | exchange

Among the top requested enhancements in the idea exchange has been the ability for multiple administrators to share the ownership of specific items in Pivot-RP.

Requests for multiple ownership across objects:

Please allow administrators to share permissions with other administrators to add to their already existing curated lists. I work with a team of three and each of us are administrators who would like to not only curate our own lists, but have permissions to let other administrators add to or make changes to these lists when necessary. I understand that others that are "users" can see curated lists with no editing rights, but we really want to be able to have other administrators add to our curated lists so this is a "team effort" in curating the best lists for... Multiple Editing/Management Rights for Internal Grants

Right now, only the person who added an internal grant can delete or edit that opportunity. Anyone else with full administrative rights in Pivot cannot manage the internal grant opportunities added by others. This creates a problem when that person leaves the job that bore the responsibility of adding those internal grants, thus requiring that all those opportunities must be deleted and added to another administrative account. It would be a great help to allow anyone with full administrative rights the ability to manage all internal grants.

Multiple Ownership of Newsletters

The screenshot displays the 'Manage Newsletters' interface. At the top, there's a navigation bar with tabs: Reports, Institutional Settings, Groups, Education & Training, Statistics, Tools, and Manage Gallery. Below this, the 'Manage Newsletters' section includes a 'Create a Newsletter' button and a view toggle for Active, Inactive, Past, and All newsletters. The main content area shows two tables of newsletters. The first table, 'Your Active Newsletters (1)', lists the 'Engineering newsletter' with details on its frequency, schedule, and co-owners. The second table, 'Institution Active Newsletters (2)', lists 'COVID-19 Funding Opportunities (All)' and 'Bioinformatics'. A modal window titled 'Step 6: Add Co-owners (optional)' is open, showing a dropdown menu to select or update admins, with 'Bell, Andrew' and 'Epiphaniou, Nick' as options.

- When creating a newsletter, you can select colleagues who can co-own the newsletter (from a list of all admins with 'manage newsletters' privileges)
- Redesigned manage newsletters page offers visibility to your active newsletters as well as active newsletters for your institution.
- Easily see who owns or co-owns newsletters
- Radio button toggle at the top of the page provides a view of inactive, past and all newsletters

Multiple Ownership of Internal Opportunities

- When you create or edit internal funding opportunities, you can add multiple owners from a drop-down list of admins with 'manage internal funding' privileges.
- The Manage Internal Opportunities page provides visibility to the co-owners of your internal opportunities as well as an overview over the Institutional Internal Opportunities owned by colleagues

2024 Roadmap Preview

2024 Pivot-RP Roadmap Highlights: Goals & Themes

New Features & Enhancements

Key Benefits: **Deliver new features and enhancements, including customer requested improvements and expanded data-driven functionality**

- Customer inspired enhancements including new filter and search features for Admins and end-users
- UI and usability improvements
- Expanded reporting to help measure ROI and track usage

Clarivate & Partner Integrations

Key Benefits: **Improve collaborator discovery, analytics and deliver unique additional value by leveraging integrations with other services**

- Integrations with Web of Science, InCites Benchmarking & Analytics and Esploro to improve profile data, recommendations and proposal success rates
- New customer-facing funding API
- Evolving integrations with Cayuse, InfoReady and other tools

Data & Operational Excellence

Key Benefits: **Expanded funding and grant content; Deliver operational efficiencies to improve system performance, security, data accuracy and quality, user accounts**

- Expanded funding and more frequent awarded grant content
- New SSO login/user account control options - Bulk account creation and deletion
- SSO migration project

Research Professional News

Key Benefits: **Expanded integration of funding policy news, funder and funding agency insights, and special reports with free and premium Pivot-RP integrations**

- Streamlined access options and user workflows for Pivot-RP and direct login
- Redesigned email News alerts with customizable topic selection
- Free webinars with funding sector leaders and global policy makers

Customer-facing Enhancements

Select Roadmap Highlights

- **Redesigned public groups pages:** More dynamic and customizable groups pages to make it easier for admins to share content and engage with members
- **Save or share department level advisor alert/recommendations:** Admins and end-users can link to, save and share the department level advisor alerts linked to profiles to leverage department level funding recommendations
- **Add the ability for individuals to limit the visibility of their profile:** Allows individuals to make their profile invisible to anyone but themselves
- **New Filter and search options for types of 'anticipated' states & 'new rounds added':** Ability to filter calls by different types of anticipated states, like 'coming soon' vs 'anticipated' (expected to come back) vs 'anticipated' (not sure it is coming back); Ability to filter and search only calls with recently received new deadline
- **New customer facing funding API:** Enables customers to extract opportunities data for further integration within their own systems
- **Provide statistics for Newsletters:** Allow admins to see how many people have interacted with newsletters
- **Add more selective admin rights around institutionally tracked opportunities:** Only allow certain admins to be able to see who is tracking an opportunity or to add tracked opps to a user's tracked opps folder
- **Make 'sort by funder' functionality multifaceted:** When sorting by funder display opportunities by funder as well as by deadline soonest
- **Internal deadline visibility within calendars:** Make internal deadlines for individual opportunities visible to end-users in calendars
- **Allow institutions to enable authentication solely via SSO:** Ability to turn off email/password option for login to meet institutional security requirements and ensure only current users can access the service

Select Roadmap Highlights

Customer-facing Enhancements - continued

- **Add ability to view usage reports by departments:** View or sort reports broken down by departments for users with profiles
- **Enable keyword search expansion for 'parent' and 'grandparent' terms:** Make it possible for user to broaden searches up the keyword tree in addition to 'explode'/include terms down the keyword tree
- **Add an administrative page for users to tune their Advisor alert:** Add clearer options for administer and tune one's own advisor alert to improve funding recommendations
- **Add an identifier for prestige prizes and 'honorifics':** Ability to filter and highlight "honorifics" in Pivot-RP similar to handling of 'internal opps' or 'limited' submissions pills

- **Add an identifier for prestigious prizes and 'honorifics':** Ability to filter and highlight "honorifics" in Pivot-RP similar to handling of 'internal opps' or 'limited submission' pills

- Editors will tag certain prizes and awards as prestigious (based on pre-defined, curated list)
- May include more 'honorifics' which would include opportunities that don't have monetary awards
- Might include more awards requiring nominations vs. applications
- Will "crowdsource" the list of prestigious awards from customer community and share/update quarterly
- List will not be comprehensive as there will be differences of opinion on the definition of 'prestigious'

Single Sign On (SSO) Migration Project

Change Required in 2024 - What you need to know?

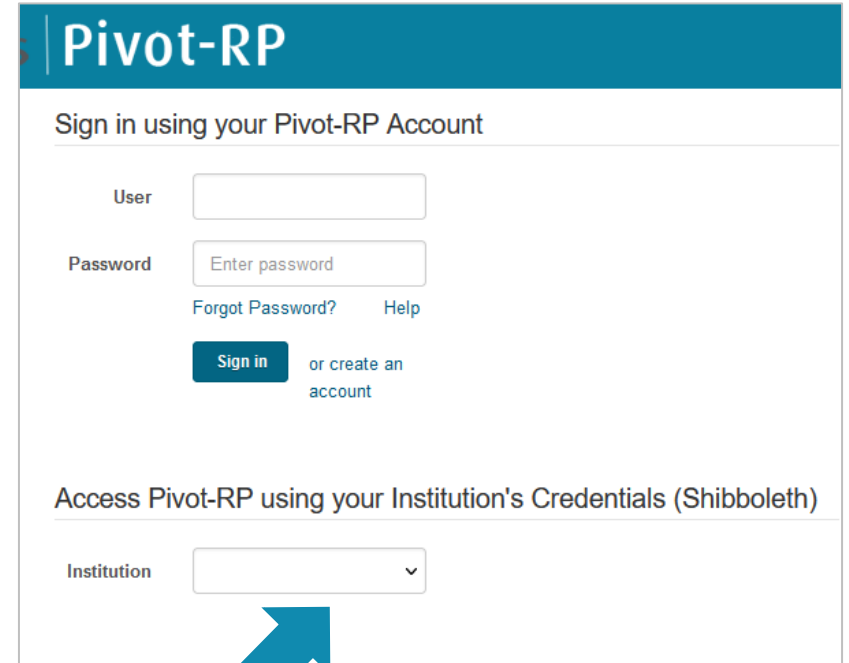

In 2023, the Pivot-RP team launched a new Clarivate SSO service to be able to allow customers to use their Institutional login.

All customers who were configured for SSO/Institutional Login prior to April 2023 will be migrated over from our previous SSO service to the new SSO service through the first half of 2024.

This work will be completed by our development team who will work with cohorts of 5-10 customer sites at a time. **Most customer will not need to do anything other than to ask their IT team to make a minor configuration change once our team completes their work.**

For those customers impacted, you will receive direct communications via email from our team with any instructions or requests for information. Please be on the lookout for any information we might send related to SSO to ensure that you don't experience any disruptions to your ability to use Institutional login.

If you would like to volunteer your institution to be among our first cohorts of customers to be migrated, please contact our Support team. This would be a great help to make sure we can space out the work needed to smoothly transition all customers.

Training and Videos

<https://knowledge.exlibrisgroup.com/Pivot/Training>

All new recorded training webinars and slides.

Great for onboarding new Admins or researchers.

Training

All the training videos below are newly designed.

Getting Started with Pivot-RP

Basic information that researchers and staff need to start using Pivot-RP, including setting up your account, claiming and updating your profile, and searching for funding opportunities.

Working with Pivot-RP Funding Opportunities

These training sessions will show the primary Pivot-RP workflows, including using basic and advanced search; navigating funding results; and tracking, saving, sharing, and managing funding opportunities.

Working with Pivot-RP Profiles

Use Pivot-RP to find researchers with whom you can collaborate; and update your own Pivot-RP Profile so you can get relevant funding matches targeted to you.

Sharing Content with Pivot-RP Groups

Create and manage user groups in Pivot-RP, which can be used to share funding opportunities and more with users with similar interests.

Searching Awarded Grants and Conferences

Find out who has already received various funding. Find opportunities to present your work at conferences and in journals.

Pivot-RP Admin Essentials

Pivot-RP administrators will learn how to customize, configure, and manage Pivot-RP for their institution.

Recorded Training Webinars and Slides

These training webinar recordings demonstrate and explain how to use Pivot-RP. Three of the videos are aimed at regular users, such as researchers looking for funding opportunities. Two of the videos are aimed at the Pivot-RP administrators facilitating the use of Pivot-RP at their institution.
