

# Leganto Roadmap

2024-25

Jessie Ransom, Senior Manager, Product Management  
December 6, 2023

# View it yourself

The screenshot displays the ExLibris Knowledge Center website. At the top left is the ExLibris logo with the tagline "Knowledge Center" and "Part of Clarivate". To the right are three buttons: "More Sites", "System Status", and "Submit a Case". Below the header is a navigation bar with a "Back" button and a "Leganto" button. A breadcrumb trail reads: Home » Leganto » Product Materials » Product Roadmap » Leganto 2024 - 25 Roadmap Highlights. The main heading is "Leganto 2024 - 25 Roadmap Highlights". To the right of the heading are icons for RSS, email, print, and share, and a navigation link: "Product Roadmap | Campus Engagement". The "Overview" section contains two paragraphs of text. Below the text are four circular icons representing roadmap categories: "Simplified Onboarding" (document with thumbs up), "Library Efficiency" (person with gear), "End-User Experience" (person with building and people), and "Analytics" (pie chart with magnifying glass).

## Leganto 2024 - 25 Roadmap Highlights

Product Roadmap | Campus Engagement

### Overview

The Leganto roadmap is a means to communicate the key priorities and developments with the Leganto community. Our roadmap is organized into our 2024-25 roadmap categories of Simplified Onboarding, Library Efficiency, End-User Experience, and Analytics. Our roadmap places a focus on customer satisfaction and customer value and is based on feedback received from the Leganto community.

The Leganto roadmap gives a view of the development that can be expected. As priorities are developed by the community and information becomes available from the community voting, the roadmap will be updated to reflect updated development plans.

Simplified Onboarding Library Efficiency End-User Experience Analytics

# Leganto Focus Areas

**Simplified onboarding** - Easy list creation workflows

---

**Library efficiency** - Make time for the work that matters

---

**End-user experience** - Give the best service to your patrons

---

**Analytics** - Enable data-driven decisions, demonstrate impact

# Simplified onboarding

Easy list creation workflows

## A note about the new UI...

The image shows a comparison between two library search interfaces. The top interface is the 'old' one, and the bottom one is the 'new' one. A grey box labeled 'Previously...' connects the two.

**Old Interface (Top):**

- Title: Search the library
- Search dropdown: Search everything
- Search input: Search for print, digital, audio and visual resources
- Advanced search link
- Checkbox:  Include records without full-text access

**New Interface (Bottom):**

- Title: Search Library Resources
- Search in dropdown: Search everything
- Enter search criteria: Enter title, author, and keyword (etc.)
- Search button: [Magnifying Glass]
- Checkbox:  Include records without full-text access
- Advanced Search link

"This is easier to navigate..."

It seems like the search is a lot easier. I think the older search got a little bit cumbersome at times. It would take me a second to figure out where I needed to go. This seems like it's a little more intuitive, a little more clean, a little simpler to navigate through."

-an instructor

## Resources to help you switch to the new UI

- This [quick video](#) shows how to get started testing the new UI
- We also have a [Frequently Asked Questions](#) page to review
- There is a [Known Issues](#) page, which you can use to check the status of pending developments
- Via our [Webinars](#) page you can see the recordings from past presentations about the new UI
- There is a training kit, [Managing Lists](#), which teaches users how to use Leganto
- There is written documentation for [Managing Lists in Leganto](#) and the [Leganto Student View](#). We also updated our existing documentation to indicate configurations or features that only available in either the new or classic UI.

Plan your  
switch date  
now...

All institutions must switch to  
the new UI by January 2025

# Create item from DOI, ISBN, ISSN

H1 2024

What's New	Highlights	Impact
Create new items using only a single metadata fie, rather than having to fill in a form or search for an item	Add items to Leganto lists by entering only DOI, ISBN or ISSN  Additional metadata fields will be filled in automatically	Leganto users will only need to enter a single piece of metadata to create a citation, saving users time in adding items to the list

The screenshot displays a user interface for managing a list of items. On the left, a sidebar shows a list of items under the heading "Principles of Education". The first item is "Section 1: History and Th...", with a sub-entry "Determining price and value; Jul 29, 2021 - Jul 30, 2021". Below it is "Nursing diagnosis Book • Sent to libr...". The main area is titled "Add using DOI, ISBN or ISSN" and contains a dropdown menu labeled "Identifier type". A "Next" button is visible at the bottom right of the modal. A callout box labeled "Early mockup" points to the modal.

# Integration with EndNote

H1 2024

## What's New

Integrate Leganto with EndNote via API

## Highlights

Pull resources into Leganto directly from EndNote

## Impact

Save users time in working across two systems by making it easier to utilize citations they have already saved

The screenshot displays the ExLibris Leganto interface. On the left, a sidebar contains 'Lists' and 'Favorites' sections. The main content area shows a list of resources under the heading 'Introduction to Philosophy'. One resource is expanded: 'Intro: What is Philosophy (1)', which includes a book chapter 'Introduction: Show me the Arguments' and a video 'What is Philosophy?: Crash Course Philosophy #'. An 'Import references from EndNote (13)' dialog box is open on the right, showing a list of references imported from EndNote. The dialog includes options to 'Add to' (List, Suggestions, Favorites) and a dropdown for 'Section'. A grey box with the text 'Early mockup' is overlaid on the dialog.

# Import reading list from syllabus (proof of concept)

H1 2024

What's New	Highlights	Impact
<p>Begin testing a prototype which enables a user to upload an existing file containing citations, such as a course syllabus, to create a reading list</p>	<p>Upload a file that contains citations alongside other information about the course</p> <p>Leganto will identify citations within the file and create a reading list that contains those citations</p>	<p>Save time for users who create reading lists from an existing file, such as a course syllabus</p>

# Syllabus upload (proof of concept)

## Course Name

### Course 1234

Time: 1:30-4:15pm, Monday

Location: Building 4

Instructor: Professor Professor

Office: 555 South Street

Office Hours: 9:00-10:30am, Tu

Phone: (123) 456-7890 (offic

Email: [email@email.com](mailto:email@email.com)

# Added flexibility when searching library collections

H2 2024

What's New	Highlights	Impact
<p>Add additional searching and filtering options to the discovery search in Leganto</p>	<ul style="list-style-type: none"> <li>Additional material type facets</li> <li>Filter by publication date</li> <li>Select multiple facets</li> <li>Contains, starts with, and exact phrase searches</li> </ul>	<p>Provides users, especially advanced users, with advanced searching options required to locate and add the correct resources from within Leganto</p>

# Reuse existing lists and resources

H2 2024

## What's New

Make it easier for list creators to reuse their existing lists and resources

## Highlights

While working on a list, import resources from another list  
Easily import items from Sample lists

## Impact

Save users time by making it easier to re-use work that either they or others within the institution have already done

The screenshot displays the ExLibris Leganto interface. On the left, a sidebar shows 'Lists' and 'Favorites'. The main content area shows a list titled 'Introduction to Philosophy' with sections like 'Introductory Readings' and 'Week 1: Knowledge and Certainty'. A modal window titled 'Philosophy and Human Nature' is open, showing a list of resources with checkboxes and 'View online' links. A grey box with the text 'Early mockup' is overlaid on the right side of the modal window.

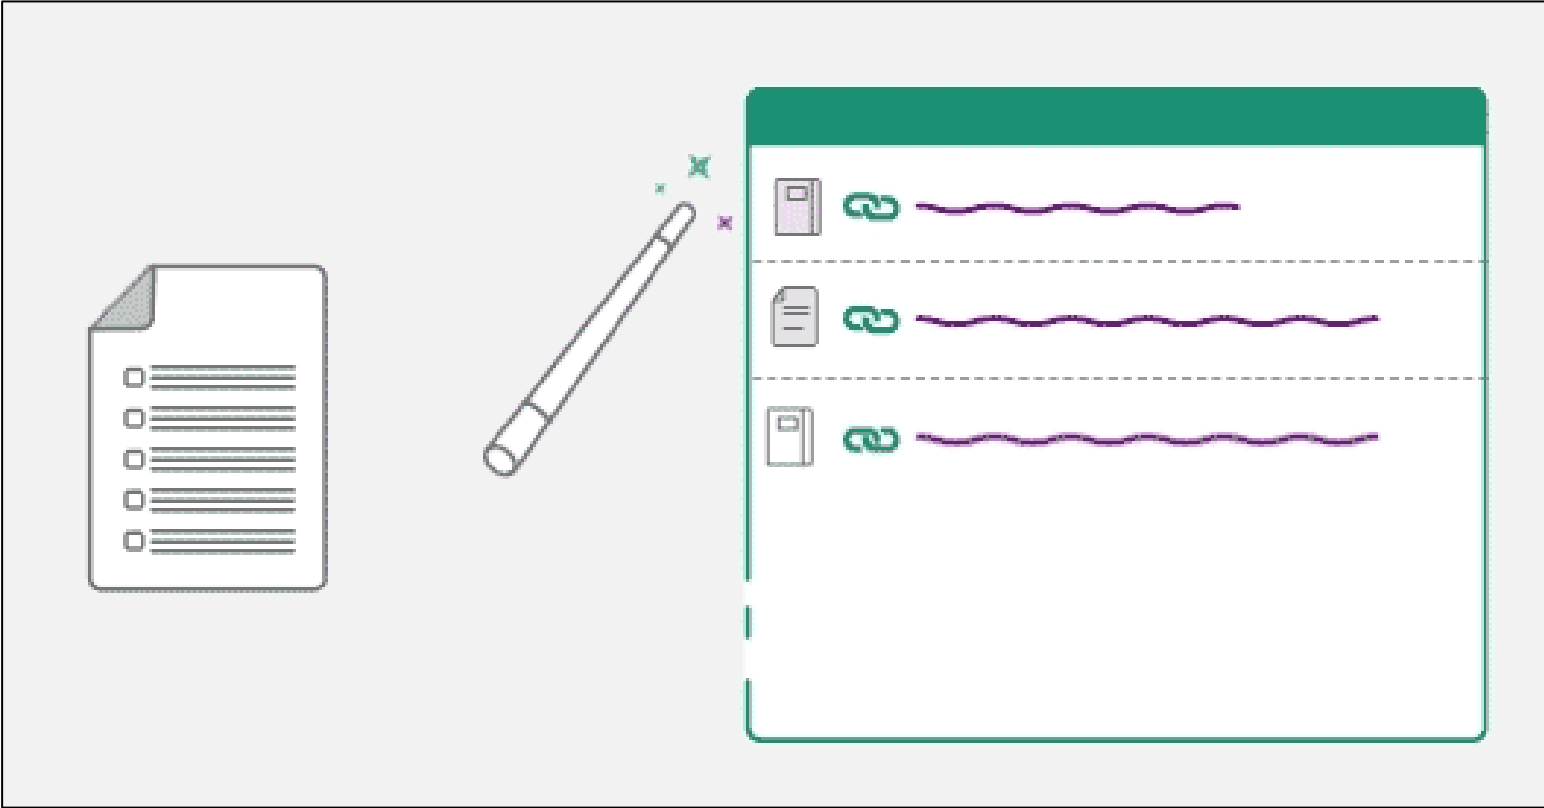

# Import reading list citations in bulk

H2 2024

What's New	Highlights	Impact
<p>Provide a means to upload an existing file containing multiple citations to create a reading list</p>	<p>Leganto will identify individual citations within the file and create a reading list that contains those citations</p> <p>Exact solution will be determined according to the results of the import reading list from syllabus (proof of concept) scheduled for H1 2024.</p>	<p>Save time for users who create reading lists from an existing list of references, such as a course syllabus</p>

# 2025: To be determined

Long-term roadmap will be determined according to the results of the syllabus import proof of concept

# Library efficiency

Make time for the work that matters

# Block instructors from creating lists

H1 2024

What's New	Highlights	Impact
Flexibility to control whether instructors can create new lists in the Leganto UI	Configuration option to block instructors from creating their own lists	Give libraries more control over how reading lists are created, and ensure library staff does not need to spend extra time cleaning up duplicate lists created by mistake

The screenshot displays the 'Lists' page in the ExLibris Leganto system. On the left, there is a navigation sidebar with 'ExLibris Leganto' branding, a 'Lists' tab (indicated by a hamburger menu icon), and a 'Favorites' tab (indicated by a star icon). The main content area is titled 'Lists' and features a search bar with the placeholder text 'Search by list title, course title, course code, course instructors, etc.' and a search icon. Below the search bar are 'Sort' and 'Filter' options, along with 'Reset search' and 'Advanced search' links. The 'My lists (31)' section shows two list items:

- Clinical Wellness**: Published, Updated a few seconds ago, 14 items in 1 sections.
- What is Modern Art? Defining and Exploring Modern Art**: Published, 83608 (2021), Updated a minute ago, 61 items in 8 sections. Description: "What is Modern Art? Not to be confused with contemporary art, the "modern art" label refers to late 19th and early-to-mid 20th century art. Works produced during this time showcase artists' interest in re-imagining, reinterpreting, and even rejecting traditional aesthetic values of preceding styles."

# Streamlined set creation

H1 2024

## What's New

An easier process for making sets of course-related records in Alma

## Highlights

Save a set of courses, reading lists, and items directly from the Alma search results

## Impact

Make it easier for libraries to leverage the bulk jobs for courses, reading lists, and items

Early mockup

# Automatic citation statuses

H1 2024

What's New	Highlights	Impact
Additional options to automatically set citation statuses under certain conditions	Automatic status for citations based on digitization requests  Automatic status for citations with a copyright request	Give libraries more options to automate their processing workflows, and to identify citations requiring library review

# DCS integration improvements

H1 2024

What's New	Highlights	Impact
Improvements to workflows between Leganto and the UK CLA Digital Content Store	Change the course code when there are DCS items Associate a citation to multiple requests in the DCS	Give libraries more control over managing citations and reading lists which have approved copyrights, making the DCS integration more valuable

# Expanded notifications

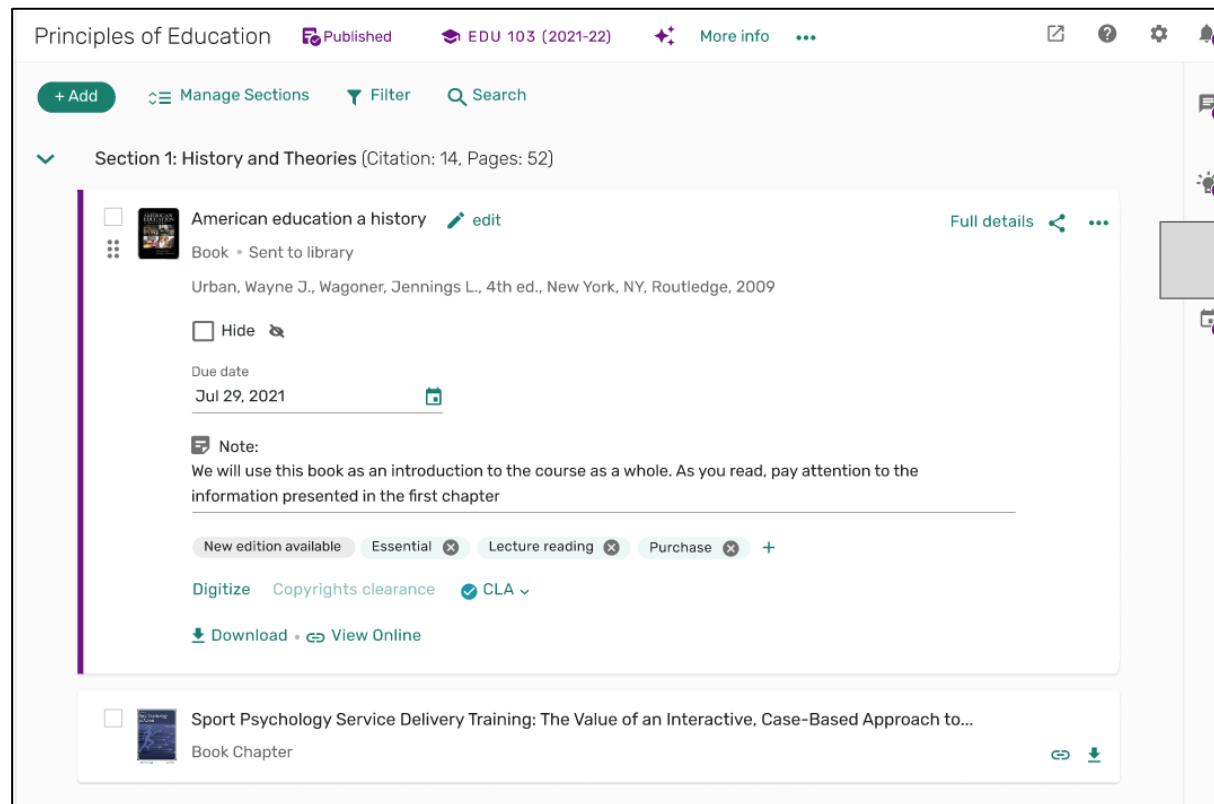

H2 2024

What's New	Highlights	Impact
<p>Provide more extensive notifications on reading list activity</p>	<p>Provide more details about reading list activity in the letter sent to instructors, such as the text of notes, the tags added, and more</p> <p>Notification for lists marked as complete</p> <p>Email notifications to library staff about changes to reading lists</p> <p>Combine list and item discussion into a single notification area in Leganto</p>	<p>Make it easier for library staff and instructors to understand the changes that have happened to reading lists and respond quickly when needed</p>

# Librarian workflows in the Leganto UI

H2 2024

What's New	Highlights	Impact
Features to support more advanced list editing and processing in the Leganto UI	One-click metadata editing Set citation status in bulk in Leganto View broken link alerts in Leganto	Give library staff the flexibility to work in the Leganto interface for some list processing workflows, saving staff from having to switch between Leganto and Alma

Early mockup

# Bolk integration improvements

H2 2024

What's New	Highlights	Impact
Improvements to workflows between Leganto and the Bolk service used in Norway	Enhancements will be determined in partnership with customers	Give library staff and instructors more flexibility when managing copyrighted files with Bolk

# Enhanced user experience for Alma course reserves

H1 2025

## What's New

The course reserves task lists will be updated to use the [Alma New Layout](#). They will be redesigned for better usability, performance, productivity, and overall user experience

## Highlights

More options for editing and processing citations from within the Alma screens

The project will begin in early 2025

## Impact

Provide library staff with easier workflows for managing course materials in Alma

The screenshot displays the Alma interface for managing borrowing requests. On the left is a navigation sidebar with options like 'Alma Production', 'Market', 'Acquisitions', 'Resources', 'Discovery', 'Fulfillment', 'Admin', 'Analytics', 'FEEDBACK', 'Show MDE', and 'Configuration'. The main area shows a list of 'Borrowing Requests (1 - 13 of 13)'. Three requests are visible, each with a checkbox, a thumbnail, a description, and request details. The first request is selected, and its details are shown in a 'Sections' panel on the right. A callout box points to the 'Request form' section of the details panel, which contains fields for email, article title, author, publication date, volume, issue, from page, and to page.

# Expanded bulk actions

H1 2024

What's New	Highlights	Impact
Additional means for managing resources in bulk	One-click deselect option Bulk actions on sections Favorites: bulk actions for private tag and private notes	Save time in creating and managing resource lists by managing resources in bulk

The screenshot displays a user interface for managing sections. At the top, a toolbar contains several actions: 'Delete section' (with a trash icon), 'Section Tags' (with a tag icon), 'Section Dates' (with a calendar icon), and 'Lock Section' (with a lock icon). Below the toolbar, a list of sections is shown. The first section, 'Section 1: History and Theories (Citation: 14, Pages: 52)', is selected and highlighted in light green. A 'More actions' menu is open over this section, showing options for 'Copy', 'Export', and 'Print'. The selected section's details include the text 'Determining price and value; BATNA; zone of agreement; focal point; the canonical distrib' and the dates 'Jul 29, 2021 - Jul 30, 2021'. A tag 'Lecture reading x' is also visible. Below the selected section are two other sections, 'Section 2: History and Theories' and 'Section 3: History and Theories', both with citation and page counts. A grey box in the bottom right corner of the screenshot contains the text 'Early mockup'.

# Improvements to the new user experience

H2 2024

What's New	Highlights	Impact
Incorporate changes as a result of customer feedback and feedback from usability studies with instructors	Improvements will be according to ongoing feedback	Provide students and list creators with an intuitive, easy-to-use platform for building, managing, and accessing resource lists

# Accessibility of resources

H2 2024

What's New	Highlights	Impact
Convert PDFs uploaded to Leganto to a format which can be read by a screen reader	Support OCR for files uploaded to citations	Ensure students are able to read content uploaded to Leganto lists via a screen reader

# Enhancements to suggestions

H2 2024

What's New	Highlights	Impact
Expand the suggestions functionality to make it easier for students to suggest resources and easier for instructors to use suggestions	<p>Students will be able to add suggestions for new reading list content directly from the suggestions pane</p> <p>Users will be able to access the suggested content without adding it to the list</p>	Encourage student engagement beyond the resources already available on the resource list

The screenshot shows a library interface for a resource titled "Principles of Education". On the left, there are navigation options like "Collapse Sections" and "Filter". The main content area shows a section titled "Section 1: History and Theory" with a sub-section "Lecture reading". Below this, there are two items: "Nursing diagnosis" by Ackley, B. J. ; L., and "Sport Psychology" by Tashman, L. S., & T. On the right, there is a "Suggest" button and a "Suggestions (7)" list. The suggestions list includes two entries for "Introduction to 'An Empirical Assessment of the Contract Based Exception to the Employment-At-Will-Rule'" by Devinatz, Victor, and one for "Employment discrimination laws: a country level analysis of voice and accountability" by Chen, Hong; Flores, Gabriela; Singh, Satvir; Posthuma, Richard. A grey box with the text "Early mockup" is overlaid on the suggestions list.

# Additional inventory options

H2 2024

What's New	Highlights	Impact
Integrate with additional inventory options for Leganto citations	Integrate with Unpaywall Integrate with BrowZine HTML links	Provide students with quick access to course materials via additional inventory options

# Student workspace in Leganto

H1 2025

What's New	Highlights	Impact
A means for students to manage, engage with, and share resources	Mark items to read and organize activities Make students collaborators on specific lists Provide exploration paths for further reading	Provide students with expanded opportunities for engagement and more ownership over resources

# Analytics

Enable data-driven decisions, demonstrate impact

# Leganto usage dashboard

H1 2024

## What's New

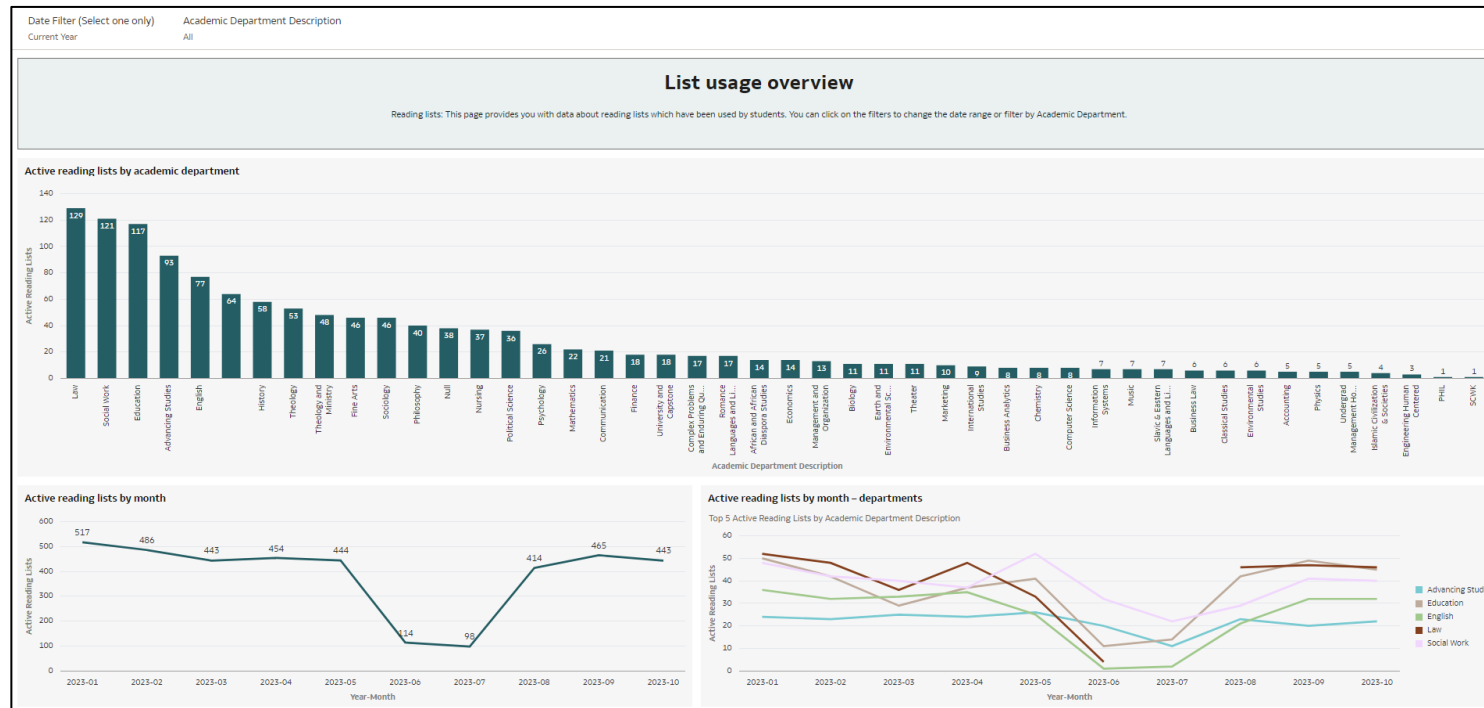

Finish the Leganto Usage data visualization dashboard introduced in 2023

## Highlights

- List usage overview
- Detailed list usage
- Citation usage
- Year over year summary

## Impact

Libraries will be able to easily report on the usage of Leganto lists and citations, with options to drill down to specific date ranges and academic departments

# Library workflow reports

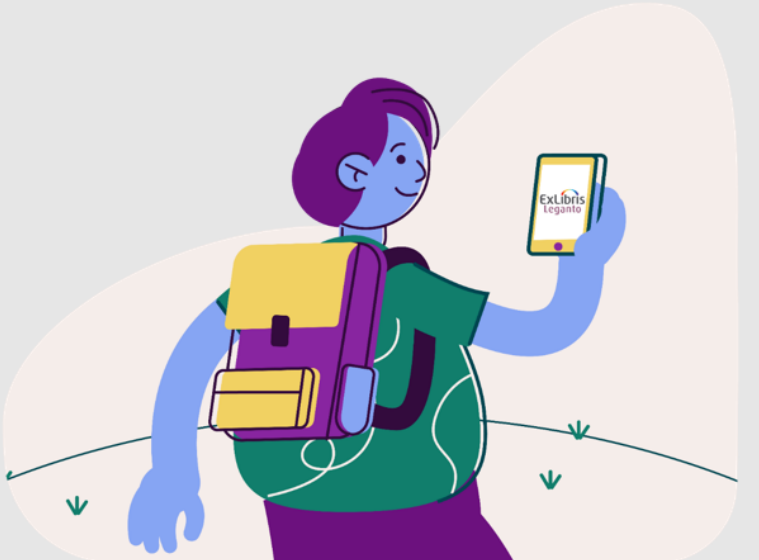

H1 2024

What's New	Highlights	Impact
Out of the box reports to enable libraries to measure and report on processing workflows	Additional measurements to track citation status changes  Out of the box reports to measure library processing workflows	Once libraries can measure the turnaround time for processing reading lists and citations, they will be able to identify staffing requirements and provide more accurate estimates to instructors

# Learning affordability reports

H2 2024

What's New	Highlights	Impact
Out of the box reports to measure the library's impact on learning affordability	Out of the box student savings reports Additional options for updating sticker prices in bulk Expanded fields for tracking student savings	Provide libraries with expanded tools to quickly and easily report on the financial impact that the library collection and library services has on students in their courses.

**Alma University  
Library**

has saved students a potential

**\$740,025**

in course materials costs in 2023

# User engagement reports

H2 2024

## What's New

Integrate with Mixpanel for analytics about user activity in the Leganto interface

## Highlights

Out of the box reports to track user activity and user journeys in Leganto

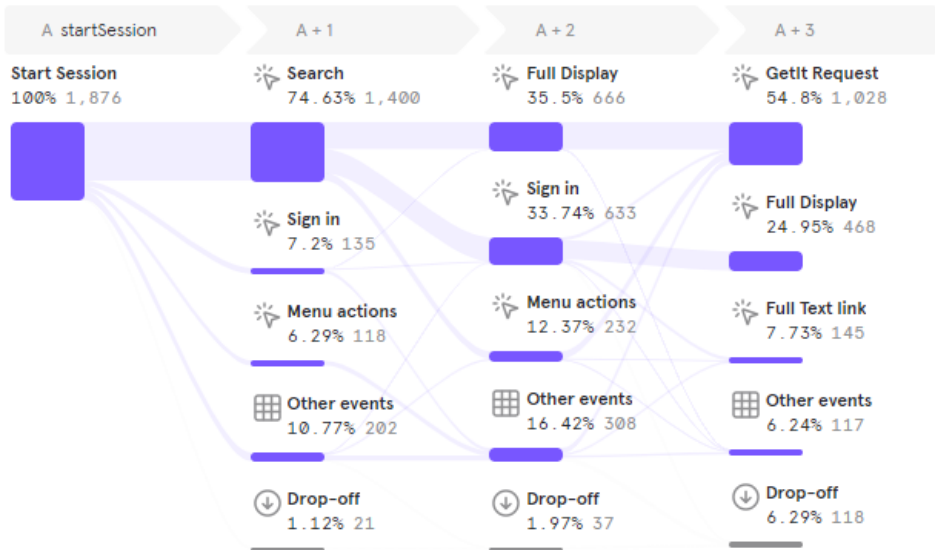

Reports will include distinctions between student users and instructors users

## Impact

Provide libraries with a better understanding how students and instructors use Leganto. Provide a means to measure the user experience, track the user journey, and identify features to promote or disable in Leganto.

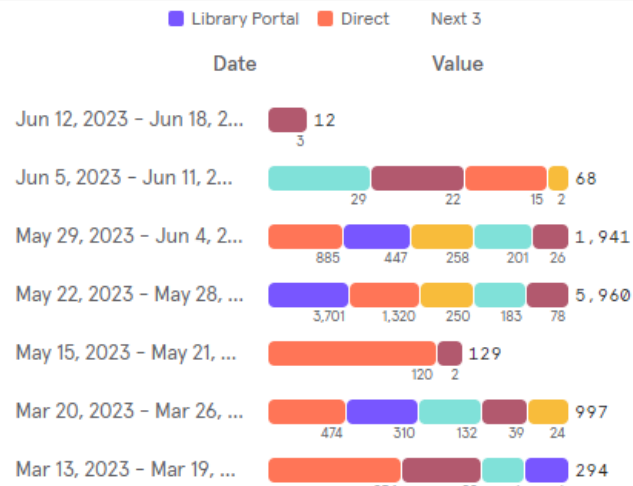

### User Journey

4-step Flow · Last 12 months

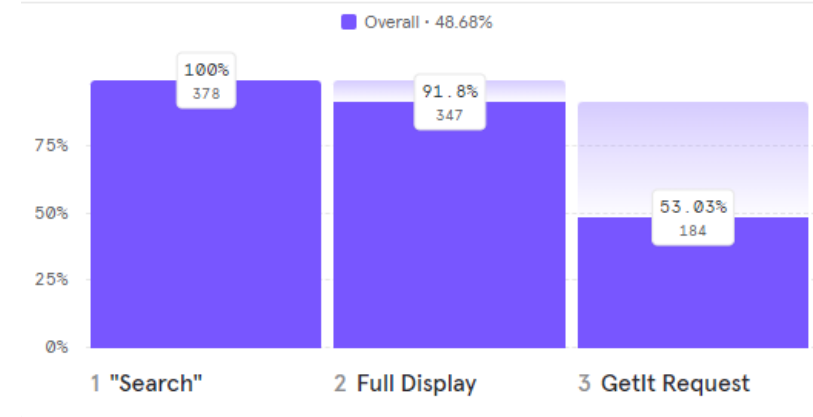

### Traffic Analysis

Total, last 6 months · Identify where the users come from to your l...

### Funnel From Search to Request

3-step Funnel · Last 12 Months

**mixpanel**

# Advanced analytics for instructors

H1 2025

What's New	Highlights	Impact
An expanded usage dashboard for instructors	Identify trends in citation usage Flexible configurations for libraries	Provide instructors with more detailed usage information to make it easier to understand student engagement, identify usage trends, and improve reading lists over time.

# General

Ongoing work to ensure Leganto continues to meet your needs

# Accessibility Update

- Ongoing accessibility improvements
- VPAT 2.4 (2021) is available on Knowledge Center and describes the Leganto support of WCAG 2.1
- A VPAT will be published for the new UI in Q1 2024

[https://knowledge.exlibrisgroup.com/Leganto/Product\\_Materials/Product\\_Accessibility](https://knowledge.exlibrisgroup.com/Leganto/Product_Materials/Product_Accessibility)

The screenshot shows the ExLibris Knowledge Center website. The header includes the ExLibris logo (Part of Clarivate) and navigation buttons for 'More Sites', 'System Status', and 'Submit a Case'. A search bar is present with the text 'Search under current path' and a magnifying glass icon. The breadcrumb trail reads: Home » Leganto » Product Materials » Product Accessibility. The main heading is 'Product Accessibility'. Below the heading, there is a link to the Leganto Accessibility Statement. The text explains that accessibility and inclusion are important to Ex Libris and that the software is accessible to all users through various channels. It also mentions that Leganto undergoes annual auditing by an external consulting company, most recently Deque Systems, and that accessibility feedback is received from customers via support tickets. A link is provided to view the most recent audit report conducted by Deque Systems, based on VPAT version 2.4. The page concludes with a note that FAQs are reviewed and updated annually following the annual accessibility audit.

## Product Accessibility

Click [here](#) to view the Leganto Accessibility Statement.

Accessibility and inclusion are important to Ex Libris and a key part of our ongoing commitment to the customer community. To ensure that our software is accessible to all our users, we work through various channels – programming and testing techniques, collaboration with customers, and external auditing.

Throughout the development process, we roll out new features with accessibility being part of the design. Leganto undergoes annual auditing by an external consulting company, most recently Deque Systems, and our accessibility roadmap addresses their rejects and recommendations. Additionally, we receive accessibility feedback from customers via support tickets. Reported issues are handled on an ongoing basis and prioritized based on the severity and the functionality impacted. Leganto monthly releases regularly include development in support of accessibility.

Please review the report of the most recent [audit](#) conducted by Deque Systems, based on VPAT version 2.4. This audit report refers to the July 2021 Leganto release. While we develop new features in accordance with accessibility standards, as outlined above, the audit report does not cover developments added after this date.

The FAQs below are reviewed and updated once a year, following the annual accessibility audit. If you have any questions or concerns, please contact us via a support ticket (for current customers) or the feedback button at the bottom of this page.

## Frequently Asked Questions

# NERS

● Leganto developments will be determined by the community in the NERS enhancement process

● Submit your ideas now for 2024

Dates	Actions
Jan 29 2024	Last chance to submit new enhancement requests for this year's voting in NERS
Jan 30 - Mar 23 2024	The WG reviews, dedupes, scopes, verifies, transfers to other NERS when necessary, and sets up the vote
Mar 27 - April 10 2024	First round of voting
April 11-12 2024	The Enhancements Team reviews the results, and prepares them for Ex Libris to assign complexity points.
April 13- June 11 2024	Ex Libris adds complexity points to the top voted results. The Enhancements Team determines if a second round of voting is needed
June 12 - 26 2024	If necessary, a second round of voting takes place
