

Content Operations

Dear colleagues,

I am happy to share exciting news about the changes in the new content requests workflow.

As previously announced on the Ex Libris product mailing lists, starting June 1st all requests for new collections, authority vocabularies, enrichment and other content gaps should be posted in Idea Exchange for both new and existing providers.

You can find more information in the detailed knowledge article

Alma + CDI

https://knowledge.exlibrisgroup.com/Alma/Knowledge_Articles/How_can_I_request_new_collections_for_Discovery_Indexes_KnowledgeBases_and_the_Alma_Community_Zone

SFX

I would like to thank the Content Working Group members for partnering with the Content Operations Team to improve the workflow, making it more transparent and speedy.

Please join the webinar on this change:
