

## Content Operations

Dear colleagues,

Goodbye 2022, welcome 2023!

As we begin the new year, I would like to thank anyone who participated the Q4 content webinar:

Please join me as we look back at 2022 and what to look forward to in 2023 at the “Content Quarterly Webinar: Reviewing 2022 Highlights and a Preview of 2023 Focus Areas”

APAC (Singapore) 2pm, EMEA (Helsinki) 8am, [Registration](#)  
EMEA (London) 4pm, AMERICAS (Chicago) 10am, [Registration](#)

The rollout of **management level indicators** in Alma has been complete.

Now community members can edit, delete and add new items to the collections tagged “managed by community”.

Other types of collections are contributed, pending deletion, not maintained and managed by Ex Libris (the majority of the CZ collections).

Please refer to the [knowledge article](#) to find out what are the differences, what can be done for the different types of collections and how to “report to Ex Libris” now that the button has been removed from some of the collection types.

We would like to extend our appreciation and gratitude to the customers working so hard to [contribute collections](#).

Your efforts are greatly appreciated!

If you have any comments or feedback on this newsletter, please feel free to reach out to me directly.

Best,  
Tamar
