Yoel Kortick

May 2024

## Agenda

- Introduction
- The new All Titles search
- The new All Titles search sections
- The Linked Data Info Card

# Introduction

# Introduction

- The new Linked Data Info Card allows institutions to view Linked Data related to headings of a bibliographic record from within the results of an All Titles search.
- Because the new Linked Data Info Card is an integral part of the new All Titles search, we will include here in this presentation an investigation and demonstration of both the new All Titles search as well as the new Linked Data Info Card.
- While our main focus is the new Linked Data Info Card, we will see it not “within a vacuum”, but rather as a key part of the new All Titles search.
- If you are interested in only the new Linked Data Info Card the you can skip directly to that section.

# Introduction

- The new All Titles staff search (which includes the Linked Data Info Card) will be released
  - In May 2024 as a “sneak preview” for the UX focus group
  - In August 2024 for “early access” (opt in)
  - In November 2024 for GA (General Availability)
- For more roadmap-related information regarding the new Linked Data info card see [Linked Open Data - Info Cards in all Titles Staff Search](#) .
- For more roadmap-related information regarding the All Titles search see [All Titles Staff Search - Early Access to Enhanced UX](#) .
