### Agenda

- Introduction
- An example before configuring the Online Services Order
- Configuring the Online Services Order
- An example after configuring the Online Services Order

# Introduction

#### Introduction

- In addition to this presentation, you may wish to also see the Ex Libris Developers Network blog <u>How to use the Online Services Order to to control</u> <u>the order of the services on the Services Page in Primo after clicking Available</u> <u>Online</u>.
- In this presentation we will show how the institution can use the Online Services Order to control the order of the services on the Services Page in Primo after clicking "Available Online".

#### Introduction

- This can be useful if the institution wants to put certain Electronic Collections on top of the list to "promote" them.
- It is also useful when using "Direct Linking" which links to the first service, because the Online Services Order can determine what will be the first Electronic Collection. See for example <u>How to use Direct Linking to enable a</u> <u>Primo user to skip the Services Page and link directly to a full text service</u>.

- If we perform a search in Primo for electronic resource "Journal of education for library and information science" and click "Available Online" we see the following electronic collections as links to the resource:
  - EBSCOhost Library Literature & Information Science Full Text
  - Education Database
  - Gale Cengage Computer Database
  - Gale Cengage Educator's Reference Complete
  - Gale Cengage Information Science & Library Issues Collection
  - JSTOR Archive Complimentary Collection
  - ProQuest Central

• Search for the Journal and click "Available Online"

- We may want, for example, to define that all Electronic Collections with interface name "ProQuest" will be on top.
- We can do this via the Online Services Order

 Go to "Configuration > Fulfillment > Discovery Interface Display Logic > Online Services Order".

> Discovery Interface Display Logic Display Logic Rules Related Records Direct Linking General Electronic Services General Electronic Services Bib Fields Enrichment Viewer Services Online Services Order General Electronic Services Order Locations Ordering Profile Other Settings Currency Symbols

• The "Online Services Order" includes a section for "Top Services" and a section for "Services to be placed last". In the section "Top Services" click "Add to top"

- For field "Service type" choose "Full Text".
- Note that for "Service name" it is possible to choose "Electronic Collection" (and then choose a specific Electronic Collection) or "Interface" (and then choose a specific Interface).
