Resource Sharing in Alma

Interlibrary loan is a service whereby a user of one library can borrow **books** or receive **photocopies** of documents that are owned by another library.

The user makes a request with their local library, which, **acting as an intermediary**:

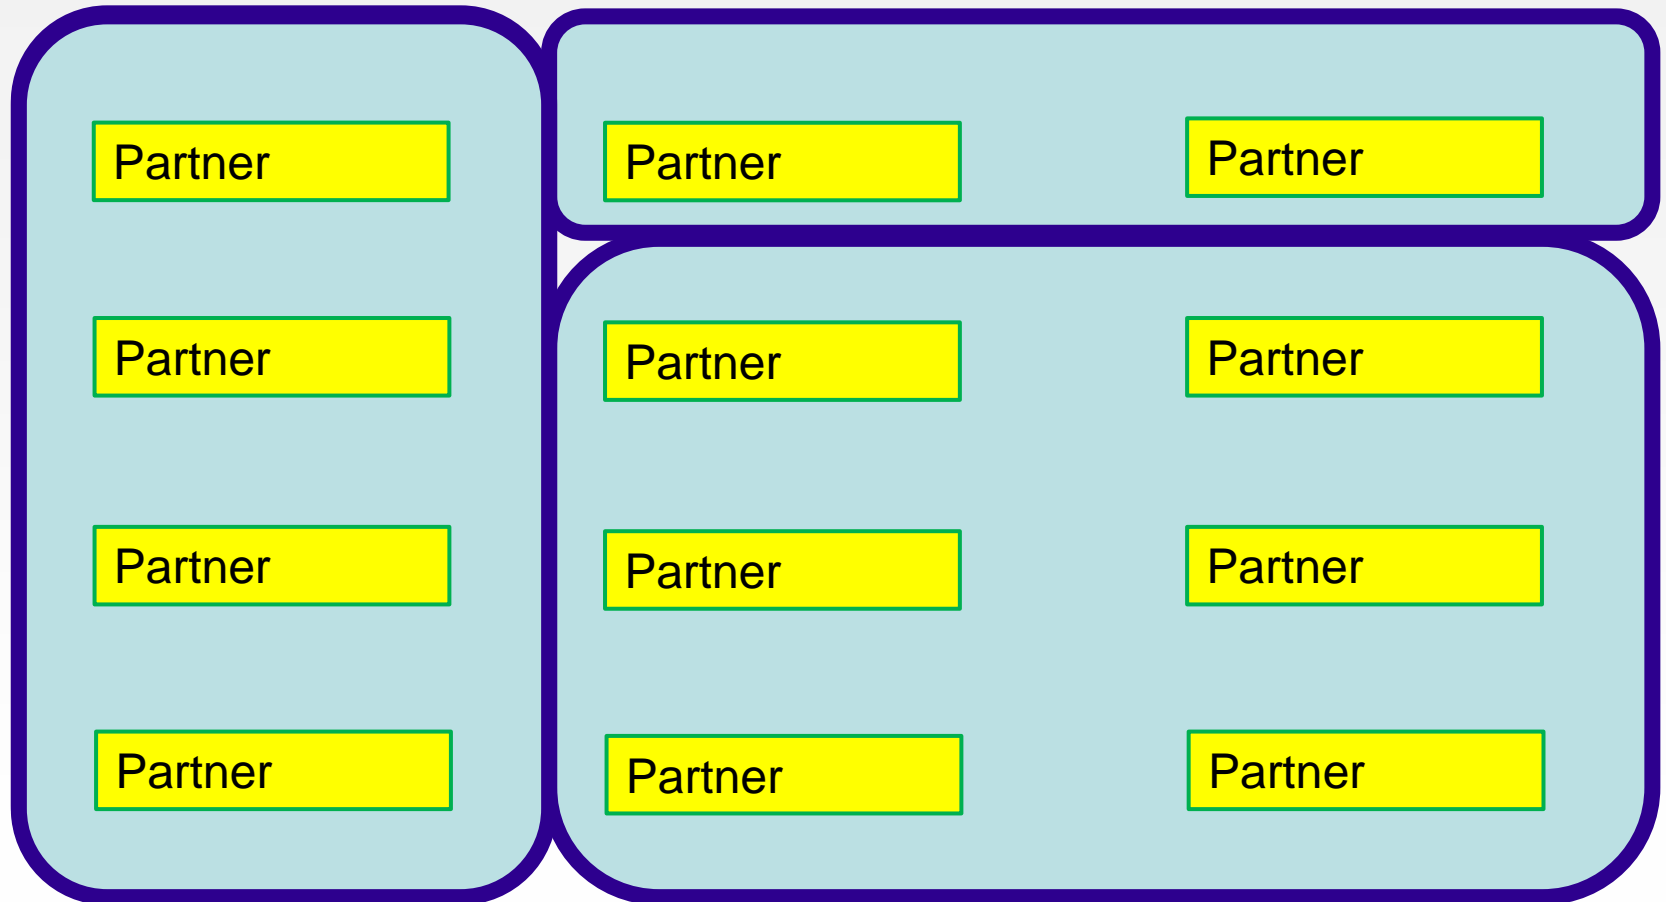

- Identifies owners of the desired item
- Places the request
- Receives the item
- Makes it available to the user
- Arranges for its return

Locate and Rota Management

The screenshot shows the Alma Rota Management interface. At the top, there is a header with the Alma logo and a search bar. Below the header, there are tabs for "General Information", "Audit", "Rota", "Parameters", "Notes", and "Attachments". The "Rota" tab is active, and a "Partners" sub-tab is selected. The main area contains a form with a "Partner" field, a "Place At/Before" dropdown set to "Last", and an "Add partners" button. Below this is a table with columns for "Move Up", "Move Down", "Name", and "Code". The table contains one entry: "University of Washington" with code "UW". At the bottom, there is another "Place At/Before" dropdown set to "Last" and a "Move Selected" button.

Lender Places Request for Photocopy

The screenshot shows the "Create Request" form in the Alma library system. The form is titled "Create Request" and is part of the "Create Work Order" section. The form fields are as follows:

- Title:** The Western planner.
- Institution:** University of Washington
- Request/Process Type:** Photo Copy (selected from a dropdown menu)
- Do not pick from shelf:**
- Note:** Please send to Resource Sharing Library - For request 1//01ALLIANCE0000011
- Target Destination:** Photo Copy (selected from a dropdown menu)

Of course, placing a request is not required if the resource sharing staff can do the photocopying themselves
