Version 2.0\Staff User Information\Verde Staff Users Guide.pdf
Version 2.0\Service Packs and KB Updates\Verde Service Pack Installation Instructions.pdf
Version 2.0\Service Packs and KB Updates\SP Release Notes\Verde SP Release Notes - 2011 08 - 780-782.xls

Change Number	Description	Solution	Related Documentation	Implementation Notes	Module	SI Number
780	When the harvester receives an SQL error which should cause the process to abort, it continues running anyway under some circumstances.	The harvester will now exit with an error in these cases.			KB Tools	-
781	The harvester would fail when trying to import a parse param that was over 500 characters.	The harvester will now import the first 497 characters of these parse param values, with a "..." added to the end of the field. The actual parse param can be found in the corresponding SFX item.			KB Tools	16384-260807, 16384-261049, 16384-261578, 16384-262224, 16384-262407, 16384-263032, 16384-263548, 16384-264025, 16384-265362, 16384-265527, 16384-267405, 16384-269626, 16384-273695
782	Verde displayed an error page when trying to view certain e-products that had perpetual license records with no end dates.	This has been corrected.			KB Manager	16384-231089
