Ex Libris Confidential

<b>Summary</b>	<b>Release Notes Comments</b>	<b>Component/s</b>	<b>Key</b>
CATJOB 13:GHC:Bus Error(core dump) if bib very large	Cannot reproduce.	Catjob, Global Headings Change	VYG-4426
Catjob:GHC:Subdivision not able to be changed in relating bibs	Use the correct record type to retrieve heading for global heading change.	Cataloging, Catjob, Global Headings Change	VYG-4192
CAT:GHC: Run-time 5 error	The run time error has been resolved.	Cataloging	VYG-4344
ACQ: Ledger window cannot be resized	The ledger form is dynamically resized based on its contents.	Acquisitions	VYG-4481
CAT: Call number browse skips entries	Fixed code that caused no results to display in browse.	Cataloging	VYG-4859
ACQ/CAT: Cannot relink mfhd if linked to same bib as mfhd linked to PO	Allow a MFHD to relink to another bib if the MFHD is not linked to any purchase order line item.	Acquisitions, Cataloging	VYG-5628
Selfcheck unable to display large number of fine items	Increase the size of variant size data section in the selfchk response.	Selfcheck	VYG-6049
WEBV: Display of item locations is by item ID instead of relationship to MFHD location and enumeration	Display holdings location first if any of the items without temporary location has permanent location same as the holdings.	WebVoyage	VYG-6105
Many non-alphanumeric characters are ignored when creating patron barcodes	Use the same normalization for patron and item barcodes across applications.	Batch Jobs, Circulation	VYG-6178
CIRC : other overdue notice not sent on expected day for hourly loans	An overdue notice should be sent when the notice interval has been reached and not just exceeded.	Circjob, Circulation, System Administration	VYG-6299
Patron Export fails with 1000+ records	Use alternative to Oracle IN clause to query bib id from an input file.	WebAdmin	VYG-6323
SELF: 15 message crashes circsvr	Preserve the selfchk operator id when creating an item.	Selfcheck	VYG-6379
CAT: Author redirect fails on æ character	The browser will handle the encoding for æ. The xsl will let it pass through.	WebVoyage	VYG-6409

Ex Libris Confidential

<b>Summary</b>	<b>Release Notes Comments</b>	<b>Component/s</b>	<b>Key</b>
ILL requests do not display in WebVoyage	Check the value of the GLOBAL_PARM 'ILLCutOffDays'	InterLibrary Loan, WebVoyage	VYG-6413
Item default doesn't display in Cat when the same item type chosen in SysAdmin	The default item type saved to the registry is displayed in the Preferences regardless of the value saved in Sysadmin for the happening location.	Cataloging	VYG-6417
BULK: Update previously loaded only matches vendor number in first instance of tag	Allow getting a subfield by scanning multiple matching tags (e.g. 035) for the subfield and return the first matching subfield.	Bulk Import	VYG-6486
XML: Patrons with punctuation in names not fully normalized when imported via XML	Fixed barcode normalization so that apostrophe is removed rather than converted to space. An existing upgrade script will correct the existing patron names in the database.	XML Patron Update	VYG-6487
"Update Previously Loaded MFHDs and Items" doesn't update call number	Allow user to update multiple MFHD call number from a different tag than the main tag defined in the multi-MFHD profile	Bulk Import, Cataloging, System Administration	VYG-6502
OPAC: Course Reserve info does not include department and course	Display department, and course. In general, display the search result heading if any one exists.	OPAC	VYG-6515
SIP2 Item Information Response (18) message sends bad data when barcode not found	Set a two-digit "00" return code per SIP2 specifications for message 18 when the barcode is not found or we failed to get the item information.	Selfcheck, SIP2	VYG-6518

Ex Libris Confidential

<b>Summary</b>	<b>Release Notes Comments</b>	<b>Component/s</b>	<b>Key</b>
"All Charges In One Receipt" does not trigger printing for items in transit, on hold, renewed	When the "All charges in one receipt" is selected in Preferences and all items are selected to be renewed via the "Select All", the due date slips will print for all the selected items.	Circulation	VYG-6522
The selfchk binary is confusing its messages with its logs	Remove crosstalk between the log class and selfchk server at selfchk server start-up when the log is turned on.	Selfcheck, SIP2	VYG-6523
CIRC: Modify button active when patron does not have fines/fees.	Disable the "Modify..." button if the patron doesn't have any fines/fees.	Circulation	VYG-6524
REP: a notice with a patron last name longer than 30 characters prevents further circulation notices from being processed	Updated Reporter databases to support larger field sizes for patron name.	Reporter	VYG-6527
Cataloging Preferences > General > Holdings/Item default locations list is wider than screen allows	Scrollbar is now visible in the example given - have decreased the size of slack added to the size of the text for each column.	Cataloging	VYG-6544
ANA: Reports using Title_Details return no data if BIB_FORMAT_DISPLAY is empty	Reports using Title_Details now return data even if the Titles List Material Type Display is not populated in Sysadmin as long as data matching the report criteria exist in the database.	Analyzer	VYG-6562
ACQ: Edit Approved results in RTEs, inaccurate error	Prevent excessive keystrokes from crashing the Acquisitions client when editing an approved line item.	Acquisitions	VYG-6567
852 Indicator 1 is blank when updating MFHD via bulk import	852 indicator 1 is now updated to reflect the call number type when the latter is updated via bulkimport.	Bulk Import	VYG-6577

Ex Libris Confidential

<b>Summary</b>	<b>Release Notes Comments</b>	<b>Component/s</b>	<b>Key</b>
ANA: Filtering on last number of days includes dates in the future	Filtering on last number of days does not include days in the future.	Analyzer	VYG-6593
NCIP:Barcodes with special characters in the CheckInItem are not recognized.	Use same barcode encoding method in cataloging to create an item through the AcceptItem message, and same normalization procedure is applied when looking up an item.	NCIP	VYG-6594
Double cutters are reversed when updating MFHDs via Bulk Import	Preserve the order of multiple subfield I for 852 tag	Bulk Import	VYG-6595
WebV: After upgrade to 9.x, some users experience issues with blank My Account or request screens	Fixed issue by replacing old jar files for xalan library with up-to-date versions for both VWEBV and VXWS.	WebVoyage	VYG-6601
ACQ: Adjust reasons don't display consistently	Sort the content of the "Charge Type" dropdown list.	Acquisitions	VYG-6621
Lines print too far apart when printing records in Cataloging	Reduced vertical space between fields. MARC data fields may still get truncated when they nearly page-size or larger.	Cataloging	VYG-6635
Default Pick and Scan Log directory does not exist	The default directory set in the Pick & Scan Preferences will now be created if it does not already exist.	Pick and Scan	VYG-6688
Diacritics do not display in Global Headings Change Q's "Process?" Heading (new)	This is working correctly in 9.2.0 and as far back as 9.0.0.	Cataloging, Global Headings Change	VYG-4764
Batchcat returns 0 (rhrSuccess) when relinking holdings records attached to PO's despite actually failing	The return code of the relink operation needed to be passed back to the caller.	Batchcat	VYG-6239
CAT: Operator able to overlay records belonging to another owning library	Working as designed.	Cataloging	VYG-6273

Ex Libris Confidential

<b>Summary</b>	<b>Release Notes Comments</b>	<b>Component/s</b>	<b>Key</b>
iasock no longer listens on all addresses by default	Fixed in the VIK.	Image Server	VYG-6506
keysrvr logs Oracle error seemingly erroneously	Key server was trying to get the local database name from a database table and failing because it was not connected to Oracle. Now key server will not attempt to get the local database name.	Keyword Server	VYG-6113
CIRC: Counter doesn't show "In Transit/On Hold" Items on patron record	Cannot reproduce in 9.2.0.	Circulation	VYG-6540
SysAdmin: Window Not Resizable	All functions are now accessible based on the display size selected in Windows. The forms will now resize accordingly.	System Administration	VYG-4173
PRIMO: RTA sometimes returns Location Name instead of OPAC display name	Output the location's display name in the availability tag. If there is no display name defined in the database for the location, output the location name.	Primo Integration, Various	VYG-4585
Primo Extract does not delete Suppressed Course Reserves when off reserve	Mark as deleted (i.e., non searchable) those bibs that are no longer on any active reserve lists.	Primo Extract	VYG-6091
Voyager logging error during Primo extract	Fixed code to not log any errors when testing changedSince date.	Primo Extract	VYG-6553
