Z00E – My e-Shelf External Documents

The Z00E table contains document records that were added to the 'My e-Shelf' as a result of a search in an external database. This saves the record locally and enables it to be retrieved. These records are stored under the library defined as the usr_librarary in the ./alephe/aleph_start file.

In the following table, (X) denotes an alphanumeric field and (9) denotes a numeric field. All alphanumeric fields are left-aligned with trailing spaces; all numeric fields are right-aligned with leading zeros. Decimal positions are indicated by the symbol V. The total number of decimal digits is designated by the number of nines following the V. Note that the decimal point is not stored in the field (for example, if the field definition is 9(4)V99, then 1000 = 10.00).

```
01  Z00E-DOC.
   02 Z00E-DOC-NUMBER             PICTURE 9(9).
   02 Z00E-NO-LINES               PICTURE 9(4).
   02 Z00E-DATA-LEN               PICTURE 9(6).
   02 Z00E-DATA                   PICTURE X(45000).
```

Z00E-DOC-NUMBER	M	9(9)	**DESC:** Document system number
Z00E-NO-LINES	M	9(4)	**DESC:** Number of fields (lines) in the record
Z00E-DATA-LEN	M	9(6)	**DESC:** Length of the record's data content.
Z00E-DATA	M	X(45000)	**DESC:** Record's content. The information in this field is compressed according to an internal ALEPH algorithm. For the loading and manipulation of the data, you can create a file in ALEPH Sequential format
