

VOYAGER PRODUCT UPDATE

IGeLU 2016

JOSH WEISMAN | DEVELOPMENT DIRECTOR

Agenda

- **What's new in Voyager**
- **Highlights of New Features in Voyager 9.2**
- **A Look Ahead to Future Releases**
- **Highlights of New Features in Voyager 10**
- **Questions**

What's New in Voyager?

Voyager 8.x

- 155 customer-requested enhancements
- GDC module
- Client Auto-Update
- Enhanced operator security
- Indexes for RDA
- Shelf-ready workflows
- XML patron loader
- UTIL menu

Voyager 9.x

- 159 customer-requested enhancements
- Pick & Scan 2.0
- "Delete All" in GDC
- New authority loader workflows
- Duplicate detection using RDA
- Display RDA info in search results
- Sorting MARC tags

Voyager 9.2

- Voyager 9.2 was released in November 2015
- Voyager customers helped prioritize enhancements for the release
- 9.2 delivers a major enhancement to Authority Loader workflows
 - Added an [Authority Load Reviewer](#) to the Cataloging module
 - Simplified the process to manage authorities and update headings in bib records
- Additional enhancements to sort MARC tags, display RDA info in search results, enrich bulk import options, and many more...

Highlights of New Features in Voyager 9.2

igelu
International
Group of Ex Libris Users

ExLibris
a ProQuest Company

Overview of changes

- GDC-based
- Pre-load filtering
- Match point uses existing Duplicate Detection
- Automatically load new (unmatched) authorities
- Options for merging exact matches
- When multiple records found that match incoming record, options for choosing 'best' of those records
- Delete records in database automatically
- Some files will require manual review and handling

First
Introduced
in
Voyager 9.1

New Authority Loader Workflows

- Builds on development started in 9.1
- Workflow to review authority load files in the Cataloging module
- Introduces the **Authority Load Reviewer**
- Actions based on the type of file
 - No Match
 - Multi-match
 - Split
 - Delete
 - Reject
- Records managed/processed in Cataloging

New Match Rule for Authority Records

- Matching Authorities based on 1xx tags
 - 13 new authority left-anchored indexes added to Voyager
 - Makes it possible to match records with standard numbers to records without standard numbers
- New indexes described in *Voyager 9.2 Index Changes* document
- Index conflicts reviewed in process similar to Voyager 8.2 index changes

New Merge Rule for Authority Records

- Move old heading to 688 tag upon Merge

Merge Rules:

Rule	Retention	Add \$5	Apply Only To Fields
<input type="checkbox"/> Retain Local 008/06			
<input type="checkbox"/> Retain Local 008/12			
<input type="checkbox"/> Retain Local 008/13			
043 Retention	Use incoming field		
09X Retention	Use incoming field	<input type="checkbox"/>	
0XX Retention	Use incoming field	<input type="checkbox"/>	
1XX Retention	Move old heading to 688	<input checked="" type="checkbox"/>	
2XX Retention	Use incoming field	<input type="checkbox"/>	

- 6XX merge rule must be configured to retain the existing field and the incoming field

Load Files in Different Encodings

- Source File Encoding option when loading files in GDC
 - Applies to Match Job and Authority Load Match Job only
 - Can be set as a session preference

Ledger Window Sized for Every Font

System Admin Sized for Every Font

The screenshot displays the Voyager System Administration software interface. The main window is titled "Circulation - Policy Definitions" and features a menu bar with "File", "Functions", and "Help". On the left side, there is a vertical navigation pane with a tree view containing the following items: Acquisitions, Call Slips, Cataloging, Circulation, Calendars, Cluster Maintenance, Miscellaneous, Patron Groups, Patron Note Types, Patron Default Dates, Policy Definitions, Request Configuration, OPAC Configuration, Search, Security, System, and Web Services. The "Circulation" item is selected, and its sub-items are visible in a secondary pane: Calendars, Cluster Maintenance, Miscellaneous, Patron Groups, Patron Note Types, Patron Default Dates, Policy Definitions, OPAC Configuration, Search, Security, System, and Web Services. The main content area of the "Circulation - Policy Definitions" window shows a list of names: "CD Test 504", "CD VYG 497 test delete 1", "CDright", "College Group", "DRS Circ Group", and "Main Circ Group". The "CD Test 504" entry is selected. To the right of this list are three buttons: "New", "Edit", and "Delete". Below the list, there is a section titled "Edit Policy Definition:" with a tabbed interface. The tabs are "Policy Definition", "Locations", "Policies", "Calendar", "Patrons", "Items", "Matrix", and "Short Loan Matrix". The "Policy Definition" tab is active, showing a text field labeled "Circ Group Name:" with the value "CD Test 504". At the bottom of the window, there are "Save" and "Cancel" buttons. The status bar at the very bottom of the window displays "Circulation: Policy Definitions", "Circ Cluster: VOYDEV", and the time "1:37 PM".

Want to Know More About Voyager 9.2?

- Details of these and other new features in 9.2 are available in the Voyager documentation
- Review the Release Notes and other documentation on the new **Ex Libris Knowledge Center** --

<http://knowledge.exlibrisgroup.com>

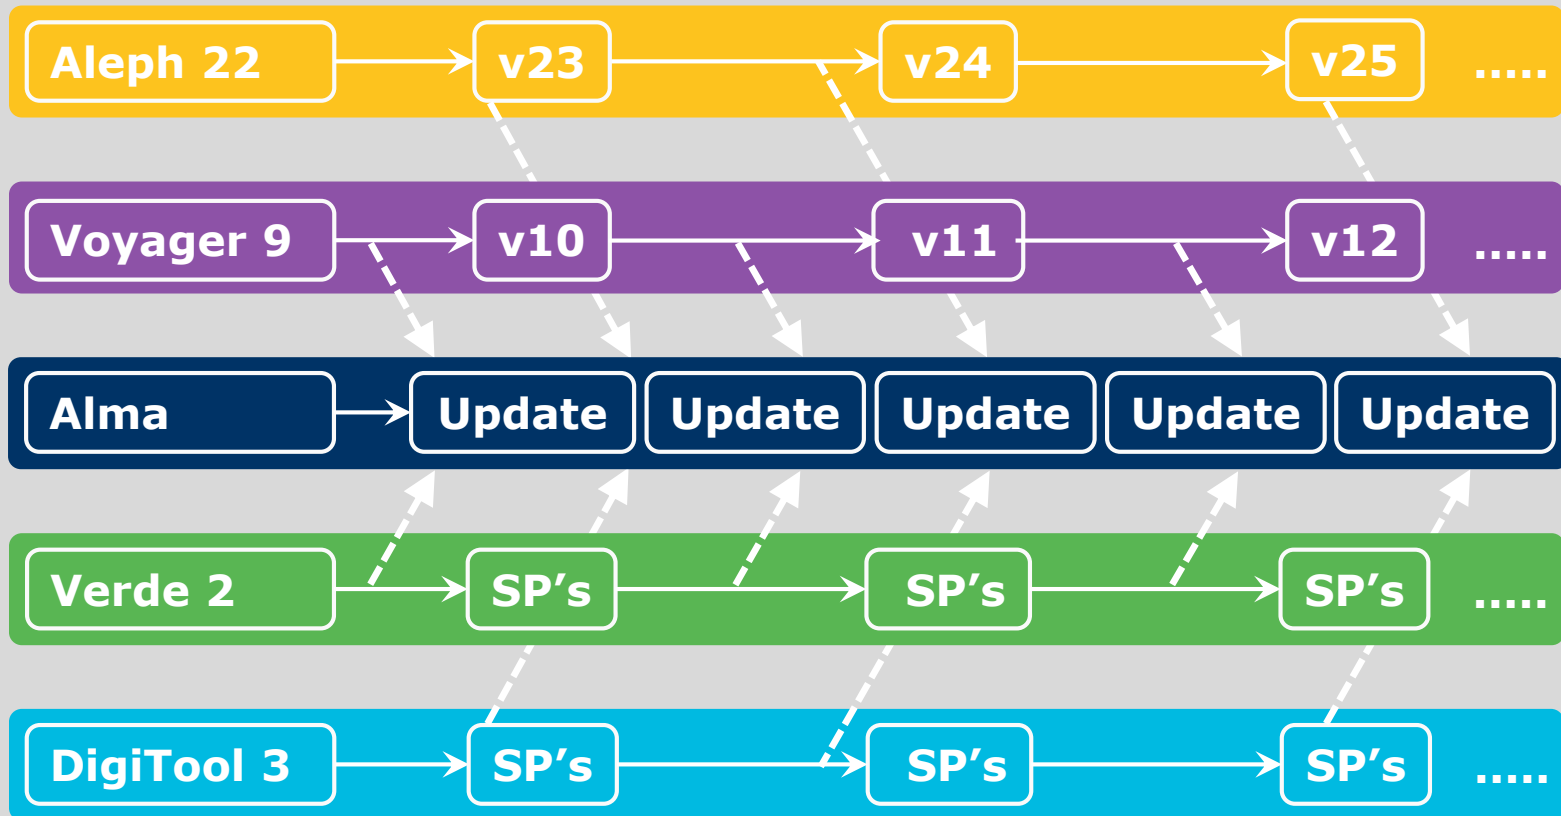

Voyager > Release Notes > 9.2.0

Voyager > Implementation Guides > 9.2.0

A scenic view of a harbor in a coastal town, likely in Norway. The water is calm, reflecting the colorful buildings and boats. The buildings are multi-story and come in various colors like green, red, white, and yellow. Several small boats are docked along the pier. The sky is clear and blue. In the foreground, there are some wooden structures and red buoys in the water.

A Look Ahead to Future Releases

A Future Path for Every Customer

Voyager 10

- Development on Voyager 10 has already begun
- Enhancements are focused on simplifying staff workflows, improving service to users, and reducing TCO
- Ten customer-requested enhancements from latest voting cycle will be included in versions 10.0-10.2

Enhancement Voting Results for Voyager 10

1. Show count of unchanged records in data change job file
2. Modify CAT client behavior when changing record types
3. Warn user when an item record has been modified since it was opened
4. Show serials pop-up notes once for each title
5. Show which operator applied an item status
6. Include “Last Use Date” in patron record
7. Add new rule conditions in GDC
8. Provide warning message when closing Voyager clients
9. Provide message in SA when deselecting locations used in ledger
10. Warn when default patron expiration/purge dates are in the past

Show Operator Who Received a Line Item

- Displays the operator ID of the staff member who receives an item

The screenshot shows a software window titled "Line Item - Dinosaurs without bones : dinosaur lives revealed by their trace fossils / Ant...". The window has a menu bar (File, View, Tools, Help) and a toolbar with icons for Save, Save and Close, and other functions. Below the toolbar are several tabs: Problems, Claims, Properties, Delivery Options, Notes, Order, Payment History, Receive/Mark, Bib Record, Price, Copies/Funds, Copy Status (selected), and Type. The "Copy Status" tab displays a table with columns: Intended Location, Copies Ordered, and Copies Received. The table shows one row for "Main Stacks" with 1 copy ordered and 1 copy received. Below this, there is a detailed view of the copy status for copy #1, showing it was "Received by miked" on 12/1/2015, with a call number "Main Stacks - 567.9 M379d 2015". To the right of the table are buttons for "Item" and "Print Label...".

Intended Location	Copies Ordered	Copies Received
Main Stacks	1	1

Copy #	Status	Status Date	Call Number
1	Received by miked	12/1/2015	Main Stacks - 567.9 M379d 2015

Receipt History					
Receipt History Claims History Problem History Payment History					
Issue Identification		Receive Date	Copies Received	Display in OPAC	Collapsed
+ (2016 Autumn)		4/19/2016	1	Yes	No
- (2016 Summer)		4/19/2016	1	Yes	No
Copy #	Status	Status Date	Location Name	Item Type	Item ID
1	Received Partial by miked	12/15/2010			no item

Voyager 10 and Beyond

- Voyager 10 will be released in 2017, with additional releases in 2018 and 2019
- Planning for Voyager 11 will begin shortly after Voyager 10 is released
