# Easily Manage via Administration Console

- All customers have a “Link 2.0” tab in the Admin Console
- All new features and settings require customers to Opt-in

The screenshot displays the 'Administration Console' interface. At the top, a navigation bar includes tabs for 'E-Journal Portal', 'E-Journal Portal 2.0', '360 Link', 'Link 2.0' (which is the active tab), 'User Authentication', and 'Ulrichsweb'. Below the navigation bar, the main content area is titled 'Configure Link 2.0'. On the left side of this area is a sidebar menu with icons and labels for 'Link Activation and Configuration', 'Sidebar Branding Options', 'Non-Sidebar Pages Branding Options', 'Custom Links', 'Mobile Settings', and 'Citation Linker form'. The main content area is titled 'Link Activation and Configuration' and contains the following text: 'Any changes to Link Activation and Configuration will take effect after the [daily profile data refresh](#).' Below this, there is a section for 'Activate Link 2.0:' with a checked checkbox. Underneath, it says 'Choose your preferred display option below:' followed by four radio button options: '1-click with sidebar only (displays sidebar but uses old UI for other pages)', '1-click with sidebar (displays sidebar and all new UI pages)' (which is selected), '1-click without sidebar (links users directly to content when links are available without displaying sidebar)', and 'Disable 1-click (always displays a 360 Link results page for users)'. At the bottom of the main content area, there is a section titled 'Report a Problem Link' with a checkbox for 'Display default "Report a problem" link.:', which is also checked.

# 360 Link New & Improved Features

Sidebar Exclude Options for Problem Resources

Any changes to Sidebar Exclude Options for Problem Resources will take effect after the [daily profile data refresh](#).

For databases on the Sidebar Exclude lists below, users are prompted with a message and link prompting your users to "click to view the full text" in a new tab.

The "Global" exclude list is pre-populated by our Support team and can only be modified by contacting Support. Items on the "Global" list will always display with the "click to view full text" link by default.

The Client Configurable exclude list can be modified by the library and is used to add additional databases for which the library wishes to also display the "click to view full text" link.
