

ExLibris Summon

Enriching the Discovery Experience
With Syndetics Unbound

You can enhance the user experience in Summon with the integration of Syndetics Unbound, a groundbreaking online enrichment service that enables you to embed detailed information on the Summon catalog details page. Together, they help create a more effective discovery experience for today's researcher, while maximizing the value of library collections and increasing usage.

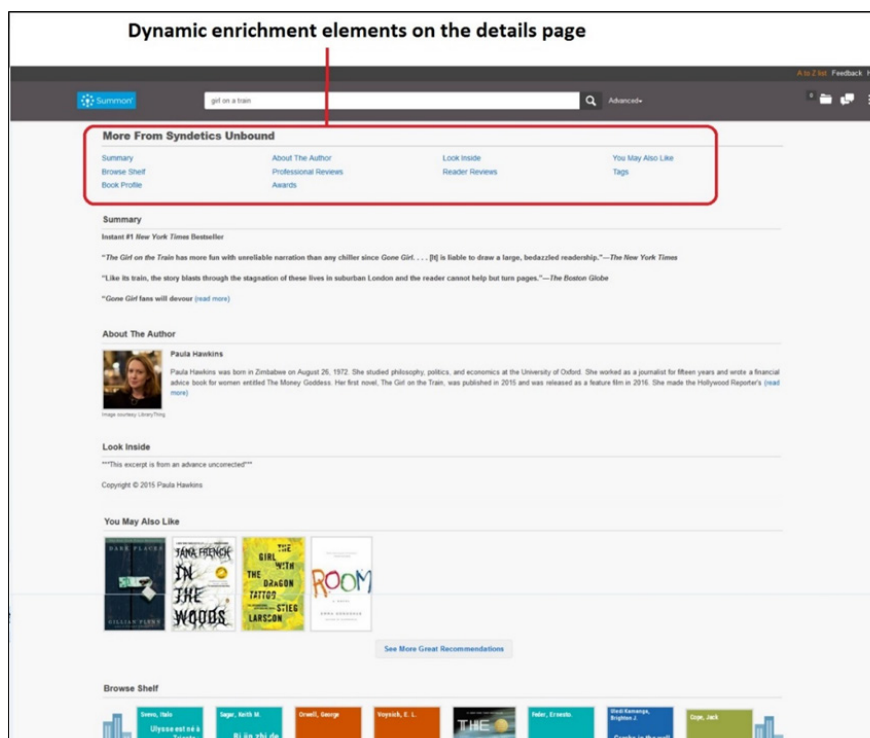

The integration of Syndetics Unbound with Summon makes it easier for you to engage with researchers through an innovative and compelling showcase of materials. Your Summon catalog details page will become easier to use, more interactive, and more representative of your library. You will be able to dynamically display details for items in your library's collection and provide researchers with features they expect from everyday web browsing.

Incorporating Syndetics Unbound into Summon creates an intuitive, modern, compelling user experience, while satisfying information needs and providing inspiration for further research.

Summon-Syndetics Unbound User Experience

The integration of Syndetics Unbound into the Summon user interface is seamless. After navigating to the catalog details page, researchers will see a rich array of dynamic enrichment elements – which you can determine and configure.

You can use any of the available Syndetics enrichments with Summon, including: title recommendations, author information, look inside the book, series information, professional reviews, tags, book profiles, awards, and more.

Easy for Administrators to Activate

To activate a Syndetics Unbound subscription in Summon, you simply turn it on through the Settings tab on the Summon Admin console and enter your Syndetics Unbound ID.

Easy to turn on
