Ex Libris Knowledge Center - Introducere

<http://knowledge.exlibrisgroup.com>

The screenshot shows the Ex Libris Knowledge Center homepage. At the top left is the logo 'ExLibris knowledge Center'. On the right, there are navigation links: 'Training | Docs | Knowledge Articles | Developers | Security Zone'. The main heading is 'What can we help you with?' followed by a search bar with a magnifying glass icon. Below the search bar are two buttons: 'System Status' and 'Submit a Case'. A section titled 'Browse by product:' lists various products: Alma, Primo, Rosetta, SFX, Aleph, Voyager, Metalib, Verde, DigiTool, and CampusM. Below this, there are three main categories: 'Take Training' (with a graduation cap icon), 'Find Documentation' (with a document icon), and 'Search Knowledge Articles' (with an owl icon). Each category has a list of sub-topics, such as 'Alma Navigation & Searching', 'Alma User Management', 'Primo Central Index', and 'Introduction To Primo'. On the right side, there is a 'Popular Topics' section with a list of articles, including 'Setup Email Preferences To Subscribe To Mailing Lists', 'Enhancement Process - Common Q&A', 'Difference between Primo Central records with EBSCO links and EBSCO API', and 'How so I request a customer Center Login for a new staff member?'. At the bottom left, there are links for 'Term of Use | Privacy Policy | Contact Us'. At the bottom right, it says '2015 Ex Libris. All rights reserved'.

Ex Libris Knowledge Center – Documentația produsului

The screenshot displays the Ex Libris Knowledge Center website. At the top left is the Ex Libris logo with the tagline "Knowledge Center". To the right of the logo are navigation links: "Training", "Documentation", "Knowledge Articles", and "Developer Network", followed by a "More Sites" dropdown menu. Below the navigation is a search bar with the placeholder text "How can we help you?". Underneath the search bar is a breadcrumb trail: "Home » Primo". The main heading is "Product Documentation". Below this heading, there are two columns of content. The left column is titled "Guide to Primo Documentation" and contains two links: "Primo Documentation" and "Glossary". The right column is titled "Highlights" and contains three links: "Primo February 2016 Highlights", "Primo November 2015 Highlights", and "Highlights from Previous Versions". A dark blue callout box on the right side of the page contains the text: "Product Documentation - Documentația Produsului (înlocuind Documentation Center)".

Ex Libris Knowledge Center - Căutare

The screenshot shows the Ex Libris Knowledge Center search interface. At the top left is the Ex Libris logo and 'Knowledge Center' text. To the right are navigation links: Training, Documentation, Knowledge Articles, Developer Network, and a 'More Sites' dropdown. Below this is a search bar with the placeholder text 'How can we help you?' and a search icon. The search results section is titled 'Help results for' and shows the search term 'primo back office'. Below the search term, it says 'Searching in All results' and 'Refine results by selecting a filter.' There are two dropdown menus: 'Product:' and 'Content Type:'. Below these is a horizontal line with three dots. The search results list three items:

- Training** **01 Primo Back Office Overview**
http://knowledge.exlibrisgroup.com/Primo/Training/Primo_Administration/01_Primo_Back_Office_Overview
- Documentation** **Overview of the Primo Back Office**
http://knowledge.exlibrisgroup.com/Primo/Product_Documentation/Back_Office_Guide/01Getting_Started/01Overview_of_the_Primo_Back_Office
The Primo publishing platform also enables the user to schedule unattended harvesting and processing of the data sources, while letting the user monitor and control the entire process of the pipe run. The normalization process converts the group of normal records to the PNX format, using the normalization rules set of the pipe.
- Article** **What are the slashes in the BIRT Reports in the Primo Back Office?**
http://knowledge.exlibrisgroup.com/Primo/Knowledge_Articles/What_are_the_slashes_in_the_BIRT_Reports_in_the_Primo_Back_Office%3F
For example, the user enters the search term "Cats" and the report records the search string as "Cats / Cats". 2. The search terms with slashes and different contents on each side of the slash are mostly multiple search terms entered in the Primo search fields. For example, the user searches the Advanced Search for "Title, Contains, Cats" and "Subject, Contains, Kittens". The report will display this as "Cats / Kittens".

**API for Primo Analytics**

Idea: ExLibris to provide an API for access Primo Analytics in a similar manner as Alma Analytics API

Reason: Without an automated way to extract data from Primo Analytics the usefulness of Primo Analytics is greatly reduced.

We need the ability to extract data from Primo Analytics reports via an API so we can use this data in other ways. Such as importing into other reporting systems (databases, BI tools, etc.. ), merging with out Library/University data/reports, etc..

Any new ExLibris product should provide an API as a standard, from initial release.

Cheers

Justin Kelly  
Swinburne
