Oracle Business Intelligence Deployment User Group April 2017

Matt Sherlock | Product Director

Objectives

- Take advantage of EXL Strategic technology stack to provide enterprise level analytics reporting
- Enhance data security through encryption of campusM Insight data
- Build a development and production OBI infrastructure to compliment and eventually replace campusM insight reporting
- Build a suite of OOTB reports that showcase trends in app usage and engagement
- Develop the capability for customers to generate custom reports and data extracts
- Build confidence and competence internally for OBI

Phase 1 – Beta release

- Infrastructure setup (both Dev and Production)
- Insight Data Encryption
- Data transformations and analytics schema development
- Development and QA of OBI environment
- Secure linkage from app manager to organizationspecific data
- Development of initial OOTB dashboards
- Release to customers

OBI – Phase 1 Scope

- Read only access to OBI production Environment
- Linkage from App Manager through 'Beta' icon
- OOTB reports that are similar to Insight:
 - Menu/tile hits
 - Page hits
 - Profile usage
 - Platforms and device insight
 - User registrations
- Graphical and tabular representations given
- Last 12 months viewable (if data is available)
- Ability to drill in to months for detailed view
