

## Your expert in connecting scholars to funding opportunities!

Competition for research funding continues to rise, globally. Yet research offices and research administrators are being pressed to do more for their researchers with less resources. So, working smarter, not harder, is the key to success.

Pivot® allows researchers and research administrators to identify new funding resources and potential collaborators while offering unparalleled insights and short-cuts to help research organizations win a larger share of available funding.

With more than 20 years of experience, Pivot is the proven and trusted funding awareness solutions for hundreds of the world's leading research institutions.

### With Pivot researchers and administrators can:

- **Access** the broadest global coverage of available funding opportunities in a single, editorially curated database
- **Find** and share thousands of funding opportunities equaling billions of dollars
- **Discover** the widest variety of funding types, including government, foundations, non-profit, corporate, academic and much more.
- **Track** opportunities and get alerts and updates on deadlines and other significant changes
- **Enable** Funding Advisor that automatically recommends funding based on a researcher's specific profile
- **Locate** potential collaborators from within and outside your institution across millions of integrated scholarly profiles
- **Communicate** about funding opportunities with built in newsletters, announcements and sharing tools
- **Integrates** seamlessly with tools like InfoReady, Cayuse and ORCID to streamline researchers workflow
- **Claim**, manage and update your researcher profile to discover new funding opportunities and collaborators
- **Search** thousands of conferences requesting "call for papers" where researchers can present and publish their work by leveraging the built-in Papers Invited database
- **Identify** usage and researchers' interests with powerful analysis and reporting tools
- **Count** on a world class support team for help to resolve any issues and take advantage of an [online knowledge center](#)

**Pivot helps you find the right funding and partners to accelerate your research**
