

Transform Library Services Into a Personalized Mobile Experience

Ex Libris campusM

campusM allows the library to be part of the student's day-to-day life, in various areas, including, finding and viewing resources, navigating across campus and the library, viewing library open hours and available services, booking workstations or study rooms, and more...

Consolidated Experience

- Integrated with library services
- Information and guides
- Maps and navigation

Personalized Native App

- My Account information
- Role-based interface
- App personalization

Increased Engagement

- Push notifications
- Content management
- App feedback and sharing

Simplified Management

- Role-based admin
- In-screen designs
- Interactive analytics
