Ex Libris campusM for Library Consortia

PACKAGE OFFERING

The Ex Libris campusM for library consortia includes the following:

- Single library consortium app and web portal
- Individual dedicated and fully branded profiles for each participating member library
- Consortium profile and portal

PARTICIPATING MEMBER LIBRARY PROFILE PACKAGE

Each participating member library will get a fully-branded profile, including the following core functionality:

Push Notifications	https://knowledge.exlibrisgroup.com/campusM/Product_Documentation/03_Managing_the_App_and_its_Services/08_01_Sending_Notifications_to_End-Users
News Feeds	https://knowledge.exlibrisgroup.com/campusM/Product_Documentation/02_Managing_the_App_Manager_Environment/02_Managing_Service_Defaults
Maps	https://knowledge.exlibrisgroup.com/campusM/Product_Documentation/03_Managing_the_App_and_its_Services/04_Configuring_Services/01_Adding_Maps_and_Locations_to_Services
Content Management	https://knowledge.exlibrisgroup.com/campusM/Product_Documentation/Managing_Creative_Studio
Personalization	https://knowledge.exlibrisgroup.com/campusM/Release_Notes/2017/July_2017_-_campusM_Personalization
Branding	https://knowledge.exlibrisgroup.com/campusM/Product_Documentation/03_Managing_the_App_and_its_Services/04_Configuring_Services
Analytics	https://knowledge.exlibrisgroup.com/campusM/Product_Documentation/04_Appendices/Analytics

In addition, as part of the implementation project, the Integrations below will be deployed:

- Authentication
- Alma-Primo
- Leganto (where available)
- LMS (Moodle/Canvas/Blackboard/D2L where available)

CONSORTIUM PACKAGE

In addition to the libraries profiles, a central office portal and profile will be deployed, allowing the consortium to stay in-touch with its members using push-notifications, engaging information pages, events details and more as shown in the screenshot below:
