TOP INITIATIVES

campusM Attendance

Simplifying classroom attendance tracking.

An end-to-end solution for tracking user's attendance while allowing the university to comply with local regulations and leverage insightful analytics to deliver constructive intervention for student success and engagement initiatives.

campusM Attendance: Summary

SIMPLE TO USE

Real-time
deployment

Highly Configurable

No hardware or equipment
installation

Minimal classroom disruption

CONNECTED EXPERIENCE

Works off any device

Part of the main university app

Connected to the Student
Information System

Used by all university
stakeholders

COST EFFECTIVE

Included in your campusM
subscription

One-time implementation fee

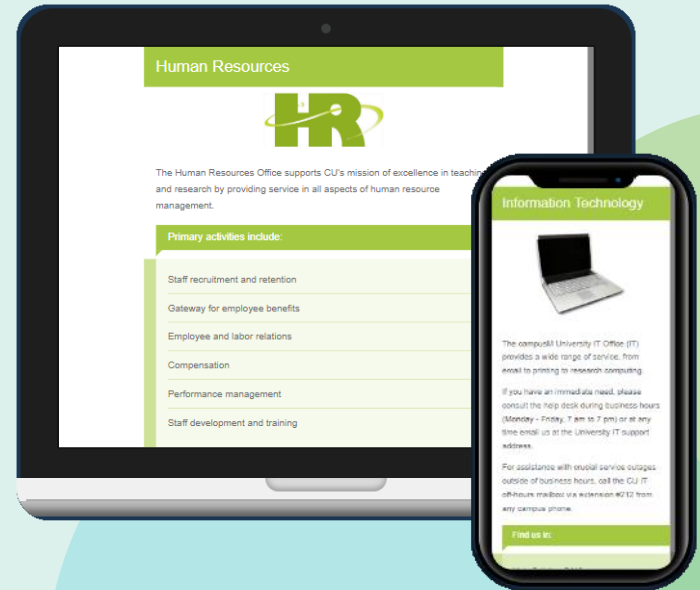

Minimal ongoing maintenance

Creative Studio

Build Engaging Content in Minutes.

Delivering class leading content creation tools enabling customers to grab and engage their users

Use mobile technologies to reach out and involve your students in new ways, to provide personalized targeted information in new and innovative ways

Build Engaging Content in Minutes

CONTENT-READY

Working with your existing content pages

RESPONSIVE

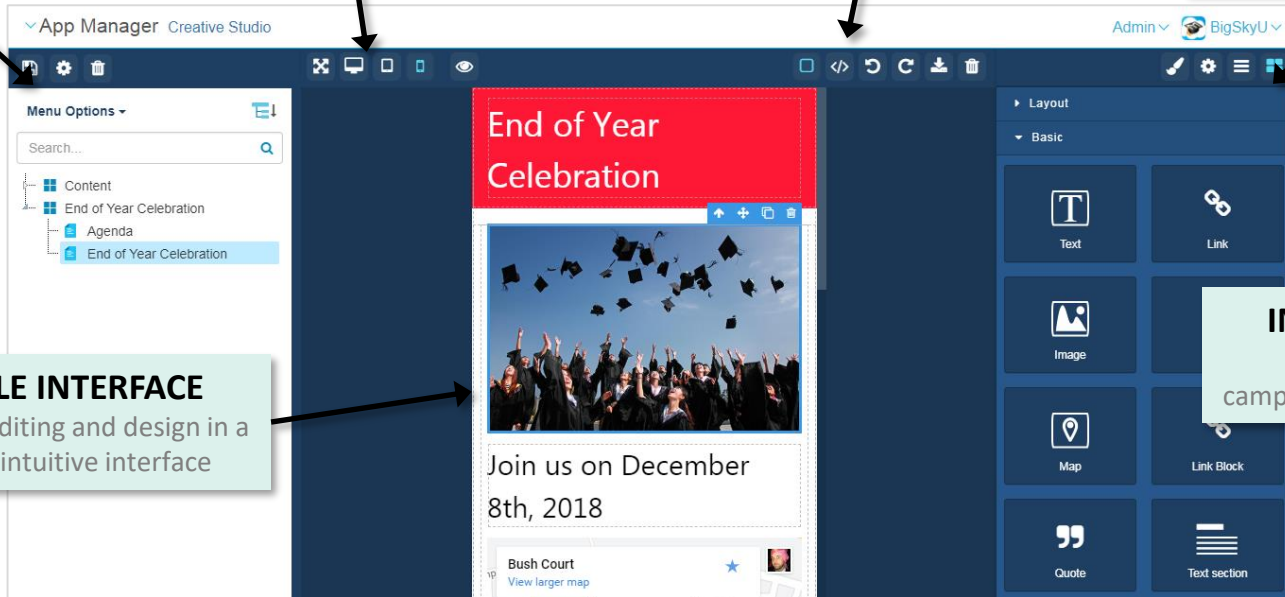

Works on mobile, tablet and desktop devices

FEATURE-RICH

Supports ready to use template, design classes, review modes and more

DRAG-N-DROP

Large number of delivered drag-n-drop elements

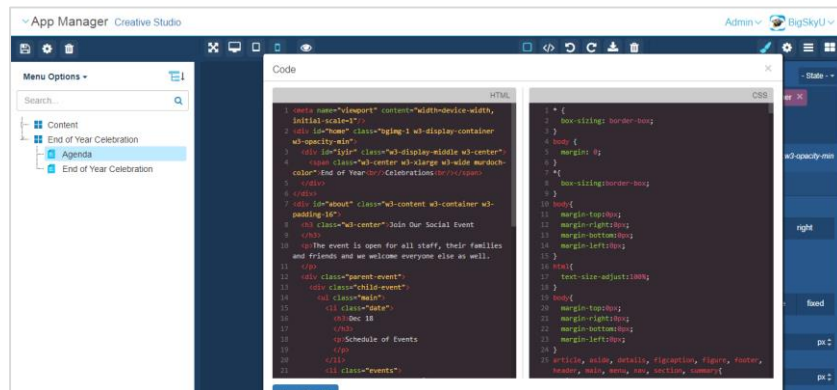

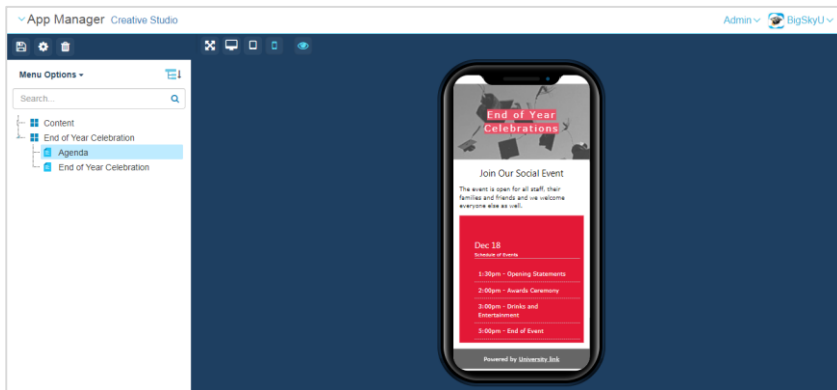

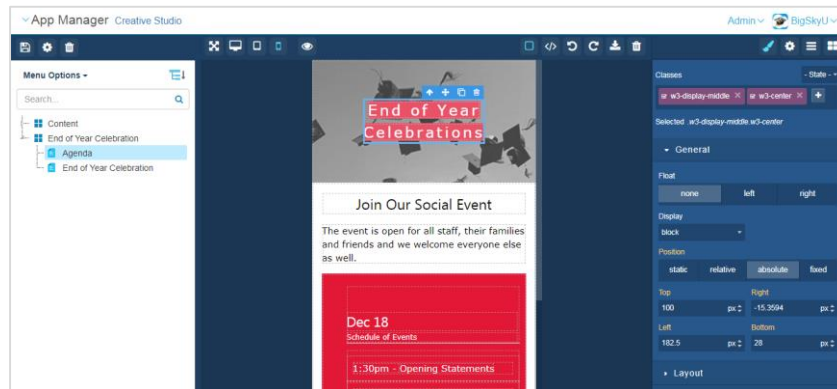

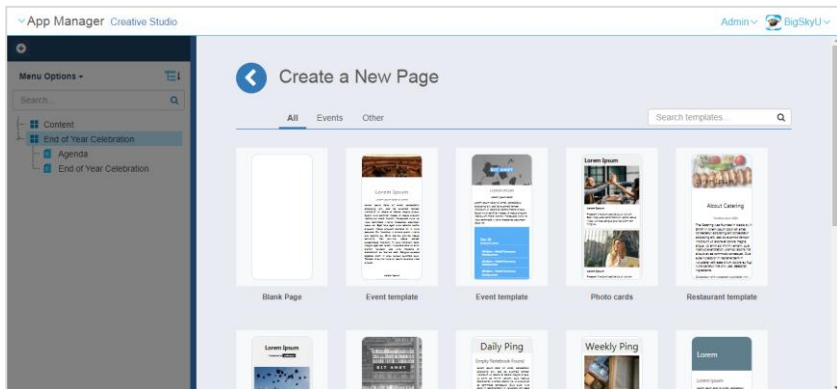

SIMPLE INTERFACE

In screen editing and design in a Simple, intuitive interface

INTEGRATED

Built into the campusM App Manager

Sample Screenshots

Creative Studio

SIMPLE TO USE

Self-service interface

Integrated with existing campusM pages and works on any browser

AVAILABLE TO ALL

The user interface is available to all permitted users

Limited to users' roles and permissions

INTUITIVE DESIGN

Start the design by using responsive templates, reducing the time to delivery

Provided in a simple drag-n-drop, in-screen editing interface that does not need any technical resources

Integrated Campus (IaaSP)

Transforming Your Campus Systems to a Personalized Mobile Experience.

Deliver the most extensive and comprehensive integrations to ensure the product is well embedded in the institutions eco-system.

Integrations should be deployed in a self-service mode with configurations options.

Integrated Campus (IaaSP)

SIMPLE TO DEPLOY

Configured using the App
Manager

Included in the monthly releases
(updates, new features instantly
available to all customers)

Minimal technical skills required

EXTENDABLE ENVIRONMENT

Out-of-the-box integration
standard with a diverse set of
campus systems (SIS, LMS/VLE,
Library, PC Availability, etc.)

AEK and CLEK to support
institution-specific integrations

MIGRATION PATH

Available to all customers as part
of their campusM subscription

May require initial one-time
setup fees to transition
authentication and existing
services

2019 KEY DEVELOPMENTS

Enhanced Portal Interface

Interface enhancements to provide a easier menu and breadcrumbs navigational experience for the campusM Web App

- Collapsible left hand side navigation element
- Navigational Bread Crumbs
- Full screen AEK
- Configurable within App Manager

Notification Center

**Consolidating notification toolset
leveraging powerful app notifications
along with engagement actions to make
sure your message gets across**

- Notification history
- Read/unread metrics
- Advanced personalized messaging
- Scheduled and expired notifications

Enhanced Analytics

Provide enhanced insight into how students use the app and their levels of engagement, all through our powerful Oracle Business Objects analytics platform

- Role-based analytics
- Session time feedback
- Active and inactive segmentation

Live Tile Development Kit

Development kit enabling customers to create attention grabbing live tiles, delivering key information at a glance right in the app homescreen

- ReactJS based development kit
- Boiler plates get you started
- Utilizes familiar AEK mechanisms to manage creation and deployment

Connect Layer Extension Kit

Create your own services on the campusM Connect Layer

- Use existing infrastructure to access on premise services
- Secure and authenticated
- Web based interface to configure and manage custom services

AEK Native

Use native functions and features to enhance your AEK experiences and open up new opportunities to engage students

- AEK – Native middleware layer
- Create interactions using native functions
- GPS, Speed, Direction
iBeacons, Bluetooth
Camera

RESEARCH LAB

Smart Tags

User and customer definable tags to help target users with personalized, relevant service sand information

- Tag driven actions
- Student Profile View
- AEK attributable
- Extensible
Extract and modify through API

Surveys And Polling

Design and distribute surveys and polls through campusM to explicate knowledge and understanding from your end users

- Multi question surveys and poll delivered through App
- Easy to use interface for both creators and end users
- Targeted through profiles and roles, applicable for prospects, current students, visitors and alumni

Augmented Reality

Utilizing the latest AR and AI frameworks within native platform develop useful and relevant augmented reality experiences within campusM

- Location and resource availability AR
- Virtual notices and signage

Engagement Toolset

Features and tools to further engage your end users

- Activity feed interface for students
- Social Media Integrations
- Student Profile and App Introduction 'Wizard'
- In-app marketing and Ad campaigns

Additional Research Areas

Engagement Engine

business rule based workflow for automating engagements based on interactions, tags and analytics

Drag-n-Drop AEK

create powerful AEK interactions using drag and drop components
Creative studio for AEK

campusM Coach

AI and Machine learning technologies used to intelligently drive app interactions and encouraging interventions

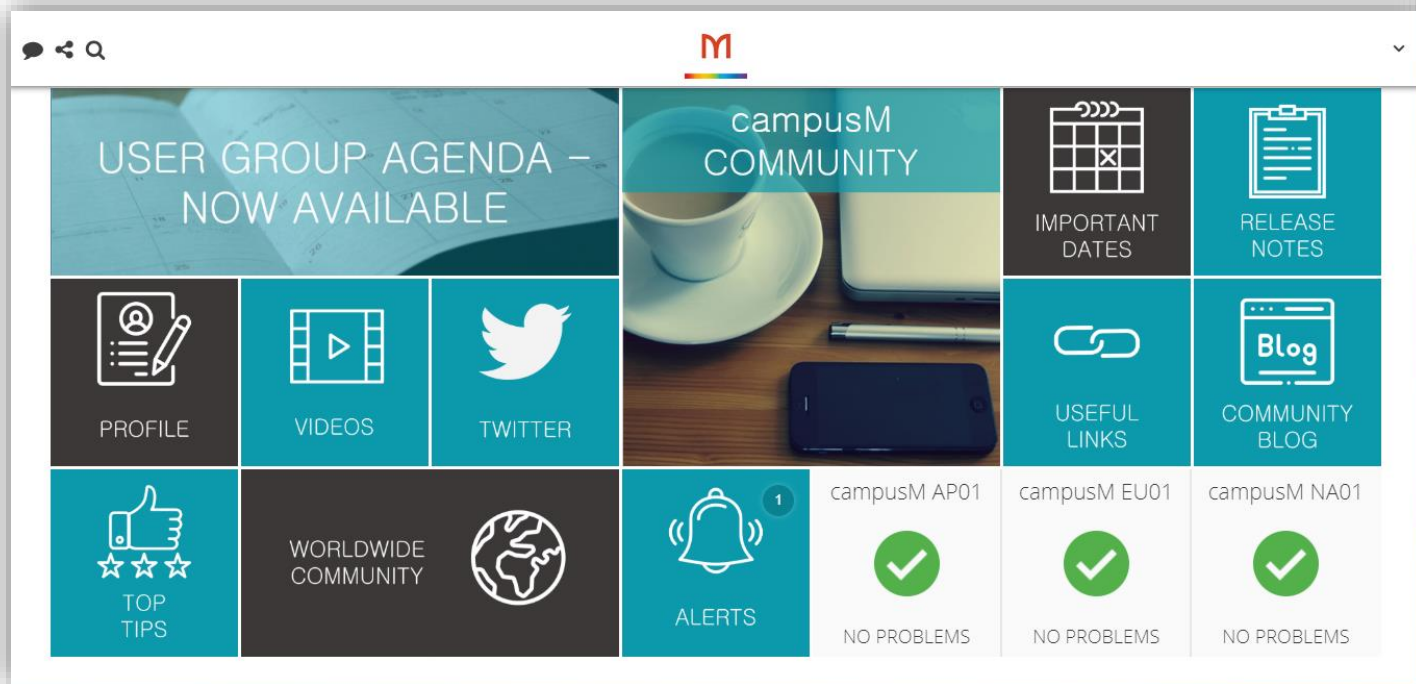

campusM Collaboration

discover and encourage collaborate networks and communications through campusM

AI App Manager

intelligent encouragement of app manager features to support app administrators to make the most of campusM

campusM Community App

Thank you!

campusM Attendance

A **complete solution** for tracking user's attendance while allowing the university to **comply with local regulations** and leverage insightful analytics to **deliver constructive intervention** for student success and engagement initiatives.

Why Attendance?

STUDENT SUCCESS

Clear, well documented link between **high attendance and student success**

Student success is intrinsically linked to **institutional ranking** and **student satisfaction**, key KPIs for HEI

REGULATIONS COMPLIANCE

Global interest in validating attendance for a range of **federal and funding compliance**

Linked to **professional 'Fitness to Practice'** requirements for a range of subject areas (Medicine, Engineering)

STRATEGIC PLANNING

Insight into attendance enables HEIs to **undertake resource and strategic planning**, indicating areas for investment and disinvestment

Workflow Overview

Reminder

Student receives reminder notification about upcoming classes

Check-in

Student triggers a check in using the campusM app interface

Validation

campusM uses the technologies available to validate the check-in

Upload

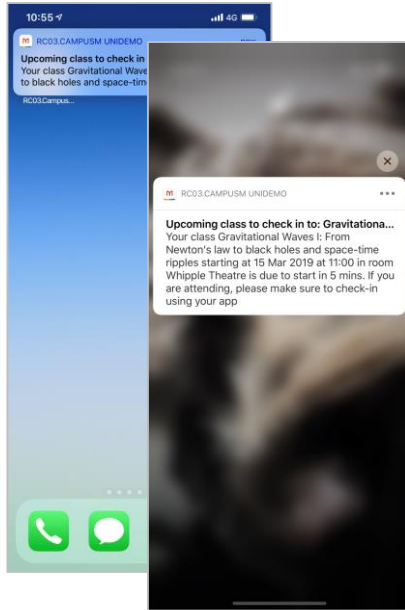

Check-in is uploaded to the cloud when the student is online

Extract

Customers extract check-in data using APIs, or view aggregated through OBI

Simplifying Classroom Attendance

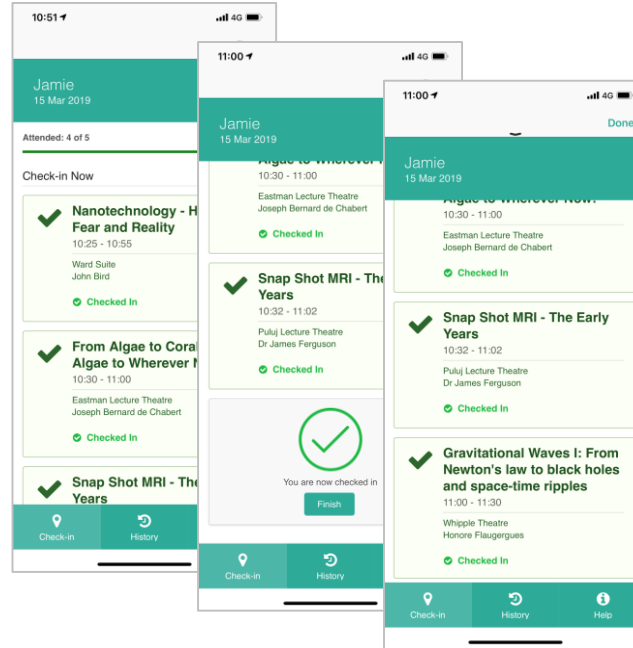

Reminder Notifications

Student receives helpful, personalised notifications supporting attendance in class

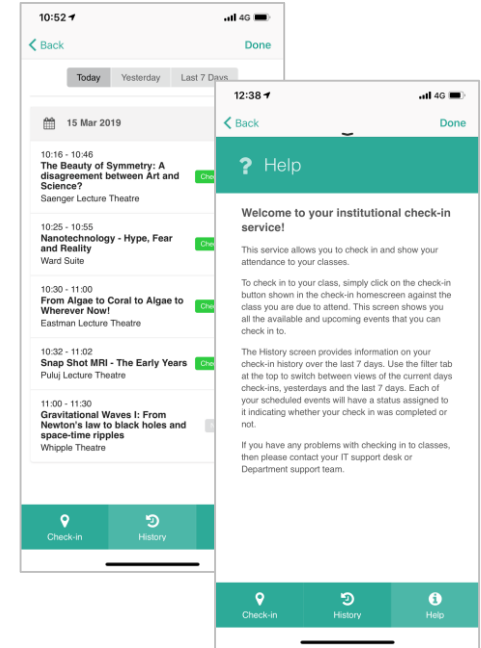

© 2018 Ex Libris | Confidential & Proprietary

Check-in

Simple, intuitive check-in experience delivered as an integral part of the campusM app

Check-in History

Real time access to check-in history and contextualised help to instil confidence with the process

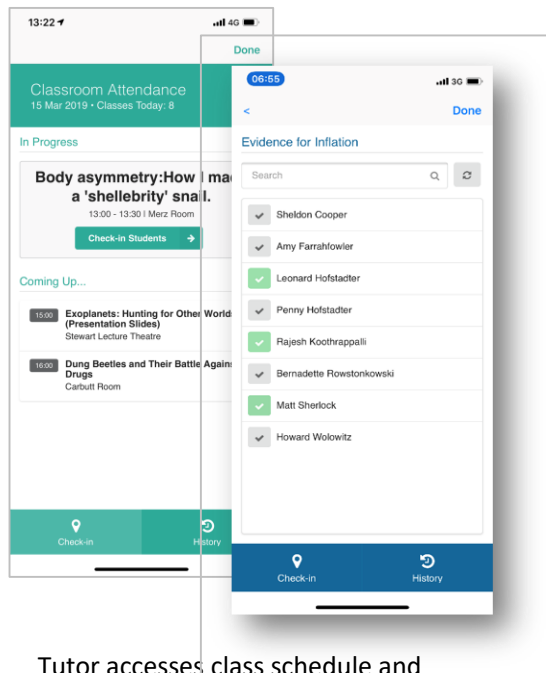

Tutor Experience

Single Interface

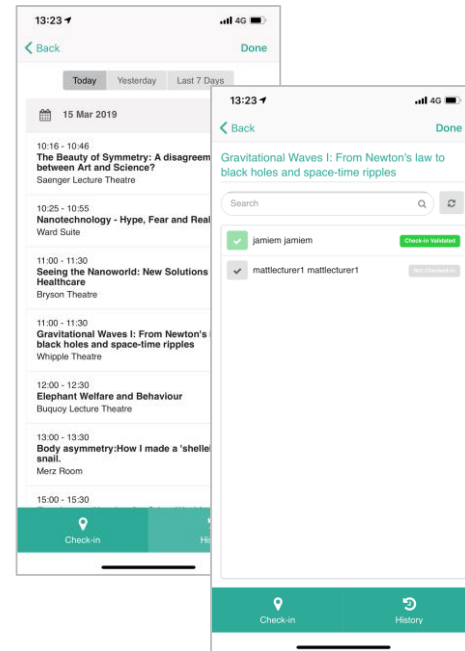

Tutor accesses campusM to view tutor group engagement and attendance

Check-in

Tutor accesses class schedule and student check-in status in real time through the app, checking students in if necessary

Check-in History

Historical access to check-in data for all their classes, with the ability to update records retrospectively

LIVE DEMO

Web Based Configuration

Check-in Window

Set the time to allow attendance recording.

Roles

Define the relevant groups for attendance recording.

Notifications

Create student notifications before and during class.

User Interface

Determine the look-n-feel and labels.

Validation Methods

Select from a predefined set of validation methods.

Localization

Change settings to match your region and language.

Development Roadmap

Zero-touch Check-in

device driven check-ins requiring minimal student interaction.

Ad-hoc Attendance Sessions

teaching sessions on the fly, capturing students on demand and in the field

Validation

Technologies

advanced technologies to enhance validation and simplify deployments.

Absence Check-in

allow students to indicate they are unable to attend.

Student Engagement

intervention and engagement features to support student retention

LIVE DEMO

Community Report

Alterline Customer Research Project

Understanding the digital lives of university students

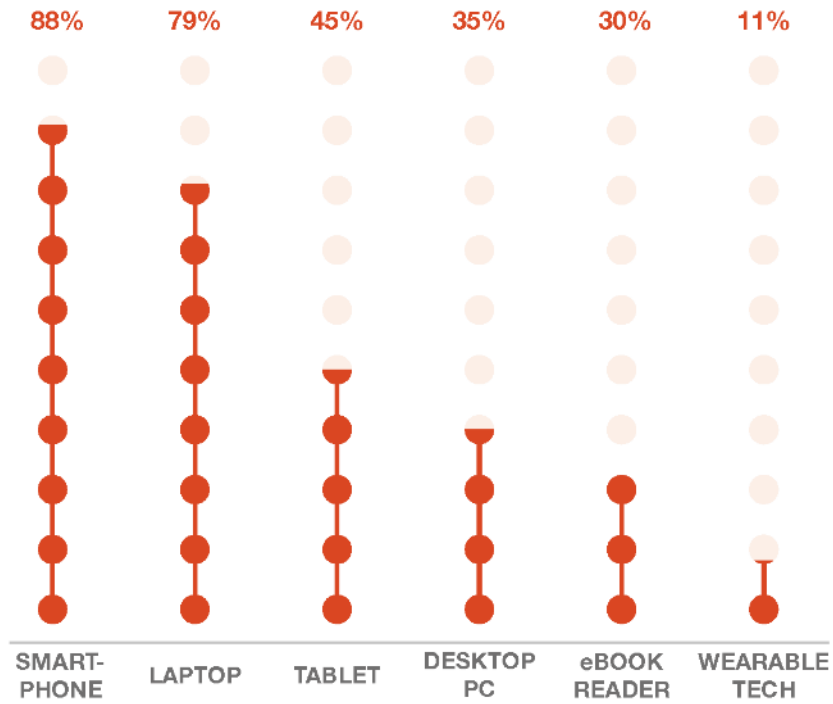

2017/18 research findings

Findings from the second year of an annual multi-institutional study into the behaviour and preferences of users of university digital devices and services.

Technology Usage

Proportion of students who own each device who use it at least once a day for university

Smartphone Ascendancy

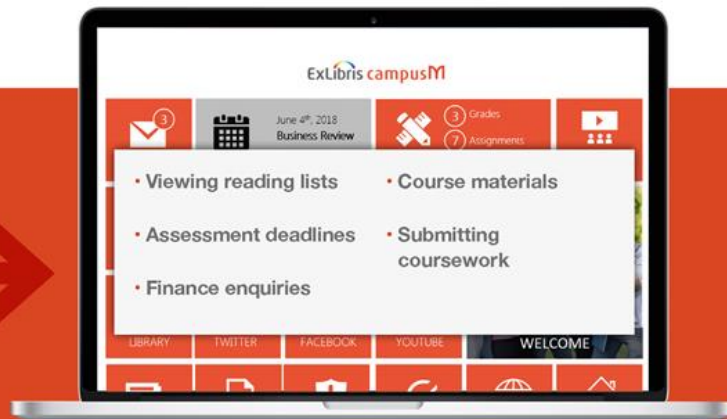

Percentage of students who own or regularly use device
 Percentage of device owners or users who say they can't live without it

Smartphones are preferred for activities that require a simple information check

Laptops are preferred for activities for tasks that require more time or attention

3 MOST IMPORTANT DIGITAL SERVICES ACCORDING TO STUDENTS

LECTURE RECORDINGS AND NOTES

INSTITUTIONAL MOBILE APP

ACCESSING THE COURSE TIMETABLE

THE STUDENT PORTAL

ACCESSING THE LIBRARY CATALOGUE

THE VIRTUAL LEARNING ENVIRONMENT

THE INSTITUTION WEBSITE

Students were asked which 3 digital services were most important to them. The above figures show the services that were most often selected as important, and the percentage of students who selected each service. Services that were seen as being less important were: Fee payments (9%), print credits (6%), managing student records (7%), student enquiries (9%), careers service (8%), and cashless payments (6%)

What features students want?

Alongside core features of the app, students see several others as vital, and many more as 'nice to have'

9 out of 10 students prefer a single app that covers all aspects of their studies (rather than multiple apps)

The majority of students are frequent users of the app: as shown in the figure below, almost two-thirds use it at least once a day.

38%

SAY THEY "COULD NOT MANAGE" WITHOUT THE APP

campusM – As recommended by your students

✓ WOULD RECOMMEND THE APP TO A FRIEND OR COURSEMATE

🕒 AGREE THAT IT SAVES THEM TIME

📖 SAY THAT THE APP ALLOWS THEM TO EASILY FIND INFORMATION

🏆 SAY IT HELPS THEM WITH THEIR STUDIES
