What's New – July 2019

Overview & Benefits

✓ Ability to delete user accounts

✓ Streamlined SSO Login and Automated Profile claiming

✓ OpenURL access to Full Text articles from profiles

- Pivot Administrators can now easily delete non-active users via the User Accounts report (previously this had to be done by Pivot Support)

- Users now have more clear options to use your institution's Single Sign On (SSO) authentication for accessing Pivot

- When users login into Pivot for the first time they will be automatically prompted to claim their profile (saves time and effort)

- Users can now access Full Text of articles from Profile publication lists by leveraging your organization's library link resolver

New: Ability to Delete User Accounts

Select **User Accounts** report from the Admin Dashboard

Select Delete icon to delete a user's account

Notes on Deleting User Accounts

- Removing a user deletes their account from the institution's Pivot service
  - This action cannot be undone
  - The user will no longer be able to access Pivot through your institution
  - The user will no longer show up in any reports

- Removing a user <u>does not automatically delete their</u> **Profile** <u>from Pivot</u>

- Pivot editors will review removed users and will unaffiliate a user from your institution if they determine the user should no longer be affiliated with your institution

Streamlined SSO login option

Log in **Sign up**

Now when users click "Sign up" they are brought to the new Create Account page where it is clear they can use **either** their Institutional login **or** create an account with a username/password

pivot™

Create your Pivot Account

You must be affiliated with an institution that subscribes to Pivot in order to create an account.
There are two ways to create an account and access Pivot. Some institutions allow you to use your institutional login credentials, **or** you may use your institutional email address as your user ID and create a password of your choosing.

Choose an option below. Once your account is created, you will receive a verification email.

Use Institutional Login Credentials   OR   **Use Email Address/Create Password**

Already have an account? **Log in here**

This page can also be access directly at https://pivot.proquest.com/register

Notes on Single Sign On (SSO) Authentication

Log in with your institution   ×

Choose your Institution

[▼]

If your institution is not listed sign up using your institution email

Create my account

The first time after logging in with your institutional credentials you will be prompted to verify your name, institutional email address, and accept our privacy consent
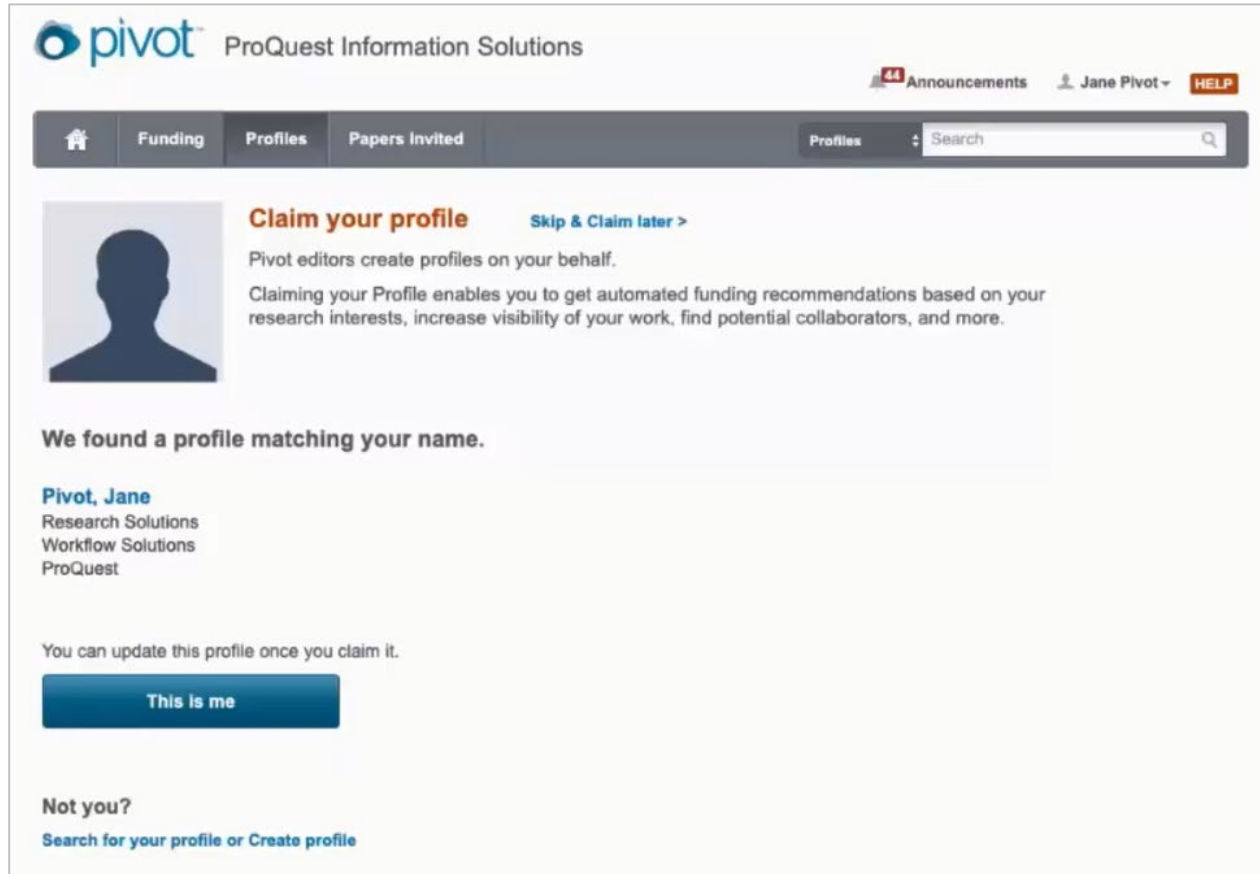

Your institution must first be set-up with SSO integration in Pivot for your users to be able to use institutional login as an option

- If you would like to enable SSO as an option for your users, please send a request for SSO integration to Support: https://supportcase.exlibrisgroup.com/?product=Pivot or email Pivot.Support@exlibrisgroup.com

New: Streamlined Claim Your Profile workflow

For first time users

After a user creates an account and logs in for the first time, Pivot will automatically search for their profile and prompt the user to claim their profile

Streamlined Claim Your Profile workflow

Note: If more than one potential profile match exists, users will be directed to a page to select the appropriate profile from the list of matches.

If no potential profile exists, users will be prompted to create a profile

Users are not required to Claim a Profile
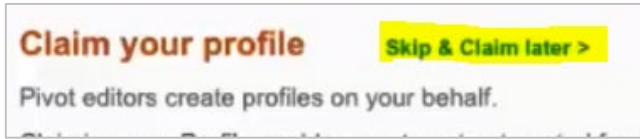

Though not required, it is highly recommended that users claim a profile. Claiming a profile allows users to get automated Pivot Advisor recommendations.

Claim your profile Skip & Claim later >

Pivot editors create profiles on your behalf.

Users can skip the profile claim process if desired and can always claim a profile later by navigating to "claim profile" under the personal navigation menu under their name

New: Full Text Linking for Articles on Profiles

From any article on a profile publication list, select the magnifying glass to view the abstract of the article.

Scroll to the bottom of the abstract and select
Check for Full Text

Your library's link resolver will open in a new tab and will direct you to the full text of the article if your institution provides access

**Contingency theory, climate change, and low-carbon operations management**

management, adoption of low-carbon operations practices and benefits from this process; the discovery that an adequate low-carbon management structure is vital to improve the organisations' perceptions of potential benefits from a low-carbon strategy; low-carbon management initiatives tend to emerge from an organisation's existing environmental management systems; and controlling and monitoring climate contingencies at the supply chain level should be permanent and systematic. Originality/value Based on the knowledge of the authors, to date, this work is the first piece of research that deals with the complexity of putting together contingency theory, climate-change contingencies at the supply chain level, organisational structure for low-carbon management and low-carbon operations management practices and benefits. This research also highlights evidence from an emerging economy and registers future research propositions.

# Full Text Linking for Articles via OpenURL link resolver

The link resolver or article will open in a new tab

Your institution's link resolver will look and behave differently depending on your library's link resolver vendor, customizations and configurations

The user will either be presented directly with the full text of the article, or, presented with a link resolver screen (such as the example at left) with links to get to the full text

If the user is outside your organization's IP range, they may be prompted for authentication to access the article

ExLibris

Configuring Full Text Linking for Articles
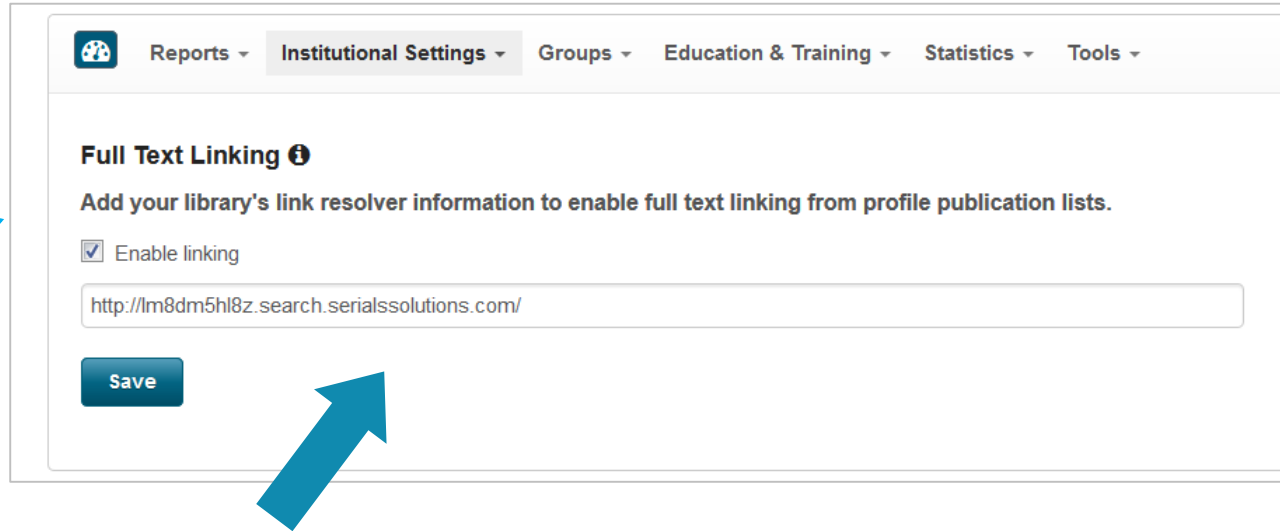

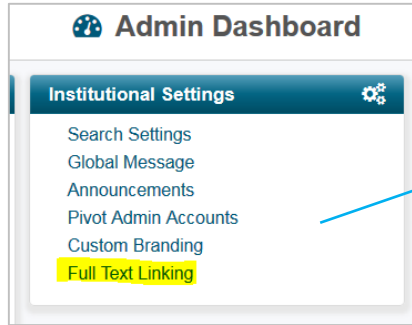

From the Admin Dashboard select **Full Text Linking** and enter your library's unique OpenURL "link resolver" base URL

If you don't know this URL, ask your library to provide it to you.
If you know your library uses Ex Libris products for linking, you can also contact our Support team for assistance.

Note: Full Text Linking Admin Setting

Only Pivot administrators who have "manage Full Text URLs" privileges can enter the configuration details for the OpenURL resolver.

If you are not seeing the ability to enable Full Text Linking be sure that you have this check box selected as an Admin privilege.
