

Leganto Release Notes - August 2019

Main Enhancements

Translating Notifications

August 2019 Fulfillment - Course Reserves SF: 00624647 00636708

You can now translate the recent changes (in Leganto, these are notifications) in the System Event Types code table. See [Translating Notifications](#).

Rolling Over Reading Lists From the Quick Start Welcome Screen

August 2019 Leganto SF: 00588857

When enabled by your library, then when an instructor logs into Leganto using a course link to a course that does not exist in Alma, or that exists but does not have reading lists, the instructor can now roll over all reading lists from another course to this one, directly from the Quick Start Welcome Screen. This rollover operates like the usual instructor rollover, but rolls over all reading lists, instead of just one. (If the course does not yet exist, the instructor is first offered the opportunity to create it.)

Instructor Welcome Screen

After the instructor selects **Roll Over**, the instructor can select the course from which to copy reading lists and select **Continue**.

Instructor Welcome Screen

The instructor continues with the instructor rollover as usual, except that all reading lists of the source course are rolled over. For more information, see [Rolling Over Courses](#) and [Leganto Course Rollover](#).

Leganto Moodle Block

August 2019 Alma SF: 00684427

Ex Libris has created a Moodle block that displays the reading lists for the course you are currently viewing.

Leganto Moodle Block in Moodle

Ex Libris' development includes a configuration screen within Moodle. For details, see [the Developer's Network](#).

Leganto

Block Title Default: Reading Lists
leganto | blockTitle
 The title of the block as it appears to users in Moodle

Message to display when no list available Default: No Reading List Found
leganto | noListAvailable
 The text of the message to display when there are no lists available

Open list in new window Default: Yes
leganto | openNewWindow

Also display unpublished lists Default: No
leganto | publishedListsOnly

Sort Lists By Default: Name
leganto | sortBy

Sort Order Default: Ascending
leganto | sortDir

Alma API URL Default: https://api-eu.hosted.exlibrisgroup.com
leganto | almaApiUrl
 For example: https://api-eu.hosted.exlibrisgroup.com

API Key
leganto | apiKey
 Your Alma API key

Normalization code Default: Empty
leganto | listProfile

Permalink Base URL
leganto | permalinkBaseUrl
 For example: https://mydomain.com

Alma Institution Code
leganto | institutionCode

Leganto Moodle Block Configuration in Moodle

Non-Funded PPU Licenses (Leganto)

August 2019 Leganto

If you are at a US institutions, your library may have enabled non-funded PPU licenses. This enables students to purchase access to citations directly from Leganto. For more information on these, see [Purchasing Citations](#) in the Leganto User Interface Guide.

Non-Funded PPU Licenses (Alma)

August 2019 Alma

US institutions can now enable non-funded PPU licenses when working with the CCC. This feature was removed several months ago, but is now restored. To enable non-funded licenses, you must a) ask Ex Libris to enable them for your institution, and b) select that you agree to the terms of service in the PPU Non-Funded Agreement page. See [Enabling Integration with the CCC](#) for more information about enabling this feature, and the rest of the [Clearing Copyrights Through the Copyright Clearance Center](#) documentation for information about how to work with non-funded licenses.

Additional Enhancements

- **August 2019 Fulfillment - Course Reserves SF: 00629342 00636801 00637272 00673661**
 In any persistent or secondary search, unlike other searches, a search for course code, course name, reading list code, or reading list name a) also searches for special characters (such as commas and dashes), and b) is limited to a search string of 40 characters, regardless of the size of the entity being searched.
- **August 2019 Alma SF: 00465560**
 In Leganto Analytics:

- Course association and remove course association are now two separate events. The remove from course association event contains <removed course>:<course section>. "Reassociate" is no longer an event. See [Instructor Usage Events](#).
- **Leganto Citation Library discussion last update** was added to the Course Reserves subject area.
- **August 2019 Alma SF: 00475852**
Previously, when exporting a reading list to Word (not **Expanded Reading List Style**), the citations were sorted in the order of the list. Set the new parameter **citation_export_style_order** to **natural** to export the citations in the order determined by the style definition (either citation title, citation author, or as otherwise defined for the style). Set the parameter to **list** to export the citations in the same order as they appear in the list. See [Configuring the Default Reading List Sort Order for Instructors and Students](#).
- **August 2019 Alma SF: 00588857**
To enable instructors to roll over a course's reading lists on the Quick Start Welcome screen, set the parameter **cms_entry_actions** to **all** or include the (new for this release) value **rollover**. See [Enabling Instructor Rollover](#).
- **August 2019 Leganto SF: 00595696**
The Swedish National Catalog is now a supported Cite It! site (as **Libris Catalog**).
- **August 2019 Leganto**

Idea Exchange

After duplicating a list, Leganto now displays the new list. Previously, Leganto continued to display the old list.

- **August 2019 Alma SF: 00594804 00642860 00675667**
The labels **guest_search_page_header** and **welcome.title.description** now support HTML. See [Configuring Headings and Text in Leganto](#).
- **August 2019 Alma SF: 00591717**
When **force_direct_uresolver** is enabled, selecting **View Online** now appears for digital citations, as well as for electronic citations. Selecting this for a digital citation opens the first digital representation.
- **August 2019 Alma SF: 00607803**
When configuring self-registration for an LTI profile, you can now select which user ID is used by the users who are logging in. See [Configuring Learning Tools Interoperability \(LTI\)](#). Note that, when you want to mark an LTI profile as "open course", you no longer select **For non institution users**. Instead, select **LTI id of self registered** as the user ID type (this option must be enabled by Ex Libris).
- **August 2019 Alma**
You can disable the Welcome screen that appears when a user first logs into Leganto using the **welcome_screen** parameter. You can also disable the Quick Start Welcome screens when an instructor logs in from the CMS using a course link to a course that does not exist in Alma or does not have any reading lists using the **quickstart_screen_instructor** parameter. See [Enabling or Disabling the Welcome Screen](#).
- **August 2019 Leganto SF: 00475152**
My Lists was sometimes slow to load. My Lists now uses pagination. If you have more than 10 lists, the next ten reading lists are not loaded until you scroll down. Note that sorting, searching, and filtering still operates over the entire list of reading lists, and not only the reading lists that are currently visible.
- **August 2019 Leganto SF: 00595116**
Until now, you could only edit course information at the time that you were associating the course to the reading list. An instructor can now edit the existing course's information from the Manage Course Association pane. (Note that the ability for an instructor to modify course information must be enabled for the institution, as usual.)

Manage Course Association Pane

- **August 2019 Leganto SF: 00499014 00528703**

The **Publication Date**, **Publisher**, and **Place of Publication** fields were move to the top section when manually adding a book chapter citation in Leganto.

Create Citation Pane

Resolved Issues

- **August 2019 Fulfillment - Course Reserves SF: 00666597**
When exporting the Citation Alternate Suggestion job report, the column **Reading List Code** should have been **Reading List Name**. This was fixed for all new job reports. Note that old job reports continue to have this error.
- **August 2019 Fulfillment - Course Reserves SF: 00638955**
The Edit Citations page was slow to load. This was fixed.
- **August 2019 Fulfillment - Course Reserves SF: 00614085**
When using the course loading profile to rollover courses, when **On Rollover Overwrite Course Instructors** was selected but there were empty fields in the loader file, instructors were copied to the new course, anyway. This was fixed.
- **August 2019 Fulfillment - Course Reserves SF: 00689829**
In the citation purchasing rules, the **Item to Student Ratio** parameter did not work correctly. This was fixed.
- **August 2019 Leganto SF: 00683680**
When a reading list was deleted, a notification was not sent to collaborators. This was fixed.
- **August 2019 Leganto SF: 00590059**
When a user arrived at Leganto from a CMS using a course link, and reset the course filter, the filter was reset to the course when reloading the My Lists page. This was fixed.
- **August 2019 Leganto SF: 00619291**
Filtering by tag in Leganto only filtered the currently visible citations. This was fixed.
- **August 2019 Leganto SF: 00549553**
Searching Leganto from Primo is slow. This was fixed.
- **August 2019 Leganto SF: 00591935 00641707**
When adding a citation from Primo VE, dedup'd records were not considered, as they were with Primo. In other words, adding a physical item from Primo VE that also had electronic availability did not add the electronic availability, and vice versa. This was fixed.
- **August 2019 Leganto SF: 00634293**
There were some display issues in specific browsers and screen sizes. These were fixed.
- **August 2019 Leganto SF: 00659345**
Leganto sometimes displayed incorrect holdings. This was fixed.
- **August 2019 Leganto SF: 00576062**
Leganto displayed expired users when searching for collaborators. This was fixed.
- **August 2019 Leganto SF: 00633081**
Related Items sometimes appeared for an item in one course, but not for the same item in a different course. This was fixed.
- **August 2019 Leganto SF: 00554092**
When exporting to Word APA format, an author (other than the first) with a hyphen in the name was exported incorrectly. This was fixed.
- **August 2019 Leganto SF: 00632608**
Export to PDF did not handle special characters well. This was fixed.
- **August 2019 Leganto SF: 00655023**
In My Lists the order of the reading lists when filtering by a course was unexpected. This was fixed, and it is now alphabetical by reading list name.
- **August 2019 Leganto SF: 00630188**
When trying to change the list title in Leganto, the change was not saved if Alma was open in another tab in Spanish. This was fixed.
- **August 2019 Leganto**
When the visibility of a list enabled guests to view the list but not the course materials, the guest still had access to the course materials. This was fixed.
- **August 2019 Leganto SF: 00644854**
Adding a tag in Leganto did not update the citation's modification date. This was fixed.

- **August 2019 Leganto SF: 00665945 00700174**
When a user was logged into Primo VE, searching Primo VE in Leganto did not retrieve the correct results. This was fixed.
- **August 2019 Leganto SF: 00678377**
Guest users could not see the course details of a list in the Find Lists screen. This was fixed.
- **August 2019 Leganto SF: 00627054**
If you refreshed the page in Leganto, Other Formats and Editions disappeared. This was fixed.
- **August 2019 Leganto SF: 00680617**
In Leganto, there was a display issue with the Add Subjects dropdown and the search field. This was fixed.
- **August 2019 Leganto SF: 00672890 00693804**
When hiding links in Leganto, Leganto only displayed that the link was hidden for the first link. This was fixed.
- **August 2019 Alma SF: 00681653**
When **force_direct_resolver** was enabled, when viewing citations on the Edit Citations or Edit Reading List page, selecting to view Link Resolver links from the Other citation tab of a citation sometimes opened the first link, instead of opening the page with the list of links. This was fixed.
- **August 2019 Leganto**
In Leganto, if the menu extended below the bottom of the page, you could not scroll down to see the rest of the menu. This was fixed.
- **August 2019 Leganto SF: 00683020**
When exporting a reading list to an RIS file, the metadata was not mapped to the correct fields. This was fixed.
- **August 2019 Leganto SF: 00683020**
When working with multiple courses associated to a reading list, only the instructors in the first course received the Instructor privilege when arriving from the CMS. This was fixed.
- **August 2019 Alma**
When enabling customization, the background color of the left panel did not always appear with the correct color according to the configuration. This was fixed.
