About This Document

Purpose

This document provides instructions for working with Voyager Media Scheduling.

Intended Audience

This document is intended for Voyager customers who use the features and functions provided in Voyager Media Scheduling.

Reason for Reissue

This user's guide incorporates and is being reissued for the following reasons:

- Updated [Table 2-13](#) on [page 2-63](#) with information regarding the new **Display warning on module close** option in Media Scheduling preferences (**Tools>Options**).

Document Summary

This document consists of the following components.

Chapter 1	“Getting Started” Chapter 1 provides an overview of Voyager Media Scheduling, software installation instructions, and logging in/exiting the client.
Chapter 2	“Common Functions & Features” Chapter 2 describes the functions and features that are common throughout Voyager Media Scheduling.
Chapter 3	“Standard Monitor - Inventory” Chapter 3 describes how to use the Inventory functions and features within Voyager Media Scheduling.
Chapter 4	“Standard Monitor - Schedule” Chapter 4 describes how to use the Scheduling functions and features within Voyager Media Scheduling.
Chapter 5	“Standard Monitor - Bookings” Chapter 5 describes how to use the Bookings functions and features within Voyager Media Scheduling.
Chapter 6	“Standard Monitor - Staffing” Chapter 6 describes how to use the Staffing functions and features within Voyager Media Scheduling.
Chapter 7	“Schedule Monitor” Chapter 7 describes how to use the Schedule Monitor functions and features within Voyager Media Scheduling.
Index	The Index is an alphabetical, detailed cross-reference of topics.

Conventions Used in This Document

The following conventions are used throughout this document:

- Names of commands, variables, stanzas, files, and paths (such as `/dev/tmp`), as well as selectors and typed user input, are displayed in `constant width` type.
- Commands or other keyboard input that must be typed exactly as presented are displayed in **constant width bold** type.
- Commands or other keyboard input that must be supplied by the user are displayed in **constant width bold italic** type.
- System-generated responses such as error messages are displayed in `constant width` type.

- Variable *portions* of system-generated responses are displayed in *constant width italic* type.
- Keyboard commands (such as **Ctrl** and **Enter**) are displayed in **bold**.
- Required keyboard input such as “Enter **vi**” is displayed in **constant width bold** type.
- Place holders for variable portions of user-defined input such as **ls -l filename** are displayed in *italicized constant width bold* type.
- The names of menus or status display pages and required selections from menus or status display pages such as “From the **Applications** drop-down menu, select **System-wide**,” are displayed in **bold** type.
- Object names on a window’s interface, such as the **Description** field, the **OK** button, and the **Metadata** tab, are displayed in **bold** type.
- The titles of documents such as *Acquisitions User’s Guide* are displayed in *italic* type.
- Caution, and important notices are displayed with a distinctive label such as the following:

NOTE:

Extra information pertinent to the topic.

**IMPORTANT:**

Information you should consider before making a decision or configuration.

**CAUTION:**

Information you must consider before making a decision, due to potential loss of data or system malfunction involved.

**TIP:**

Helpful hints you might want to consider before making a decision.

RECOMMENDED:

Preferred course of action.

OPTIONAL:

Indicates course of action which is not required, but may be taken to suit your library’s preferences or requirements.

Document Reproduction/Photocopying

Photocopying the documentation is allowed under your contract with Ex Libris (USA) Inc. It is stated below:

All documentation is subject to U.S. copyright protection. CUSTOMER may copy the printed documentation only in reasonable quantities to aid the employees in their use of the SOFTWARE. Limited portions of documentation, relating only to the public access catalog, may be copied for use in patron instruction.

Comment on This Document

To provide feedback regarding this document, use the Ex Libris eService or send your comments in an e-mail message to docmanager@exlibrisgroup.com.

Introduction

The Voyager® Media Scheduling module allows you to perform media-related activities for your library including scheduling rooms and media for use by patrons and media and room record maintenance. You can access the Media Scheduling functions from the toolbar, from the menus, or from the various task windows.

This chapter describes prerequisite information necessary for beginning work with Voyager Media Scheduling.

For information on customizing the setup of Voyager Media Scheduling, see *Voyager Media System Administration User's Guide*.

Purpose of this Chapter

The purpose of this chapter is to provide the following:

- Prerequisites for working with Voyager Media Scheduling
- Software download and installation instructions
- How to log in to and exit Voyager Media Scheduling
- Description of common conventions

Prerequisite Skills and Knowledge

To use this document effectively, you need knowledge of the following:

- Basic Microsoft® interface navigation
- Basic Voyager Media System Administration
- Basic knowledge of MARC record formats for bibliographic searching

About the Documentation

The Voyager documentation is divided into online help and manuals. Both types of documentation are designed to work together to provide you with the information you need when you need it. The online help provides context-sensitive information. You can access context-sensitive, online help within any Voyager window or dialog box by pressing the F1 function key (**F1**) on your keyboard. The manuals are designed to cover the applications in greater detail including figures, advanced topics, and cross references.

Conventions

The Media Scheduling software utilizes the following conventions which are described in more detail in this chapter:

- A variety of windows and dialog boxes for the user interface
- Special buttons (see [Special Buttons](#) on [page 1-2](#))
- Keyboard functions
- Menu bar options

Special Buttons

Some Voyager fields have special buttons. These special buttons are the ellipsis button and the drop-down arrow.

Figure 1-1. Ellipsis Button

Ellipsis buttons (see [Figure 1-1](#)) indicate that additional information is available, either in a new dialog box or in an expanded text box. Click the ellipsis button to access the additional information.

Figure 1-2. Drop-down Arrow Button

Drop-down arrow buttons (see [Figure 1-2](#)) indicate that a selection must be made from certain existing categories which are usually specified in the System Administration module. To access these categories, click the drop-down arrow button once. Click the appropriate category to select it.

A row label is the grey, left column on a grid. You can select a row label by clicking the row label that you want to select. Once selected, the row label displays a black triangle and is usually highlighted.

Keyboard Equivalents

This section describes the following:

- Keyboard equivalents for selecting options
- Keyboard equivalents for entering information

Selecting Options

Main menu selections also have corresponding keyboard equivalents.

For example if you want to create a new piece of equipment from the File menu in the Media Scheduling main menu, you can do the following.

Select **File > New > Inventory > Equipment**

Or

Press **Alt + f + n + i + e**

Most of the Voyager Media Scheduling activities can be accessed using the keyboard. When you see a word with an underlined letter, press **Alt** and the underlined letter to select the activity. In addition, some of the activities can be accessed using the control key (**Ctrl**) + designated letter.

All of the keyboard shortcuts display on the menus.

Entering Information

You can use the **tab** key to move through the dialog box fields. To tab in the reverse direction press Shift + the tab key.

TIP:

You can use this same method to access the radio buttons.

Press the **F4** (or **F8** in some instances) function key to display the drop-down arrow selections.

The **F4** (or **F8**) function key activates the ellipsis button (if the criteria you selected in the previous fields results in an ellipsis button).

Use your keyboard arrows to move through the list of options. Use the up and down arrow to select a radio button.

Use your space bar to highlight the option if the results display in a list box with a header.

Font Display Considerations

Avoid the use of large fonts to insure proper display of Media Scheduling's screens and data.

Media Client Software Installation

The Media client software resides on the user's PC along with the other Voyager clients. For installation options and instructions, see:

- [Client Installation Options](#) on [page 1-5](#)
- [Transition Considerations for AutoUpdate](#) on [page 1-5](#)
- [Downloading the Media Client](#) on [page 1-6](#)
- [Installing Media Clients Using the Manual Method](#) on [page 1-6](#)
- [Uninstalling the Media Clients](#) on [page 1-9](#)
- [The Voyager.ini File](#) on [page 1-10](#)

Client Installation Options

With Voyager 8.0, you have the following options for installing the Media client software on users' PCs:

- Traditional (manual method)
See [Downloading the Media Client](#) on [page 1-6](#) and [Installing Media Clients Using the Manual Method](#) on [page 1-6](#).
- Automated
See [\[Upgrade\] Stanza - Voyager 7](#) on [page 1-11](#).

Once you have downloaded the Media client software to users' PCs, you have the option to configure AutoUpdate, a new client installation option, for subsequent releases of Media client software. See [\[Upgrade\] Stanza - Voyager 8 and Later](#) on [page 1-15](#).

IMPORTANT:

With the Voyager 8.0 release of client software, the [Upgrade] stanza (in the Voyager.ini file) is being repurposed. If you use the Voyager 7 automated method of installing the Media client and want to use the Voyager 8 AutoUpdate method, you must configure the Voyager 8 [Upgrade] stanza using the instructions provided in [\[Upgrade\] Stanza - Voyager 8 and Later](#) on [page 1-15](#). For additional information regarding this change, see [Transition Considerations for AutoUpdate](#) on [page 1-5](#).

Transition Considerations for AutoUpdate

With Voyager 8.0, the transition to the AutoUpdate method for the automatic downloading of the Media client to the users' PCs begins. The workflow for this transition is as follows:

1. Download the Media client using the same methods available with Voyager 7.
2. Modify the [Upgrade] stanza in the Voyager.ini file as defined in [\[Upgrade\] Stanza - Voyager 8 and Later](#) on [page 1-15](#).

This enables the PC to AutoUpdate the next version of Voyager 8.x software.

3. Download the Media client available after Voyager 8.0 using the AutoUpdate capability.

Downloading the Media Client

The Media client files are packaged in the following .exe and .msi executable files:

- `VoyagerMedia.exe`
This installation method requires administrator privileges.
- `VoyagerMedia.msi` (Windows installer package version)
In a Windows XP environment, the .msi method of installation does not require administrator privileges to complete the installation process.

NOTE:

For Vista and Windows 7, administrator privileges are required for either method of installation, .exe or .msi.

The executable files may be downloaded to your Voyager server from the Ex Libris FTP server. See [File Transfer Protocol \(FTP\) - Voyager Client Installations](#) on [page 1-17](#) for instructions regarding the FTP process. Once you have downloaded one of the Media client installation executable files, begin the installation process using the instructions in [Installing Media Clients Using the Manual Method](#) on [page 1-6](#).

Installing Media Clients Using the Manual Method

The procedure for the manual method of installing the Media clients using the `VoyagerMedia.exe` installation file, for example, is shown in [Procedure 1-1, Installing the Media Clients](#).

Procedure 1-1. Installing the Media Clients

Use the following to install the Media clients on a user's computer using the `VoyagerMedia.exe` installation file.

1. Double-click the `VoyagerMedia.exe` installation file that you saved.

Result: The Windows Installer extracts the necessary files and displays the setup **Welcome** dialog box.

2. Read the setup Welcome information, and click the **Next** button when you are ready.

Result: The **User Information** dialog box opens. See [Figure 1-3](#).

The image shows a Windows-style dialog box titled "User Information". At the top left, the title "User Information" is displayed in bold. Below the title, a subtitle reads "Enter the following information to personalize your installation." In the top right corner, there is a small icon of a CD-ROM. The main area of the dialog contains two text input fields: "Full Name:" with the text "John Hancock" and "Organization:" with the text "ABC University". Below these fields, a paragraph of text explains that settings can be installed for the current user or for all users, and that administrator rights are required for the latter. Two radio buttons are present: "Anyone who uses this computer" (which is selected) and "Only for me". At the bottom right, there are three buttons: "< Back", "Next >", and "Cancel".

Figure 1-3. User Information dialog box

NOTE:

[Figure 1-3](#) illustrates the **User Information** dialog box presented to a user with administrator privileges. See [Figure 1-4](#) for an example of the **User Information** dialog box displayed for users without administrator privileges (using the `VoyagerMedia.msi` installation method).

Figure 1-4. User Information dialog box without administrator privileges

3. Enter Full Name, Organization, and select one of the following:
 - Anyone who uses this computer
 - Only for me

4. Click **Next**.

Result: The **Destination Folder** dialog box opens.

5. Identify the Destination Folder. The default folder for installation is C:\Voyager.
 - a. If this is the directory you want, click the **Next>** button.
 - b. If this is not the directory you want, click the **Browse** button and navigate to the correct directory and then click the **Next>** button.

Result: The directory into which the clients are installed is defined and the **Ready to install the Application** dialog box opens warning the user that files may be overwritten.

6. Click the **Next** button.

Result: The installation begins.

7. When the installation has successfully completed, a dialog box displays with a **successfully installed** message.
8. Click the **Finish** button to exit the installation program.

Result: The Media clients are installed.

9. Edit the `voyager.ini` file to include the appropriate server and port information for Media Scheduling. See [The Voyager.ini File](#) on [page 1-10](#) for more information.

Result: The `voyager.ini` file has been customized for Media Scheduling.

Uninstalling the Media Clients

If uninstalling the Media clients is required, you should use the Windows function for this, not the Media installation program.

The procedure for uninstalling the Media clients is shown in [Procedure 1-2, Uninstalling Voyager Clients](#).

Procedure 1-2. Uninstalling Voyager Clients

Use the following to uninstall the Media clients.

1. Access the Windows Control Panel and select/open **Add/Remove** programs. See [Figure 1-5](#).

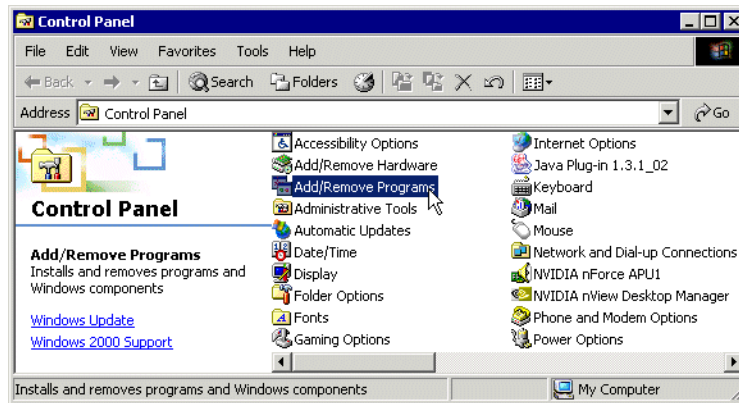

Figure 1-5. Control Panel with Add/Remove Programs Selected

Result: The **Add/Remove** dialog box displays.

2. Select VoyagerMedia and click the **Remove** button.

Result: The system asks for confirmation before removing the program.

3. Click **Yes** to remove VoyagerMedia.

Result: VoyagerMedia is removed and the **Add/Programs** dialog box updates.

4. Close the **Add/Remove** dialog box.

Result: VoyagerMedia is uninstalled.

The Voyager.ini File

The `Voyager.ini` file is an initialization file that contains important connection information that enables the Media client to access the server (see the [\[MediaScheduling\] Stanza](#) on [page 1-11](#)).

Also in the `Voyager.ini` file, you need to configure the `[Upgrade]` stanza (see the [\[Upgrade\] Stanza - Voyager 7](#) on [page 1-11](#) or [\[Upgrade\] Stanza - Voyager 8 and Later](#) on [page 1-15](#)).

[MediaScheduling] Stanza

Confirm that the [MediaScheduling] stanza (see [Figure 1-6](#)) in the `Voyager.ini` file has been configured with the appropriate settings. See [Table 1-1](#) for a description of these settings.

```
[MediaScheduling]
Server=xxx.xxx.xxx.xxx
Port=7085
Timeout=60
```

Figure 1-6. Media Scheduling stanza

Table 1-1. Module Stanza Parameters

Parameter	Description
Server= <i>value</i>	This parameter contains the IP address of the server.
Port= <i>value</i>	This parameter corresponds to the designated port, as defined by the <code>/etc/services</code> file on the Voyager server.
Timeout= <i>value</i>	This parameter specifies the number of seconds that are allowed to elapse while attempting to connect the client to the Voyager server. The default is 60 seconds.

During the `VoyagerInstall.exe` installation process, the `Voyager.ini` file is placed in the same directory as the Voyager core and extension module clients. This is typically the `c:\Voyager` directory.

NOTE:

The `Voyager.ini` file is overwritten each time the installation executable file is run.

[Upgrade] Stanza - Voyager 7

The Voyager 7 [Upgrade] stanza provides the facility for automating the download of client software to a user's PC when a newer version is detected by the user's PC.

The [Upgrade] stanza contains the following parameters:

- Voyager=
- Media=

The Media= parameter is used to initiate the download and installation of new Media Scheduling software.

Your system administrator needs to provide you with the content/format of the parameter option that is specific to your site for accessing the client installation from a server. This points to the location of the installation software. See the examples in [Figure 1-7](#), [Figure 1-8](#), [Figure 1-9](#), and [Figure 1-10](#).

```
[Upgrade]
Voyager=\\Voyager\Installs\VoyagerInstall.exe
Media=\\Voyager\Installs\VoyagerMedia.exe
```

Figure 1-7. [Upgrade] stanza example using a valid UNC resource path

```
[Upgrade]
Voyager=http://10.102.100.91:37908/VoyagerInstall.exe
Media=http://10.102.100.91:37908/MediaInstall.exe
```

Figure 1-8. [Upgrade] stanza example using an http resource

```
[Upgrade]
Voyager=ftp://username:password@10.102.100.91/m1/voyager/clients/VoyagerIn-
stall.exe
Media=ftp://username:password@10.102.100.91/m1/voyager/clients/MediaIn-
stall.exe
```

Figure 1-9. [Upgrade] stanza example using an ftp resource

```
[Upgrade]
Voyager=\\Voyager\Installs\ABCUniversityVoyagerInstall.bat
Media=\\Voyager\Installs\ABCUniversityMediaInstall.bat
```

Figure 1-10. [Upgrade] stanza example using a .bat file

The `Media=` parameter may point to either the `.exe` or `.msi` type of installation.

NOTE:

If the PC operating system is Windows XP, using the `.msi` method does not require administrator privileges to complete the installation process. However, for Vista and Windows 7, administrator privileges are required for either method of installation, `.exe` or `.msi`.

The `Media=` parameter is considered inactive in the following situations:

- When not included in the stanza.
- When commented out.
- When the value is blank.

New Software Version Detected?

When the client is started and the system determines that there is a newer version of the client available, the user receives a version available message. See [Figure 1-11](#).

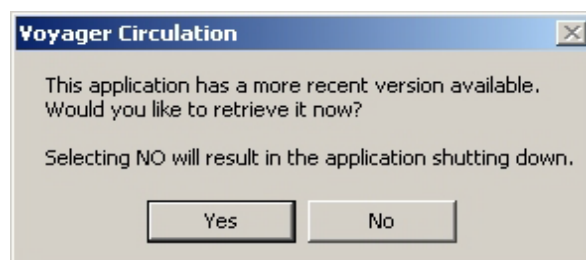

Figure 1-11. Version available message

When the user clicks **Yes**, the next step varies depending on the value specified in `Media=`.

- When the Media= value for the traditional method is used as in [Figure 1-7](#), see [Traditional Method](#) on [page 1-14](#).
- When the Media= value for the HTTP method is used as in [Figure 1-8](#), see [HTTP Method](#) on [page 1-14](#).
- When the Media= value for the FTP method is used as in [Figure 1-9](#), see [FTP Method](#) on [page 1-15](#).

When the user clicks **No**, the application shuts down (see [Figure 1-11](#)).

Traditional Method

The system begins to process the installation executable from the server and displays the installation **Welcome** dialog box.

The remainder of the installation follows the steps identified in [Procedure 1-1, Installing the Media Clients](#), on page [1-6](#).

HTTP Method

The system needs to validate your security. See [Figure 1-12](#).

Figure 1-12. Security page (authentication)

Enter the User ID, password, and click OK. The file download dialog box displays. Subsequently, the file download security warning dialog box displays.

When you click Run, the client software is downloaded for installation and the **Welcome** dialog box is displayed.

The remainder of the installation follows the steps identified in [Procedure 1-1, Installing the Media Clients](#), on page 1-6.

FTP Method

The system displays the file download security warning dialog box.

When you click Run, the client software is downloaded for installation and the **Welcome** dialog box is displayed.

The remainder of the installation follows the steps identified in [Procedure 1-1, Installing the Media Clients](#), on page 1-6.

[Upgrade] Stanza - Voyager 8 and Later

The [Upgrade] stanza provides the facility for AutoUpdate of the Media client to a user's PC when a new version is detected.

To enable this capability, specify the following for the `Media=` parameter in the [Upgrade] stanza using the format identified in [Figure 1-13](#).

- Server user name and password
- IP and port
- Automatic update path for the Media Scheduling client.

```
[Upgrade]
Voyager=http://<user name>:<password>@<IP>:<port>/autoupdate/voyager
Media=http://<user name>:<password>@<IP>:<port>/autoupdate/media
```

Figure 1-13. [Upgrade] Stanza - Enable Client AutoUpdate Settings

The `Media=` parameter is used to initiate the download of new Media Scheduling software.

NOTE:

If you leave the `Voyager=` and the `Media=` parameters blank, you need to manually download/install new versions of the client software. See [Downloading](#).

[the Media Client](#) on [page 1-6](#) and [Installing Media Clients Using the Manual Method](#) on [page 1-6](#).

AutoUpdate Characteristics

When new software files are detected, the user is prompted to download the new software (see [Figure 1-14](#)).

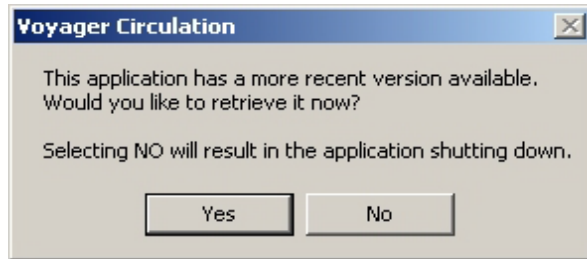

Figure 1-14. Version available message

The new version of the client files that are available for download to users' PCs are placed on your Voyager server at upgrade in the AutoUpdate folder (see [Figure 1-15](#)).

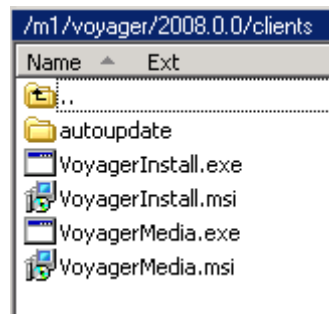

Figure 1-15. autoupdate Folder

If a user declines to download the new software when prompted, the client shuts down. The new files need to be downloaded in order to proceed.

When the user selects **Yes**, all the client files are automatically downloaded when any client is started and determines that there is a new version available.

NOTE:

With the AutoUpdate method, no system administrator privileges are required.

As part of the AutoUpdate process, the software determines which clients are currently available on the PC and replaces those. If a PC for the Media Desk only has the Media client installed, the software only downloads the Media client and no other clients.

When the AutoUpdate is complete, it displays a confirmation message (see [Figure 1-16](#)).

Figure 1-16. Client Upgrade Complete

With the AutoUpdate method, there are no options presented during the download such as an option to select a different folder for storing the client files. AutoUpdate assumes that the new version of the client(s) should be placed in the existing Voyager client folder on the user's PC.

File Transfer Protocol (FTP) - Voyager Client Installations

Use FTP (File Transfer Protocol) to retrieve the Voyager client installation file to your local PC. Check with your system administrator or IT staff to confirm that FTP is an allowable protocol for file downloads.

Procedure 1-3. Downloading a Voyager Client Installation File Using FTP

1. Use the following URL in your browser to begin the FTP process.

`ftp://downloads.exlibrisgroup.com`

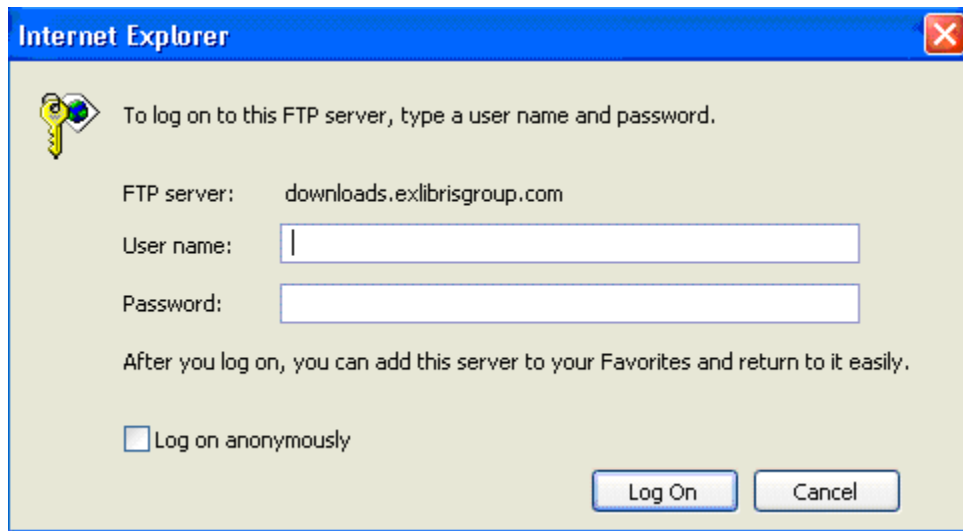

Figure 1-17. FTP Login

NOTE:

The figures in this procedure use Internet Explorer. However, you may use Mozilla Firefox.

2. Enter the user name `media`, its password, and click **OK**.

NOTE:

Refer to the eService KB item number 16384-11362 for the password for the `media` user.

3. Click the link to the directory of the Voyager version that you are running.

For example, if you are using Voyager 8.0.0, click **2008.0.0**.

Result: The `VoyagerMedia.exe` and `VoyagerMedia.msi` files display. See [Downloading the Media Client](#) on [page 1-6](#) for more information regarding these installation files.

4. Click the `clients` directory from the list of directories.
5. Click the installation file that matches your preferred installation method (`.exe` or `.mis`).

Result: The FTP download prompt displays.

6. Click **Open/Run** or **Save**.

NOTE:

Saving the installation file to your PC or network drive provides you the flexibility of running the installation at a different date/time.

Result: You have completed the FTP of the Media installation file, and you are ready to complete your client software installation following the instructions provided in [Installing Media Clients Using the Manual Method](#) on [page 1-6](#).

Logging in to Media Scheduling

The procedure for logging in to Media Scheduling is shown in [Procedure 1-4, Logging in to Media Scheduling](#), on page [1-19](#).

Procedure 1-4. Logging in to Media Scheduling

Use the following to log in to Media Scheduling.

1. Launch the Media Scheduling application by clicking the Media Scheduling icon.

Result: The login dialog box displays. See [Figure 1-18](#).

Figure 1-18. Media Scheduling Login Window

2. Enter your operator ID in the **Operator Id** field.
3. Enter your password in the **Password** field.
4. Click **OK** to continue, or click **Exit** to close.

Result: The main screen of the Media Scheduling application displays; or if you are authorized to perform Media Scheduling tasks at more than one location, the **Choose Booking Desk Location** dialog box displays (see step 5).

5. (Optional) Select a Booking Desk Location (see [Figure 1-19](#)) if you are authorized to perform Media Scheduling tasks at more than one location and click **OK**.

Figure 1-19. Select Current Location

Result: The main screen of the Media Scheduling application displays.

NOTE:

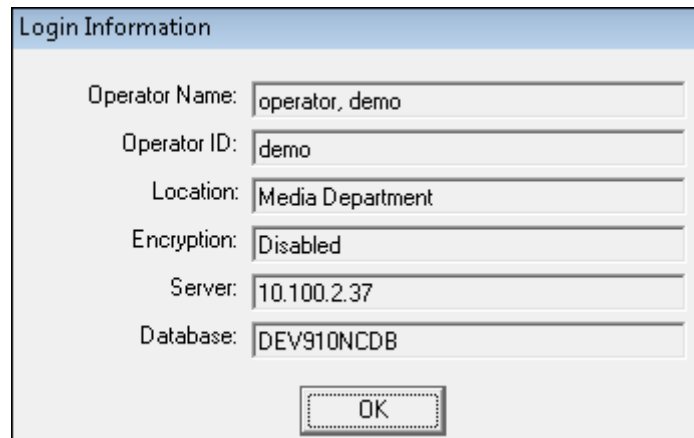

Authorization for Media Scheduling locations is defined in Media System Administration.

Viewing Login Information

You can display the following information at any time during the Media Scheduling session:

- Operator name
- Operator ID
- Location
- Encryption (enabled/disabled)
- Server (as defined in the `Server=` parameter in the `voyager.ini` file)
- Database

To access the login information from the Voyager Media Scheduling main menu, select **File > Login Information**.

Operator Name: operator, demo

Operator ID: demo

Location: Media Department

Encryption: Disabled

Server: 10.100.2.37

Database: DEV910NCDB

OK

Figure 1-20. Login Information

Logging Off

Clicking **File > Log Off** ends the current user's session and opens the login screen for the next user.

NOTE:

Voyager Media Scheduling allows for multiple client sessions to run concurrently and, therefore, multiple operators to be logged on at the same time.

Exiting Media Scheduling

You can close and exit the Voyager Media Scheduling module by selecting **Exit** from the **File** menu.

Introduction

There are many features and functions that are common throughout the Media Scheduling software such as the following.

- Media scheduling modes (see [Media Scheduling Modes](#) on [page 2-2](#))
- Sorting (see [Sorting Information](#) on [page 2-5](#))
- Media scheduling search (see [Media Scheduling Search](#) on [page 2-7](#))
- Bibliographic media search (see [Bibliographic Media Search](#) on [page 2-27](#))
- Options customization (see [Setting Options](#) on [page 2-61](#))

The Voyager Media Scheduling module allows you to perform media-related activities for your library to include the following.

- Scheduling rooms and media for use by patrons
- Media and room record maintenance.

You can access the Media Scheduling functions from the toolbar, taskbar, or menus.

Media Scheduling Modes

There are two modes in which you can operate, Standard and Schedule Monitor.

Standard mode allows you to perform records maintenance through creating, keeping track of, and updating information on equipment and rooms; creating bookings for media, equipment, and rooms; and maintaining a current list of staff members.

The Schedule Monitor mode displays what is scheduled at any particular time.

You can switch between the modes by clicking **Mode** on the menu bar and selecting **Standard** or **Schedule Monitor**.

NOTE:

Security associated with an operator profile affects what is displayed in Media Scheduling. Viewing and editing options, for example, dynamically change to reflect the level of security associated with the operator profile that is logged on to the Media Scheduling client.

Standard Mode

Standard mode is oriented towards performing booking and records maintenance. You can charge and discharge media items and equipment, schedule rooms, send equipment for maintenance, add new records for equipment and rooms, and edit and delete records.

In Standard mode, tasks are grouped as follows.

- Inventory (see Chapter 3, [Standard Mode - Inventory](#) on [page 3-1](#))
- Schedule (see Chapter 4, [Standard Mode - Schedule](#) on [page 4-1](#))
- Bookings (see Chapter 5, [Standard Mode - Bookings](#) on [page 5-1](#))
- Staffing (see Chapter 6, [Standard Mode - Staffing](#) on [page 6-1](#))

See [Figure 2-1](#).

Figure 2-1. Inventory, Schedule, Bookings, and Staffing Buttons

You can click each taskbar to display a list of icons for each Media Scheduling function. See [Figure 2-2](#).

Figure 2-2. Taskbar

The tools available with the **Inventory** taskbar allow you to create, edit, and delete records for rooms, equipment, groups of equipment, and maintenance of equipment.

The tools available with the **Schedule** taskbar allow you to view, edit, and delete bookings for a particular day, month or year, and charge and discharge bookings.

The **Bookings** taskbar allows you to create new bookings in different ways.

The **Staffing** taskbar allows you to keep track of your staff roster and who is currently active and inactive.

Schedule Monitor Mode

In Schedule Monitor mode, several options warn you about events that are imminent. These options are as follows.

- Conflict Resolution and Warning
- Delivery and Cleanup Notification
- Pickup Slips
- Room Schedules
- Library Media Scheduled Rooms.

Schedule Monitor mode provides the following information.

- Lists of impending pick-up, delivery, and onsite bookings in chronological order so that you can quickly view the bookings that are imminent, and bookings that may become a problem
- Bookings that are already a problem
- Events that are scheduled for a particular location for the entire day

You can select the time frame within which you are warned about events that may need to be checked. Use the **Tools>Options** dialog box to set the time frame to receive warnings.

You can also print out slips for patrons with information about scheduled events.

For more information about the Schedule Monitor mode, see Chapter 7, [Schedule Monitor](#) on [page 7-1](#).

Sorting Information

One feature common to Media Scheduling is the **Sort** feature. You can sort any of the lists in either ascending or descending order based on what you select. See [Figure 2-3](#).

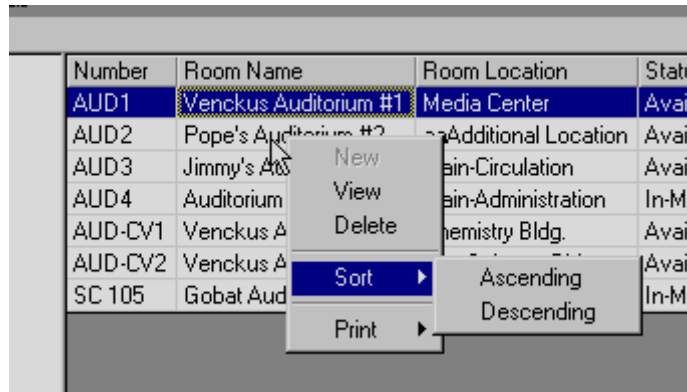

Figure 2-3. Sort

The procedure for sorting information is shown in [Procedure 2-1, Sorting Information](#), on page [2-6](#).

Procedure 2-1. Sorting Information

Use the following to do a sort.

1. Right-mouse click the column you want to sort.

Result: This displays the shortcut menu.

2. Click Sort.

Result: This displays the ascending and descending options.

3. Select the option your prefer.

Result: The column that you selected as the sort column dynamically moves to be the first column in the table as well as the column that determines the sort order for each row.

Media Scheduling Search

Media Scheduling Search provides you the ability to search for information regarding one of the following categories.

- Bookings
- Equipment
- Equipment Groups
- Rooms
- Maintenance
- Patrons

Bookings Search

With the Bookings search capability, you can search for Media Scheduling booking records using the following criteria.

- Date
- Confirmation Number
- Location
- Media
- Equipment
- Staff
- Patron Name
- Patron Barcode

The procedure for doing a Bookings search is shown in [Procedure 2-2, Bookings Search](#), on page [2-7](#).

Procedure 2-2. Bookings Search

Use the following to search for Bookings records.

1. Click **Tools>Search** (or **Find**).

Result: This displays the **Search** dialog box.

2. Select Bookings in the **Look for** field.

Result: This displays the search tab options for Bookings. See [Figure 2-4](#).

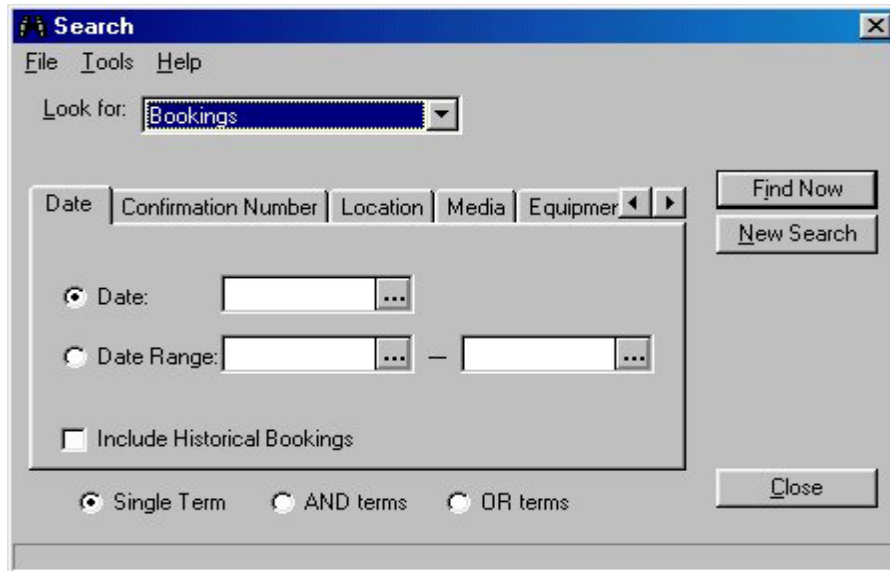

Figure 2-4. Search dialog box for Bookings

3. Select **Include Historical Bookings** if you want your search results to include past as well as future bookings. This option may or may not be available depending on the security level of the operator. See **Operator Security Profile Settings** in the *Media Scheduling System Administration User's Guide* for additional information about viewing historical bookings.

NOTE:

Any incomplete (overdue) bookings that have not be processed display in the future bookings list.

Result: A checkmark displays in the checkbox.

4. Select one of the radio buttons (**Single Term**, **AND terms**, or **OR terms**) to identify how you want the system to process your search criteria.

Result: The **AND terms** and **OR terms** options allow you to combine criteria from across multiple tabs to build your search. The **Single Term** option indicates that criteria is being specified on only one of the tabs.

5. Enter search criteria on one or more of the tabs using [Table 2-1](#) for a description of your choices.

Table 2-1. Bookings search criteria tabs

Tab	Description
Date	Click one of the radio buttons to enter the following information. <ul style="list-style-type: none"> • Single date • Date range
Confirmation Number	Enter a confirmation number for your search criteria.
Location	Select the Location you want to use in your search from the drop-down list. Select the Room criteria as needed to supplement your Location criteria from the drop-down list.
Media	Enter the barcode number for the media you want to search. Click Staff Search... to perform a more advanced search. For more information about the Staff Search... function, see Bibliographic Media Search on page 2-27 .
Equipment	Click one of the radio buttons to select Type , Group Type , or Barcode . Enter a barcode into the Barcode box, or click the drop-down arrow to select from the Type or Group Type lists depending on the Equipment search type you have selected.
Staff	Select the staff person from the drop-down list for your search criteria.
Patron Name	Enter the last name, first name, and/or middle initial to search for bookings made by the patron specified.
Patron Barcode	Enter a patron's barcode to search for bookings made by the patron specified.

Result: Your criteria is ready for processing.

6. Click **Find Now** to process your search criteria or **Close** to exit the **Search** dialog box.

Result: Your search results display or you return to the main Media Scheduling display.

Using Search to View Media Status

There may be times when it is helpful to know the status of individual items associated with a booking. The Media tab for bookings search results displays Charged/Not Charged status information (see [Figure 2-5](#)) in order for you to easily see at a glance which items are yet to be returned.

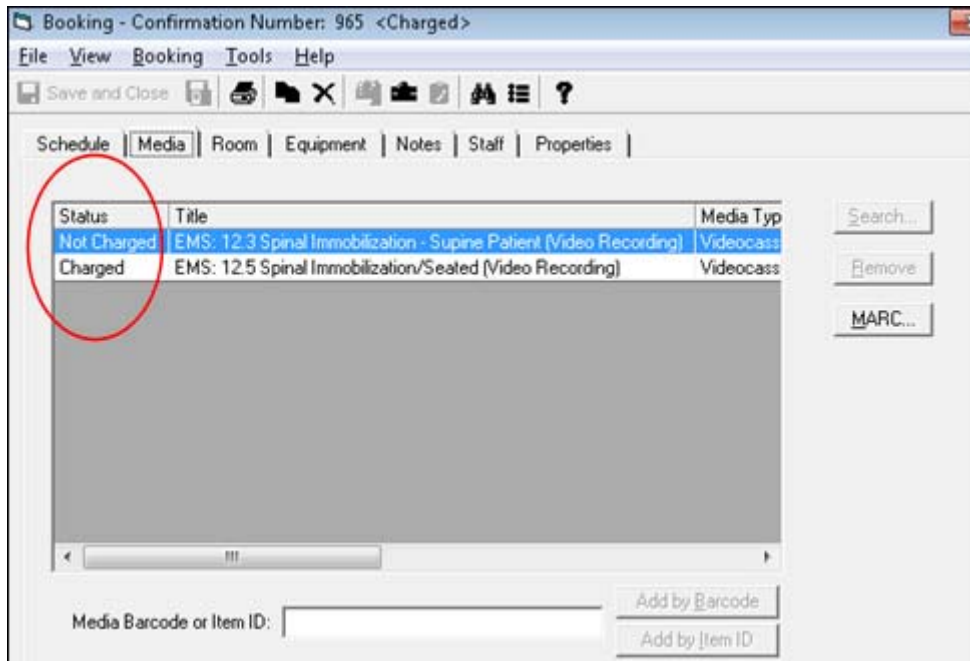

Figure 2-5. Media tab Status column

The procedure for using Search to view media status is shown in [Procedure 2-3, Using Search to View Media Status](#), on page [2-10](#).

Procedure 2-3. Using Search to View Media Status

Use the following to view media status.

1. Click **Tools > Search**.
2. Enter your Bookings search criteria and click **Find Now**.

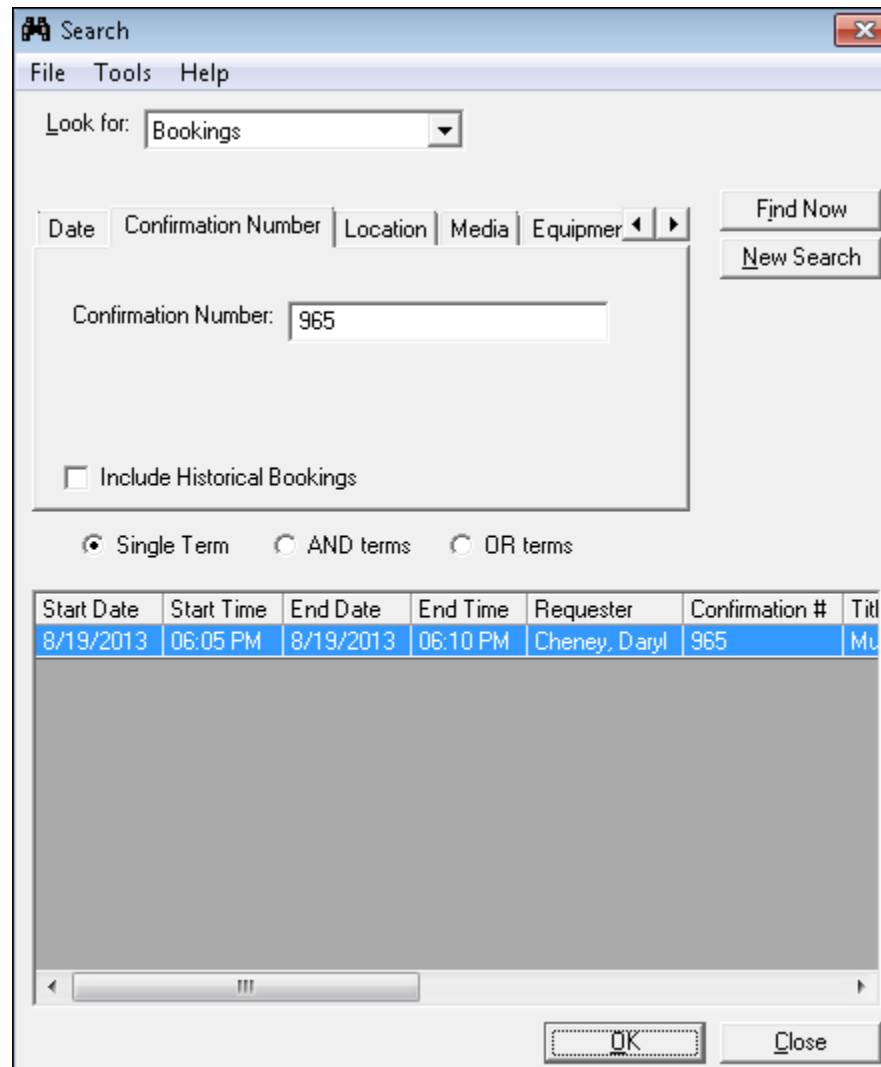

Figure 2-6. Search dialog box

3. Highlight the booking for which you want to view the status information and click **OK**.

Result: The Booking - Confirmation Number dialog box displays.

4. Click the **Media** tab.

Result: The Media status information displays (see [Figure 2-5](#) on [page 2-10](#)).

Equipment Search

With the Equipment search capability, you can search for Media Scheduling equipment records using the following criteria.

- Type
- Number
- Manufacturer
- Serial Number
- Location
- Model
- Status
- Next Maintenance

The procedure for doing an Equipment search is shown in [Procedure 2-4, Equipment Search](#), on page [2-12](#).

Procedure 2-4. Equipment Search

Use the following to search for Equipment records.

1. Click **Tools>Search** (or **Find**).

Result: This displays the **Search** dialog box.

2. Select Equipment in the **Look for** field.

Result: This displays the search tab options for Equipment. See [Figure 2-7](#).

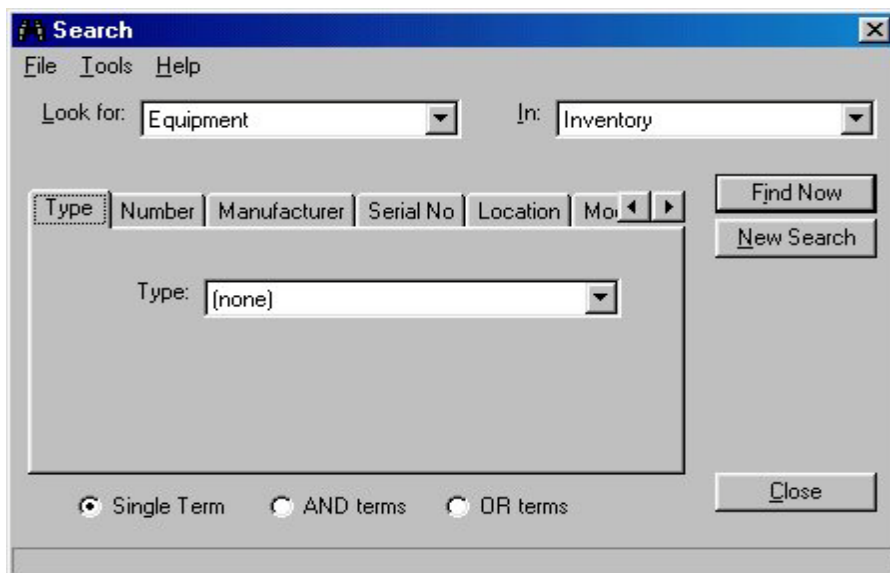

Figure 2-7. Search dialog box for Equipment

3. Select where to search for Equipment from the drop-down list in the **In** field.

Result: The search criteria is narrowed to focus the search within a specific category to look for Equipment.

4. Select one of the radio buttons (**Single Term**, **AND terms**, or **OR terms**) to identify how you want the system to process your search criteria.

Result: The **AND terms** and **OR terms** options allow you to combine criteria from across multiple tabs to build your search. The **Single Term** option indicates that criteria is being specified on only one of the tabs.

5. Enter search criteria on one or more of the tabs using [Table 2-2](#) for a description of your choices.

Table 2-2. Equipment search criteria tabs

Tab	Description
Type	Select the equipment type to search using the drop-down list to display the list of equipment types.

Table 2-2. Equipment search criteria tabs

Tab	Description
Number	Select the type of number you prefer to search by clicking one of the radio buttons. Enter the number to search in the Number field, or enter the barcode number in the Barcode field to correspond with the radio button selected.
Manufacturer	Enter manufacturer-related information such as manufacturer name or serial number in the Manufacturer field.
Serial No	Enter the equipment serial to search.
Location	Select the location from the Location drop-down list to search and select the room from the Room drop-down list to search.
Model	Enter the model name, number, or description to search.
Status	Select the equipment status to search from the drop-down list.
Next Maintenance	Select one of the radio buttons identify the type of date search you prefer. Enter the date information that corresponds to the type of date search selected.

Result: Your criteria is ready for processing.

6. Click **Find Now** to process your search criteria or **Close** to exit the **Search** dialog box.

Result: Your search results display or you return to the main Media Scheduling display.

Equipment Groups Search

With the Equipment Groups search capability, you can search for Media Scheduling equipment group records using the following criteria.

- Type
- Number
- Equipment

- Location
- Status

The procedure for doing an Equipment Groups search is shown in [Procedure 2-5, Equipment Groups Search](#), on page [2-15](#).

Procedure 2-5. Equipment Groups Search

Use the following to search for Equipment Groups records.

1. Click **Tools>Search** (or **Find**).

Result: This displays the **Search** dialog box.

2. Select Equipment Groups in the **Look for** field.

Result: This displays the search tab options for Bookings. See [Figure 2-8](#).

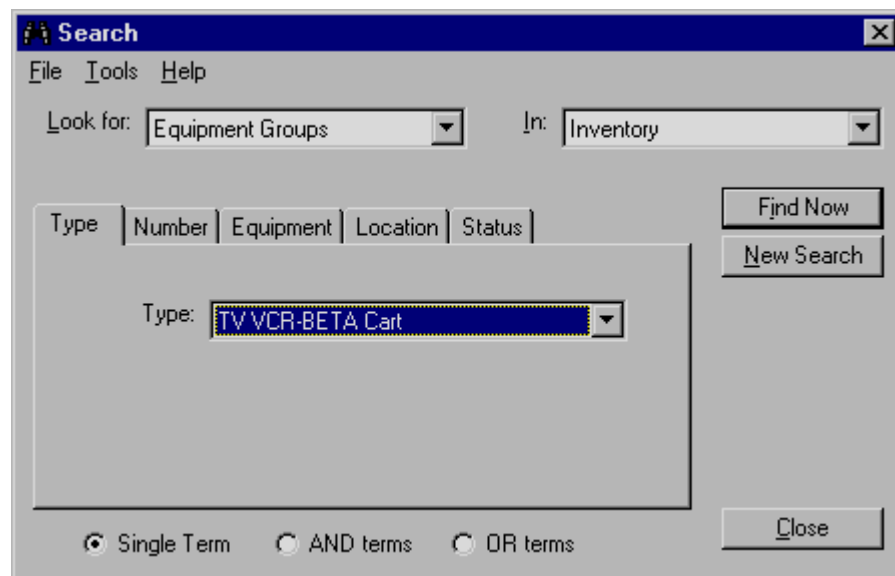

Figure 2-8. Search dialog box for Equipment Groups

3. Select where to search for Equipment Groups from the drop-down list in the **In** field.

Result: The search criteria is narrowed to focus the search within a specific category to look for Equipment Groups.

4. Select one of the radio buttons (**Single Term**, **AND terms**, or **OR terms**) to identify how you want the system to process your search criteria.

Result: The **AND terms** and **OR terms** options allow you to combine criteria from across multiple tabs to build your search. The **Single Term** option indicates that criteria is being specified on only one of the tabs.

5. Enter search criteria on one or more of the tabs using [Table 2-3](#) for a description of your choices.

Table 2-3. Equipment Groups search criteria tabs

Tab	Description
Type	Select the Equipment Groups type to search from the drop-down list.
Number	<p>Select the type of number you prefer to search by clicking one of the radio buttons.</p> <p>Enter the number to search in the Number field, or enter the barcode number in the Barcode field to correspond with the radio button selected.</p>
Equipment	Select the equipment to search from the drop-down list.
Location	Select the location from the Location drop-down list to search and select the room from the Room drop-down list to search.
Status	Select the equipment status to search from the drop-down list.

Result: Your criteria is ready for processing.

6. Click **Find Now** to process your search criteria or **Close** to exit the **Search** dialog box.

Result: Your search results display or you return to the main Media Scheduling display.

Rooms Search

With the Rooms search capability, you can search for Media Scheduling room records using the following criteria.

- Type
- Name
- Number
- Location
- Equipment
- Capacity
- Status
- Available Date
- Details

The procedure for doing a Rooms search is shown in [Procedure 2-6, Rooms Search](#), on page [2-17](#).

Procedure 2-6. Rooms Search

Use the following to search for Rooms records.

1. Click **Tools>Search** (or **Find**).

Result: This displays the **Search** dialog box.

2. Select Rooms in the **Look for** field.

Result: This displays the search tab options for Rooms. See [Figure 2-9](#).

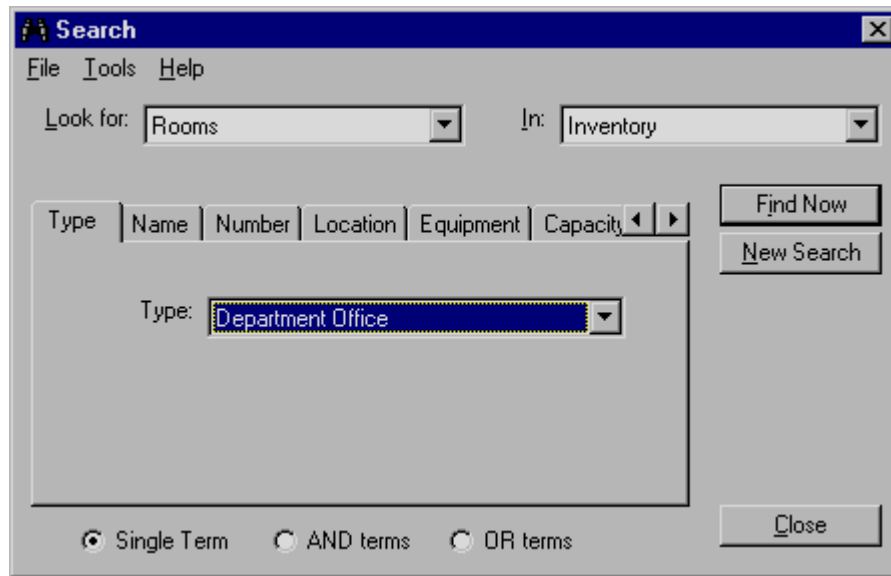

Figure 2-9. Search dialog box for Rooms

3. Select where to search for Rooms from the drop-down list in the **In** field.

Result: The search criteria is narrowed to focus the search within a specific category to look for Rooms.

4. Select one of the radio buttons (**Single Term**, **AND terms**, or **OR terms**) to identify how you want the system to process your search criteria.

Result: The **AND terms** and **OR terms** options allow you to combine criteria from across multiple tabs to build your search. The **Single Term** option indicates that criteria is being specified on only one of the tabs.

5. Enter search criteria on one or more of the tabs using [Table 2-4](#) for a description of your choices.

Table 2-4. Rooms search criteria tabs

Tab	Description
Type	Select the room type to search from the drop-down list.
Name	Enter the room name to search.
Number	Enter the room number to search.
Location	Select the location to search from the drop-down list.

Table 2-4. Rooms search criteria tabs

Tab	Description
Equipment	Select one of the radio buttons to specify either Type or Group Type to search. Select the room type or room group type to search from the drop-down list associated with radio button you have selected.
Capacity	Enter the room capacity criteria to search using the fields provided.
Status	Select the status from the drop-down list that matches your criteria.
Available Date	Enter the date and time that matches your criteria for the search.
Details	Select detail criteria from the drop-down list provided.

Result: Your criteria is ready for processing.

- Click **Find Now** to process your search criteria or **Close** to exit the **Search** dialog box.

Result: Your search results display or you return to the main Media Scheduling display.

Maintenance Search

With the Maintenance search capability, you can search for Media Scheduling maintenance records using the following criteria.

- Date
- Equipment
- Details
- Staff

The procedure for doing a Maintenance search is shown in [Procedure 2-7, Maintenance Search](#), on page [2-20](#).

Procedure 2-7. Maintenance Search

Use the following to search for Maintenance records.

1. Click **Tools>Search** (or **Find**).

Result: This displays the **Search** dialog box.

2. Select Maintenance in the **Look for** field.

Result: This displays the search tab options for Maintenance. See [Figure 2-10](#).

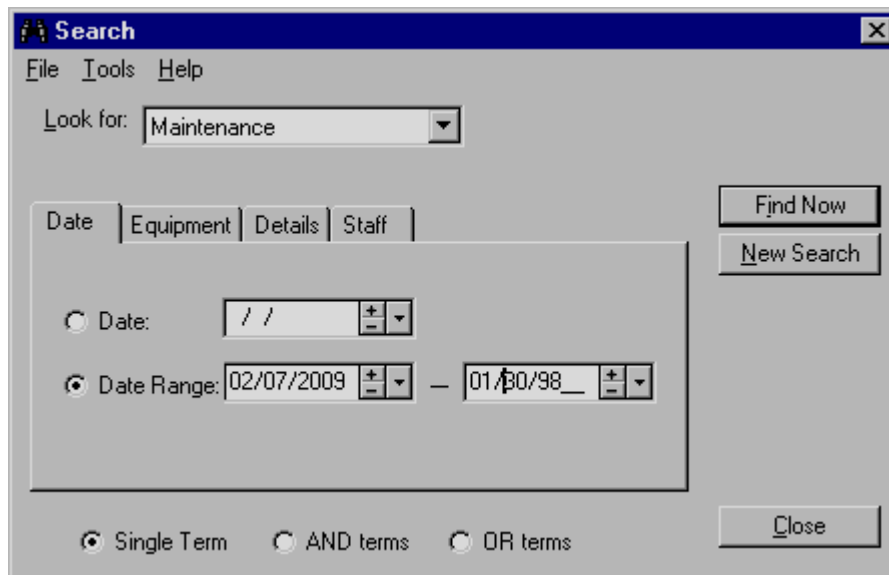

Figure 2-10. Search dialog box for Maintenance

3. Select one of the radio buttons (**Single Term**, **AND terms**, or **OR terms**) to identify how you want the system to process your search criteria.

Result: The **AND terms** and **OR terms** options allow you to combine criteria from across multiple tabs to build your search. The **Single Term** option indicates that criteria is being specified on only one of the tabs.

4. Enter search criteria on one or more of the tabs using [Table 2-5](#) for a description of your choices.

Table 2-5. Maintenance search criteria tabs

Tab	Description
Date	Click one of the radio buttons to specify either a single date to search or a date range to search. Enter your date criteria.
Equipment	Click one of the radio buttons to specify either a Type search or a Number search. Select your criteria from the drop-down list for the Type search or enter your number criteria for the Number search.
Details	Select Details criteria from the drop-down list.
Staff	Select Staff criteria from the drop-down list.

Result: Your criteria is ready for processing.

5. Click **Find Now** to process your search criteria or **Close** to exit the **Search** dialog box.

Result: Your search results display or you return to the main Media Scheduling display.

Patrons Search

With the Patrons search capability, you can search for Media Scheduling patron records using the following criteria.

- Name
- Barcode
- Institution ID

The procedure for doing a Patrons search is shown in [Procedure 2-8, Patrons Search](#), on page [2-22](#).

Procedure 2-8. Patrons Search

Use the following to search for Patrons records.

1. Click **Tools>Search** (or **Find**).

Result: This displays the **Search** dialog box.

2. Select Patrons in the **Look for** field.

Result: This displays the search tab options for Patrons. See [Figure 2-11](#).

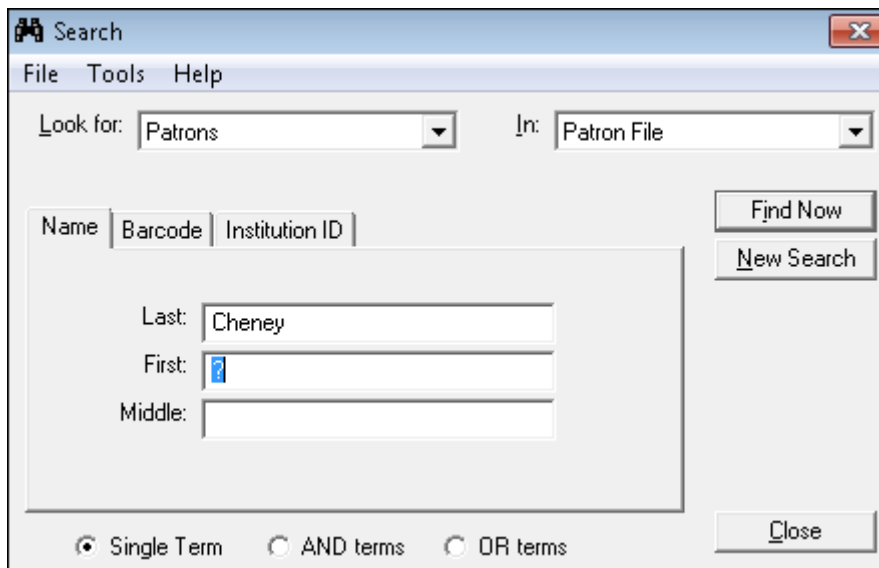

Figure 2-11. Search dialog box for Patrons

3. Select where to search for Patrons from the drop-down list in the **In** field.

Result: The search criteria is narrowed to focus the search within a specific category to look for Patrons.

4. Select one of the radio buttons (**Single Term**, **AND terms**, or **OR terms**) to identify how you want the system to process your search criteria.

Result: The **AND terms** and **OR terms** options allow you to combine criteria from across multiple tabs to build your search. The **Single Term** option indicates that criteria is being specified on only one of the tabs.

5. Enter search criteria on one or more of the tabs using [Table 2-6](#) for a description of your choices.

Table 2-6. Patrons search criteria tabs

Tab	Description
Name	Enter a last name, first name, and/or middle name into the Last, First and/or Middle fields. NOTE: The Last field is required for the Name search.
Barcode	Enter a barcode number to search.
Institution ID	Enter an institution identification number to search.

Result: Your criteria is ready for processing.

6. Click **Find Now** to process your search criteria or **Close** to exit the **Search** dialog box.

Result: Your search results display or you return to the main Media Scheduling display.

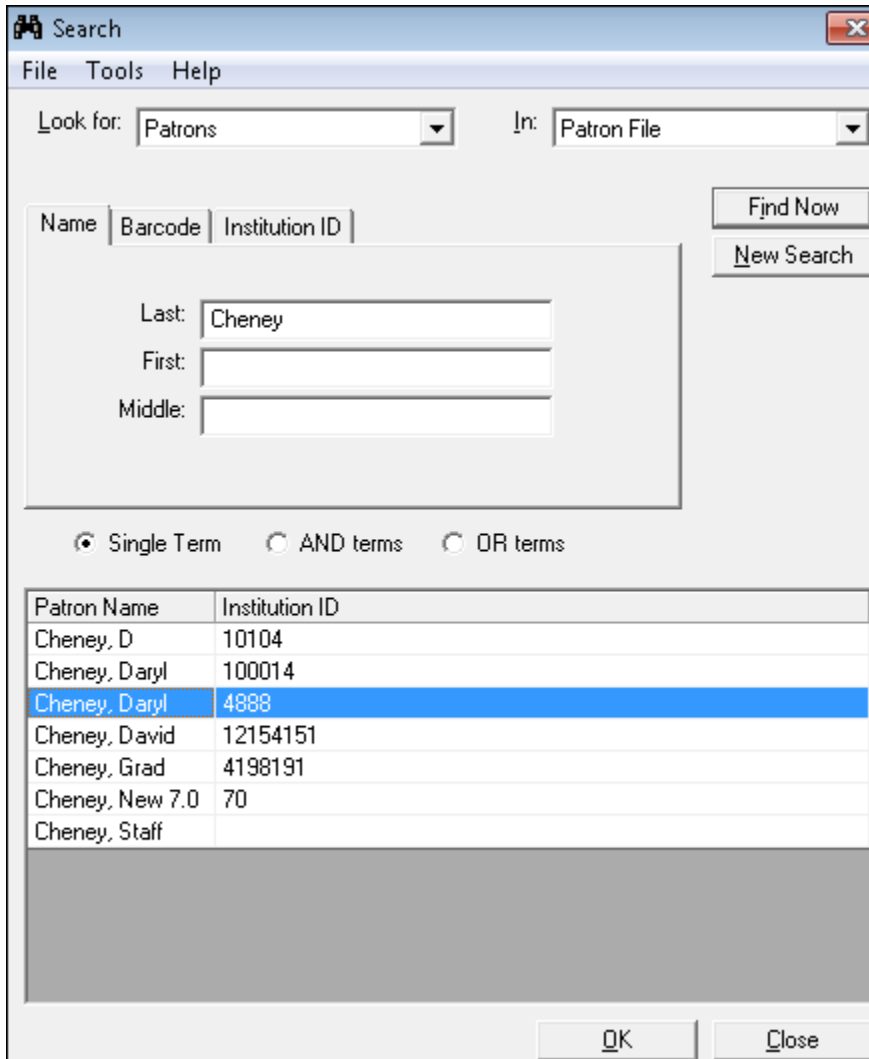

Figure 2-12. Patron search results

7. Highlight the patron record in which you are interested and click **OK**.

Result: The Patron Counters and Bookings dialog box displays.

Patron Name: Cheney, Daryl

Current Bookings: 18

Late Returns: 9

Cancelled Bookings: 2

Historical Bookings: 2

Unclaimed Bookings: 21

Bibliographic Media Search

The bibliographic media search function is provided to enable users to search for and book items such as video recordings, CDs and so forth while also scheduling equipment and rooms.

Voyager Media Scheduling uses the same search interface that is familiar to users of the Voyager Acquisitions, Cataloging, and Circulation modules. This interface provides search functions on tabs as follows. See [Figure 2-15](#).

- Keyword
- Index Selection
- Builder
- History

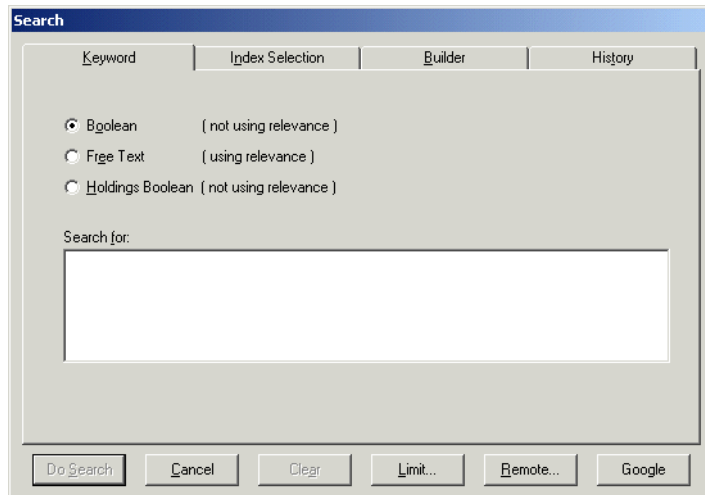

Figure 2-15. Search dialog box

Search Buttons

Common on all tabs of the bibliographic media search function are the following buttons.

- Do Search
- Cancel
- Clear
- Limit
- User-Defined Alternate Search

A description of each button is provided in [Table 2-8](#).

Table 2-8. Search buttons

Name	Description
Do Search	Executes the search entered.

Table 2-8. Search buttons

Name	Description
Cancel	Exits the Search dialog box and returns to the previous window.
Clear	Refreshes Search dialog box fields in order to enter new search criteria.
Limit	Displays Search Limits dialog box. See Figure 2-16 .
User-Defined Alternate Search	<p>Executes search outside the Voyager database using a URI (Uniform Resource Identifier) that uses the text string entered in the Search for field if text is entered.</p> <p>In Figure 2-15, the User-Defined Alternate Search button is labeled Google as an example.</p> <p>For more information regarding setup of this button, see the <i>Voyager Technical User's Guide</i> for a description of the [Search URI] stanza in the <code>voyager.ini</code> file.</p>

Search Limits

The Search Limits dialog box (see [Figure 2-16](#)) provides the following criteria from which to select to limit your search.

- Language
- Location
- Date
- Medium
- Type
- Place
- Status

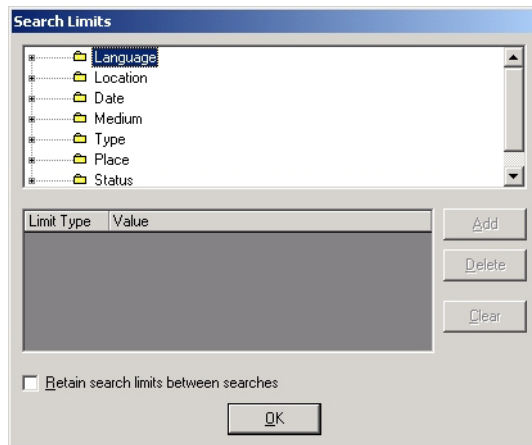

Figure 2-16. Search Limits dialog box

The procedure for limiting your search is shown in [Procedure 2-9, Limiting search](#), on page [2-30](#).

Procedure 2-9. Limiting search

Use the following to limit your search.

1. Click the **Limits** button.

Result: This displays the **Search Limits** dialog box.

2. Expand the folder(s) containing your preferred search limits criteria.

Result: This displays the Search Limits options from which to select.

3. Highlight the Search Limits options to match your requirements and click **Add**.

Result: Your search limits display. See [Figure 2-17](#).

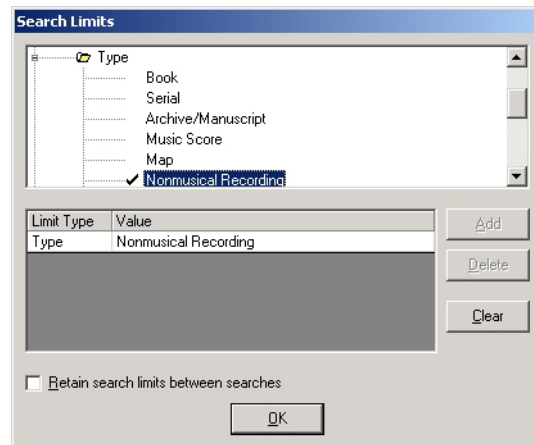

Figure 2-17. Search Limits selected

4. (Optional) Click **Delete**.

Result: This removes selected search limits criteria.

5. (Optional) Click **Clear**.

Result: This removes all selected search limits criteria.

6. (Optional) Click **Retain search limits between searches**.

Result: This maintains the selected Search Limits for future searches.

7. Click **OK**.

Result: This saves your Search Limits and returns you to the **Search** dialog box with the notation "Limits are in Effect."

Keyword Tab

Use the **Keyword** tab to locate material in the database by keywords pertinent to your search.

The **Keyword** tab provides the following options for keyword searching. See [Figure 2-18](#).

- Boolean (not using relevance)

- Free Text (using relevance)
- Search for

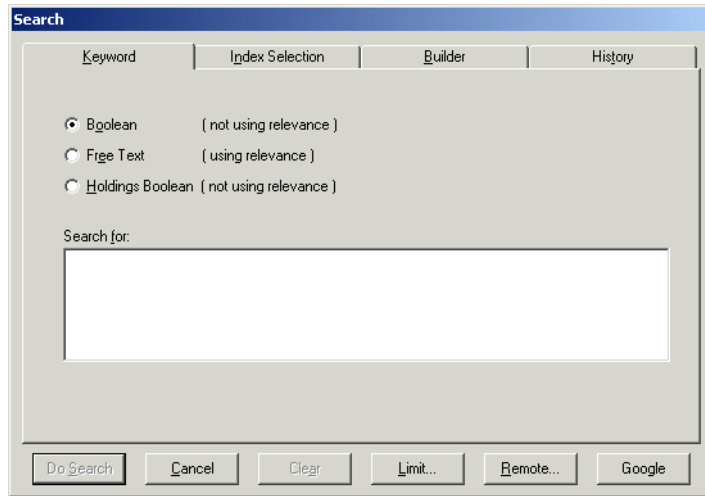

Figure 2-18. Keyword tab (bibliographic media search)

See [Table 2-9](#) for a description of the fields and selections available on the **Keyword** tab.

Table 2-9. Keyword tab options

Name	Description
Boolean (not using relevance)	Select this option to identify the type of search entered in Search for as one that includes Boolean logic and syntax such as and, not, or, and adj (adjacent). NOTE: A <code>Malformed query</code> error message indicates that a non-Boolean format has been entered in Search for .

Table 2-9. Keyword tab options

Name	Description
Free Text (using relevance)	<p>Select this option to identify the type of search entered as one that displays results in relevance order.</p> <p>Add emphasis to specific terms in Search for when using Free Text by preceding search terms with one of the following operators.</p> <ul style="list-style-type: none"> • + (plus sign) that means the term entered must display in the resulting record. • ! (exclamation point) that means any record with the term is to be excluded from the results list. • * (asterisk) that means the term is important. <p>NOTE: By default, Voyager utilizes the Boolean or operator when Free Text is selected and multiple terms are entered in Search for.</p> <p>Factors that affect relevance ranking include the following.</p> <ul style="list-style-type: none"> • Proximity of terms in the records. This does not cross subfields. Proximity within five words receives more weight. Each word between the search terms reduces relevancy; and therefore, adjacency increases relevancy. • Number of times the term appears in the database. The term with fewer appearances in the database receives a higher weight. • MARC field weighting as assigned in Voyager System Administration (Search>Indexes - Field Weighting). • Search operators such as + and *. <p>Each record found receives a score calculated using these factors and is ranked against a theoretical perfect record. Evaluation of the resulting list of titles shows that records higher on the list have more overall relevance points.</p>
Holdings Boolean (not using relevance)	<p>Performs a keyword search, without using relevance, of holdings records in your local database. For example, call number searching.</p> <p>Must use Boolean operators if using more than one search term.</p> <p>The default index searched is HKEY.</p> <p>NOTE: This search option is not available for remote searching.</p>

Table 2-9. Keyword tab options

Name	Description
Search for	Enter search terms in this field. Use double quotation marks (") to indicate the beginning and end of phrases. Use a question mark (?) to truncate a search term.
Default Tab	Identifies which tab displays as the default when the Search function is initiated. This button is inactive on the tab selected as the default. At installation, the Index Selection tab is the default. This option is available on the following tabs: Keyword, Index Selection, and Builder . This button does not display when Retain Last Search is selected.

The procedure for entering a search on the **Keyword** tab is shown in [Procedure 2-10, Keyword tab search](#), on page [2-34](#).

Procedure 2-10. Keyword tab search

Use the following to execute a **Keyword** tab search for the item to include in your booking.

1. Click the **Bookings** listbar button.

Result: The **Bookings** options display in the listbar.

2. Click **New Booking, Booking Wizard, or New Pick-Up**.

Result: The **Media** tab or **Booking Wizard** dialog box displays.

3. Click the **Media** tab or follow the **Booking Wizard** dialog box instructions.

Result: The **Search** button displays.

4. Click **Search**.

Result: The **Search** dialog box displays.

5. Click the **Keyword** tab.

Result: The **Keyword** search options display.

6. Enter your search criteria. See [Table 2-9](#) on [page 2-32](#) for a description of your options.

Result: The **Search** dialog box is ready to process your search.

7. (Optional) Set limits by clicking the **Limits** button. See [Search Limits](#) on [page 2-29](#) for more details regarding setting limits.

Result: Your search criteria results list will contain fewer records based on the limits selected.

8. (Optional) Click the User-Defined Alternative Search button. See [Table 2-8](#) on [page 2-28](#) for details.

Result: A search outside the Voyager database is executed using a URI (Uniform Resource Identifier) and the text string entered in the **Search for** field if text is entered.

9. Click **Do Search**.

Result: The **Titles Index** dialog box displays a list of records based on the search criteria you entered. See [Figure 2-19](#) for an example of the Titles Index resulting from a Boolean (not using relevance) search.

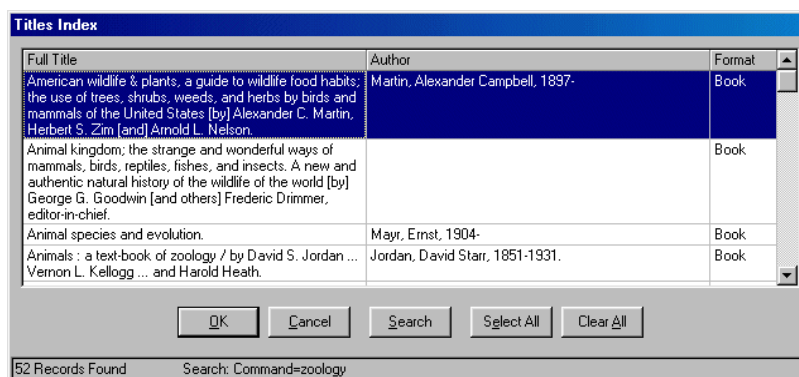

Figure 2-19. Title List

10. Select the record for your booking and click **OK**.

Result: The **Selected Bibliographic Records, Holdings, and Items** dialog box displays. See [Figure 2-20](#).

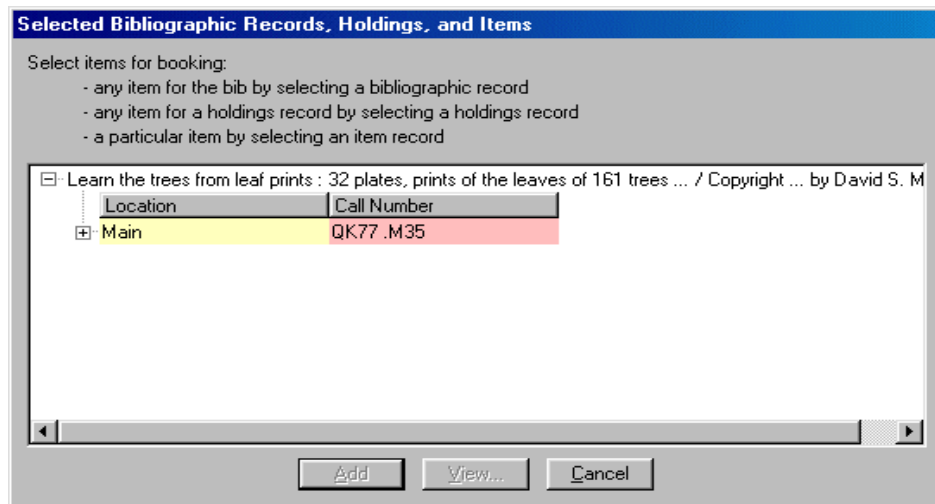

Figure 2-20. Selected Bibliographic Records, Holdings, and Items

11. Click a holdings record to select it for your booking, and click **Add**.

Optionally, click **View** to display the holdings detail for a selected holdings record as in [Figure 2-21](#) and click **Close** return to the **Selected Bibliographic Records, Holdings, and Items** screen to Add your selection.

NOTE:

The holdings record can also be displayed in the OPAC by selecting WebVoyage from the drop-down list displayed on the **Holdings Record** dialog box (see [Figure 2-21](#)) and clicking **Send Record To**.

Tag	Ind 1	Ind 2	Bibliographic Data
014	1		1a ocm20485361
852	0		1b media 1h A2446

Figure 2-21. View holdings record detail

Result: The **Select Desired Media Type** dialog box displays after clicking Add. See [Figure 2-22](#).

Figure 2-22. Select Desired Media Type

12. Click the appropriate media option and click **OK**.

Result: Your selection displays on the **Media** tab for your booking. See [Figure 2-23](#).

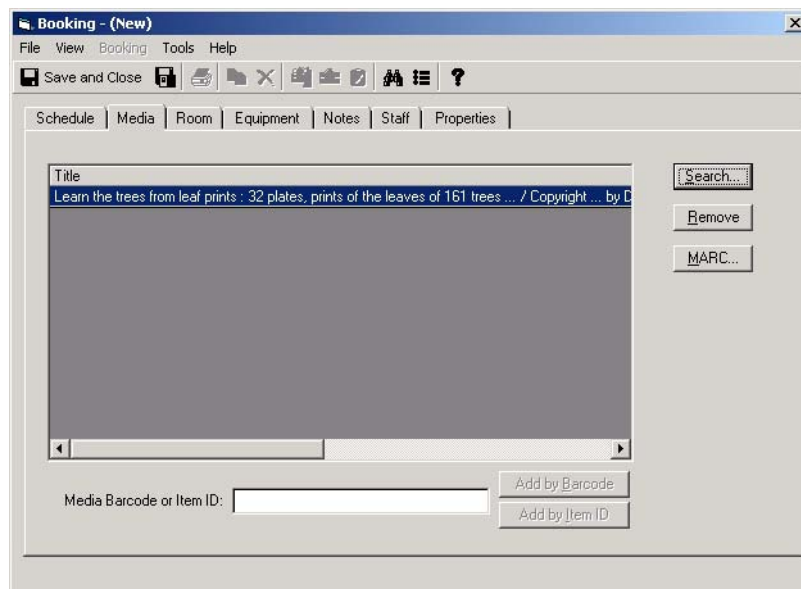

Figure 2-23. Media tab booking selection

Index Selection Tab

Use the **Index Selection** tab to locate material in the database by subject headings, call number, title, ISBN number, and so forth.

The **Index Selection** tab provides the following options for searching. See [Figure 2-24](#).

- Find
- Browse
- Search by drop-down list
- Heading Types Filter
- Locations Filter
- Search for

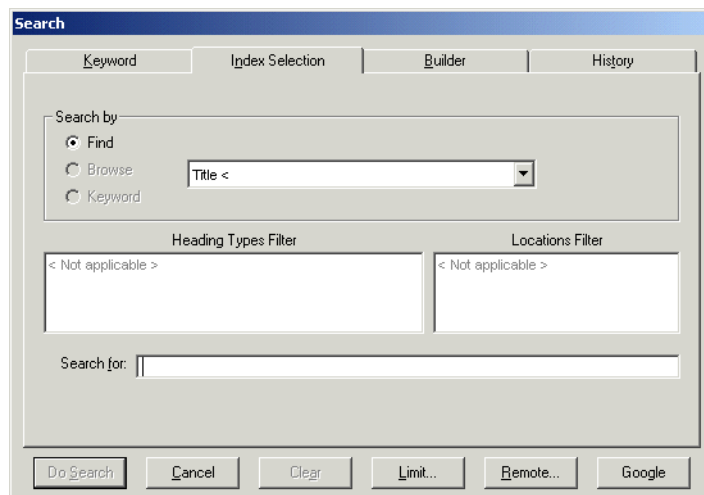

Figure 2-24. Index Selection tab (bibliographic media search)

See [Table 2-10](#) for a description of the fields and selections available on the **Index Selection** tab.

Table 2-10. Index Selection tab options

Name	Description
Find	<p>Select Find to create a search that matches specific Search by type criteria with the terms entered in the Search for field.</p> <p>The result is a list with a finite number of records.</p> <p>See Figure 2-25, for example, which is a Headings List generated by selecting a headings search from the drop-down list in the Search by section of the dialog box.</p>
Browse	<p>Select Browse to generate a Browse Headings List (see Figure 2-26) that provides you the capability to scroll through your institution's list of headings. (See scroll button options in Figure 2-27.)</p> <p>Use the Search by drop-down list, Heading Types Filter, Locations Filter, and Search for terms to create the Browse Headings List.</p>

Table 2-10. Index Selection tab options

Name	Description
Keyword	<p>Displays a headings list from which to select when exact word order or the initial words are unknown.</p> <p>See Headings Keyword Searches on page 2-42 for more information.</p>
Search by (drop-down list)	<p>Select an Index Selection Search by option such as Title, ISBN, Journal Title, MFHD Call Number, and so forth from the drop-down list to more specifically identify your search criteria.</p>
Heading Types Filter	<p>Select a Heading Types Filter to further limit your search. Resulting records contain the heading type selected and match the Search for criteria.</p> <p>NOTE: These filters may be suppressed in the Voyager System Administration module.</p>
Locations Filter	<p>Select a Locations Filter to further limit your search when doing call number searches.</p> <p>Locations are defined in the Voyager System Administration module.</p> <p> TIP: <i>By limiting a call number search by location, you can get an online shelf list.</i></p>
Search for	<p>Enter search terms in this field.</p> <p>Use double quotation marks (") to indicate the beginning and end of phrases.</p> <p>Use a question mark (?) to truncate a search term.</p>
Default Tab	<p>Identifies which tab displays as the default when the Search function is initiated.</p> <p>This button is inactive on the tab selected as the default.</p> <p>At installation, the Index Selection tab is the default.</p> <p>This option is available on the following tabs: Keyword, Index Selection, and Builder.</p> <p>This button does not display when Retain Last Search is selected.</p>

Table 2-10. Index Selection tab options

Name	Description
Save Settings	<p>Saves values on the current search tab.</p> <p>The search code for the index is saved.</p> <p>The saved settings display each subsequent time this tab is accessed.</p> <p>To change settings, enter new values on the tab and click Save Settings.</p> <p>NOTE: When the index is deleted, the index code is changed, or it is suppressed, a standard error message is displayed. When the user responds by clicking OK, the default setting is cleared and the first index in the list and the first connector display.</p> <p>This option is available on the following tabs: Index Selection and Builder.</p> <p>This button does not display when Retain Last Search is selected.</p>

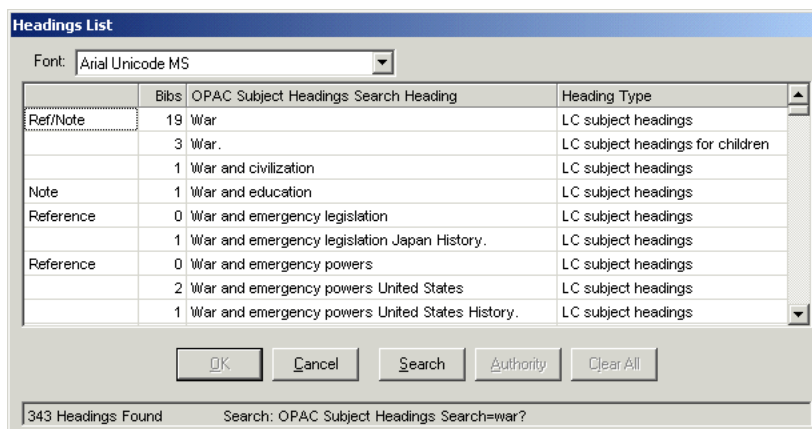

Figure 2-25. Example Headings List

Figure 2-26. Example Browse Headings List

Figure 2-27. Top, Up, Refresh, Down and Bottom Buttons

Headings Keyword Searches

The **Keyword** radio button is active on the **Index Selection** tab when the following indexes are selected from the drop-down list.

- Staff Name Headings Search
- Staff Title Headings Search
- Staff Name/Title Headings Search
- Staff Subject Search
- OPAC Name Headings Search
- OPAC Title Headings Search
- OPAC Name/Title Search
- OPAC Subject Search

Consistent with all headings searches, the **Limit** button is disabled when a headings index is selected from the drop-down list.

The procedure for entering a search on the **Index Selection** tab is shown in [Procedure 2-11](#), [Index Selection tab search](#), on page [2-43](#).

Procedure 2-11. Index Selection tab search

Use the following to execute a **Index Selection** tab search for the item to include in your booking.

1. Click the **Bookings** listbar button.

Result: The **Bookings** options display in the listbar.

2. Click **New Booking**, **Booking Wizard**, or **New Pick-Up**.

Result: The **Media** tab or **Booking Wizard** dialog box displays.

3. Click the **Media** tab or follow the **Booking Wizard** dialog box instructions.

Result: The **Search** button displays.

4. Click **Search**.

Result: The **Search** dialog box displays.

5. Click the **Index Selection** tab.

Result: The **Index Selection** search options display.

6. Enter your search criteria. See [Table 2-10](#) on [page 2-39](#) for a description of your options.

Result: The **Search** dialog box is ready to process your search.

7. (Optional) Set limits by clicking the **Limits** button. See [Search Limits](#) on [page 2-29](#) for more details regarding setting limits.

Result: Your search criteria results list will contain fewer records based on the limits selected.

8. (Optional) Click the User-Defined Alternative Search button. See [Table 2-8](#) on [page 2-28](#) for details.

Result: A search outside the Voyager database is executed using a URI (Uniform Resource Identifier) and the text string entered in the **Search for** field if text is entered.

9. Click **Do Search**.

Result: The **Titles Index** dialog box displays a list of records based on the search criteria you entered. See [Figure 2-28](#).

Figure 2-28. Title List

NOTE:

Depending on the search options selected, the system may initially display other result lists like the **Headings List** (see [Figure 2-25](#)) or the **Browse Headings List** (see [Figure 2-26](#)) from which you can select and ultimately display the **Titles Index** list.

10. Select the record for your booking and click **OK**.

Result: The **Selected Bibliographic Records, Holdings, and Items** dialog box displays. See [Figure 2-29](#).

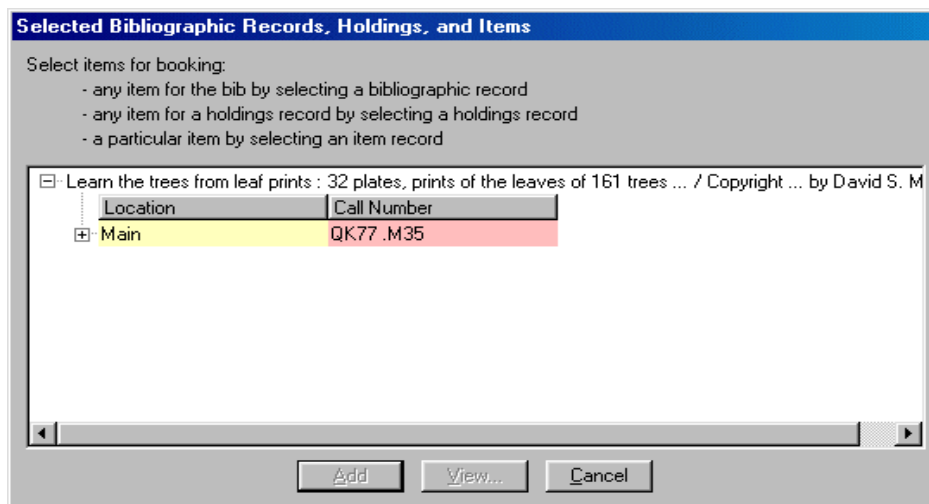

Figure 2-29. Selected Bibliographic Records, Holdings, and Items

11. Click a holdings record to select it for your booking, and click **Add**.

Optionally, click **View** to display the holdings detail for a selected holdings record as in [Figure 2-30](#) and click **Close** return to the **Selected Bibliographic Records, Holdings, and Items** screen to Add your selection.

NOTE:

The holdings record can also be displayed in the OPAC by selecting WebVoyage from the drop-down list displayed on the **Holdings Record** dialog box (see [Figure 2-30](#)) and clicking **Send Record To**.

Figure 2-30. View holdings record detail

Result: The **Select Desired Media Type** dialog box displays after clicking Add. See [Figure 2-31](#).

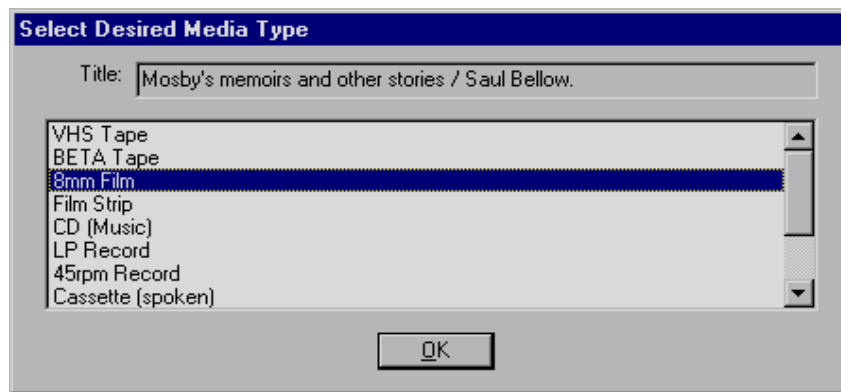

Figure 2-31. Select Desired Media Type

12. Click the appropriate media option and click **OK**.

Result: Your selection displays on the **Media** tab for your booking. See [Figure 2-32](#).

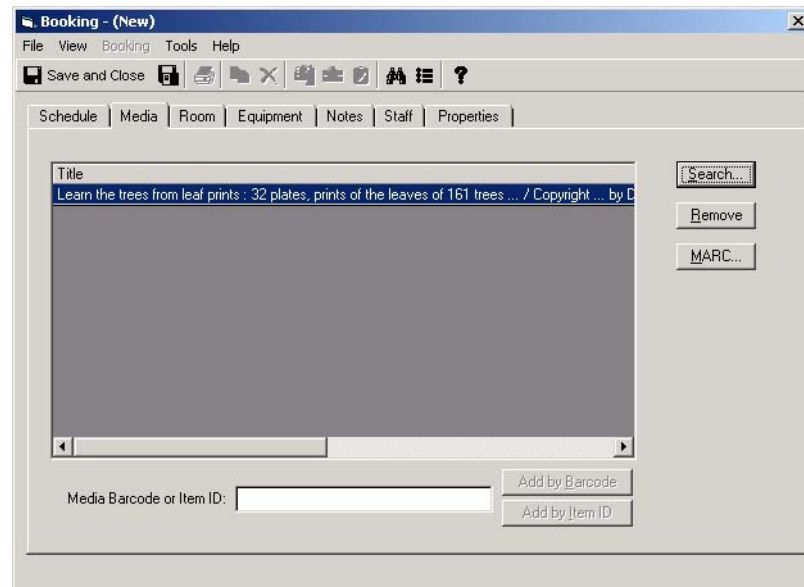

Figure 2-32. Media tab booking selection

Builder Tab

Use the **Builder** tab to create complex searches using multiple fields, search terms, and Boolean operators.

The **Builder** tab provides the following options for searching. See [Figure 2-33](#).

- Search for
- Multi-term phrasing/non-phrasing options
- Search in
- Boolean operators
- Edit/Delete

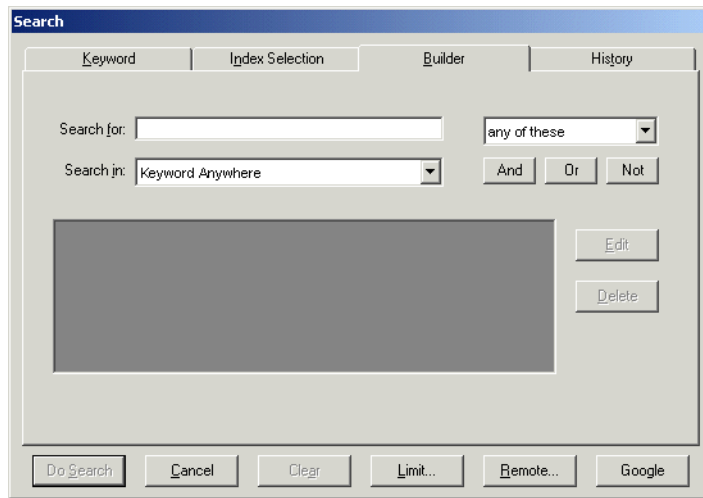

Figure 2-33. Builder tab (bibliographic media search)

See [Table 2-11](#) for a description of the fields and selections available on the **Builder** tab.

Table 2-11. Builder tab options

Name	Description
Search for	Enter search term(s).
Multi-term phrasing/ non-phrasing options	Specify phrasing/non-phrasing option for search term(s) entered. The any of these option places or logic between the search terms entered. The all of these option places and logic between the search terms entered. The as a phrase option treats the search terms as if they were logically set off by quotation marks.
Search in	Select search type from the drop-down list.
Boolean operators	Click And , Or , or Not to create a Boolean search with additional search terms and criteria.
Edit/Delete	Use the Edit and Delete buttons to modify the rows of the Builder search. First, click the row to highlight it for editing or deletion.

Table 2-11. Builder tab options

Name	Description
Default Tab	<p>Identifies which tab displays as the default when the Search function is initiated.</p> <p>This button is inactive on the tab selected as the default.</p> <p>At installation, the Index Selection tab is the default.</p> <p>This option is available on the following tabs: Keyword, Index Selection, and Builder.</p> <p>This button does not display when Retain Last Search is selected.</p>
Save Settings	<p>Saves values on the current search tab.</p> <p>The search code for the index is saved.</p> <p>The saved settings display each subsequent time this tab is accessed.</p> <p>To change settings, enter new values on the tab and click Save Settings.</p> <p>NOTE: When the index is deleted, the index code is changed, or it is suppressed, a standard error message is displayed. When the user responds by clicking OK, the default setting is cleared and the first index in the list and the first connector display.</p> <p>This option is available on the following tabs: Index Selection and Builder.</p> <p>This button does not display when Retain Last Search is selected.</p>

The procedure for entering a search on the **Builder** tab is shown in [Procedure 2-12, Builder tab search](#), on page [2-49](#).

Procedure 2-12. Builder tab search

Use the following to execute a **Builder** tab search for the item to include in your booking.

1. Click the **Bookings** listbar button.

Result: The **Bookings** options display in the listbar.

2. Click **New Booking**, **Booking Wizard**, or **New Pick-Up**.

Result: The **Media** tab or **Booking Wizard** dialog box displays.

3. Click the **Media** tab or follow the **Booking Wizard** dialog box instructions.

Result: The **Search** button displays.

4. Click **Search**.

Result: The **Search** dialog box displays.

5. Click the **Builder** tab.

Result: The **Builder** search options display.

6. Enter your search criteria. See [Table 2-11](#) on [page 2-48](#) for a description of your options.

Result: The **Search** dialog box is ready to process your search.

7. (Optional) Set limits by clicking the **Limits** button. See [Search Limits](#) on [page 2-29](#) for more details regarding setting limits.

Result: Your search criteria results list will contain fewer records based on the limits selected.

8. (Optional) Click the User-Defined Alternative Search button. See [Table 2-8](#) on [page 2-28](#) for details.

Result: A search outside the Voyager database is executed using a URI (Uniform Resource Identifier) and the text string entered in the **Search for** field if text is entered.

9. Click **Do Search**.

Result: The **Titles Index** dialog box displays a list of records based on the search criteria you entered. See [Figure 2-34](#).

Figure 2-34. Title List

10. Select the record for your booking and click **OK**.

Result: The **Selected Bibliographic Records, Holdings, and Items** dialog box displays. See [Figure 2-35](#).

Figure 2-35. Selected Bibliographic Records, Holdings, and Items

11. Click a holdings record to select it for your booking, and click **Add**.

Optionally, click **View** to display the holdings detail for a selected holdings record as in [Figure 2-36](#) and click **Close** return to the **Selected Bibliographic Records, Holdings, and Items** screen to Add your selection.

NOTE:

The holdings record can also be displayed in the OPAC by selecting WebVoyage from the drop-down list displayed on the **Holdings Record** dialog box (see [Figure 2-36](#)) and clicking **Send Record To**.

Figure 2-36. View holdings record detail

Result: The **Select Desired Media Type** dialog box displays after clicking Add. See [Figure 2-37](#).

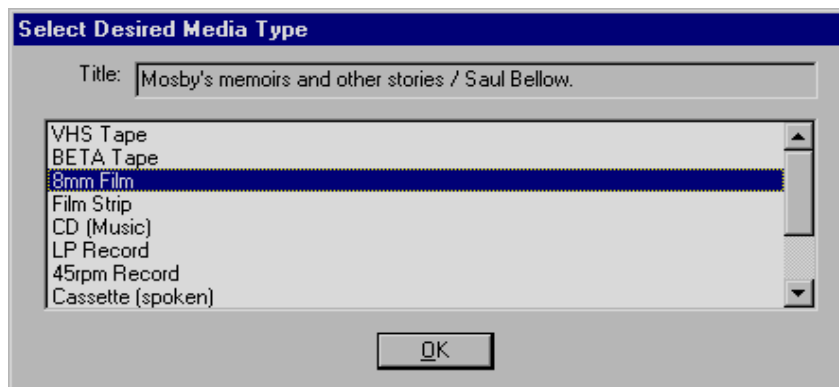

Figure 2-37. Select Desired Media Type

12. Click the appropriate media option and click **OK**.

Result: Your selection displays on the **Media** tab for your booking. See [Figure 2-38](#).

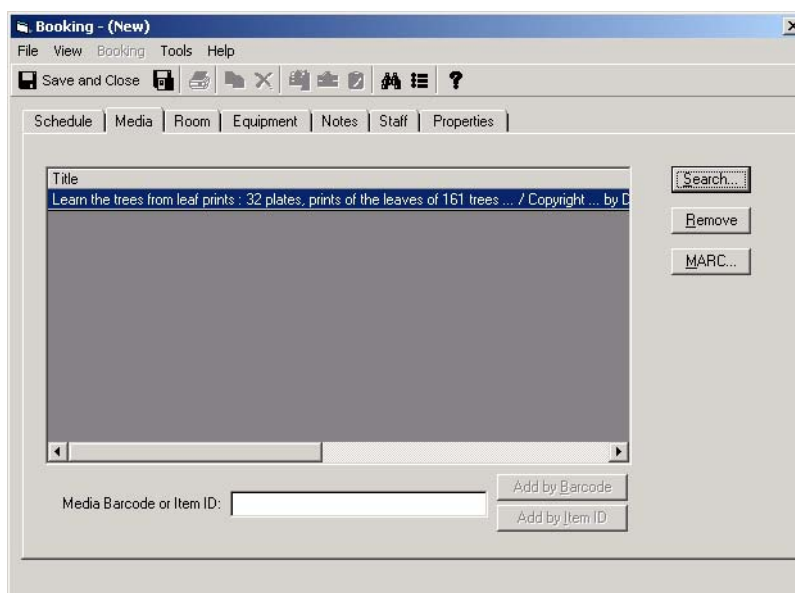

Figure 2-38. Media tab booking selection

History Tab

Use the **History** tab to increase your productivity. Searches performed during the current session are saved on the **History** tab and can be reused or edited for additional database searching.

The **History** tab provides the following information and options. See [Figure 2-39](#).

- # Hits
- Search Text
- Edit

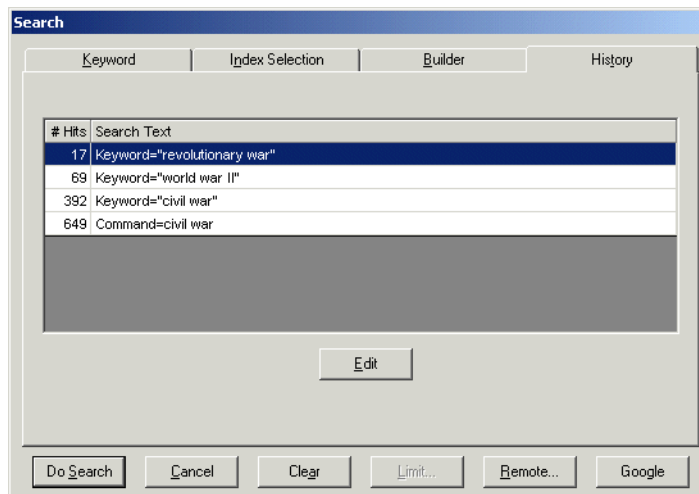

Figure 2-39. History tab (bibliographic media search)

See [Table 2-12](#) for a description of the information and options available on the **History** tab.

Table 2-12. History tab information/options

Name	Description
# Hits	Provides a count of the number of matching records for the search previously completed.
Search Text	Displays the search text entered on either the Keyword , Index Selection , or Builder tab.

Table 2-12. History tab information/options

Name	Description
Edit	<p>Click the Edit button to display the tab from which the search originated. The same search can be repeated or the search criteria can be edited and the search process repeated.</p> <p>NOTE: Each modified search also displays on the History tab.</p>

The procedure for repeating or editing a search from the **History** tab is shown in [Procedure 2-13, History tab search](#), on page [2-55](#).

Procedure 2-13. History tab search

Use the following to repeat or edit a search from the **History** tab.

1. Click the **Bookings** listbar button.

Result: The **Bookings** options display in the listbar.

NOTE:

If the **Search** dialog box is the active display on your screen, skip Step [1](#) through [4](#) and go directly to Step [5](#) of this procedure.

2. Click **New Booking**, **Booking Wizard**, or **New Pick-Up**.

Result: The **Media** tab or **Booking Wizard** dialog box displays.

3. Click the **Media** tab or follow the **Booking Wizard** dialog box instructions.

Result: The **Search** button displays.

4. Click **Search**.

Result: The **Search** dialog box displays.

5. Click the **History** tab.

Result: The **History** search information and options display.

6. Click the search you want to repeat or edit.

Result: This highlights the search with which you want to work.

7. Click **Edit**.

Result: This displays the original search on the appropriate tab (**Keyword**, **Index Selection**, or **Builder**) from which it was created.

8. Enter any search criteria changes or skip to Step [11](#).

See [Procedure 2-10, Keyword tab search](#), on page [2-34](#), [Procedure 2-11, Index Selection tab search](#), on page [2-43](#), or [Procedure 2-12, Builder tab search](#), on page [2-49](#) for more information regarding the options that can be selected/changed for your search.

Result: The **Search** dialog box is ready to process your search.

9. (Optional) Set limits by clicking the **Limits** button. See [Search Limits](#) on [page 2-29](#) for more details regarding setting limits.

Result: Your search criteria results list will contain fewer records based on the limits selected.

10. (Optional) Click the User-Defined Alternative Search button. See [Table 2-8](#) on [page 2-28](#) for details.

Result: A search outside the Voyager database is executed using a URI (Uniform Resource Identifier) and the text string entered in the **Search for** field if text is entered.

11. Click **Do Search**.

Result: The **Titles Index** dialog box displays a list of records based on the search criteria you entered. See [Figure 2-40](#).

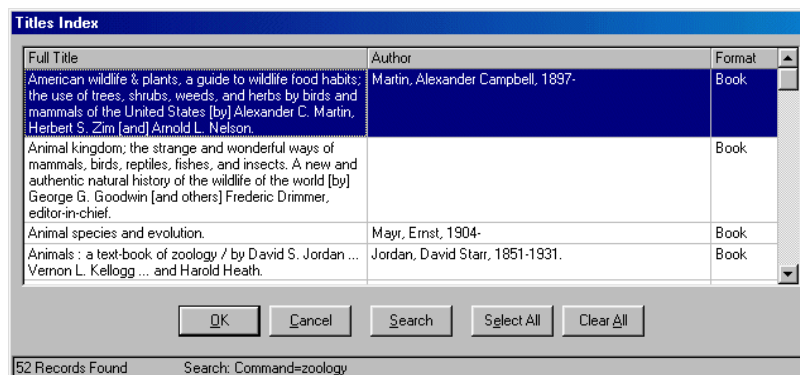

Figure 2-40. Title List

12. Select the record for your booking and click **OK**.

Result: The **Selected Bibliographic Records, Holdings, and Items** dialog box displays. See [Figure 2-41](#).

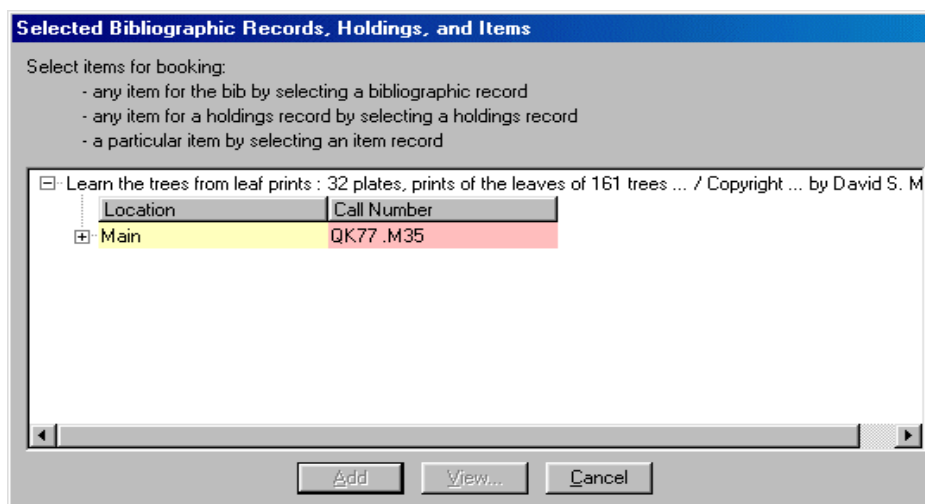

Figure 2-41. Selected Bibliographic Records, Holdings, and Items

13. Click a holdings record to select it for your booking, and click **Add**.

Optionally, click **View** to display the holdings detail for a selected holdings record as in [Figure 2-42](#) and click **Close** return to the **Selected Bibliographic Records, Holdings, and Items** screen to Add your selection.

NOTE:

The holdings record can also be displayed in the OPAC by selecting WebVoyage from the drop-down list displayed on the **Holdings Record** dialog box (see [Figure 2-42](#)) and clicking **Send Record To**.

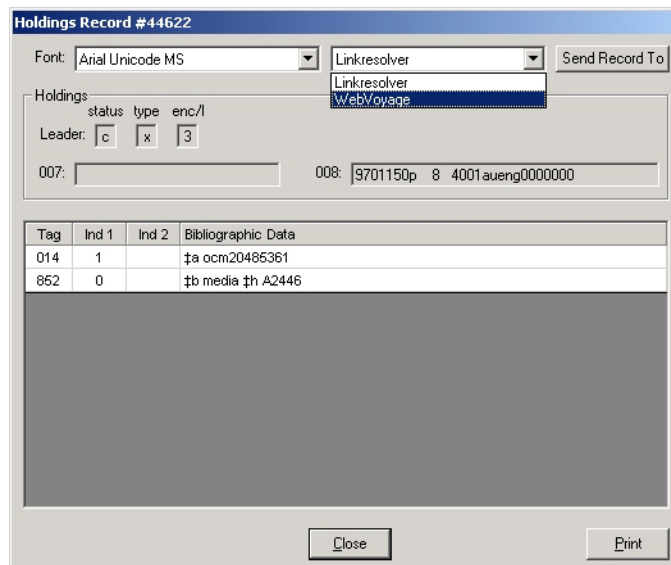

Figure 2-42. View holdings record detail

Result: The **Select Desired Media Type** dialog box displays after clicking Add. See [Figure 2-43](#).

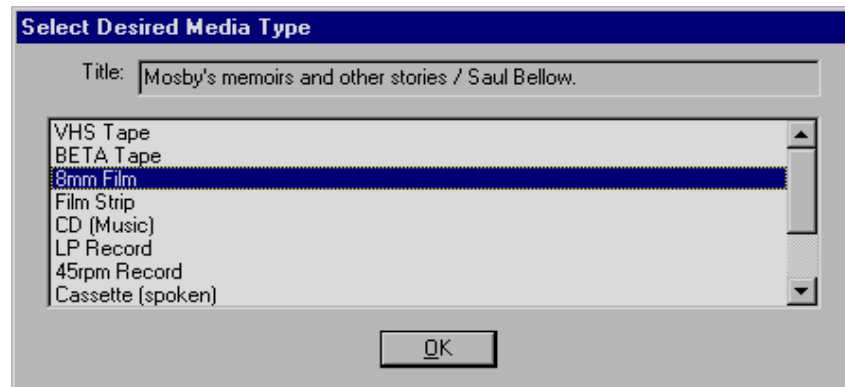

Figure 2-43. Select Desired Media Type

14. Click the appropriate media option and click **OK**.

Result: Your selection displays on the **Media** tab for your booking. See [Figure 2-44](#).

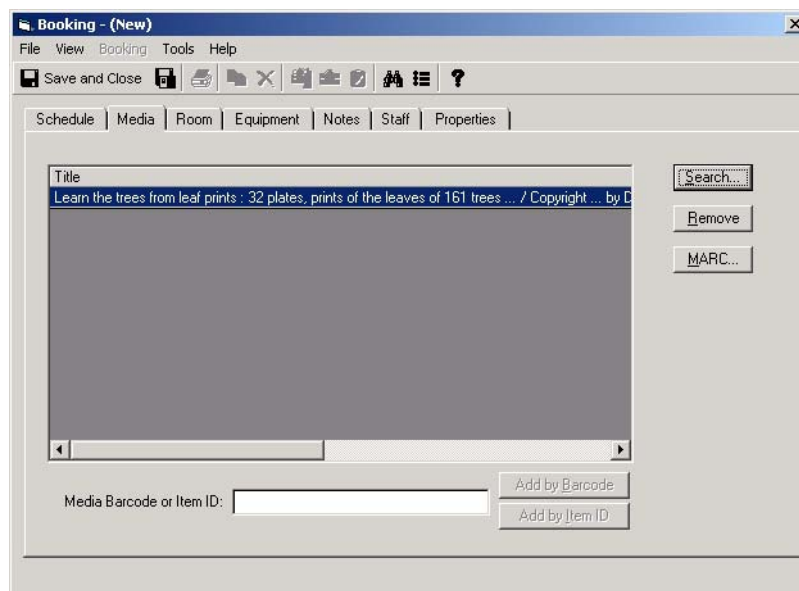

Figure 2-44. Media tab booking selection

Patron Notes

Media Scheduling provides the ability to view patron notes. The patron pop-up note, as created in the Circulation client, displays when a patron is selected during booking creation, charge, discharge, and pickup operations (see [Figure 2-45](#)).

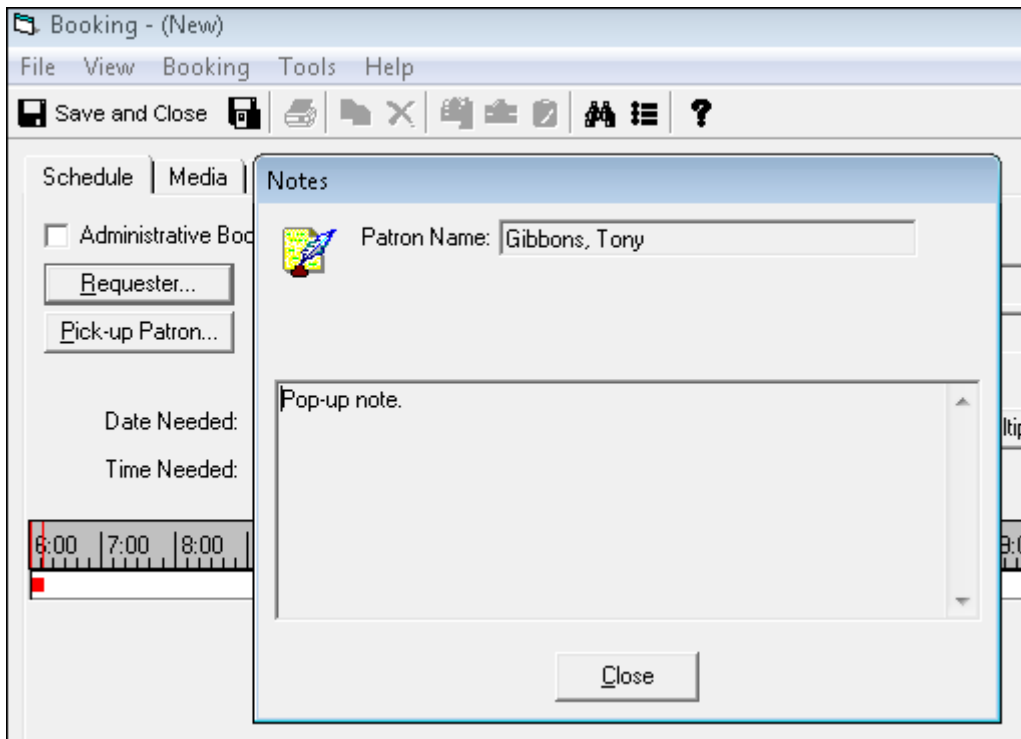

Figure 2-45. Patron pop-up note

The other types of patron notes are available for viewing from the View menu when a patron is selected (see [Figure 2-46](#)). Each time that a patron record is retrieved in order to complete a booking or process a charge, a pop-up note displays (if it exists) before any further action can be completed.

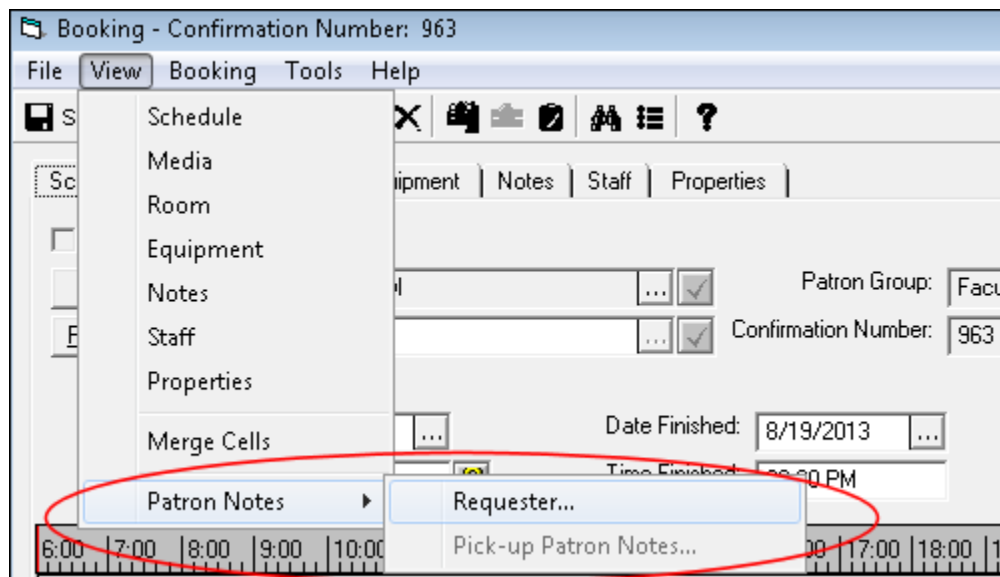

Figure 2-46. View > Patron Notes

Patron notes are read-only in the Media Scheduling client. Note maintenance such as creation, editing and deletion remain functions of the Circulation client.

Setting Options

To enhance the usability of Media Scheduling, use the **Options** settings to customize your work environment. Click **Tools>Options** to access these features.

Settings are grouped and accessible via labeled tabs. See [Figure 2-47](#).

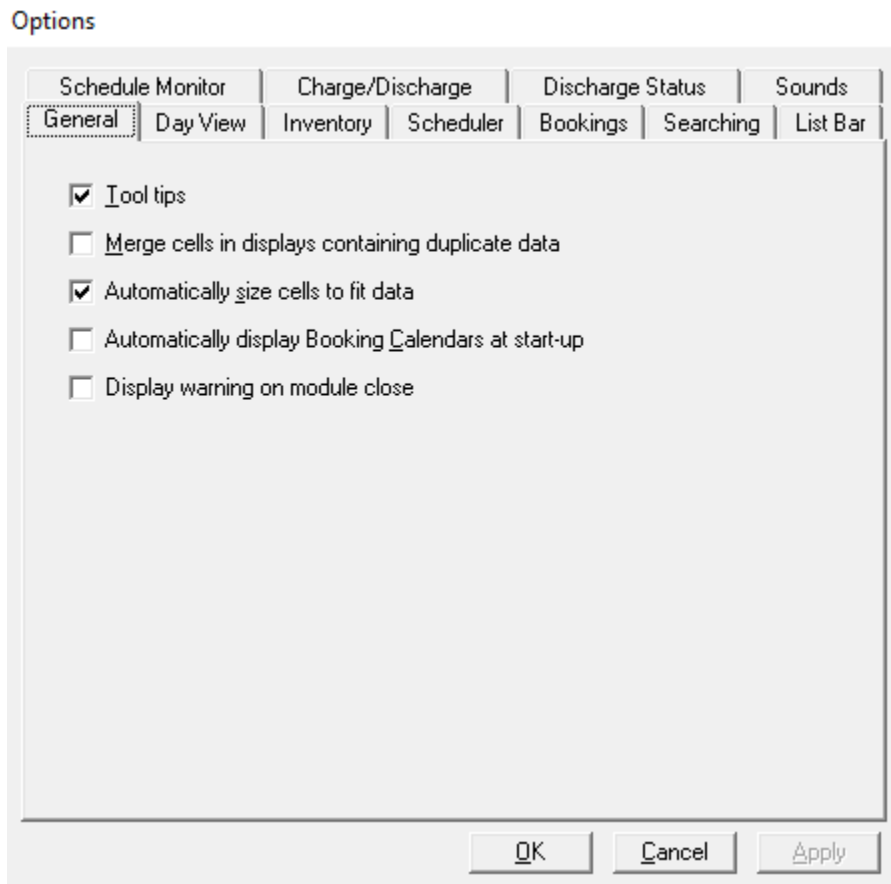

Figure 2-47. Options

Use the **OK**, **Apply**, and **Cancel** buttons to save, modify, or cancel any **Options** settings.

General Tab

See [Figure 2-48](#) for the options available on the **General** tab. An explanation of these options is provided in [Table 2-13](#).

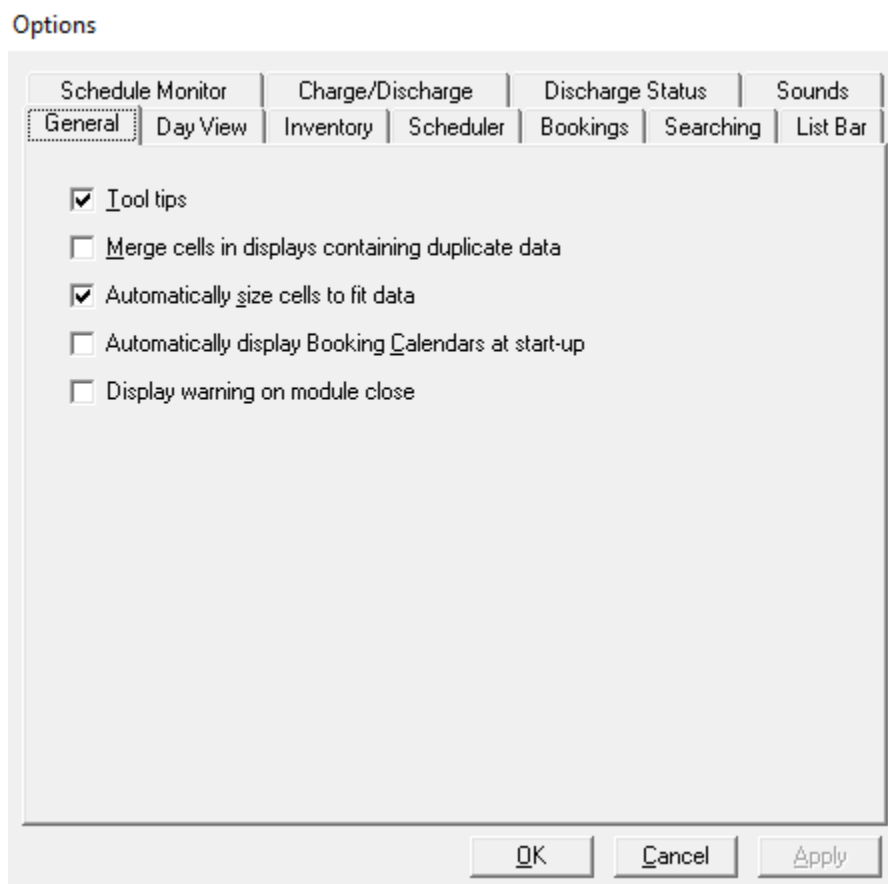

Figure 2-48. Options - General tab

Table 2-13. General tab options

Option	Description
Tool Tips	Use this option to display text describing the function of the feature to which the mouse is pointing.
Merge fields in displays containing duplicate data	Use this option to indicate that duplicate data in adjacent fields are to display in a single field or remain as individual entries.
Automatically size fields to fit data	Use this option to automatically resize columns to the width of the widest item in the column.

Table 2-13. General tab options

Option	Description
Automatically Display Booking Calendars at start-up	Use this option to automatically display the Booking Calendars window at startup.
Display warning on module close	Select this option to display a warning message when you close the Media Scheduling module by selecting the X icon. With the Display warning on module close option selected when you select the X icon to close the module, the system prompts you with the options OK and Cancel to close the client or return to the active window, respectively.

Day View Tab

The options selected on the Day View tab affect the display of headings in the Booking Schedule - Day View display (see [Figure 2-49](#)) and the search results display of Tools > Search > Bookings (see [Figure 2-50](#)). The width of the columns can be adjusted by clicking/dragging the edges of the column headers on these displays.

Specific to the Title column (when selected to display), it displays the following:

- *No titles in booking* (when there are no media items to display)
- The title of the media item (when there is only one media item to display)
- *Multiple titles in booking* (for multiple media items)

Use the Edit option to view all titles (consistent within the user interface).

See [Figure 2-51](#) on [page 2-67](#).

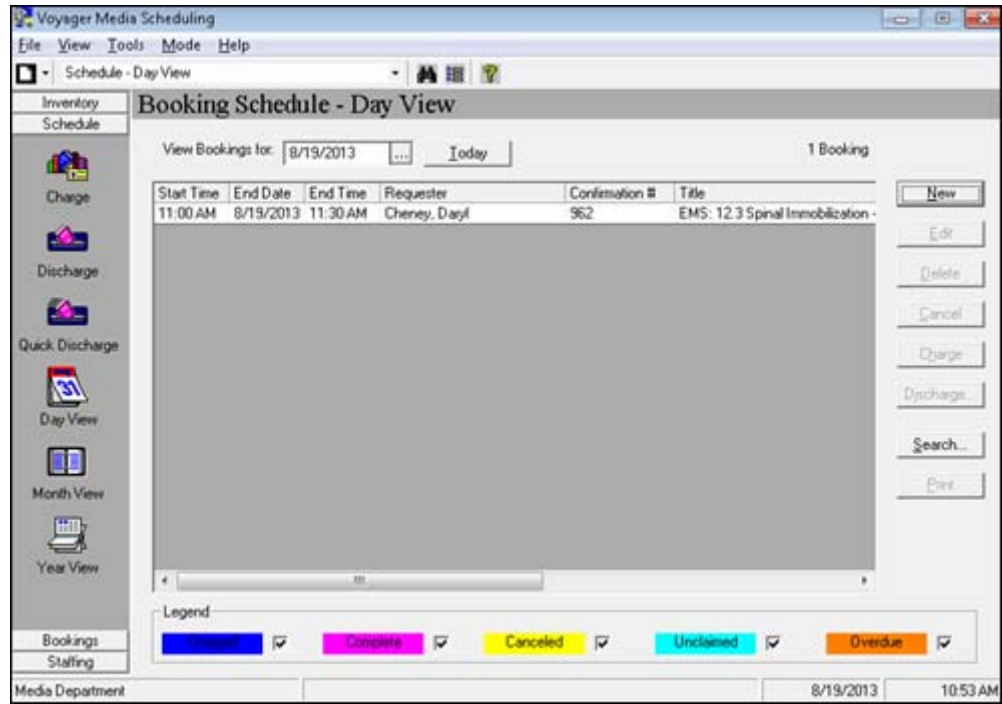

Figure 2-49. Booking Schedule - Day View

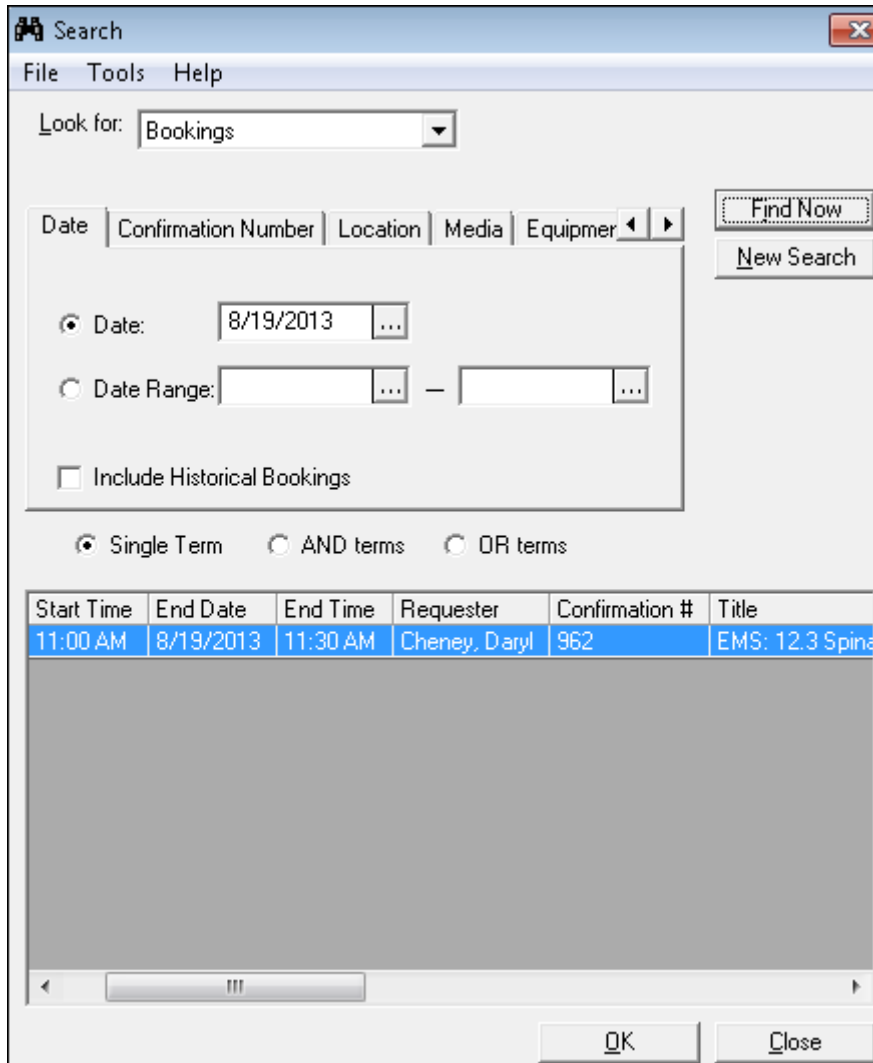

Figure 2-50. Tools > Search > Bookings display results

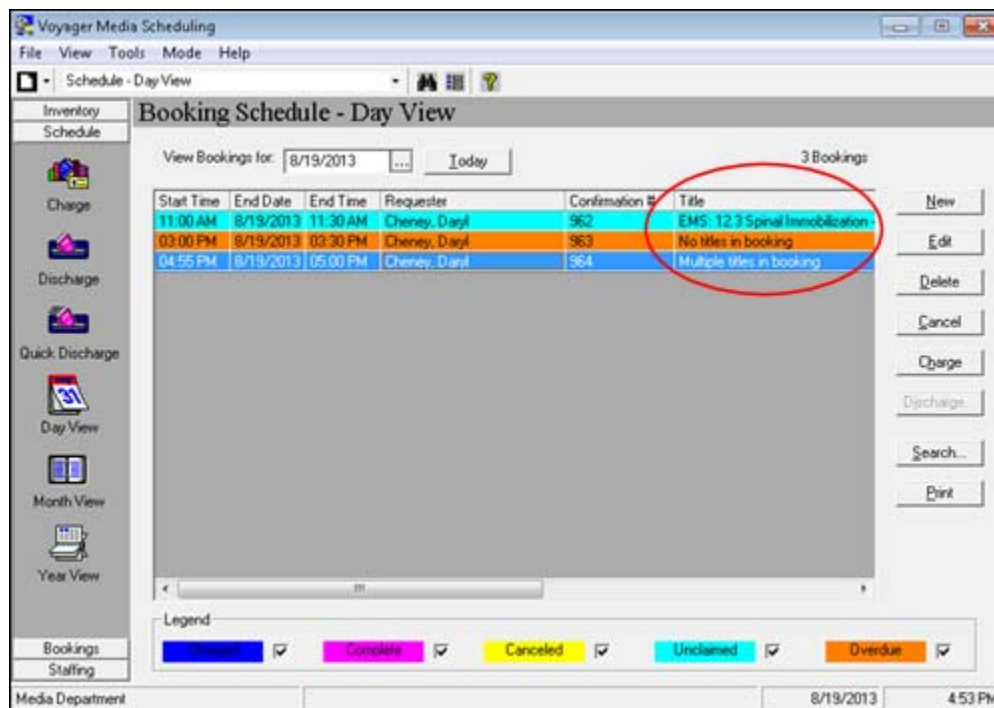

Figure 2-51. Title column content

See [Figure 2-52](#) for the options available on the **Day View** tab and see [Table 2-14](#) for a description of the Include in Display options.

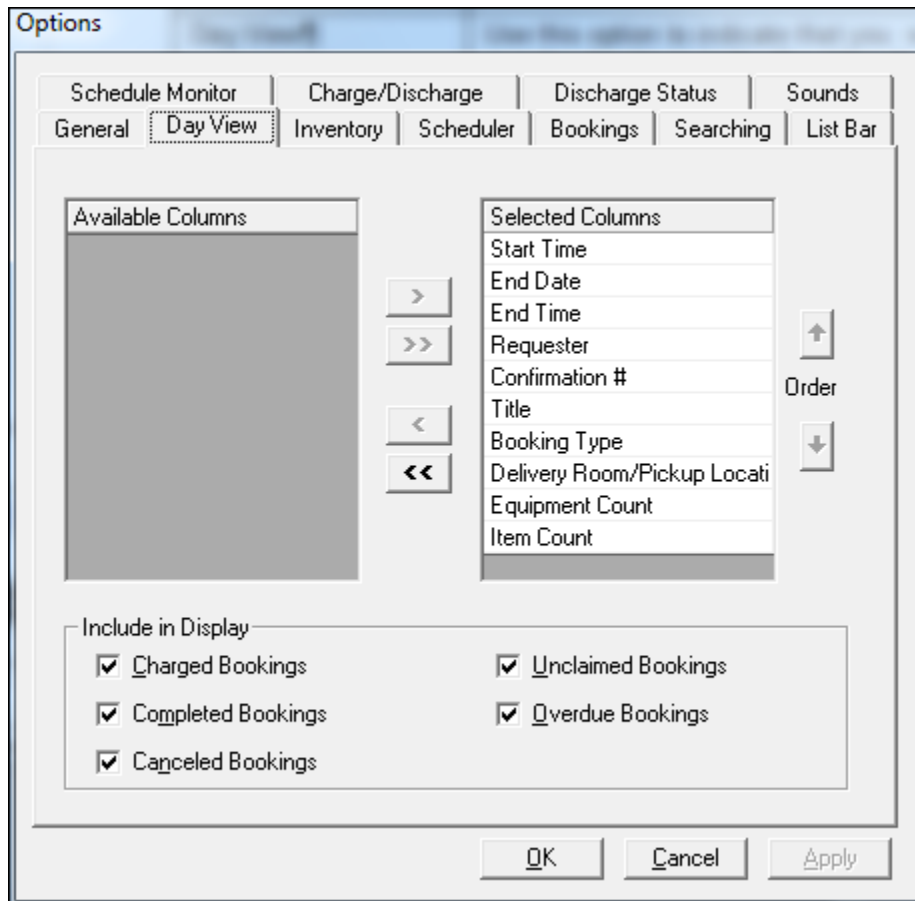

Figure 2-52. Day View tab

To identify the columns that display on the Day View screen, use the left/right, single/double arrows to move the headings from the Selected Columns area to the Available Columns area.

If you choose to move a subset of the Selected Columns headings to the Available Columns area, the headings are ordered sequentially on the Day View screen according to the order in which you move them into the Available Columns area. See [Figure 2-53](#).

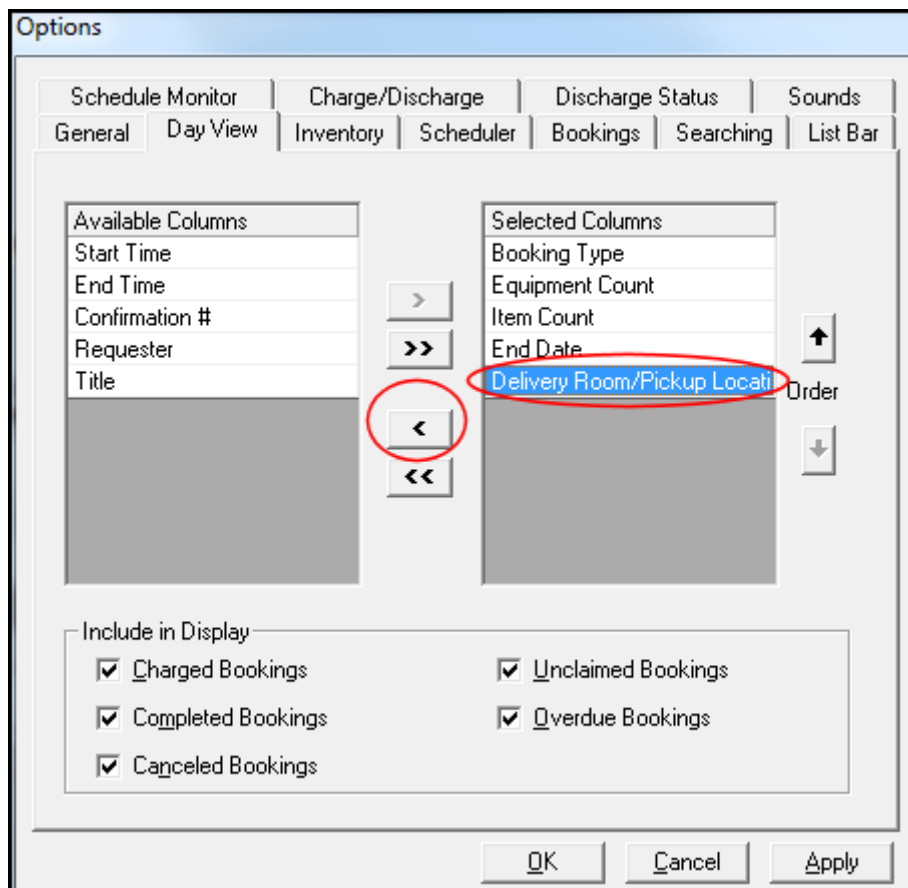

Figure 2-53. Selecting individual column headings

If you choose to move the entire list of Selected Columns headings to the Available Columns area, use the double left arrows. Before moving the entire list, you may rearrange the order in the Selected Columns area by highlighting a heading and using the up/down arrows to change the placement of the heading that you highlighted. Once you have the headings arranged in your preferred order, use the double left arrows to move the entire list to the Available Columns area.

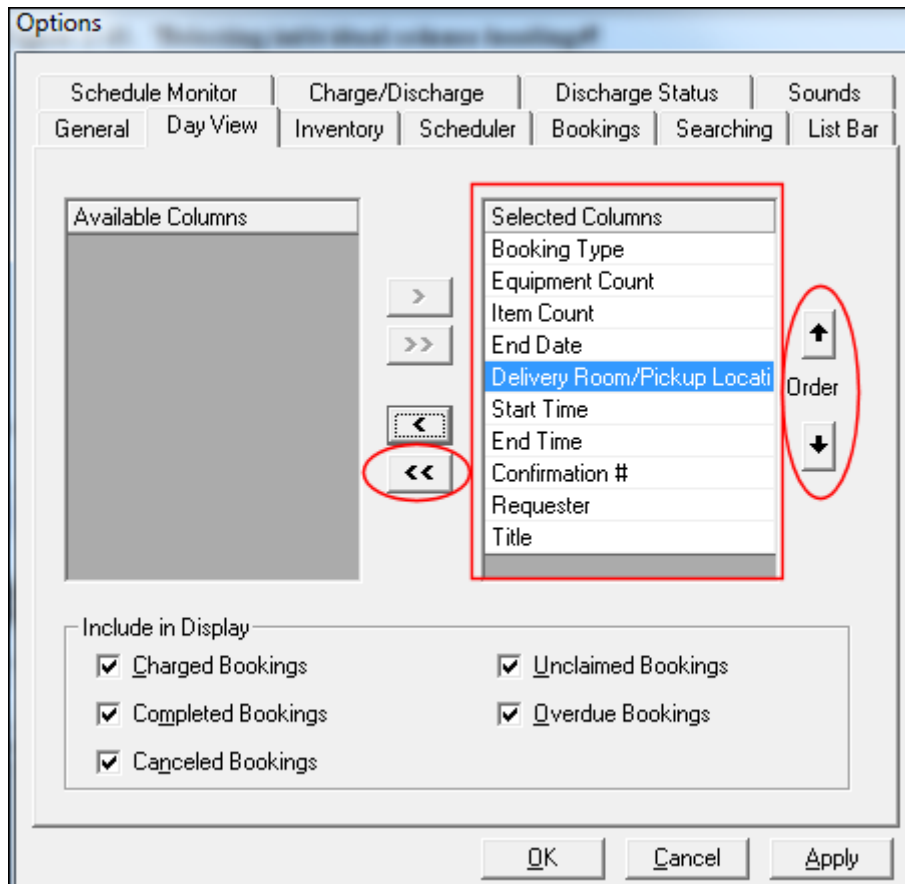

Figure 2-54. Selecting all column headings

Table 2-14. Day View tab Include in Display options

Option	Description
Charged Bookings	Use this option to indicate that you want to see charged bookings in the Day View.
Completed Bookings	Use this option to indicate that you want to see completed bookings in the Day View.
Canceled Bookings	Use this option to indicate that you want to see canceled bookings in the Day View.

Table 2-14. Day View tab Include in Display options

Option	Description
Unclaimed Bookings	Use this option to indicate that you want to see unclaimed bookings in the Day View.
Overdue Bookings	Use this option to indicate that you want to see overdue bookings in the Day View.

Inventory Tab

See [Figure 2-55](#) for the options available on the **Inventory** tab. An explanation of these options is provided in [Table 2-15](#).

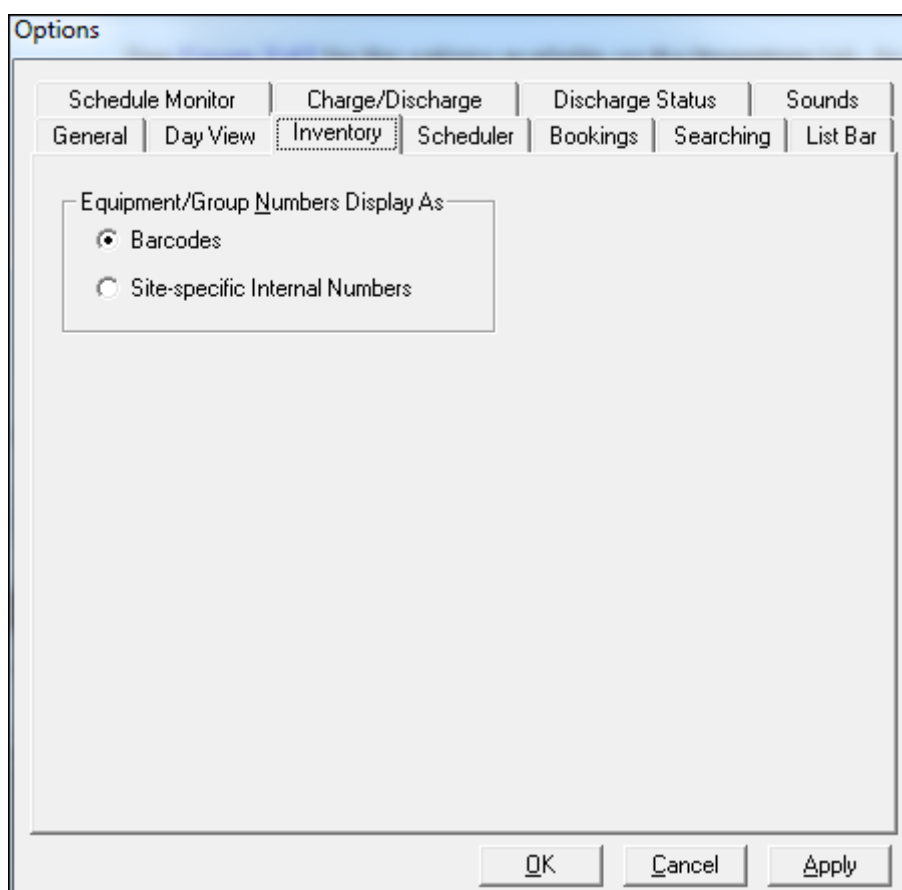

**Figure 2-55. Options - Inventory tab**

Table 2-15. Inventory tab options

Option	Description
Equipment Group Numbers Display As Barcodes	Use this option to display the barcode number for the equipment group.
Equipment Group Numbers Display As Site-specific Internal Numbers	Use this option to display the number for the equipment group as defined by the institution's numbering scheme for equipment groups.

Scheduler Tab

See [Figure 2-56](#) for the options available on the **Scheduler** tab. An explanation of these options is provided in [Table 2-16](#).

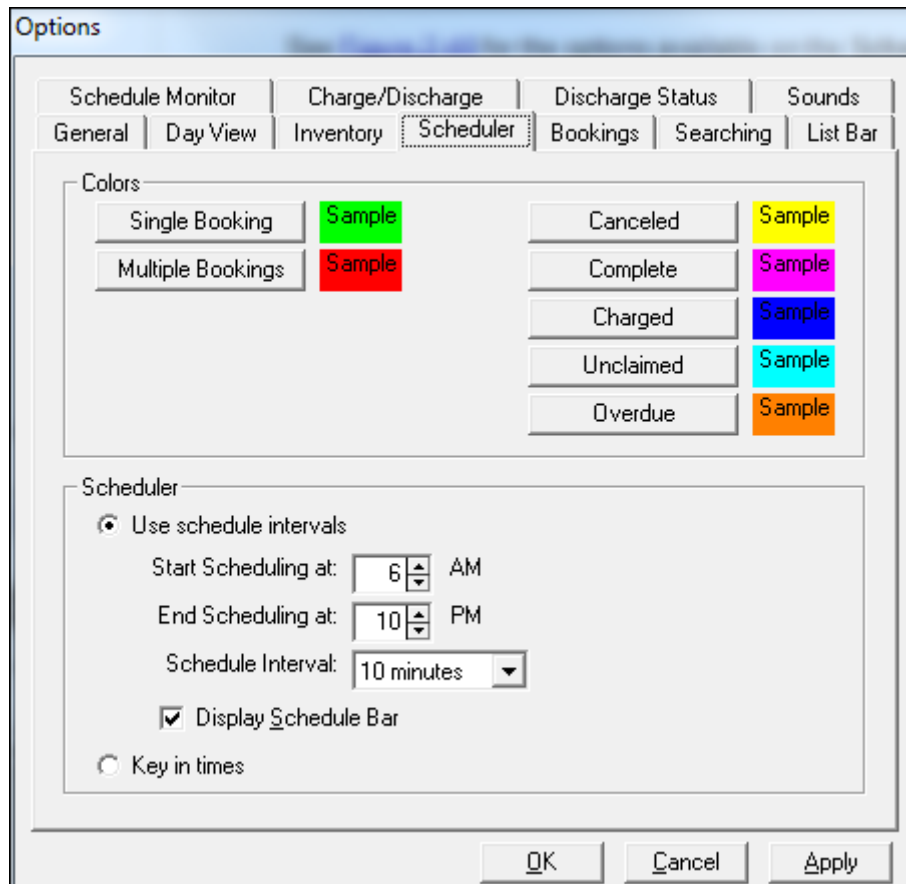

Figure 2-56. Options - Scheduler tab

Table 2-16. Scheduler tab options

Option	Description
Colors	<p>Use the Colors set of options to change the Text Color and/or Background Color for the following functions.</p> <ul style="list-style-type: none"> • Single Booking • Multiple Bookings • Canceled • Complete • Charged • Unclaimed • Overdue
Scheduler Use Schedule Intervals Start Scheduling at End Scheduling at	<p>Use this option to define a Start and End time range within which bookings may be scheduled.</p> <p>NOTE: Bookings cannot be made for any time outside this range.</p>
Scheduler Use Schedule Intervals Schedule Interval	<p>Use this option to identify in minutes the incremental time interval for scheduling bookings.</p> <p>You may select to set the booking increment at 5, 10, 15, 20, or 30 minutes, or 1 hour.</p>
Scheduler Use Schedule Intervals Display Schedule Bar	<p>Use this option to display the schedule bar. This provides you the ability to use your mouse to move the schedule bar to set booking times within the Start and End time range.</p> <p>In the absence of a Schedule Bar, the end user clicks up/down arrows to change the time for the booking.</p> <p>NOTE: The Schedule Bar markings reflect the interval selected in Schedule Interval</p> <p>NOTE: When the Display Schedule Bar is not checked, the end user may still dynamically display the Schedule Bar by clicking the ellipsis button from the Booking dialog box.</p>

Table 2-16. Scheduler tab options

Option	Description
Scheduler Key in times	Select this option to allow the end user to enter the booking times from the keyboard. NOTE: There is no Schedule Interval or Start/End Scheduling time range limitation. Any increment of time in minutes may be specified. And any time within a 24-hour day may be specified for a booking.

Bookings Tab

See [Figure 2-57](#) for the options available on the **Bookings** tab. An explanation of these options is provided in [Table 2-17](#).

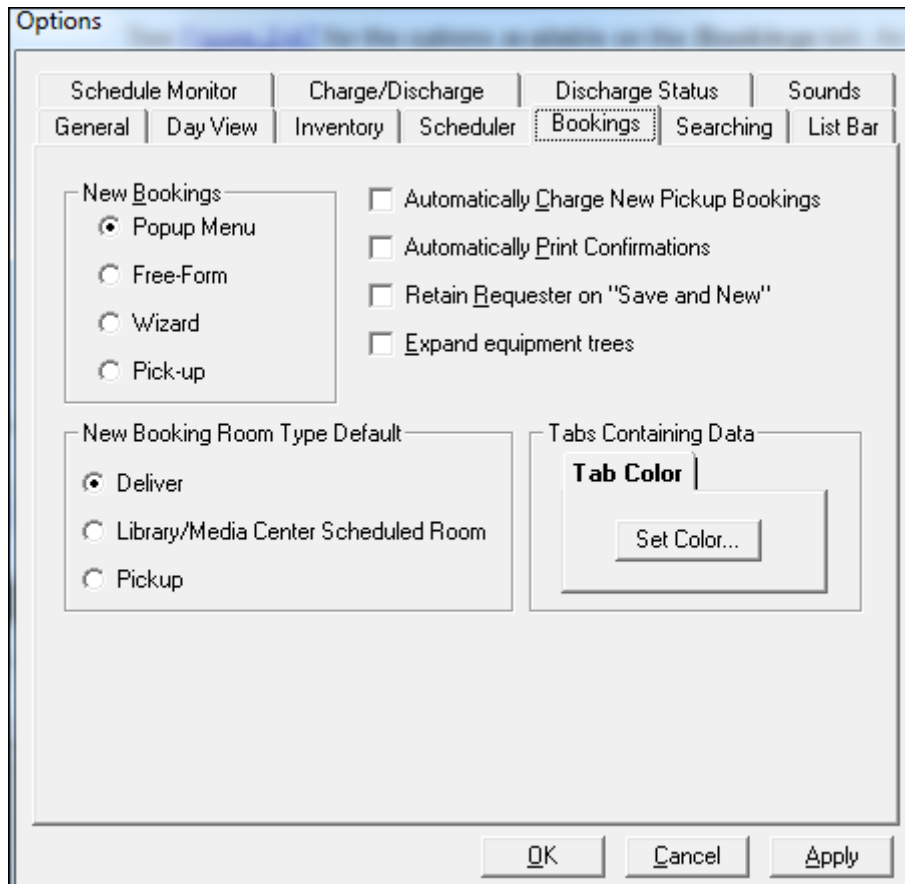

Figure 2-57. Options - Bookings tab

Table 2-17. Bookings tab options

Option	Description
New Bookings	Select one of the following New Bookings options to identify which screen displays when you start a new booking from anywhere besides the bookings list bar or whether a pop-up booking menu should display. <ul style="list-style-type: none"> • Popup Menu • Free-Form • Wizard • Pick-up

Table 2-17. Bookings tab options

Option	Description
New Booking Room Type Default	Use this option to identify the default on the Room tab for a New Booking. The options are as follows. <ul style="list-style-type: none"> • Deliver • Library/Media Center Scheduled Room • Pickup
Automatically Charge New Pickup Bookings	Selection this option to indicate that newly created Pick-up Bookings are to be automatically charged to the patron.
Automatically Print Confirmations	Select this option to indicate that confirmation slips are to be printed when a booking is created/saved.
Retain Requester on "Save and New"	Use this productivity option to have the system retain the name of the Requester when Save and New is clicked to save a booking and immediately create another booking.
Expand equipment trees	Select this option in order to automatically expand the equipment trees in the following: <ul style="list-style-type: none"> • Equipment tab of the standard booking form • Equipment tab of the Immediate Pickup Booking form • Equipment panel of the booking wizard • Select Equipment for Booking form • Add Equipment Type to Booking form
Tabs Containing Data Tab Color	The selected color is applied to the tabs as follows: <p>Schedule - if any field contains data</p> <p>Media - if there are any rows in the list of media in addition to the header row</p> <p>Room - if any room is selected</p> <p>Equipment - if there is any In-Room equipment, Specific Equipment, or Equipment and Equipment Group Types</p> <p>Notes - if there are any notes</p> <p>Staff - if there is any setup of clean-up staff selected</p> <p>Properties - if any field contains data</p>

Searching Tab

See [Figure 2-58](#) for the options available on the **Searching** tab. An explanation of these options is provided in [Table 2-18](#).

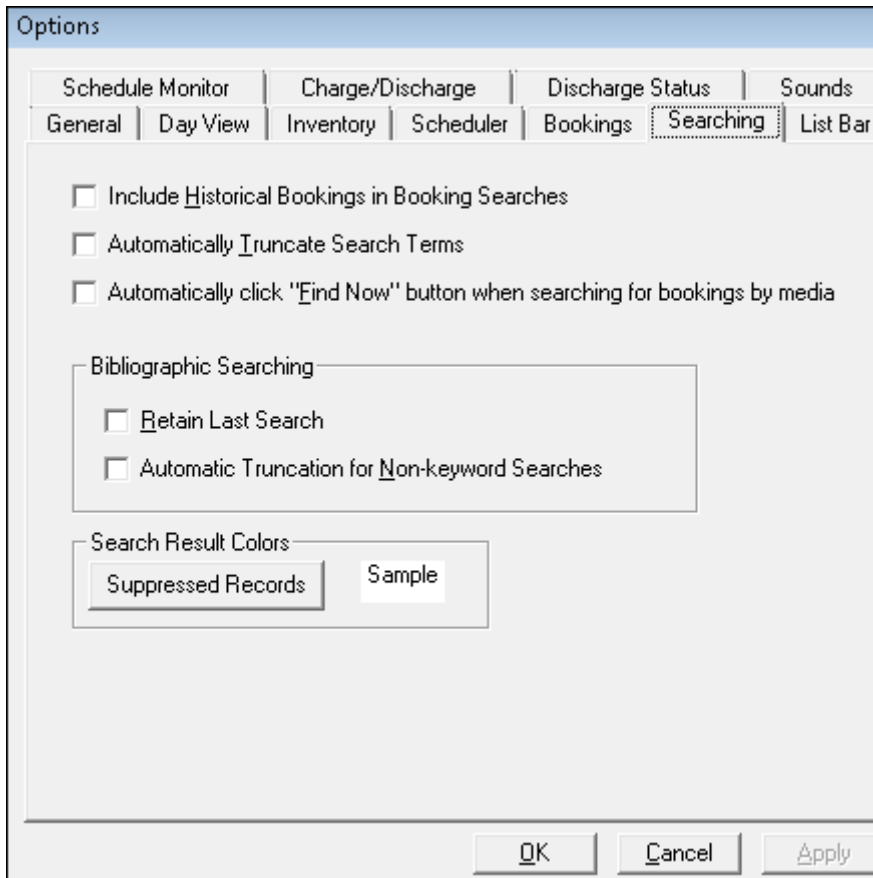

Figure 2-58. Options - Searching tab

Table 2-18. Searching tab options

Option	Description
Include Historical Bookings in Booking Searches	Select this option to set the the Include Historical Bookings option as the default in a Bookings Search. See Figure 2-4 .
Automatically Truncate Search Terms	<p>Select this option to have the system automatically truncate search terms for every search.</p> <p>NOTE: If this option is not selected, the end user may use the question mark (?) character with search terms to indicate truncation.</p>
Automatically click “Find Now” button when searching for bookings by media	Select this option to have the system automatically search for any bookings attached to the media selected from the Titles Index.
Bibliographic Searching Retain Last Search	<p>Select this option to have the system automatically display the last search executed on the Search dialog box when using the Bibliographic Search function as in Figure 2-18, Figure 2-24, or Figure 2-33.</p> <p>The last search is saved until the current Media Scheduling session is exited.</p> <p>NOTE: Retain Last Search overrides the Default Tab and Save Settings functionality located on the bibliographic Search dialog box. See Table 2-9 on page 2-32, Table 2-10 on page 2-39, and Table 2-11 on page 2-48 for more information.</p>

Table 2-18. Searching tab options

Option	Description
Bibliographic Searching Automatic Truncation for Non-keyword Searches	Select this option to have the system automatically truncate search terms for every Index Selection search when using the Bibliographic Search function. NOTE: If this option is not selected, the end user may use the question mark (?) character with search terms to indicate truncation.
Search Result Colors Suppressed Records	Use this option to display bibliographic and holdings records in a different color in the staff search results lists if these records have been suppressed in the database from the OPAC. Search results are highlighted with the preference colors selected when a bibliographic or MFHD record is suppressed (including times when the bibliographic record is not suppressed but the MFHD record is suppressed). This applies to Find and Browse searches on the Index Selection tab of the Search dialog box and includes call number browse searches.

List Bar Tab

See [Figure 2-59](#) for the options available on the **List Bar** tab. An explanation of these options is provided in [Table 2-19](#).

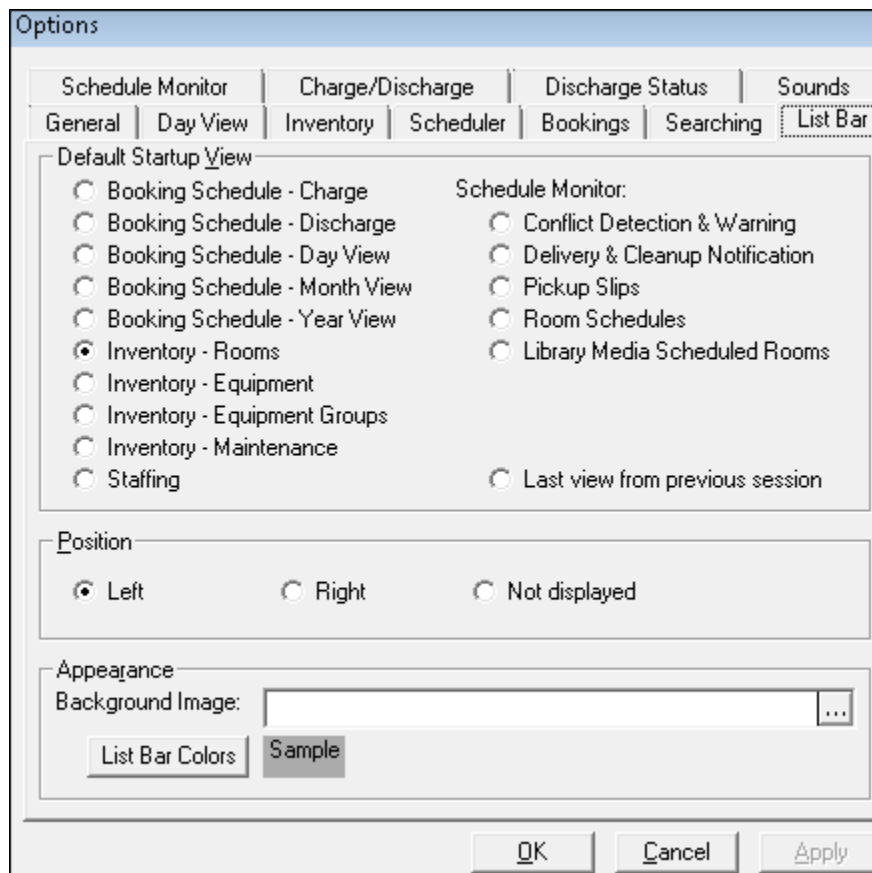

Figure 2-59. Options - List Bar tab

Table 2-19. List Bar tab options

Option	Description
Default View	Use this option to identify the default task screen that displays when Media Scheduling is started.
Position	Use this option to indicate the position of the listbar on the screen, the left side or the right side. Additionally, you may select that the listbar not display.

Table 2-19. List Bar tab options

Option	Description
Appearance Background Image	Use this option to select the file that is to be the background image for the List Bar.  TIP: Click the ellipsis button to browse for the filename.
Appearance List Bar Colors	Click the List Bar Colors button to change the Text Color and/or Background Color.

Schedule Monitor Tab

See [Figure 2-60](#) for the options available on the **Schedule Monitor** tab. An explanation of these options is provided in [Table 2-20](#).

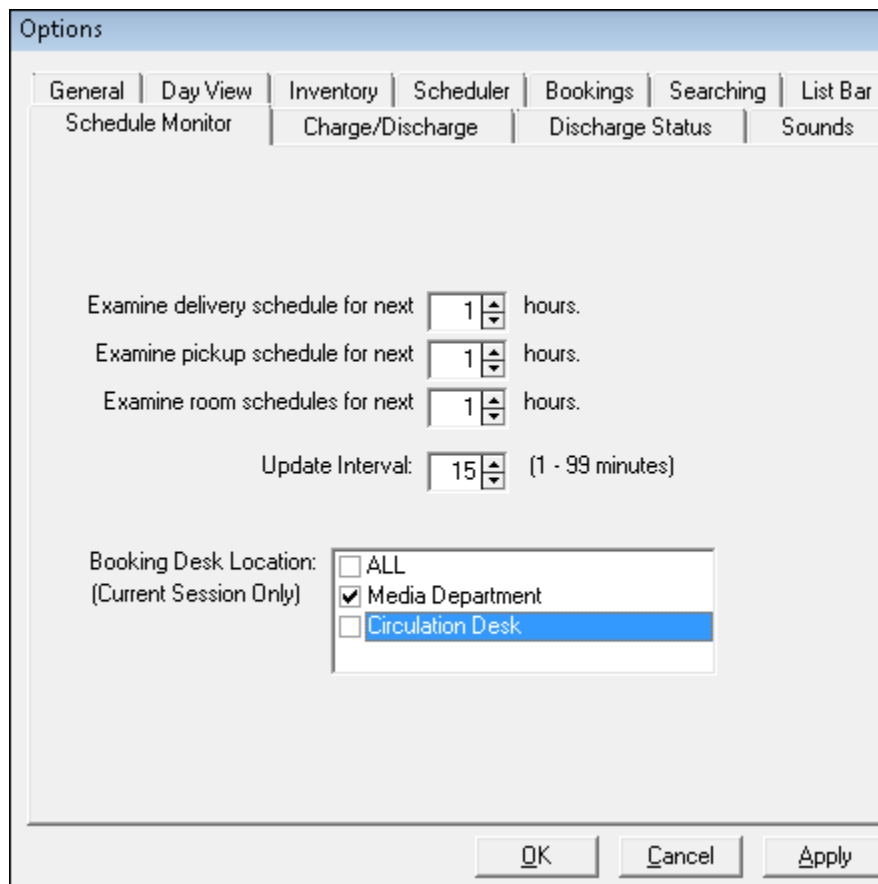

Figure 2-60. Options - Schedule Monitor tab

Table 2-20. Schedule Monitor tab options

Option	Description
Examine delivery schedule for next ...	Use this option to select how long in advance (in hours from 0 - 999) you want to know about items to be delivered and when you want to assign items to upcoming generic delivery bookings.
Examine pickup schedule for next ...	Use this option to select how long in advance (in hours from 0 - 999) you want to know about items to be picked up and when you want to assign items to upcoming generic pickup bookings.

Table 2-20. Schedule Monitor tab options

Option	Description
Examine room schedules for next ...	Use this option to select how long in advance (in hours from 0 - 999) you want to know about rooms scheduled for bookings and when you want to assign rooms to upcoming generic room bookings.
Update Interval	Use this option to indicate the frequency (in minutes from 1 - 99) of how often the Schedule Monitor checks the server for any changes.
Booking Desk Location	Use this option to specify the Booking Desk Location. Select All or click the checkbox for the location(s) you prefer.

Charge/Discharge Tab

See [Figure 2-61](#) for the options available on the **Charge/Discharge** tab. An explanation of these options is provided in [Table 2-21](#).

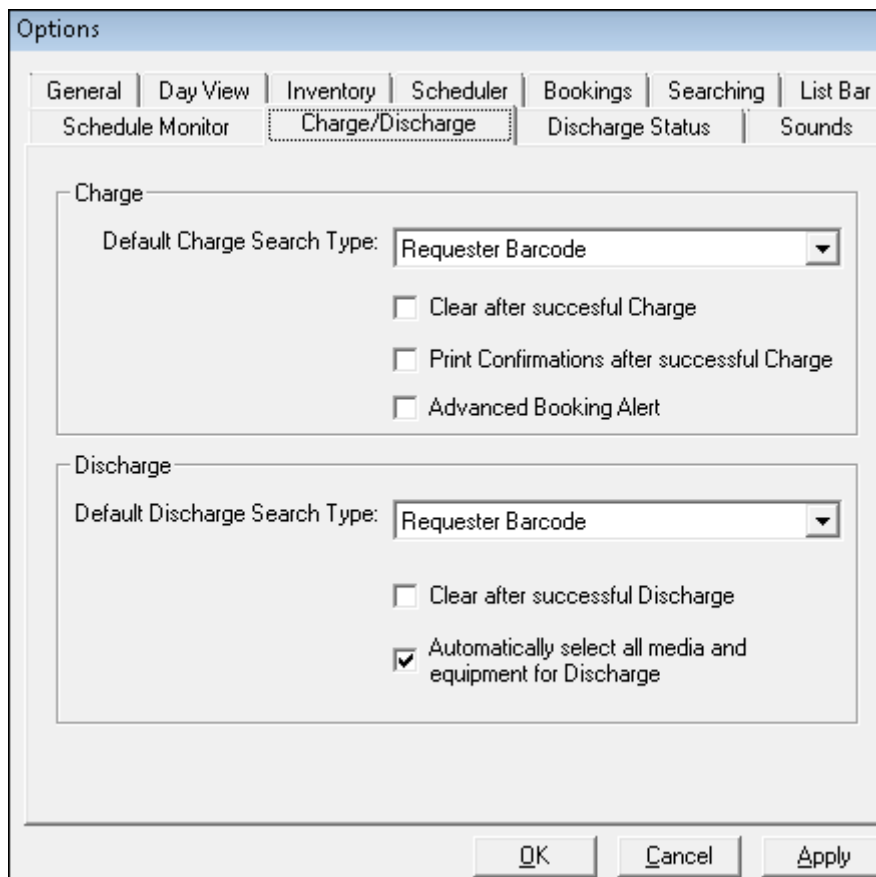

Figure 2-61. Options - Charge/Discharge tab

Table 2-21. Charge/Discharge tab options

Option	Description
Charge Default Charge Search Type	Use this option to select the default Search By type such as Requester Barcode or Patron Last Name for Booking Schedule - Charge . See Figure 4-8 .
Charge Clear after successful Charge	Use this option to have the system automatically clear the Booking Schedule - Charge dialog box after completing a successful charge.

Table 2-21. Charge/Discharge tab options

Option	Description
Charge Print Confirmation after successful Charge	Use this option to have the system automatically print a confirmation slip when a booking is charged.
Charge Advanced Booking Alert	Select this option to enable advanced booking alerts. When enabled, a warning message is provided for a subsequent, close booking (for the same items, equipment, or rooms) at the time of charging the booking. The warning interval period is set in Media System Administration Policy Group Settings (see Figure 2-62). This interval identifies the timeframe within which a booking is considered close to another booking.
Discharge Default Discharge Search Type	Use this option to select the default Search By type such as Requester Barcode or Patron Last Name for Booking Schedule - Discharge .
Discharge Clear after successful Charge	Use this option to have the system automatically clear the Booking Schedule - Discharge dialog box after completing a successful discharge.
Discharge Automatically select all media and equipment for Discharge	Use this option to have the system automatically select all media and equipment for discharge when the Discharge Booking Media and Equipment dialog box is displayed.

Discharge Status Tab

With the options on the Discharge Status tab, you can identify alerts to be displayed at discharge for the equipment and items statuses you select.

See [Figure 2-63](#) for the options available on the **Discharge Status** tab. An explanation of these options is provided in [Table 2-22](#).

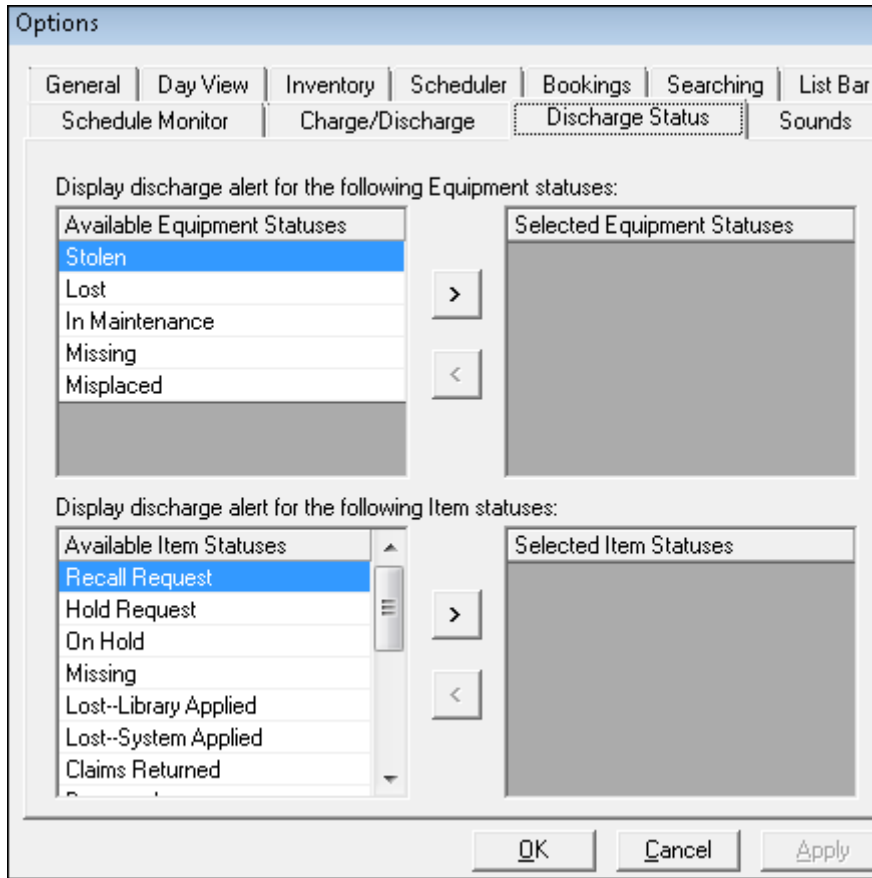

Figure 2-63. Discharge Status tab

Table 2-22. Discharge Status tab options

Option	Description
Available Equipment Statuses	<p>Select from the following list of equipment statuses:</p> <ul style="list-style-type: none"> • Stolen • Lost • In Maintenance • Missing • Misplaced <p>You may select one or more statuses from the list. If equipment being discharged has one of the selected statuses, the system displays a pop-up window alert message to the staff person.</p>
Available Item Statuses	<p>Select from the following list of item statuses:</p> <ul style="list-style-type: none"> • Recall Request • Hold Request • On Hold • Missing • Lost--Library Applied • Lost--System Applied • Claims Returned • Damaged • Withdrawn • At Bindery • Cataloging Review • Circulation Review • In Process • Call Slip Request • Short Loan Request • Remote Storage Request <p>You may select one or more statuses from the list. If an item being discharged has one of the selected statuses, the system displays a pop-up window alert message to the staff person.</p>

Sounds Tab

See [Figure 2-64](#) for the options available on the **Sounds** tab. An explanation of these options is provided in [Table 2-23](#).

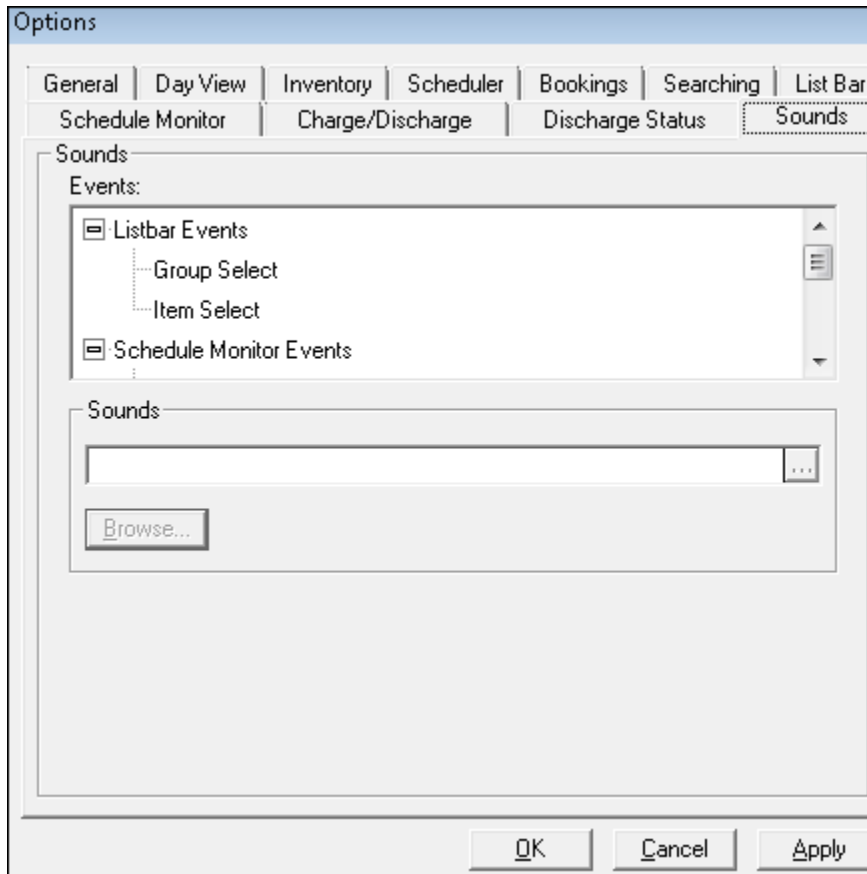

Figure 2-64. Options - Sounds tab

Table 2-23. Sounds tab options

Option	Description
Events	Use this component of the Sounds tab to identify the event that is to have sound associated with it.
Sounds	Use this component of the Sounds tab to identify the sound that is to be associated with the selected event by entering the name of a sound file. Optionally, you can click the Browse button to locate a sound file.

Standard Mode - Inventory

3

Introduction

The Inventory component of Voyager Media Scheduling in Standard Mode provides you the capability to manage your room and equipment resources.

The following inventory options are accessible from the Inventory listbar.

- Rooms
- Equipment
- Equipment Groups
- Equipment Maintenance

See [Figure 3-1](#).

NOTE:

Operator security settings entered through the Voyager Media System Admin module affect the options that are displayed. As a result, your system display may vary from the illustrations included in this chapter.

Figure 3-1. Inventory listbar options

Rooms

The Rooms option in Voyager Media Scheduling Inventory provides the capability to store records that define the characteristics of each room resource. For example, you may want to identify room features such as the following.

- Number of people the room can seat
- Wall-mounted whiteboard
- Cable TV connections
- Internet connections
- Ceiling-mounted video projection equipment

These features are all fixed resources of the room. Optionally, equipment that is portable can be defined as a component of the room or defined with the Equipment and Equipment Groups options. See [Equipment](#) on [page 3-16](#) and [Equipment Groups](#) on [page 3-26](#) for more information. You need to consider the usage of your room and equipment resources to determine which approach to defining resources within Voyager Media Scheduling is best suited for your institution.

Rooms are categorized by Room Type. See [Figure 3-1](#) on [page 3-2](#). Room Types are defined in the Voyager Media System Admin module.

Voyager Media Scheduling provides the following Rooms records functions.

- Create
- Edit
- Delete
- Search
- Print

Create Room

The procedure for creating a room is shown in [Procedure 3-1, Creating a New Room](#), on page [3-3](#).

Procedure 3-1. Creating a New Room

Use the following to create a new room in Voyager Media Scheduling.

1. Click the **Inventory** listbar button.

Result: The **Inventory** listbar function icons display.

2. Click **Rooms**.

Result: The dynamic component of the **Inventory** dialog box displays Room Types and the room record headings of Number, Room Name, Room Location, Status, and Capacity.

3. Click **New**.

Result: The **Room Inventory - (New)** dialog box displays. See [Figure 3-2](#).

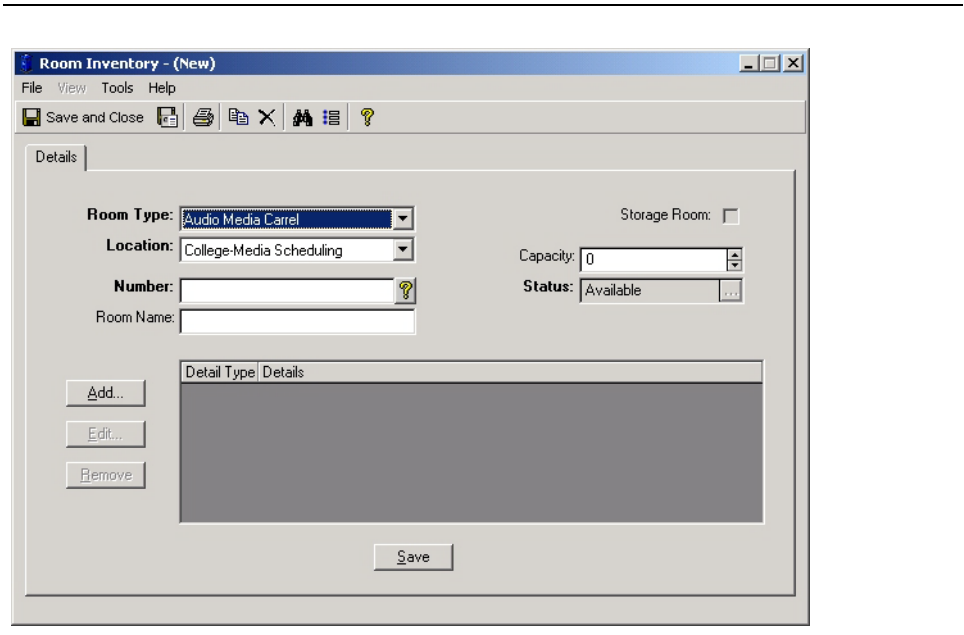

Figure 3-2. Room Inventory - (New) dialog box

4. Enter the room **Details** tab characteristics. See [Table 3-1](#) for a description of the options available on the **Details** tab of the **Rooms Inventory - (New)** dialog box.

Result: The **Details** tab of the **Rooms Inventory - (New)** dialog box is complete.

Table 3-1. Room Inventory - (New) Details Tab

Option	Description
Room Type	Use this option to select the Room Type for this room record. NOTE: Room Types are defined in the Voyager Media System Admin module.
Location	Use this option to specify the room location from the pre-defined list of locations in the drop-down list. NOTE: The contents of the Location drop-down list are determined by the settings defined in Voyager Media System Admin in Operator Security - Locations.

Table 3-1. Room Inventory - (New) Details Tab

Option	Description
Number	Enter a room number.  TIP: <i>Click the question mark to display a list of room numbers already assigned.</i>
Room Name	Enter a descriptive name in this field for the Rooms record you are creating. This name displays under the Room Name heading when viewing a list of rooms by Room Types. See Figure 3-3 .
Storage Room	Use this option to indicate that the Rooms record represents a room that is used for storage.
Capacity	Specify the seating capacity for the room.
Status	For new Rooms records, the Status displays as Available. NOTE: This field can only be edited after the record is saved for the first time. Subsequently, click the ellipses button to display the Room Status dialog box from which to select a status.
Details Add	Click Add to display a list of Room Detail Types from which to select to further define the characteristics of the room. See Figure 3-4 . After selecting a type, enter any additional description in Details to further define the room resources. NOTE: Detail Types are defined in the Voyager Media System Administration module.
Details Edit	Use this option to edit Room Detail Types previously selected. Highlight a Detail Type record, and click Edit .
Details Remove	Use this option to delete Room Detail Types previously selected. Highlight a Detail Type record, and click Remove .

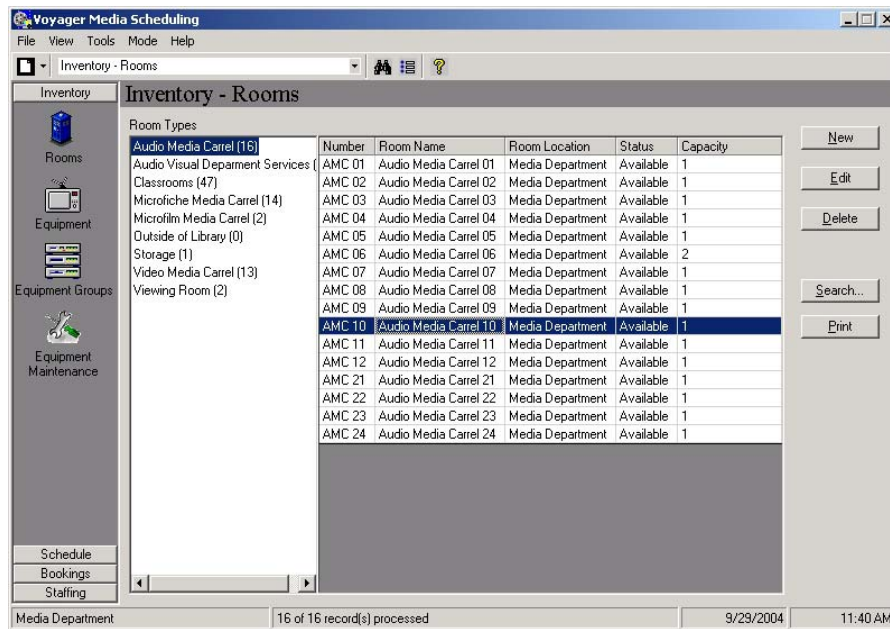

Figure 3-3. Room Name example

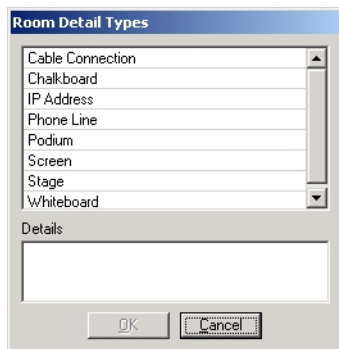

Figure 3-4. Room Detail Types

5. Click the **Save** button.

Result: This saves the information entered on the **Details** tab and displays the **Bookings**, **Equipment**, **Notes**, and **Properties** tabs for entering or viewing additional information.

6. Click the **Bookings** tab.

Result: No bookings entries display since this is a new Rooms record. See [Procedure 3-2, Editing a Rooms Record](#), on page [3-11](#) for more information about working with this tab.

7. Click the **Equipment** tab and add or remove equipment from the room. See [Table 3-2](#) for a description of the options on the **Equipment** tab.

Result: Equipment that is assigned to a room is identified in the list with the columns labeled Barcode, Type, Group?, and Status. See [Figure 3-5](#).

Table 3-2. Room Inventory - Equipment Tab

Option	Description
Add By Barcode (or Add by Equipment Number)	Enter an equipment barcode number (scan it or type it) and click Add By Barcode (or Add by Equipment Number) to add equipment to the room selected. If more than one item has the barcode or equipment number entered, the Multiple Barcodes dialog box displays. See Figure 3-6 . NOTE: Your system's configuration determines the button label. See Inventory Tab on page 2-71 for a description of your options.
Equipment/Groups	Click an Equipment or Groups option to expand the list and select equipment to be added to the room.
Up/Down Arrows and Undo	Use the up/down arrows and the Undo button to move equipment into or out of the room's list of equipment with columns labeled Barcode, Type, Group?, and Status. When the down arrow is used to remove equipment from the room, the Move Equipment/Group dialog box displays. See Figure 3-7 .

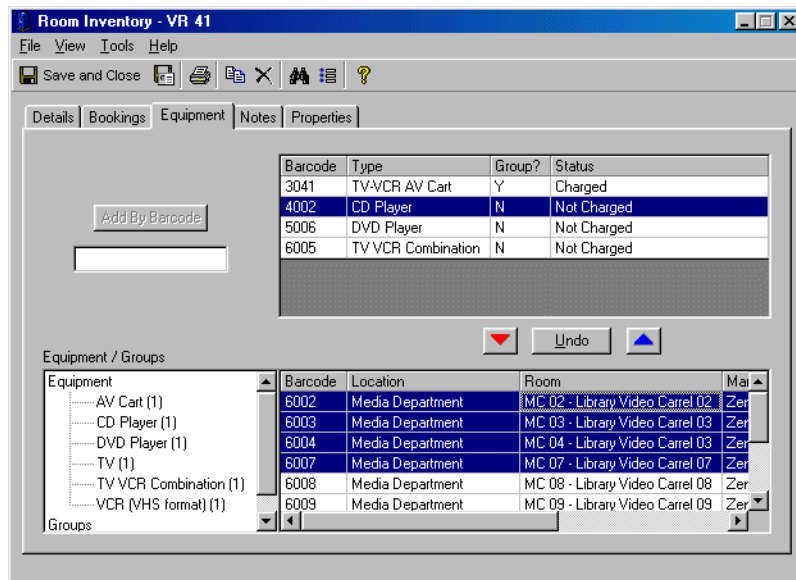

Figure 3-5. Room Inventory - Equipment tab

Figure 3-6. Multiple Barcodes dialog box

Figure 3-7. Move Equipment/Group dialog box

8. Click the **Notes** tab, select a Notes type, and enter any miscellaneous text regarding the current room record. See [Table 3-3](#) for a description of the **Notes** tab options.

Result: The text of the room note displays.

Table 3-3. Room Inventory - Notes Tab

Option	Description
Note Type	Select the type of note from the drop-down list.
Updated	Displays the date the note was updated.
Name	Displays the name of the operator that entered the note.
Save/Undo/Remove	Use Save , Undo , and/or Remove to store and/or edit the note created. NOTE: You must click Save to store the note that you have entered or the information is lost. Use the Remove button to delete a note that has been stored.

9. Click the **Properties** tab.

Result: Information about the rooms record is displayed. See [Table 3-4](#) for a description of the fields on this tab. This tab is automatically updated whenever a change is made.

Table 3-4. Room Inventory - Properties Tab

Option	Description
Created By	Displays the name of the operator that created the room.
Updated By	Displays the name of the operator that last edited the room.

Table 3-4. Room Inventory - Properties Tab

Option	Description
Create Date	Displays the date the room was created.
Update Date	Displays the date that the room was last updated and saved.
Create Location	Displays the name of the location associated with creating the room.
Update Location	Displays the name of the location associated with last updating the room.
Historical Bookings	Displays the number of historical bookings associated with the room.

10. Click **Save and Close** or **Save and New** to save your Rooms record. See [Table 3-5](#) for a description of each of these options.

Result: The new Rooms record is saved.

Table 3-5. Save Options

Option	Description
Save and Close	Use this option to save a Rooms record and close the Details tab.
Save and New	Use this option to save a Rooms records and reset the Details tab to its original defaults in order to create another Rooms record.

Edit Room

Editing allows the operator to move equipment from one room to another. Media Scheduling provides the added flexibility of moving equipment from a pending room booking, one that is not currently charged, without deleting and recreating bookings. This is an especially useful feature when portable equipment like a TV cart is kept in a room that can be scheduled and may need to move from room to room.

**IMPORTANT:**

Equipment moved from a scheduled room (or a room identified as the delivery point in a booking) causes that equipment to be deleted from all pending bookings associated with that room.

A warning message displays when the operator selects the action to move equipment. See [Figure 3-8](#).

Figure 3-8. Equipment move warning message

NOTE:

The operator must be authorized for **Remove equipment from booked rooms?**. For more information about authorization for this function, see *Media Scheduling System Administration User's Guide* regarding operator security.

The procedure for editing a room is shown in [Procedure 3-2, Editing a Rooms Record](#), on page [3-11](#).

Procedure 3-2. Editing a Rooms Record

Use the following to edit a Rooms record in Voyager Media Scheduling.

1. Click the **Inventory** listbar button.

Result: The **Inventory** listbar function icons display.

2. Click **Rooms**.

Result: The dynamic component of the **Inventory** dialog box displays Room Types and the room record headings of Number, Room Name, Room Location, Status, and Capacity.

3. Click the room type from the Room Types list for the Rooms record you want to edit.

Result: A list of Rooms records displays for the room type that you selected.

4. Click to highlight the room record you want to edit, and click **Edit**.

NOTE:

The **Edit** button may instead be labeled **View**. This is determined by the settings in the operator's security profile.

Result: The **Room Inventory** dialog box for that record displays. See [Figure 3-9](#).

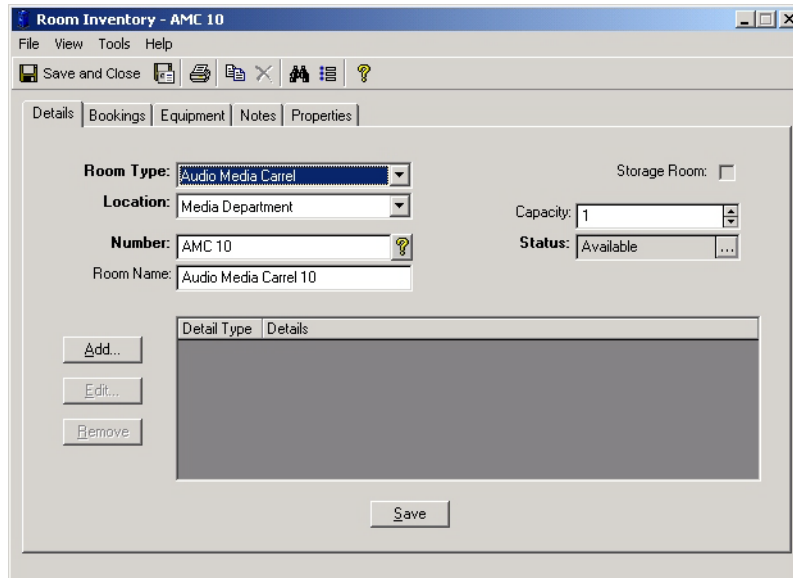

Figure 3-9. Room Inventory dialog box for editing Rooms record

5. Edit the Rooms record to match your requirements. See [Procedure 3-1, Creating a New Room](#), on page [3-3](#) for a description of the options available for editing/viewing the **Details**, **Equipment**, **Notes**, and **Properties** tabs. For information about the **Bookings** tab, see [Table 3-6](#).

Table 3-6. Room Inventory - Bookings Tab

Option	Description
Edit Booking	Select this option to edit the booking that you've selected on the Bookings tab. See New Booking on page 5-2 for more information about creating/editing bookings requests.
View Current Bookings	Select this option to display current bookings for the room selected.
View Historical Bookings	Select this option to display historical bookings for the room selected.

- Click **Save and Close** or **Save and New** to save your Rooms record. See [Table 3-7](#) for a description of each of these options.

Result: The new Rooms record is saved.

Table 3-7. Save Options

Option	Description
Save and Close	Use this option to save a Rooms record and close the Room Inventory dialog box.
Save and New	Use this option to save a Rooms records and reset the Room Inventory dialog box in order to create a new Rooms record.

Delete Room

The procedure for deleting a room is shown in [Procedure 3-3, Deleting a Rooms Record](#), on page [3-13](#).

Procedure 3-3. Deleting a Rooms Record

Use the following to delete a Rooms record in Voyager Media Scheduling.

- Click the **Inventory** listbar button.

Result: The **Inventory** listbar function icons display.

- Click **Rooms**.

Result: The dynamic component of the **Inventory** dialog box displays Room Types and the room record headings of Number, Room Name, Room Location, Status, and Capacity.

- Click the room type from the Room Types list.

Result: A list of Rooms records displays for the room type that you selected.

- Select the room record you want to delete.

Result: The record is highlighted.

5. Click **Delete**.

Result: This removes the room record from the Rooms records list.

Search for a Room

To search for Rooms records, click the **Search** button and refer to the information provided about searching in Chapter 2, [Common Functions & Features](#), starting with [Media Scheduling Search](#) on [page 2-7](#).

Printing Room Records

The procedures for printing room reports are shown in [Procedure 3-4, Printing a Summary Room Report](#), on [page 3-14](#), [Procedure 3-5, Printing an Individual Room Report](#), on [page 3-15](#), and [Procedure 3-6, Printing Individual Room Reports for All Rooms Listed](#), on [page 3-15](#).

Procedure 3-4. Printing a Summary Room Report

Use the following to print a summary room report in Voyager Media Scheduling.

1. Click the **Inventory** listbar button.

Result: The **Inventory** listbar function icons display.

2. Click **Rooms**.

Result: The dynamic component of the **Inventory** dialog box displays Room Types and the room record headings of Number, Room Name, Room Location, Status, and Capacity.

3. Click the room type from the Room Types list.

Result: A list of Rooms records displays for the room type that you selected.

4. Click **Print**.

Result: This prints the summary room report.

NOTE:

This same report can also be printed by selecting **File>Print>Summary Listing** from the menu bar.

**Procedure 3-5. Printing an Individual Room Report**

Use the following to print an individual room report in Voyager Media Scheduling.

1. Click the **Inventory** listbar button.

Result: The **Inventory** listbar function icons display.

2. Click **Rooms**.

Result: The dynamic component of the **Inventory** dialog box displays Room Types and the room record headings of Number, Room Name, Room Location, Status, and Capacity.

3. Click the room type from the Room Types list.

Result: A list of Rooms records displays for the room type that you selected.

4. Select the Room record that you want to print.

Result: The record is highlighted.

5. Click **File>Print>Item Detail (selected)**, or right-click the room list and select **Print>Item Detail (selected)**.

Result: This prints the individual room report.

**Procedure 3-6. Printing Individual Room Reports for All Rooms Listed**

Use the following to print individual room reports for all rooms listed in the **Inventory - Rooms** workspace in Voyager Media Scheduling.

1. Click the **Inventory** listbar button.

Result: The **Inventory** listbar function icons display.

2. Click **Rooms**.

Result: The dynamic component of the **Inventory** dialog box displays Room Types and the room record headings of Number, Room Name, Room Location, Status, and Capacity.

3. Click the room type from the Room Types list.

Result: A list of Rooms records displays for the room type that you selected.

4. Click **File>Print>Item Detail (all)**, or right-click the room list and select **Print>Item Detail (all)**.

Result: This prints the individual room report for all rooms in the list.

Equipment

To get to the Equipment Screen, click the **Inventory** tab and click the **Equipment** button ([Figure 3-10](#)).

Figure 3-10. Equipment Button

The Equipment window ([Figure 3-11](#)) consists of a list of equipment types, and under each type a list of all of the equipment of that type. You can view the pieces of equipment under each equipment type by clicking an item type in the list. Equipment records contain a wide variety of information.

- The item's barcode or equipment number
- Where the item is generally kept
- Where the item was bought, and for how much

The number in parentheses beside each equipment type indicates the number of items of that type. Because the operator's security profile affects what information can be manipulated, certain locations or pieces of equipment may not be visible, or certain buttons may be grayed out.

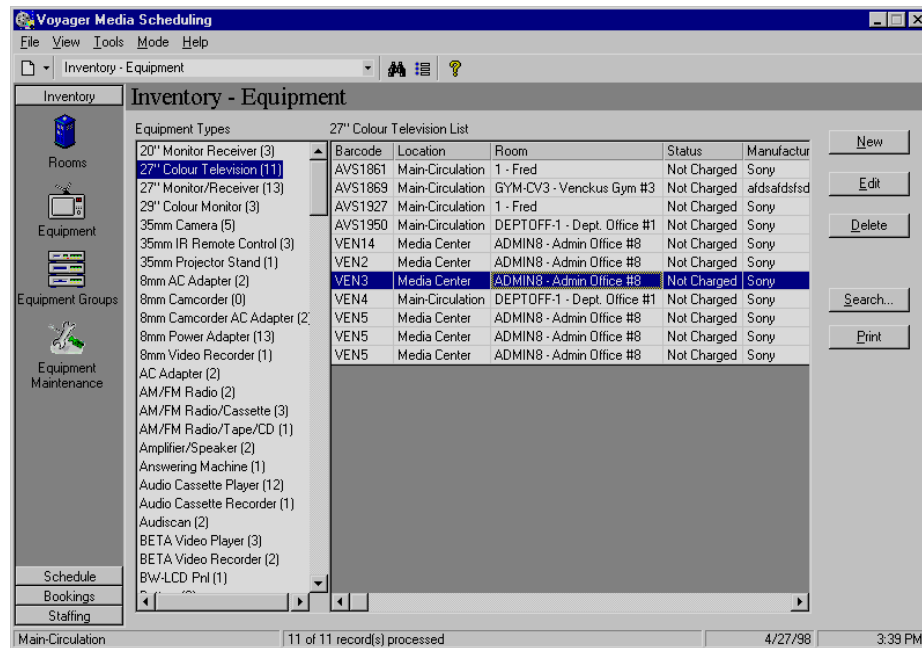

Figure 3-11. Inventory - Equipment

Equipment items may be created in Media Scheduling, but equipment types are defined in the Media System Administration module.

Editing Equipment

Edit an item in the list by selecting the item and clicking **Edit**.

NOTE:

Depending on the operator's security profile, the button may instead read **View**. If the button displays with **View**, the user is able to view information on the screen but not change anything. For more detailed information on the equipment information screens, see [Creating a New Piece of Equipment](#) on [page 3-19](#).

Editing allows the operator to move equipment from one room to another. Media Scheduling provides the added flexibility of moving equipment from a pending room booking, one that is not currently charged, without deleting and recreating bookings. This is an especially useful feature when portable equipment like a TV cart is kept in a room that can be scheduled and may need to move from room to room. See [Details Tab](#) on [page 3-19](#) for more information about booking equipment.

IMPORTANT:

Equipment moved from a scheduled room (or a room identified as the delivery point in a booking) causes that equipment to be deleted from all pending bookings associated with that room.

A warning message displays when the operator selects the action to move equipment. See [Figure 3-12](#).

Figure 3-12. Equipment move warning message

NOTE:

The operator must be authorized for **Remove equipment from booked rooms?**. For more information about authorization for this function, see *Media Scheduling System Administration User's Guide* regarding operator security.

Deleting Equipment

Delete an item from the list by clicking the item and clicking **Delete**.

Printing Equipment Reports

Print summary equipment reports on all of the equipment displaying by clicking the **Print** button. This gives a collective report on all of the equipment.

You can print individual equipment reports by selecting a piece of equipment and from the menu selecting **File>Print>Item Detail (selected)**.

You can also print the individual reports on all of the pieces of equipment in the group by selecting **File>Print>Item Detail (all)**.

Options

You can select whether Voyager displays equipment barcodes or site-specific internal numbers by selecting **Options...** from the **Tools** menu. See [Setting Options](#) on [page 2-61](#).

Creating a New Piece of Equipment

The **Equipment Inventory** dialog box allows you to create new items in your inventory or view existing record information.

The procedure for creating a new piece of equipment is shown in [Procedure 3-7, Creating a New Piece of Equipment](#), on page [3-19](#).

Procedure 3-7. Creating a New Piece of Equipment

Use the following to create a new piece of equipment.

1. To create a new piece of equipment, click the **New** button.

Result: The Equipment Inventory window appears.

2. Enter information on the **Details** tab.

NOTE:

To save a new record, entries in the bold-type fields are required.

Details Tab

The **Details** tab ([Figure 3-13](#)) contains general and administrative information about the equipment.

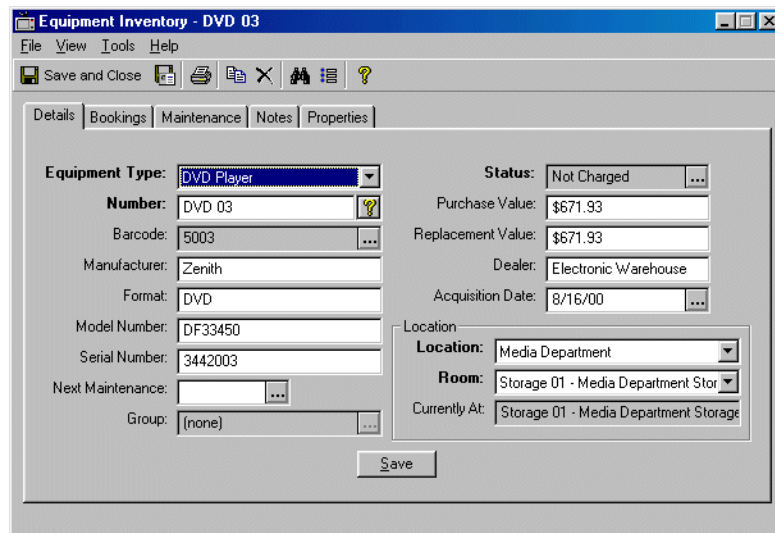

Figure 3-13. Equipment Inventory - Details tab

Field Name	Description
Equipment Type	Click the drop-down arrow to select an equipment type from the list. Equipment types are defined in System Administration. Equipment types should reflect the unit's capabilities.
Number	Enter a number in the field or click the question mark to select from a list. This number is typically a mnemonic code that uniquely identifies the device.
Barcode	Enter a barcode number in the Barcode field or click the ellipsis to select a number from the Barcodes dialog box. Barcodes are optional, but their use speeds up the workflow.
Manufacturer	Type the manufacturer information in the Manufacturer field.
Format	Enter format information in the Format field. This format is in addition to the equipment type.
Model Number	Enter the model number in the field.
Serial Number	Enter the serial number in the field.
Next Maintenance	Enter the date of the next maintenance into the field, or click the ellipsis to choose one from the calendar.

Group	If this item is already part of an Equipment Group, you can pull up the Group Inventory screen by clicking the ellipsis.
Status	Click the ellipsis to select a status from the list. Status describes the state of the unit and are defined by EISI. Note: When you create a new record, this defaults to Available and can not be edited until after the record is saved for the first time.
Purchase Value	Enter a value in the Purchase Value field.
Replacement Value	Enter a value in the Replacement Value field. This value is used as the replacement price if the unit is not returned.
Dealer	Enter the vendor information in the Dealer field.
Acquisition Date	Enter a date in the field or click the ellipsis to open the calendar.
Location	Click the drop-down arrow to select a location from the list.
Room	Click the drop-down arrow to select a room from the list. This list varies depending on the location selected.
Currently at	Currently at displays the current location and room where the unit has been delivered.

3. When all of the information has been entered, click the **Save** button to store the information, or click the **File** menu and select **Save**.

Result: Once the record information has been saved, the Details, Bookings, Maintenance, Notes and Properties tabs display.

4. Click the **Bookings** tab to enter bookings information.

Bookings Tab

The **Bookings tab** ([Figure 3-14](#)) displays information on any bookings scheduled for the equipment.

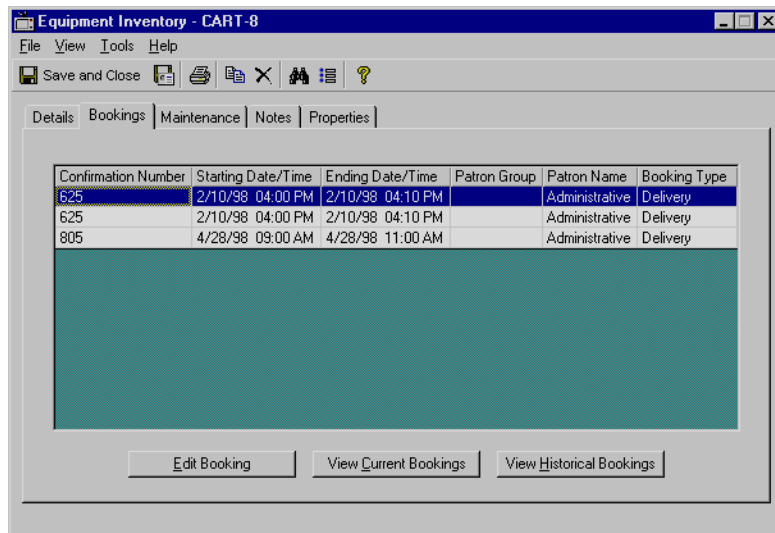

Figure 3-14. Equipment Inventory - Bookings tab

Viewing Bookings

To view bookings scheduled for the future, click **View Current Bookings**.

To view past bookings, click **View Historical Bookings**. (This option may or may not be available subject to your institution's policies.)

Editing Bookings

To edit an entry, select the entry and click **Edit Booking**.

5. Click the **Maintenance** tab to enter maintenance information.

Maintenance Tab

The **Maintenance** tab ([Figure 3-15](#)) displays maintenance information for equipment and add or remove maintenance information.

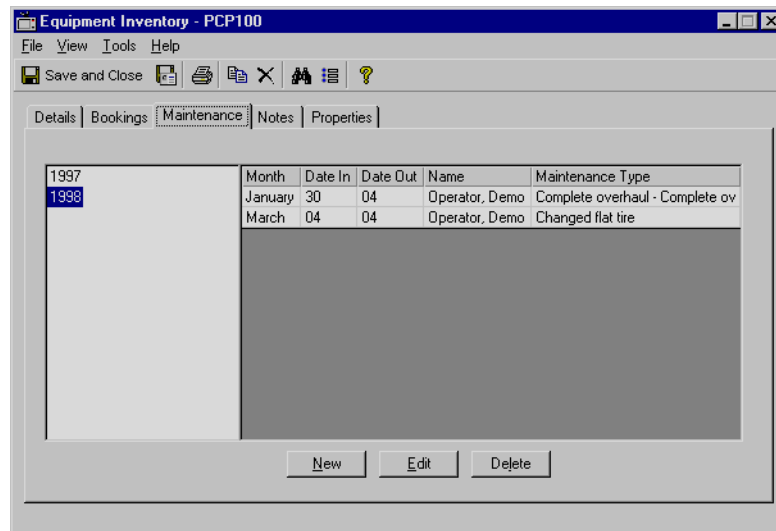

Figure 3-15. Equipment Inventory - Maintenance tab

Viewing Scheduled Maintenance

Click one of the years in the list at the left to view any scheduled historical or future maintenance for the selected year. Scheduled maintenance items display to the right.

Viewing a Specific Maintenance Item

To edit or view the details of a maintenance item, click the record and click **View**. The contents of the record are displayed in a Maintenance window. See [Equipment Maintenance](#) on [page 3-35](#) for more information.

Adding a New Maintenance Item

To add a new maintenance item, click the **Add** button.

Deleting a Maintenance Item

To delete a maintenance item, select the record and click **Delete**.

6. Click the **Notes tab** to enter any other information you want recorded.

Notes Tab

The **Notes tab** (Figure 3-16) allows you to record miscellaneous information regarding the record. There is only one note page under each note type.

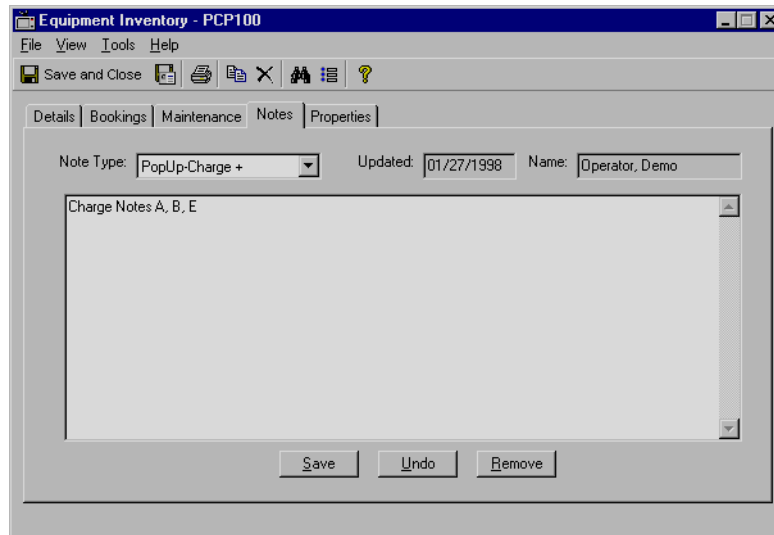

Figure 3-16. Equipment Inventory - Notes tab

Adding a note

Add a note by selecting a note type from the drop-down list and typing the text into the screen. The date and your name are automatically entered.

NOTE:

The information will be lost if you switch to another Note Type or when you are done before you click **Save**. You must click **Save** every time you enter a note.

Deleting a Note

To delete a note, make sure that the note is displayed and click the **Remove** button.

Undoing a Note

Click **Undo** to revert to the saved note.

7. Click the **Properties** tab to view information about the record.

Properties Tab

The fields on the **Properties** tab (Figure 3-17) display information about the record. This information is automatically updated whenever a change is made to the file.

Figure 3-17. Equipment Inventory - Properties tab

Field Name	Description
Create Operator	Displays the user who created the record.
Update Operator	Displays the user who most recently saved their changes to the file.
Create Date	The date that the record was created.
Update Date	The date that the record was last saved.
Create Location	The location that the record was created.
Update Location	The location that the record was last saved from.
Historical Booking	Displays the number of bookings previously scheduled for this item.
Historical Maintenance	Displays the number of times the item has been maintained in the past.

8. When you are finished, click **Save and Close** or select **File>Close** from the menu to store the information and return you to the Equipment screen in Media Scheduling.
-

Equipment Groups

To view the Equipment Groups screen ([Figure 3-19](#)), click the Inventory tab and the **Equipment Groups** button ([Figure 3-18](#)).

Figure 3-18. Equipment Groups Button

Equipment Groups are collections of equipment that typically stay together. An equipment group might consist of the following.

- A TV hooked up to a VCR with a remote, sitting on a cart
- A computer with a projector and an external modem connected
- A video projector, projection screen, VCR and speakers

Any collection of equipment that is routinely checked out as a unit may be combined into an equipment group with their information saved into the equipment group record. Equipment group records are checked in and out, assigned to requests, and otherwise treated the same as a single piece of equipment.

Figure 3-19. Inventory - Equipment Groups

The list of equipment group types displays in the Equipment Group Types list. The number beside each group indicates the number of groups of each type. Select a group type to view the equipment groups of that type. Groups may or may not be available for view to the user depending on the user's security level.

Highlighting a group displays information about that group in the box on the upper right.

Viewing Items in the Group

View equipment that is a member of the group by clicking the **Members** button. Clicking the **Members** button in Equipment Groups displays the **Members block**. All equipment that is a member of that group displays in the list. You can create new members to be added to the group's list or delete or edit a member's properties.

Editing Group Information

Edit the group properties from this screen by selecting the group and clicking **Edit**. See [Creating a New Group Inventory](#) on [page 3-29](#) for more information.

Editing allows the operator to move equipment from one room to another. Media Scheduling provides the added flexibility of moving equipment from a pending room booking, one that is not currently charged, without deleting and recreating bookings. This is an especially useful feature when portable equipment like a TV cart is kept in a room that can be scheduled and may need to move from room to room. See [Details Tab](#) on [page 3-29](#) for more information about booking equipment.

IMPORTANT:

Equipment moved from a scheduled room (or a room identified as the delivery point in a booking) causes that equipment to be deleted from all pending bookings associated with that room.

A warning message displays when the operator selects the action to move equipment. See [Figure 3-20](#).

Figure 3-20. Equipment move warning message

NOTE:

The operator must be authorized for **Remove equipment from booked rooms?**. For more information about authorization for this function, see *Media Scheduling System Administration User's Guide* regarding operator security.

Deleting a Group

Delete the current selection by clicking **Delete**.

Printing Group Reports

Print summary equipment group reports on all of the groups displayed by clicking the **Print** button.

Print individual equipment group reports by selecting a group and from the menu selecting **File>Print>Item Detail (selected)**.

Print the individual reports on all of the equipment groups of the selected type by selecting **File>Print>Item Detail (all)**.

Creating a New Group Inventory

Creating a new group inventory lets you create a new assemblage of related equipment and assign the group to a particular room.

The procedure for creating a new group inventory is shown in [Procedure 3-8, Creating a New Group Inventory](#), on page [3-29](#).

Procedure 3-8. Creating a New Group Inventory

Use the following to create a new group inventory.

1. Select **New** to create a new group inventory. You can also select **File>New>Inventory>Group** from the main menu.

The **Group Inventory** window displays ([Figure 3-21](#)).

2. Enter information on the **Details** tab.

NOTE:

To save a new record, entries in the bold-type fields are required.

Details Tab

The **Details** tab contains general information about the equipment group.

Figure 3-21. Group Inventory - Details tab

Field Name	Description
Equipment Type	Click the drop-down arrow to select an equipment type from the list.
Number	Enter an equipment number in the field or select one by clicking the question mark and selecting one from the list.
Barcode	Enter a barcode number in the field or select one by clicking the ellipsis and selecting one from the Barcodes dialog box.
Status	Select a status by clicking the ellipsis and selecting one from the list. Note: When you create a new record, this defaults to Available and cannot be edited until after the record has been saved.
Replacement Value	Gives a total dollar value of all the items in the group. This is calculated for you based on the replacement value of all of the items in the group.
Location	Select a location from the drop-down list.
Room	Select a home room from the drop-down list.

Currently at Displays the item's current location.

- When all of the information has been entered, click **Save** to store the information, or click the **File** menu and select **Save**.

After the information has been saved, the Details, Bookings, Members, Notes and Properties tabs display.

- Click the **Bookings** tab to view or edit booking information.

Bookings Tab

The **Bookings** tab (Figure 3-22) displays information on any bookings scheduled for the equipment.

Confirmation Number	Starting Date/Time	Ending Date/Time	Patron Group	Patron Name	Booking Type
340	3/17/98 10:00 AM	3/17/98 01:00 PM	Administrative	Library Scheduled	Library Scheduled
343	3/20/98 10:00 AM	3/20/98 01:00 PM	Administrative	Library Scheduled	Library Scheduled
344	3/21/98 10:00 AM	3/21/98 01:00 PM	Administrative	Library Scheduled	Library Scheduled
345	3/22/98 10:00 AM	3/22/98 01:00 PM	Administrative	Library Scheduled	Library Scheduled
346	3/23/98 10:00 AM	3/23/98 01:00 PM	Administrative	Library Scheduled	Library Scheduled
348	3/25/98 10:00 AM	3/25/98 01:00 PM	Administrative	Library Scheduled	Library Scheduled
349	3/26/98 10:00 AM	3/26/98 01:00 PM	Administrative	Library Scheduled	Library Scheduled
350	3/27/98 10:00 AM	3/27/98 01:00 PM	Administrative	Library Scheduled	Library Scheduled
351	3/28/98 10:00 AM	3/28/98 01:00 PM	Administrative	Library Scheduled	Library Scheduled
352	3/29/98 10:00 AM	3/29/98 01:00 PM	Administrative	Library Scheduled	Library Scheduled
353	3/30/98 10:00 AM	3/30/98 01:00 PM	Administrative	Library Scheduled	Library Scheduled
354	3/31/98 10:00 AM	3/31/98 01:00 PM	Administrative	Library Scheduled	Library Scheduled

Figure 3-22. Group Inventory - Bookings tab

Viewing Bookings

To view bookings scheduled for the future, click **View Current Bookings**.

To view past bookings, click **View Historical Bookings**. (This option may or may not be available subject to your institution's policies.)

Editing Bookings

To edit an entry, select the entry and click **Edit Booking**.

5. Click the **Members** tab to add members to the group.

Members Tab

The **Members** tab (Figure 3-23) displays information about the items in the equipment group. From this screen, you can add or remove items to or from the group. Equipment that is already a part of the group displays in the equipment list.

Figure 3-23. Group Inventory - Members tab

Adding Equipment to a Group

To add equipment, you can either scan the barcode or enter it and click the **Add by Barcode** button.

You can also add equipment using the following procedure.

- a. In the Equipment window, you choose whether to get a piece of equipment from available, ungrouped stock by clicking **Equipment** or whether you want to move a piece of equipment out of another group and into this one by clicking **Grouped Equipment**. A list of equipment types displays in the Equipment window.
- b. In the Equipment window, select an equipment type. The number of available units displays in parentheses next to the equipment type. If there are any available units, the list of units of that type displays.
- c. To add a specific piece of equipment to the group, highlight the unit's record. Click the up arrow to add it to the group.

Removing Equipment from a Group

To remove a piece of equipment from the group, select the unit's record and click the down arrow.

6. Click the **Notes** tab to enter any additional information you would like to record.

Notes Tab

The **Notes** tab ([Figure 3-23](#)) allows you to record miscellaneous information regarding the record. There is only one note page under each note type.

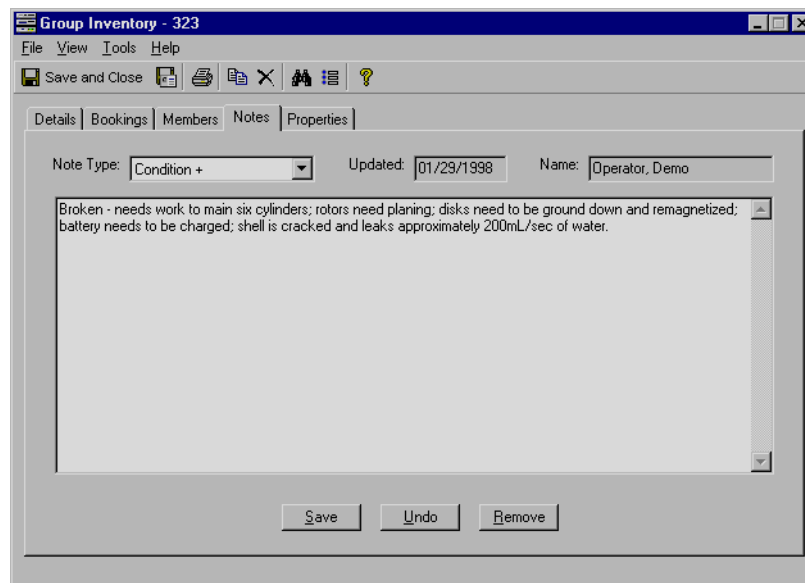

Figure 3-24. Group Inventory - Notes tab

Adding a Note

Add a note by selecting a note type from the drop-down list and typing the text into the screen. The date and your name is automatically entered.

NOTE:

The information will be lost if you switch to another Note Type before you click **Save**. You must click **Save** every time you enter a note.

Deleting a Note

To delete a note, make sure that the note is displayed and click the **Remove** button.

Undoing a Note

Click **Undo** to revert to the saved note.

7. Click the **Properties** tab to view information regarding the record.

Properties tab

The fields in the **Properties** tab ([Figure 3-25](#)) display information about the record. This information is automatically updated whenever a change is made to the file.

The screenshot shows a software window titled "Group Inventory - 323". The window has a menu bar with "File", "View", "Tools", and "Help". Below the menu bar is a toolbar with icons for "Save and Close", "Print", "Copy", "Paste", "Delete", "Help", and "Refresh". The main area of the window has several tabs: "Details", "Bookings", "Members", "Notes", and "Properties". The "Properties" tab is selected and displays the following fields:

Created By:	Operator, Demo
Updated By:	Operator, Demo
Create Date:	12/29/1997
Update Date:	01/29/1998
Create Location:	Main-Circulation
Update Location:	Main-Circulation
Historical Bookings:	0

Figure 3-25. Group Inventory - Properties tab

8. When you are finished, click **Save and Close** or select **File>Close** from the menu to store the information and return you to the Equipment Groups screen in Media Scheduling.

Equipment Maintenance

You can view the Equipment Maintenance screen ([Figure 3-27](#)) by clicking the **Inventory** tab and clicking the **Equipment Maintenance** button ([Figure 3-26](#)).

Figure 3-26. Equipment Maintenance Button

The Equipment Maintenance tool lets you keep track of any maintenance presently being performed on equipment or that is scheduled to be performed. The Equipment Maintenance tool allows you to do the following.

- Register what equipment is going in for maintenance and when it should be back
- Schedule in advance when a particular piece of equipment will need maintenance
- Create and view any equipment maintenance scheduled for any month.

You can view any equipment maintenance scheduled for any month. Select a month from the list of years and months that appears to the left to view scheduled maintenance for that month.

NOTE:

A maintenance record contains all of the information regarding a single time that equipment has had (or will have) maintenance performed. It does not contain information on any of the other times maintenance has been performed. To view that information, see the section, [Equipment](#) on [page 3-16](#).

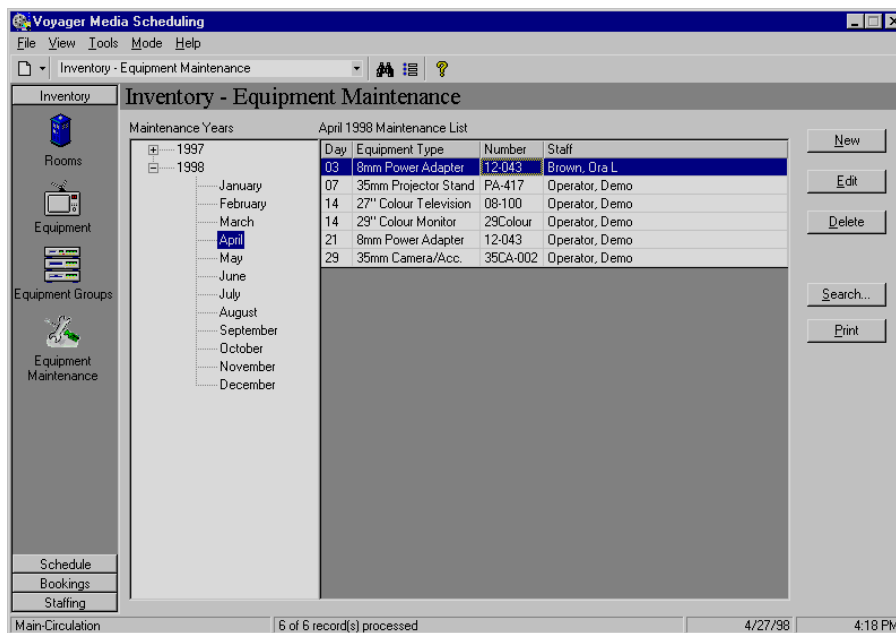

Figure 3-27. Inventory - Equipment Maintenance

Editing a Maintenance Item

Edit the maintenance information by selecting the group and clicking **Edit** to edit the group information.

Deleting a Maintenance Item

Delete scheduled maintenance by clicking the maintenance item and clicking **Delete**.

Printing Maintenance Reports

You can print summary equipment maintenance reports on all of the maintenance items displayed by clicking the **Print** button. Summary equipment maintenance reports give a collective report on all of the maintenance items displayed.

You can print individual equipment maintenance reports by selecting a maintenance item and from the main menu by selecting **File>Print>Item Detail (selected)**.

You can also print all of the individual reports for the selected month by selecting **File>Print>Item Detail (all)**.

Creating a New Maintenance Record

The procedure for creating a new maintenance record is shown in [Procedure 3-9, Creating a New Maintenance Record](#), on page [3-37](#).

Procedure 3-9. Creating a New Maintenance Record

Use the following to create a new maintenance record.

1. Click the **New** button or select **File>New>Inventory>New** from the main menu.

Result: The **New Maintenance Record Setup** dialog box displays.

2. Enter the barcode or equipment number of the equipment. (You can select to use barcodes or site-specific equipment numbers. See [Setting Options](#) on [page 2-61](#).)

Result: A new maintenance record displays.

The Maintenance screen allows you to add new maintenance information about a piece of equipment or to edit existing information. You can add and remove maintenance details such as when it was sent out and what work needs to be done. You can view information on the **Details** and **Properties** tabs.

3. Enter information on the **Details** tab.

Details Tab

The **Details** tab (Figure 3-28) contains general information about the booking.

Figure 3-28. Maintenance - Details tab

Field Name	Description
Number	Number specifies the equipment's identification number.
Barcode	The equipment's barcode. Click the ellipsis to open the Barcodes box.
In Maintenance?	A check in the box indicates that the equipment is in maintenance. Click the box to check and uncheck.
Date In	The date that the equipment goes for maintenance. Click the ellipsis to select a date from the calendar.
Date Out	The date that the equipment returns from maintenance. Click the ellipsis to select a date from the calendar.
Next Maintenance	The date that the item is next scheduled for maintenance. Click the ellipsis to select a date from the calendar.

Add...	Click the Add... button to add a maintenance record that specifies what work needs to be done to the equipment. Select a maintenance type from the Maintenance Types dialog box. You can add more specific notes by typing them in the Details block. Click OK to add the type to the record, or click Cancel to discard the information.
Edit...	To edit maintenance details that have already been added to the record, click a maintenance record in the list block. Click Edit to open the Maintenance Types dialog box.
Remove	Removes a maintenance record from the list. Select the record to remove and click Remove .
Notes	Enter any additional information about the item in this block.

4. Click the **Properties** tab to view information regarding the record.

Properties Tab

The fields on the **Properties** tab ([Figure 3-29](#)) display information about the record. This information is automatically updated whenever a change is made to the file.

Figure 3-29. Maintenance - Properties tab

Standard Mode - Schedule

4

Introduction

In Standard Mode, the scheduling tools of Media Scheduling allow you to perform the duties involved in charging and discharging bookings. The scheduling tools allow you the following possibilities.

- View what bookings have been made for any particular time, the current status of each booking, and to charge, discharge and cancel bookings
- Keep track of what equipment has been scheduled for which rooms on each day, and add new bookings to the schedule
- View one day's schedule, or all bookings for a month or a year

You can also set up options in order to customize what appears from the Schedule views.

The buttons in the list bar ([Figure 4-1](#)) allow you to access the charge, discharge, day, month and year views.

Figure 4-1. Scheduling Buttons

Day View Screen

The **Booking Schedule - Day View** window, or **Day View**, ([Figure 4-2](#)) allows you to view at a glance your bookings for the entire day. The date appears above the information box. The number of bookings for that day appears in the upper right-hand corner.

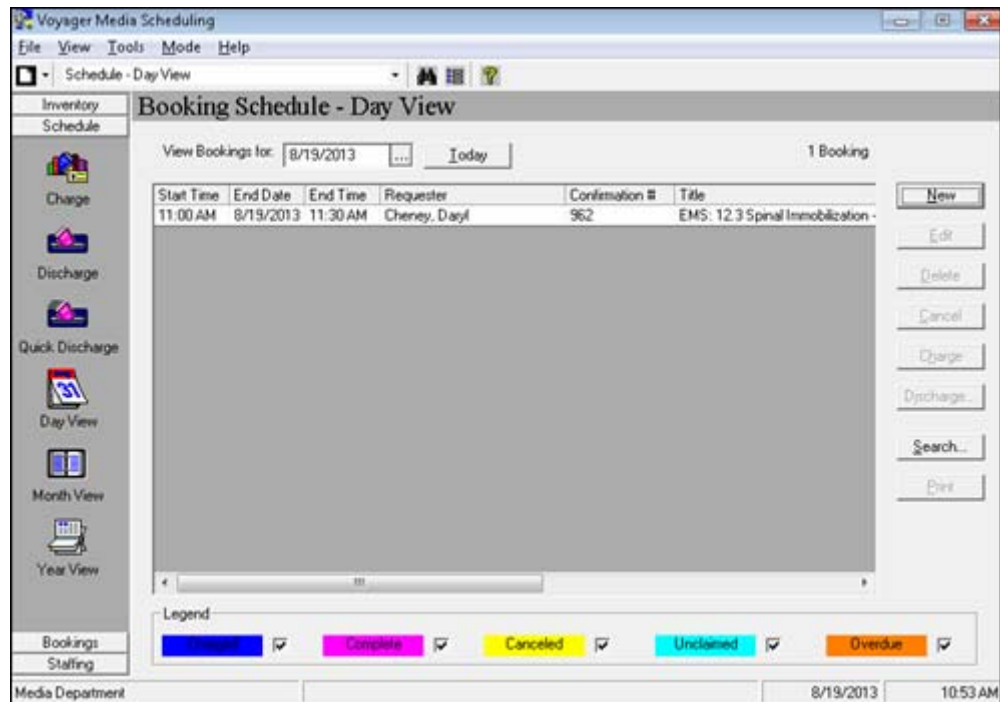

Figure 4-2. Booking Schedule - Day View

The **Day View** button (Figure 4-3) in the Schedule section of the list bar opens the **Booking Schedule - Day View** window.

Figure 4-3. Day View Button

Viewing a Different Date

Scroll back and forth through schedule information by clicking the ellipsis button.

You can also jump to a specific date by clicking the down arrow and selecting a date from the calendar. Return to the current date by clicking the **Today** button.

Creating a New Booking

Create a new booking by clicking the **New** button. For more information, see [New Booking](#) on [page 5-2](#).

You can define which kind of booking you want the New button to start up. Click **Options...>Bookings** on the Tools menu. For more information on Bookings options, see [Setting Options](#) on [page 2-61](#).

Editing a Booking

Edit an entry by selecting it and clicking the **Edit** button. For more information, see [New Booking](#) on [page 5-2](#).

Deleting a Booking

Delete an entry by selecting it and clicking the **Delete** button. Deleting a booking entirely removes the booking from the database. For more information, see [New Booking](#) on [page 5-2](#).

Canceling a Booking

Cancel a booking by clicking the **Cancel** button. Canceling a booking does not actually delete it, but just invalidates it.

Charging a Booking

The procedure for charging a booking is shown in [Procedure 4-1, Charging a Booking](#), on page [4-4](#).

Procedure 4-1. Charging a Booking

Use the following to charge a booking.

1. Select the booking you want to charge.
 2. Click the **Charge** button.
-

Discharging a Booking

The procedure for discharging a booking is shown in [Procedure 4-2, Discharging a Booking](#), on page [4-5](#).

Procedure 4-2. Discharging a Booking

Use the following to discharge a booking.

1. Select the booking you want to discharge.
2. Click the **Discharge** button.

Result: The **Discharge Booking Media and Equipment** dialog box displays.

3. Place a check mark next to the media items you want to discharge. Click **Select All** to check all of the items to be discharged, or click **Deselect All** to uncheck all of the items.
 4. Place a check mark next to the equipment you want to discharge. Click **Select All** to check all of the equipment to be discharged, or click **Deselect All** to uncheck all of the equipment.
 5. To override the automatic date and time of discharge, place a check in the **Override Discharge Date/Time** block. When you check the box, you can alter the date and time.
 6. Click **OK** to discharge the booking, or **Cancel** to close the box without discharging the booking.
-

Printing Booking Reports

Print summary booking reports on all of the bookings displayed by clicking the **Print** button.

Print individual booking reports by selecting a booking and from the menu selecting **File>Print>Item Detail (selected)**.

Print all of the individual reports on all of the bookings for the day by selecting **File>Print>Item Detail (all)**.

Options

Configure the colors of the legend information by clicking **Options...>Scheduler** from the Tools menu. For more information on Scheduler options, see [Scheduler Tab](#) on [page 2-72](#).

Month View Screen

The **Booking Schedule - Month View** window, or **Month View**, allows you to view at a glance your bookings for the next month ([Figure 4-4](#)).

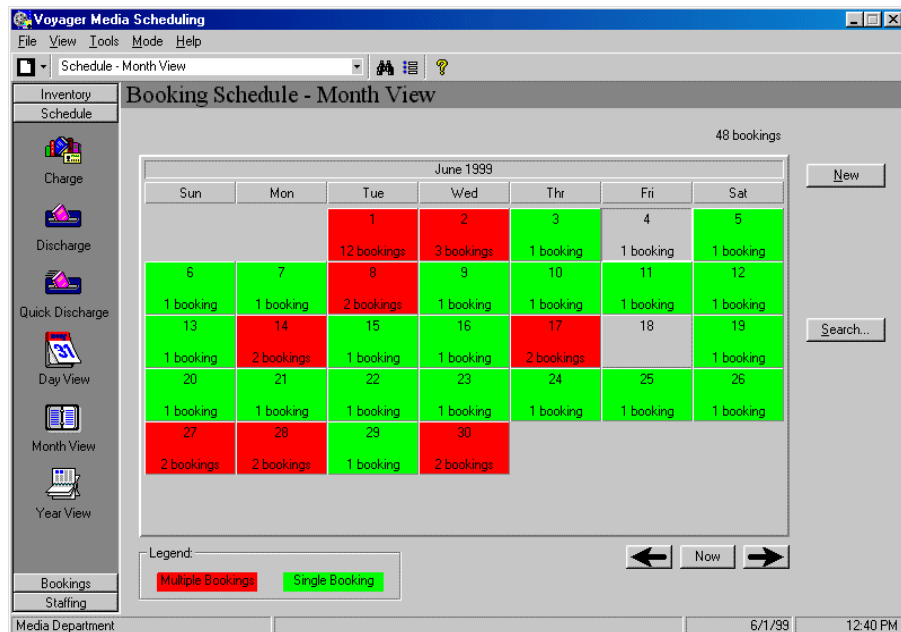

Figure 4-4. Booking Schedule - Month View

Click the **Month View** button ([Figure 4-5](#)) to open the **Booking Schedule - Month View** window.

Figure 4-5. Month View Button

You can double click a calendar day to display and edit the bookings that have been made for that day.

The booking count appears above the calendar on the right side and tells you the number of bookings made for the month currently visible.

Viewing a Different Date

Click the **left and right arrows** to scroll forwards and backwards through the calendar.

Click the **Now** button to return you to the current month.

Creating a New Bookings

Click the **New** button to create a new booking. You can define which kind of booking you want the New button to start up. Click **Options...>Bookings** on the Tools menu. For more information on Bookings options, see [Bookings Tab](#) on [page 2-75](#).

Options

Configure colors for the legend information for Multiple Bookings and Single Bookings on the **Scheduler** tab of the **Options...** screen. For more information on Scheduler options, see [Scheduler Tab](#) on [page 2-72](#).

Year View Screen

The **Booking Schedule - Year View** window, or **Year View**, for the Schedule activity allows you to view at a glance your booking for the next year ([Figure 4-6](#)). The current date appears with the date outlined.

Figure 4-6. Booking Schedule - Year View

Click the **Year View** button (Figure 4-6) to open the **Booking Schedule - Year View** window.

Figure 4-7. Year View Screen

You can double click a calendar day to display and edit the bookings that have been made for that day.

Viewing a Different Date

Clicking the **arrows** at the bottom right hand corner of the dialog box allows you to scroll through years.

The **Now** button allows you to return to the current year.

Creating a New Booking

Clicking the **New** button starts a new booking. You can define which kind of booking you want the New button to start up. Click **Options...>Bookings** on the Tools menu. For more information on Bookings options, see [Bookings Tab](#) on [page 2-75](#).

Customization

Configure the colors for the legend information (Multiple Bookings and Single Bookings) by selecting **Options...>Scheduler** from the Tools Menu. For more information on Scheduler options, see [Scheduler Tab](#) on [page 2-72](#).

Charge Screen

The Charge screen ([Figure 4-8](#)) allows you to examine a booking in greater detail and decide whether you want to charge it, or cancel or delete it. You can search for a booking and view its details and charge it out to a patron.

Figure 4-8. Booking Schedule - Charge

To open the charge screen, from the Schedule tab, click the **Charge** button ([Figure 4-9](#)).

Figure 4-9. Charge Button

When you first start the screen, you must search for a booking.

The procedure for searching for a booking is shown in [Procedure 4-3, Searching for a Booking](#), on page [4-10](#).

Procedure 4-3. Searching for a Booking

Use the following to search for a booking.

1. Click the **drop-down arrow** of the **Search By** field to select what type of identifier you want to search for.
2. Enter the string you want to search for in the **Search For** field.
3. Click the **Search** button to begin the search, or the **Clear** button to clear the search boxes.

Result: The **Bookings** dialog box displays.

Once you have clicked a booking in the Bookings list, you can do the following.

Charging a Booking

Click the **Charge** button to charge out the selected booking to a patron.

Viewing Booking Details

Click **Details** to view the contents of or to close the booking details box.

Editing a Booking

Click the **Edit** button to open the selected booking for viewing and editing.

Deleting a Booking

Click the **Delete** button to delete the selected booking.

Canceling a Booking

Click **Cancel** to cancel an uncharged booking.

Quick Discharge Screen

The Quick Discharge screen allows you to quickly and easily discharge an item by simply entering or scanning in its media barcode, equipment barcode, Item ID or equipment number. You can change the date and time of discharge for an item (backdate the item). Any notes entered in the item record that are of the type PopUp-Discharge display when the item is discharged.

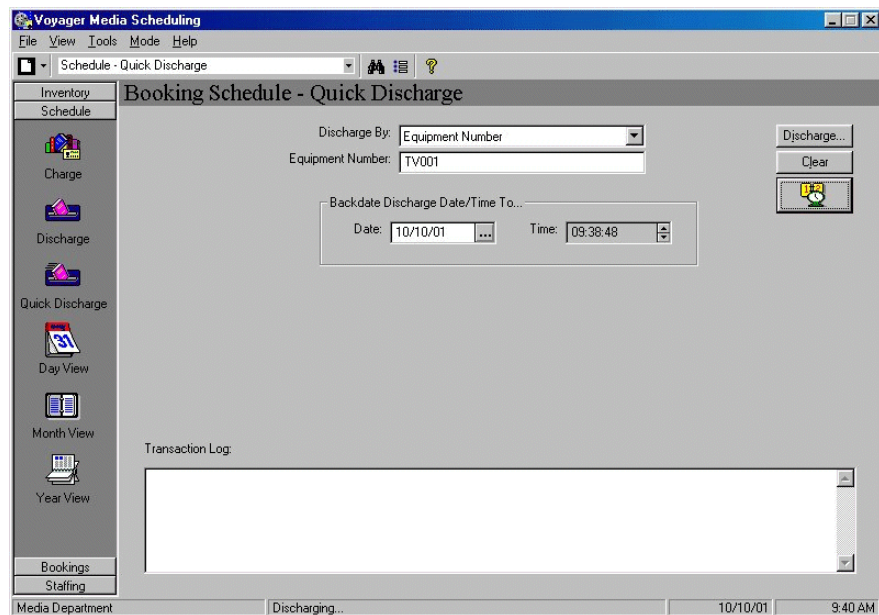

Figure 4-10. Booking Schedule - Quick Discharge

Figure 4-11. Quick Discharge Button

The procedure for discharging an item is shown in [Procedure 4-4, Discharging an Item](#), on page [4-12](#).

Procedure 4-4. Discharging an Item

Use the following to discharge an item.

1. Click the **Discharge By:** drop-down arrow to select what type of identification you want to enter.
2. Depending on what information is selected in the **Discharge By** field, the second field may be called **Media Barcode**, **Item ID**, **Equipment Barcode** or **Equipment Number**. Enter or scan the appropriate information into the field.
3. You can backdate the discharge (i.e., change the date and time of discharge) by clicking the **Backdate Discharge** button (the clock). Enter the new date of discharge in the **Date** field and the new time of discharge in the **Time** field. The new time and date must be before the current time and date.
4. Click **Discharge** to discharge the item or **Clear** to clear all of the fields and start over.

All discharges are listed in the **Transaction Log** list. This list is maintained until the Media Scheduling module is shut down at which point the list is cleared. This information is not saved to a file.

Discharge Screen

The Discharge screen ([Figure 4-12](#)) is where you can view the details of a charged booking and discharge previously charged bookings.

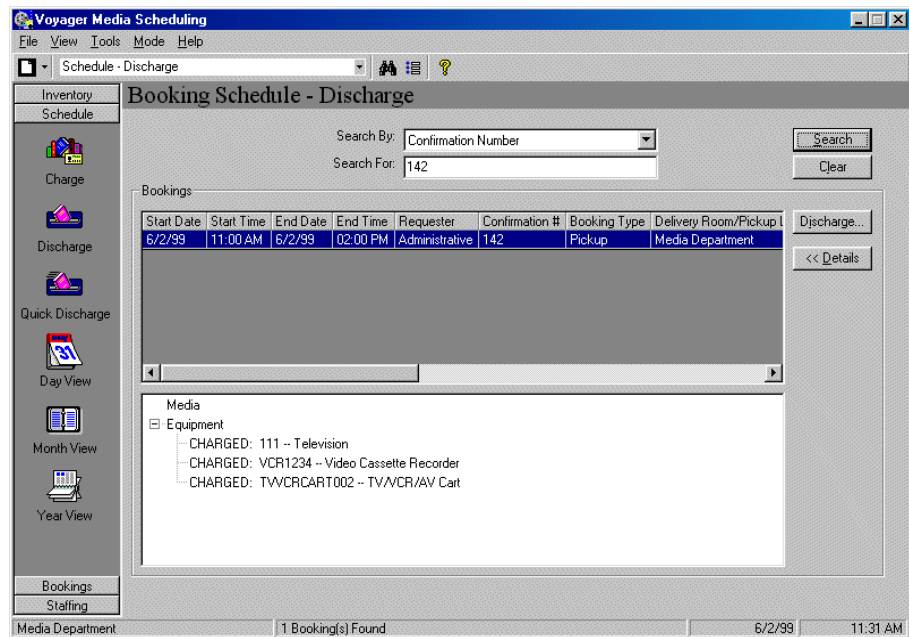

Figure 4-12. Booking Schedule - Discharge

You can open the **Discharge** screen by clicking the **Discharge** button ([Figure 4-13](#)) in the Bookings activity in the list bar.

Figure 4-13. Discharge Button

When you first start the screen, you must search for a booking.

The procedure for searching for a booking is shown in [Procedure 4-5, Searching for a Booking](#), on page [4-13](#).

Procedure 4-5. Searching for a Booking

Use the following to search for a booking.

1. Click the drop-down arrow of the **Search By** field to select what type of identifier you want to search for.
2. Enter the string you want to search for in the **Search for** field.
3. Click the **Search** button to begin the search, or the **Clear** button to clear the search boxes.

Result: The **Bookings** dialog box displays.

Once you have clicked on a booking in the Bookings list, you can either discharge the booking or view the details of a booking.

Discharging a Booking

The procedure for discharging a booking is shown in [Procedure 4-6, Discharging a Booking](#), on page [4-14](#).

Procedure 4-6. Discharging a Booking

Use the following to discharge a booking.

1. Click the **Discharge** button to discharge the selected charged booking back to the library.
 2. Place a check mark next to the media items you want to discharge. Click **Select All** to check all of the items to be discharged, or click **Deselect All** to uncheck all of the items.
 3. Place a check mark next to the equipment you want to discharge. Click **Select All** to check all of the equipment to be discharged, or click **Deselect All** to uncheck all of the equipment.
 4. To override the automatic date and time of discharge, place a check in the **Override Discharge Date/Time** block. When you check the box, you can alter the date and time.
 5. Click **OK** to discharge the booking, or **Cancel** to close the box without discharging the booking.
-

Viewing Booking Details

Click **Details** to view the contents of the booking details box.

Introduction

The booking functions of Voyager Media Scheduling are accessed through the following options in the Bookings listbar.

- New Booking
- Booking Wizard
- New Pick-Up

The New Booking function provides the broadest set of features and flexibility for tailoring a booking request.

The Booking Wizard function provides the easiest usability of the tool as it steps the end user through each of the customization options for a booking request.

The New Pick-Up option provides only the necessary features for an immediate/walk-up booking request.

Through these options you are able to do the following with bookings records.

- Create and save
- Copy and save
- Delete
- Charge
- Discharge

New Booking

The details of each booking record are captured on the following tabs displayed on the **Booking** dialog box.

- Schedule
- Media
- Room
- Equipment
- Notes
- Staff
- Properties

NOTE:

Through **Tools>Options** you may customize the features that display on these tabs. As a result, the features that display on your screen may vary slightly from the illustrations included in this user's guide.

Schedule

See [Figure 5-1](#) for the options available on the **Schedule** tab. An explanation of these options is provided in [Table 5-1](#).

The screenshot shows a software window titled "Booking - (New)". The window has a menu bar with "File", "View", "Booking", "Tools", and "Help". Below the menu bar is a toolbar with icons for "Save and Close", "Print", "Cancel", "OK", "Help", and "Refresh". The main area of the window has several tabs: "Schedule", "Media", "Room", "Equipment", "Notes", "Staff", and "Properties". The "Schedule" tab is selected. In this tab, there is a checkbox labeled "Administrative Booking". Below this are two rows of input fields: "Requester..." and "Pick-up Patron...", each with a dropdown arrow. To the right of these are "Patron Group:" and "Confirmation Number:" fields. At the bottom, there are four date and time fields: "Date Needed:" (9/3/2004), "Date Finished:" (9/3/2004), "Time Needed:" (08:00 AM), and "Time Finished:" (08:10 AM). A "Multiple Bookings >>" button is located to the right of the "Date Finished:" field.

Figure 5-1. Booking Schedule tab

Table 5-1. Schedule tab options

Option	Description
Administrative Booking	<p>Use this option to indicate that the requester is the institution/library rather than a specific patron.</p> <p>Selecting this option makes the Requester field unavailable.</p> <p>With this option selected, booking validation is only checked for conflicting schedules for booked material. No patron validations occur.</p> <p>The administrative booking may be useful for scheduling equipment or rooms for maintenance.</p>

Table 5-1. Schedule tab options

Option	Description
Requester	<p>Enter the name of the person requesting the booking. The requester is the person making the booking request and the person whose patron group is used to validate the booking.</p> <p>Click Requester to display a Search (Find Patron for Booking) dialog box to locate requester information. You can do a search by Barcode, Name, Social Security Number (SSN) or Institution ID. See Patrons Search on page 2-21 for additional details.</p> <p>Click the ellipsis next to the Requester field to open the Patron Counter Information dialog box. See Figure 5-2.</p>
Pick-up Patron	<p>Enter the name of the person (other than the Requester) who is picking up the booked item(s). This entry is optional and may be changed at any time.</p> <p>Click Pick-up Patron to open the Search (Find Patron for Booking) dialog box to locate the pick-up patron information. You can do a search by Barcode, Name, Social Security Number (SSN) or Institution ID. See Patrons Search on page 2-21 for additional details.</p> <p>Click the ellipsis next to the Pick-up Patron field to open the Patron Counter Information dialog box. See Figure 5-2.</p>
Patron Group	This field displays the patron group information for the Requester that is entered.
Confirmation Number	The confirmation number for a saved booking displays in this field when subsequently retrieved for viewing.
Date Needed	<p>Enter the date for the booking.</p> <p>Click the ellipsis button to display a calendar from which to select the date.</p>
Date Finished	<p>Enter the end date for the booking.</p> <p>Click the ellipsis button to display a calendar from which to select the date.</p>

Table 5-1. Schedule tab options

Option	Description
Time Needed	<p>Enter the start time for the booking in one of the following ways.</p> <ul style="list-style-type: none"> • Enter from the keyboard • Click the up/down arrows • Click the ellipsis to open the Schedule Time dialog box • Use the Schedule Bar <p>NOTE: Your entry options are determined by the Voyager Media Scheduling Options (see Scheduler Tab on page 2-72 for more information).</p> <p>Click the question mark (?) to open the Booking Calendars dialog box. See Figure 5-3.</p>
Time Finished	<p>Enter the end time for the booking in one of the following ways.</p> <ul style="list-style-type: none"> • Enter from the keyboard • Click the up/down arrows • Click the ellipsis to open the Schedule Time dialog box • Use the Schedule Bar <p>NOTE: Your entry options are determined by the Voyager Media Scheduling Options (see Scheduler Tab on page 2-72 for more information).</p>
Multiple Bookings	<p>Use this option to enter multiple bookings for the same patron.</p> <p>Click the Multiple Bookings button and use Add, Edit, and Delete to create multiple booking entries for a single patron. See Figure 5-4.</p>

Figure 5-4. Multiple Bookings

Media

See [Figure 5-5](#) for the options available on the **Media** tab. An explanation of these options is provided in [Table 5-2](#).

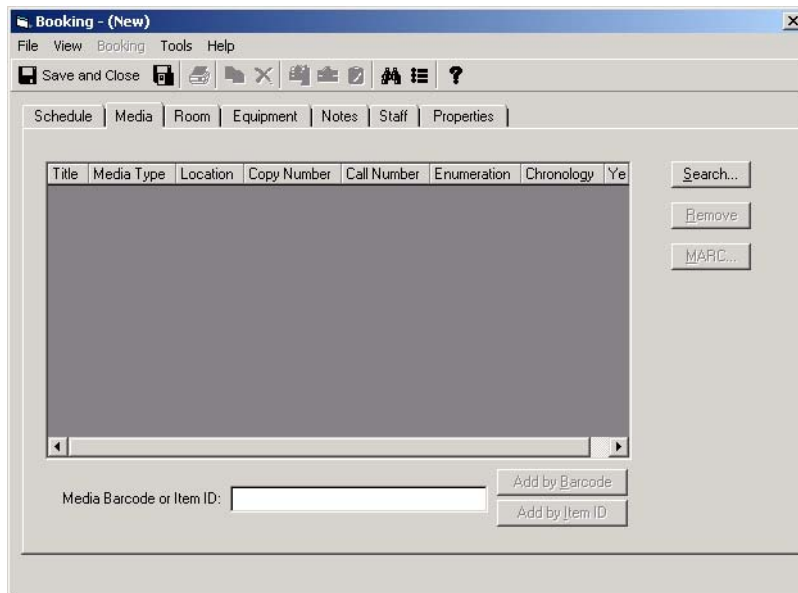

Figure 5-5. Booking Media tab

Table 5-2. Media tab options

Option	Description
Search	Use Search to open the bibliographic media Search dialog box. For more information, see Bibliographic Media Search on page 2-27 .
Remove	Use Remove to delete the selected media record from the Media tab.
MARC	Use the MARC button to display the MARC record information for the selected media record on the Media tab.
Media Barcode or Item ID	Use this field to enter either the Barcode or Item ID for the media to be booked using the keyboard or a scanning device and clicking the Add by Barcode or Add by Item ID button.

Room

See [Figure 5-6](#) for the options available on the **Room** tab. An explanation of these options is provided in [Table 5-3](#).

The screenshot shows a software window titled "Booking - (New)" with a menu bar (File, View, Booking, Tools, Help) and a toolbar. Below the toolbar are tabs for "Schedule", "Media", "Room", "Equipment", "Notes", "Staff", and "Properties". The "Room" tab is active. It contains three radio button options: "Deliver" (selected), "Library/Media Center Scheduled Room", and "Pick-Up". Each option has associated input fields: "Generic..." and "Room:" for the first two, and "Pick-Up Location:" for the third. Each input field includes a dropdown arrow and a small icon.

Figure 5-6. Booking Room tab

Table 5-3. Room tab options

Option	Description
Deliver	<p>Select the Deliver option to specify a deliver-to location.</p> <p>Click the Generic button to enter room requirements such as room capacity, location, and type. See Figure 5-7.</p> <p>NOTE: With the Generic selection process, a room is reserved that meets the specified requirements but is not assigned until the room is charged out.</p> <p>Use the Room drop-down list to select a deliver-to location from a preset list of rooms.</p>
Library/Media Center Scheduled Room	<p>Select the Library/Media Center Scheduling Room option to specify room requirements that do not include delivery. For example, the item needed such as microfiche equipment is already stationed at the location to be selected.</p> <p>Click the Generic button to enter room requirements such as room capacity, location, and type. See Figure 5-7.</p> <p>NOTE: With the Generic selection process, a room is reserved that meets the specified requirements but is not assigned until the room is charged out.</p> <p>Use the Room drop-down list to select a location from a preset list of rooms.</p>
Pick-Up	<p>Select the Pick-Up option to identify from a preset drop-down list of locations the place where an item is to be picked up.</p>

Setup Staff	Use this option to select staff using the drop-down list to perform equipment/room setup and delivery.
Clean-up Staff	Use this option to select staff from the drop-down list to perform room clean-up duties.

Properties

See [Figure 5-14](#) for the options available on the **Properties** tab. An explanation of these options is provided in [Table 5-7](#).

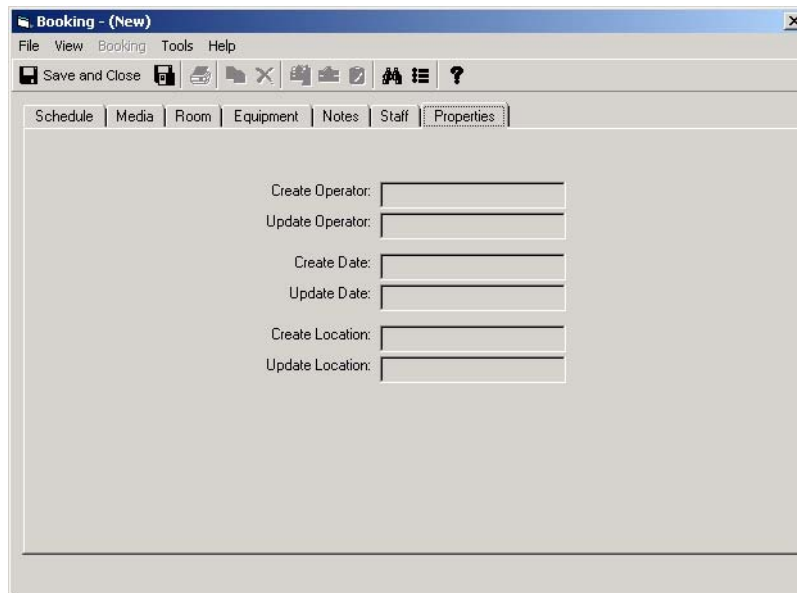

Figure 5-14. Booking Properties tab

Table 5-7. Properties tab options

Option	Description
Create Operator	Displays the user who created the booking record.
Update Operator	Displays the user who most recently changed and saved the booking record.
Create Date	Displays the creation date of the booking record.
Update Date	Displays the most recent date that the booking record was saved.
Create Location	Displays the location where the booking record was created.
Update Location	Displays the location where the booking record was last saved.

Create/Save New Booking

The procedure for creating and saving a new booking is shown in [Procedure 5-1, Create/Save New Booking.](#) on page [5-19.](#)

Procedure 5-1. Create/Save New Booking

Use the following to create and save a new booking in Voyager Media Scheduling.

1. Click the **Bookings** listbar button.

Result: The **Bookings** listbar function icons display.

2. Click **New Booking**.

Result: The **Booking - (New)** dialog box displays.

3. Enter the options on each of the booking tabs to match your requirements. See the following for a description of the options for each of the tabs.

- [Schedule](#) on [page 5-2](#)
- [Media](#) on [page 5-7](#)
- [Room](#) on [page 5-9](#)
- [Equipment](#) on [page 5-11](#)
- [Notes](#) on [page 5-15](#)
- [Staff](#) on [page 5-16](#)
- [Properties](#) on [page 5-17](#)

Result: The options are entered for completing the booking.

4. Click **Save and Close** or **Save and New** (same as **File>Save** menu option). See [Figure 5-15](#) and [Figure 5-16](#).

Result: **Save and Close** saves the booking and closes the **Booking - (New)** dialog box. **Save and New** saves the booking and displays the **Booking - (New)** dialog box for another booking entry.

Figure 5-15. Save and Close button

Figure 5-16. Save and New button

Copy/Save Booking

The procedure for copying and saving a booking is shown in [Procedure 5-2, Copying/Save Booking](#), on page [5-20](#).

Procedure 5-2. Copying/Save Booking

Use the following to copy and save a booking in Voyager Media Scheduling.

1. Click the **Tools>Find** from the **Bookings - (New)** dialog box.

NOTE:

Tools>Find in Bookings is the same as **Tools>Search** in Inventory, Schedule, and Staffing.

Result: The **Search** dialog box displays. See [Figure 2-4](#) on [page 2-8](#).

2. Select **Bookings** from the **Look for** drop-down list.

Result: The **Bookings** search options display.

3. Enter the search criteria necessary to find the bookings record that you want to copy and click **Find Now**. For more information about entering search criteria, see [Procedure 2-2, Bookings Search](#), on page [2-7](#).

Result: The **Search** dialog box expands to display any records matching your criteria.

4. Click to highlight the record you want to copy and click **OK**.

Result: The **Booking** dialog box displays the record selected and its confirmation number in the title bar of the **Booking** dialog box. See [Figure 5-17](#).

Figure 5-17. Booking confirmation number

5. Click **File>Copy Booking**.

Result: The Enter Requester for Copied Booking dialog box displays. See [Figure 5-18](#).

Figure 5-18. Enter Requester for Copied Booking dialog box

6. Click **OK**.

Result: The copied record displays on the **Booking** dialog box.

7. Make any necessary changes to the copied record and click **File>Close**.

Result: The copied record is saved and the original booking record displays.

8. Click **File>Close**.

Result: The expanded **Search** dialog box displays.

9. Click **Close**.

Result: The **Booking - (New)** dialog box displays.

Print Saved Booking

The procedure for printing a booking is shown in [Procedure 5-3, Printing a Saved Booking](#), on page [5-22](#).

Procedure 5-3. Printing a Saved Booking

Use the following to print a saved booking in Voyager Media Scheduling.

1. Click the **Tools>Find** from the **Bookings - (New)** dialog box.

NOTE:

Tools>Find in Bookings is the same as **Tools>Search** in Inventory, Schedule, and Staffing.

Result: The **Search** dialog box displays. See [Figure 2-4](#) on [page 2-8](#).

2. Select **Bookings** from the **Look for** drop-down list.

Result: The **Bookings** search options display.

3. Enter the search criteria necessary to find the bookings record that you want to print and click **Find Now**. For more information about entering search criteria, see [Procedure 2-2, Bookings Search](#), on page [2-7](#).

Result: The **Search** dialog box expands to display any records matching your criteria.

4. Click to highlight the record you want to print and click **OK**.

Result: The **Booking** dialog box displays the record selected and its confirmation number in the title bar of the **Booking** dialog box. See [Figure 5-17](#).

5. Click the print icon or **File>Print**.

Result: The booking is printed.

**TIP:**

To automatically print each new booking when it is created/saved, use the Automatically Print Confirmations option on the Bookings tab of the Options dialog box. See [Figure 2-57](#) on [page 2-76](#).

Delete Booking

The procedure for deleting a booking is shown in [Procedure 5-4, Deleting a Booking](#), on page [5-23](#).

Procedure 5-4. Deleting a Booking

Use the following to delete a booking in Voyager Media Scheduling.

1. Click the **Tools>Find** from the **Bookings - (New)** dialog box.

NOTE:

Tools>Find in Bookings is the same as **Tools>Search** in Inventory, Schedule, and Staffing.

Result: The **Search** dialog box displays. See [Figure 2-4](#) on [page 2-8](#).

2. Select **Bookings** from the **Look for** drop-down list.

Result: The **Bookings** search options display.

3. Enter the search criteria necessary to find the bookings record that you want to delete and click **Find Now**. For more information about entering search criteria, see [Procedure 2-2, Bookings Search](#), on page [2-7](#).

Result: The **Search** dialog box expands to display any records matching your criteria.

4. Click to highlight the record you want to delete and click **OK**.

Result: The **Booking** dialog box displays the record selected and its confirmation number in the title bar of the **Booking** dialog box. See [Figure 5-17](#).

5. Click **File>Delete Booking**.

Result: The delete confirmation message displays.

6. Click **Yes**.

Result: The booking record is deleted and the expanded **Search** dialog box displays.

7. Click **Close**.

Result: The **Booking - (New)** dialog box displays.

Charge Booking

The procedure for charging a booking is shown in [Procedure 5-5, Charging a Booking](#), on page [5-24](#).

Procedure 5-5. Charging a Booking

Use the following to charge a booking in Voyager Media Scheduling.

1. Click the **Tools>Find** from the **Bookings - (New)** dialog box.

NOTE:

Tools>Find in Bookings is the same as **Tools>Search** in Inventory, Schedule, and Staffing.

Result: The **Search** dialog box displays. See [Figure 2-4](#) on [page 2-8](#).

2. Select **Bookings** from the **Look for** drop-down list.

Result: The **Bookings** search options display.

3. Enter the search criteria necessary to find the bookings record that you want to charge and click **Find Now**. For more information about entering search criteria, see [Procedure 2-2, Bookings Search](#), on page [2-7](#).

Result: The **Search** dialog box expands to display any records matching your criteria.

4. Click to highlight the record you want to charge and click **OK**.

Result: The **Booking** dialog box displays the record selected and its confirmation number in the title bar of the **Booking** dialog box. See [Figure 5-17](#).

5. Click **Booking>Charge**.

Result: A confirmation message, "Booking charged successfully!" displays.

NOTE:

Other dialog boxes may display before the successful message dialog box depending on the details of the booking. For example, the **Generic Assignments** dialog box may display or a **Booking Not Charged** dialog box may display with a warning message.

6. Click **OK**.

Result: The **Booking** dialog box displays showing the booking as "Charged" and displaying a new title bar with the booking confirmation number and <Charged>. See [Figure 5-19](#).

Figure 5-19. Charged booking

7. Click **File>Close**.

Result: The expanded **Search** dialog box displays.

8. Click **Close**.

Result: The **Booking - (New)** dialog box displays.

Discharge Booking

The procedure for discharging a booking is shown in [Procedure 5-6, Discharging a Booking](#), on page [5-26](#).

Procedure 5-6. Discharging a Booking

Use the following to discharge a booking in Voyager Media Scheduling.

1. Click the **Tools>Find** from the **Bookings - (New)** dialog box.

NOTE:

Tools>Find in Bookings is the same as **Tools>Search** in Inventory, Schedule, and Staffing.

Result: The **Search** dialog box displays. See [Figure 2-4](#) on [page 2-8](#).

2. Select **Bookings** from the **Look for** drop-down list.

Result: The **Bookings** search options display.

3. Enter the search criteria necessary to find the bookings record that you want to discharge and click **Find Now**. For more information about entering search criteria, see [Procedure 2-2, Bookings Search](#), on page [2-7](#).

Result: The **Search** dialog box expands to display any records matching your criteria.

4. Click to highlight the record you want to discharge and click **OK**.

Result: The **Booking** dialog box displays the record selected and its confirmation number in the title bar of the **Booking** dialog box. See [Figure 5-19](#).

5. Click **Booking>Discharge**.

Result: The **Discharge Booking Media and Equipment** dialog box displays for your verification.

6. Verify/edit what is being discharged and click **OK**.

Result: The confirmation message "Selected items discharged successfully!" displays.

7. Click **OK**.

Result: The **Booking** dialog box displays showing the booking as "Complete" and displaying a new title bar with the booking confirmation number and <Complete>. See [Figure 5-20](#).

Figure 5-20. Booking complete

8. Click **File>Close**.

Result: The expanded **Search** dialog box displays.

9. Click **Close**.

Result: The **Booking - (New)** dialog box displays.

Booking Wizard

The Booking Wizard function in Voyager Media Scheduling prompts the user through each component required for a booking request. This provides an easy user interface for selecting options for a booking request.

Creating a Booking with Booking Wizard

The procedure for creating a booking using the Booking Wizard is shown in [Procedure 5-7, Creating Booking with Booking Wizard](#), on page [5-27](#).

Procedure 5-7. Creating Booking with Booking Wizard

Use the following procedure to create a booking using the Booking Wizard in Voyager Media Scheduling.

For more detailed instructions regarding each Booking Wizard menu option, refer to [Procedure 5-1, Create/Save New Booking](#), on page 5-19 and/or the option descriptions provided in [Schedule](#) on page 5-2, [Media](#) on page 5-7, [Room](#) on page 5-9, [Equipment](#) on page 5-11, [Notes](#) on page 5-15, [Staff](#) on page 5-16, and [Properties](#) on page 5-17.

1. Click the **Bookings** listbar button.

Result: The **Bookings** listbar function icons display.

2. Click **Booking Wizard**.

Result: The **Booking Wizard** dialog box displays. See [Figure 5-21](#).

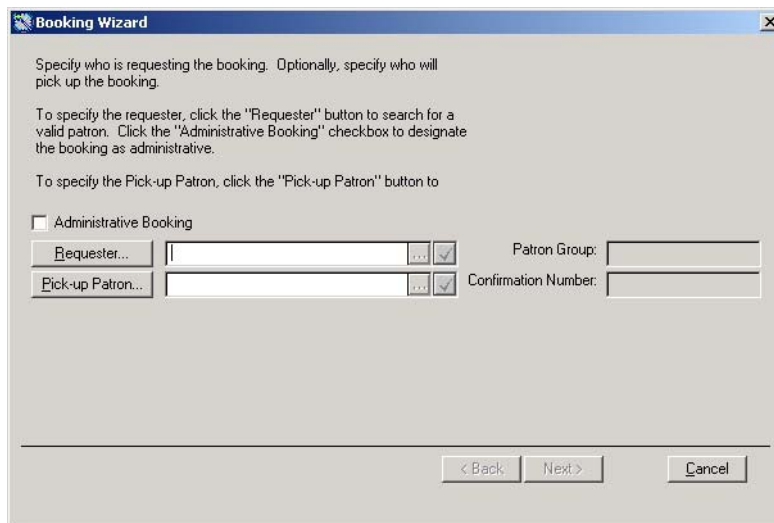

Figure 5-21. Booking Wizard dialog box

3. Enter the requester information, and click **Next**.

Result: You are prompted for the booking date and time information.

4. Enter the booking date and time information, and click **Next**.

Result: You are prompted for the booking media information.

5. Enter the booking media required, if any, and click **Next**.

Result: You are prompted for the location/room information.

6. Enter the Delivery, Pick-up, or Library/Media Center Scheduled room information, and click **Next**.

Result: You are prompted for the booking equipment information.

7. Enter the booking equipment information, and click **Next**.

Result: You are prompted to enter any notes regarding the booking.

8. Enter any booking note, and click **Finish**.

Result: The Booking dialog box displays with the confirmation notation in the title bar. See [Figure 5-22](#).

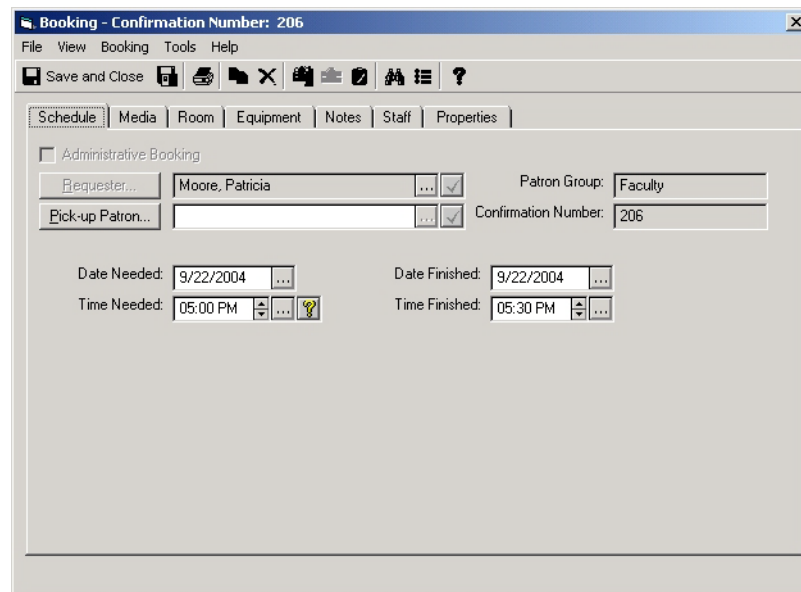

Figure 5-22. Booking dialog box with confirmation (Booking Wizard)

9. Enter any Staff tab information and/or review the Properties tab information, and click **Save and Close** or **Save and New** when you are finished.

Result: This completes your booking using the Booking Wizard.

New Pick-Up

The New Pick-Up booking function in Voyager Media Scheduling is used for immediate pick-up booking requests; and as a result, the functional menus have been designed to meet those requirements.

Using the New Pick-Up booking function allows you to automatically charge a booking request when it is saved. The **Automatically Charge New Pick-Up Bookings** option must be set for this to occur. See [Figure 5-23](#).

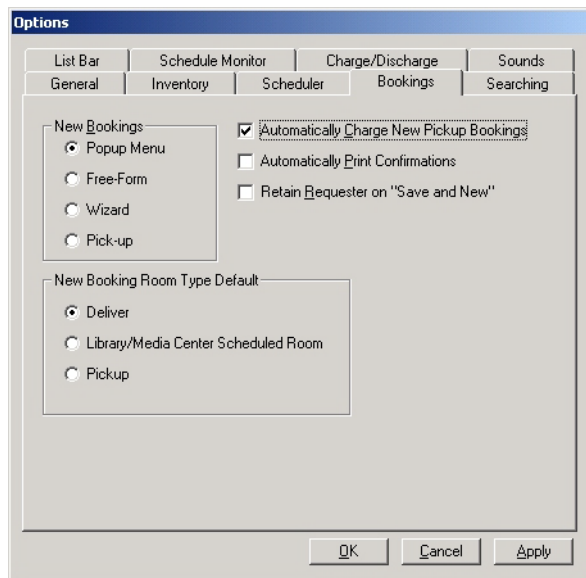

Figure 5-23. Automatically Charge New Pick-Up Bookings option

Creating a New Pick-Up Booking

The procedure for creating a New Pick-Up booking using New Pick-Up is shown in [Procedure 5-8, Creating New Pick-Up Booking](#), on page [5-30](#).

Procedure 5-8. Creating New Pick-Up Booking

Use the following procedure to create a New Pick-Up booking in Voyager Media Scheduling.

For more detailed instructions regarding the menu options available in New Pick-Up, refer to [Procedure 5-1, Create/Save New Booking](#), on page 5-19 and/or the option descriptions provided in [Schedule](#) on page 5-2, [Media](#) on page 5-7, [Room](#) on page 5-9, [Equipment](#) on page 5-11, [Notes](#) on page 5-15, [Staff](#) on page 5-16, and [Properties](#) on page 5-17.

1. Click the **Bookings** listbar button.

Result: The **Bookings** listbar function icons display.

2. Click **New Pick-Up**.

Result: The **New Pick-Up** dialog box displays. See [Figure 5-24](#).

Figure 5-24. New Immediate Pick-Up Booking dialog box

3. Complete the information on each of the tabs as required for your booking request, and click **Save and Close** or **Save and New**.

Result: The **Booking charged successfully!** message displays if the **Automatically Charge New Pick-Up Bookings** option is set. See [Figure 5-25](#). Otherwise the request is saved as usual and remains in the queue to be charged.

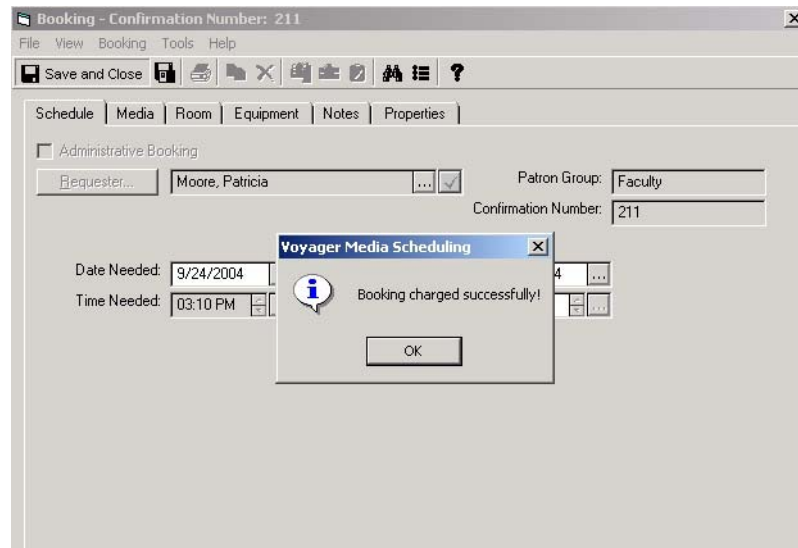

Figure 5-25. Booking charged successfully! message confirmation

Standard Mode - Staffing

6

Introduction

The Staffing tab of your Media Scheduling Module provides the capability to maintain the information you need regarding staff members. The button on the Staffing tab (see [Figure 6-1](#)) allows you to view your current staffing list and add or delete people from the list.

Figure 6-1. Staffing Tool Button

Staff

The Staffing window ([Figure 6-2](#)) allows you to establish a roster of staff personnel. You can add and remove personnel from the list and change their status.

Figure 6-2. Staffing

Click the **Staffing** button (Figure 6-3), and click the **Staff** icon to open the **Staff** dialog box. From the **Staff** dialog box, you can keep track of your active and inactive staff. You can view the status of each staff member and how many current charged bookings each one has.

Figure 6-3. Staffing Button

Changing Status

To put a staff member on Active or Inactive status, select the person from the patron database and select **Activate** or **Deactivate**.

Deleting Staff

Delete someone by selecting the person and clicking the **Delete** button. If you try to delete a staff member with current bookings, a confirmation dialog box displays. Click **Yes** to delete or **No** to not delete the staff member.

Adding New Staff Members

The procedure for adding new staff members is shown in [Procedure 6-1, Adding New Staff Members](#), on page [6-3](#).

Procedure 6-1. Adding New Staff Members

Use the following to add a new staff member.

1. Click **Add**.

Result: The **Add Staff Member** dialog box displays.

2. Search for the patron. Use one of the following methods.

- a. By Barcode

Enter a barcode in the dialog box and click the **Check** button.

- b. By a general search

Click the **Staff...** button. See [Patrons Search](#) on [page 2-21](#).

3. Select Active or Inactive status by turning on and off the **Active?** checkbox.
4. Click **OK** to create the person's record.

Result: Once a patron has been found, clicking the **ellipsis** button opens the **Patron Counter Information** dialog box. The **Patron Counter Information** dialog box displays the following information about the person that you have selected.

- Numbers of Current Bookings
- Late Returns
- Historical Bookings
- Cancelled Bookings
- Unclaimed Bookings that the patron has

- Date the counters were reset and which operator reset them
-

Barcodes

Barcodes are assigned to anything mobile such as patrons, equipment, and media items. They allow you to quickly and uniquely identify an item or a patron.

The **Barcodes** dialog box ([Figure 6-4](#)) allows you to create new barcodes and change the status of old barcodes. In Voyager, barcodes may be applied to patron IDs, media items, equipment, and equipment groups.

NOTE:

Patron barcodes have more status types available.

In the Media Scheduling module, you can add, edit and delete the barcodes of equipment and equipment groups. This can be done from a number of different locations, including the **Details** tab of the Equipment Inventory record, Group Inventory record, or Maintenance record which edits the barcode of the equipment undergoing maintenance.

Figure 6-4. Barcodes

Adding a Barcode to a New Record

The procedure for adding a barcode to a new record is shown in [Procedure 6-2, Adding a Barcode to a New Record](#), on page [6-5](#).

Procedure 6-2. Adding a Barcode to a New Record

Use the following to add a barcode to a new record.

1. Create a new record (the new record must be open to add a barcode).
 2. Enter the barcode for the new record.
 3. To add additional barcodes, you must save the record which will require completing any required fields in the record. Once the record has been saved, you can click the ellipsis button to open the **Barcodes** dialog box.
-

Adding Barcodes to Saved Records

The procedure for adding barcodes to saved records is shown in [Procedure 6-3, Adding Barcodes to Saved Records](#), on page [6-5](#).

Procedure 6-3. Adding Barcodes to Saved Records

Use the following to add a barcode (including additional barcodes) to a saved record.

1. Click the ellipsis next to the barcode field in the record to open the **Barcodes** dialog box.
2. Scan or type the number in the barcode field.
3. To select a status, click the drop-down arrow and select Active or Inactive from the list.

NOTE:

A barcode may not have a status of [none].

4. Click **Save** to keep the information, or click **Cancel** to discard the information and close the dialog box.
-

Changing the Barcode Status

To change the status of an old barcode, select the barcode from the list and click the drop-down arrow and select a status from the list that displays.

Deleting a Barcode

To delete a barcode from the list, select it and click the **Delete** button.

Closing the Barcode Box

Click **Close** when you are done with the **Barcodes** dialog box. If you have not saved the information, Voyager prompts you to see whether you want to save it or not.

Introduction

The Schedule Monitor provides a number of screens that can warn you about what events are imminent. Voyager can warn you about everything that requires attention, such as imminent bookings, whether the booking has been charged and whether there are any problems with the bookings.

You can use the Schedule Monitor to retrieve the following information.

- Impending and late deliveries
- Unreturned equipment charged to a patron that is required for another booking
- Late items
- Rooms that have been scheduled for the near future
- One room's daily schedule

You can select the time frame for events for which you are warned. You can also print out slips for patrons with information about scheduled events. How early these warnings display can be set in System Administration.

The functions of the Schedule Monitor are identified as follows.

- Conflict Resolution and Warning
- Delivery and Cleanup Notification
- Pickup Slips, Room Schedules

- Library Media Scheduled Rooms
- The Equipment Pick Up List
- The Item Pick Up List

You can start any of these tools by clicking the appropriate button ([Figure 7-1](#)) in the List Bar.

Figure 7-1. Schedule Monitor Buttons

Refreshing Screens

Information on the screens in the Schedule Monitor are typically updated every 15 minutes. For more information about options, see [Setting Options](#) on [page 2-61](#).

If you need to update the information sooner than your system is set to refresh itself, you can manually refresh any of the screens in the Schedule Monitor. Select **File>Get Requests** from the main menu to refresh your data.

Conflict Resolution & Warning

The **Schedule Monitor - Conflict Resolution and Warning** window (Figure 7-2) alerts you to possible conflicts and problems and allows you to take care them. You can display information on the records displayed and change booking information to correct any conflicts that arise.

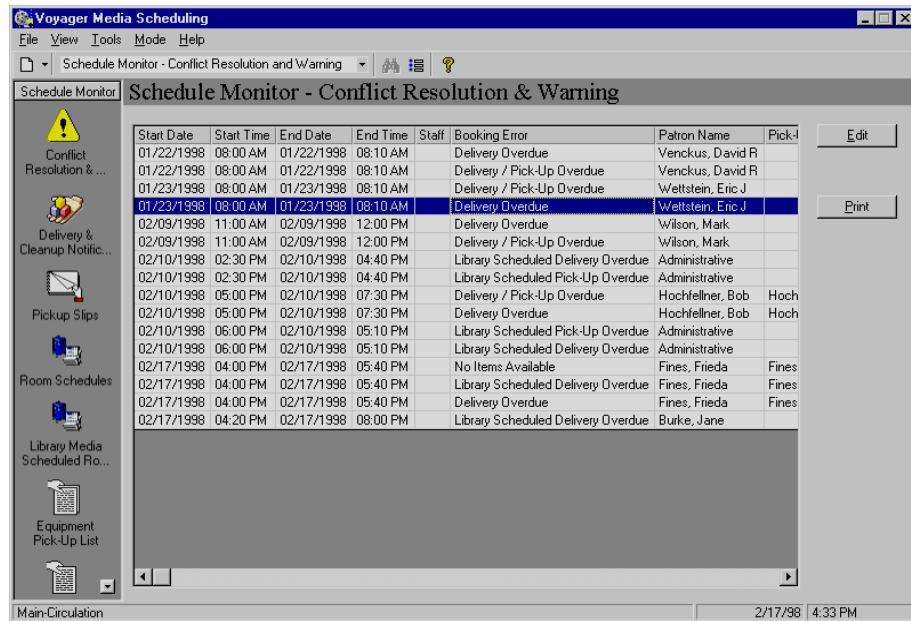

Figure 7-2. Schedule Monitor - Conflict Resolution and Warning

You can display the Schedule Monitor - Conflict Resolution and Warning window by clicking the **Conflict Resolution & ...** button (Figure 7-3) in the list bar.

Figure 7-3. Conflict Resolution & ... Button

Editing a Booking

To change a problematic booking, click the booking and then click the **Edit** button, or select **Alt + E**.

Printing Booking Reports

To print out a summary of all problem bookings, click the **Print** button or select **File>Print>Summary Listing**.

To print out information on a single booking, click the booking and select **File>Print>Item Detail (selected)**.

To print a detailed information page on all of the problem bookings, select **File>Print>Item Detail (all)** from the main menu.

Delivery and Cleanup Notification

This screen displays information regarding where and when equipment needs to be delivered, and from where and when it needs to be picked up, as well as any other special instructions.

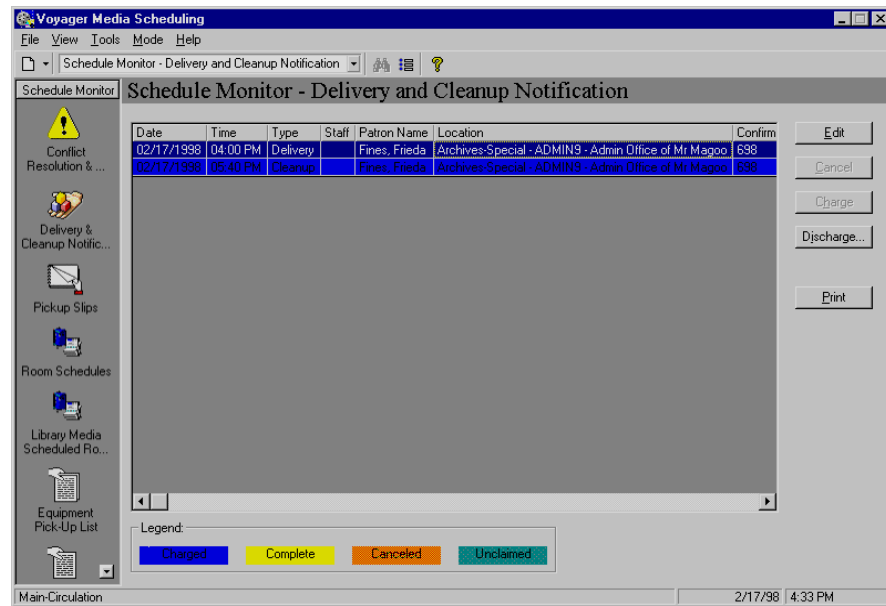

Figure 7-4. Schedule Monitor - Delivery and Cleanup Notification

You can display the Schedule Monitor - Delivery and Cleanup Notification window by clicking the **Delivery and Cleanup Notific...** button ([Figure 7-3](#)) in the list bar.

Figure 7-5. Delivery and Cleanup Notific... Button

Charging a Booking

To charge out a booking, select a record and click **Charge**.

Discharging a Booking

The procedure for discharging a booking is shown in [Procedure 7-1, Discharging a Booking](#), on page [7-6](#).

Procedure 7-1. Discharging a Booking

Use the following to discharge a booking.

1. Select the booking you want to discharge.
2. Click the **Discharge** button.

Result: The **Discharge Booking Media and Equipment** dialog box displays.

3. Place a check mark next to the media items you want to discharge. Click **Select All** to check all of the items to be discharged, or click **Deselect All** to uncheck all of the items.
 4. Place a check mark next to the equipment you want to discharge. Click **Select All** to check all of the equipment to be discharged, or click **Deselect All** to uncheck all of the equipment.
 5. To override the automatic date and time of discharge, place a check in the **Override Discharge Date/Time** block. When you check the box, you can alter the date and time.
-

Editing a Booking

Edit a booking by selecting it and clicking **Edit**.

NOTE:

Changing a booking indicates that the book has actually been delivered to the indicated room.

Canceling a Booking

Click **Cancel** to cancel a booking (but not discard it).

Printing Booking Reports

To print a summary report on all of the bookings that display in the list, click **Print** or select **File>Print>Summary Listing**.

To print out information on a single booking, click the booking and select **File>Print>Item Detail (selected)**.

To print a detailed information page on all of the bookings onscreen, select **File>Print>Item Detail (all)** from the main menu.

Pickup Slips

The Schedule Monitor - Pickup Slips window ([Figure 7-6](#)) tells you what is scheduled for pickup shortly and allows you to print out slips to pull equipment and media.

Figure 7-6. Schedule Monitor - Pickup Slips

You can display the Schedule Monitor - Pickup Slips window by clicking the **Pickup Slips** button ([Figure 7-7](#)) in the list bar.

Figure 7-7. Pickup Slips Button

Editing a Booking

Edit a booking by selecting it and clicking **Edit**.

NOTE:

Changing a booking indicates that the book has actually been delivered to the indicated room.

Canceling a Booking

Click **Cancel** to cancel a booking (but not discard it).

Printing Booking Reports

To print a summary report on all pickup bookings, click **Print** or select **File>Print>Summary Listing**.

To print out information on a single pickup booking, click the booking and select **File>Print>Item Detail (selected)**.

To print a detailed information page on all of the bookings onscreen, select **File>Print>Item Detail (all)** from the main menu.

Room Schedules

The Schedule Monitor - Room Schedules window ([Figure 7-8](#)) tells you what rooms are scheduled for use shortly and allows you to change room availability information.

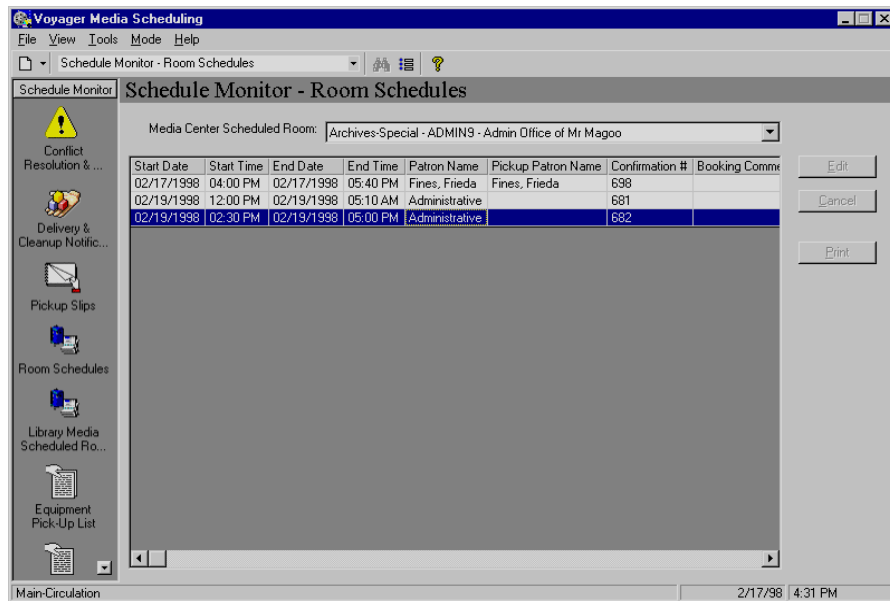

Figure 7-8. Schedule Monitor - Room Schedules

You can display the Schedule Monitor - Room Schedules window by clicking the **Room Schedules** button ([Figure 7-9](#)) in the list bar.

Figure 7-9. Room Schedules Button

Editing a Booking

Edit a booking by selecting it and clicking **Edit**.

NOTE:

Changing a booking indicates that the book has actually been delivered to the indicated room.

Canceling a Booking

Click **Cancel** to cancel a booking (but not discard it).

Printing Booking Reports

To print a summary report on all room schedules, click **Print** or select **File>Print>Summary Listing**.

To print out information on a single booking, click the booking and select **File>Print>Item Detail (selected)**.

To print a detailed information page on all of the bookings onscreen, select **File>Print>Item Detail (all)** from the main menu.

Library Media Scheduled Rooms

The Library Media Scheduled Rooms screen ([Figure 7-10](#)) provides you with information on impending bookings that are scheduled to use a library room.

Figure 7-10. Schedule Monitor - Library Media Scheduled Rooms

You can display the Schedule Monitor - Library Media Scheduled Rooms window by clicking the **Library Media Scheduled Rooms** button ([Figure 7-11](#)) in the list bar.

Figure 7-11. Library Media Scheduled Ro.. Button

Editing a Booking

Edit a booking by selecting it and clicking **Edit**.

NOTE:

Changing a booking indicates that the book has actually been delivered to the indicated room.

Viewing Items in a Booking

To view the items required by a particular booking, select the booking and click the **Items** button.

Printing Booking Reports

To print a summary report on all bookings, click **Print** or select **File>Print>Summary Listing**.

To print out information on a single booking, click the booking and select **File>Print>Item Detail (selected)**.

To print a detailed information page on all of the bookings onscreen, select **File>Print>Item Detail (all)** from the main menu.

Equipment Pick Up List

The Equipment Pick Up List screen ([Figure 7-12](#)) provides you with information on the specific pieces of equipment that need to be gathered and brought to the desk. The list is comprised of equipment that has been booked for the near future

and need to be brought to the desk so that you can have it on-hand when a patron picks up a previously reserved item or so that it can be delivered in order to fulfill a booking. This list provides you with a simple way of knowing what needs to be brought up to the desk.

In Session Preferences, you can determine how far in advance the list should look. For example, if you only want to know what has been booked for the next two hours, you can set it to only display equipment in bookings that start in the next two hours.

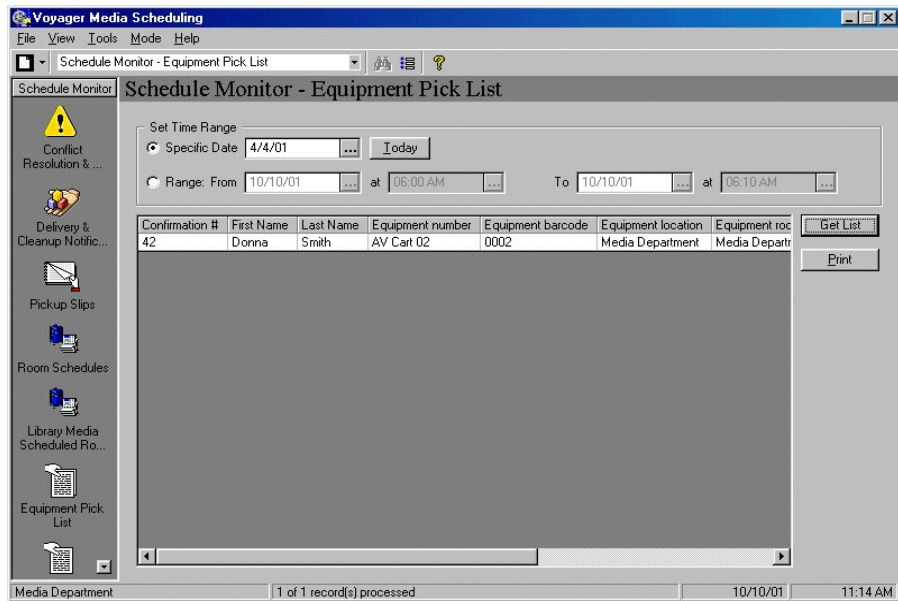

Figure 7-12. Schedule Monitor - Equipment Pick-Up List

You can display the Schedule Monitor - Equipment Pick-Up List window by clicking the **Equipment Pick-Up List** button (Figure 7-13) in the list bar.

Figure 7-13. Equipment Pick-Up List Button

Viewing and Updating the Equipment Pick Up List

The pick list can be viewed or updated by clicking the **Get List** button. Pressing this button automatically assigns equipment to bookings for generic equipment types that are due to be picked up within a certain interval, and then displays all of the equipment that is to be picked up (both generic and specific).

This interval is set by the **Examine pickup schedule for next...** field on the **Schedule Monitor** Tab in Session Preferences. (For more information, see [Schedule Monitor Tab](#) on [page 2-82](#).) A message displays that asks whether you want it to assign available equipment to any generic requests that have been made for times after that interval.

Assigning Generic Items

If the period set in the **Set Time Range** block is later than the automatic booking interval described, you are prompted as to whether you want to assign equipment to generic bookings that begin after that automatic interval.

The message "Do you want to make generic assignments for the time period you set?" displays. Clicking **Yes** fills generic requests for the time period after the automatic interval described above but before the end of the interval set in the Set Time Range block. It then displays those pieces of equipment. Clicking **No** prevents Media Scheduling from filling generic equipment type requests that begin after the automatic interval. However, assignments are still made for generic bookings that are within the automatic interval.

Changing the Time Period

If your list contains too much equipment to be dealt with immediately, or if you simply want your list to reach farther into the future, you can change the time period that the list covers.

The procedure for changing the time period is shown in [Procedure 7-2, Changing the Time Period for Equipment](#), on page [7-13](#).

Procedure 7-2. Changing the Time Period for Equipment

Use the following to change the time period for equipment.

NOTE:

The farthest ahead that the list can display is closing time for the library two days in advance.

1. In the Set Time Range block, click the radio button for **Specific Date** or for **Range**.
2. For a Specific Date, enter the date or click the **Today** button for the current date.
3. For a Range, enter the dates and times of the beginning and end of the range.
4. Click **Get List** to refresh the Pick Up list with the new information. You **must** click the **Get List** button.

Printing the Equipment Pick List

You can print a list of the equipment displayed.

Click the **Print** button to print the list.

Item Pick Up List

Similar to the Equipment Pick Up List, the Item Pick Up List screen ([Figure 7-14](#)) provides you with information on specific items that need to be gathered and brought to the desk.

The list is comprised of media items that have been booked for the near future and need to be brought to the desk so that you can have it on-hand when a patron picks up a previously reserved item or so that it can be delivered in order to fulfill a booking. This list provides you with a simple way of knowing what items need to be brought up to the desk.

You can determine how far in advance the list should look. If you only want to know what items have been booked for the next two hours, you can set it to only display items in bookings that start in the next two hours. Or you can see what items have been booked for the next two days.

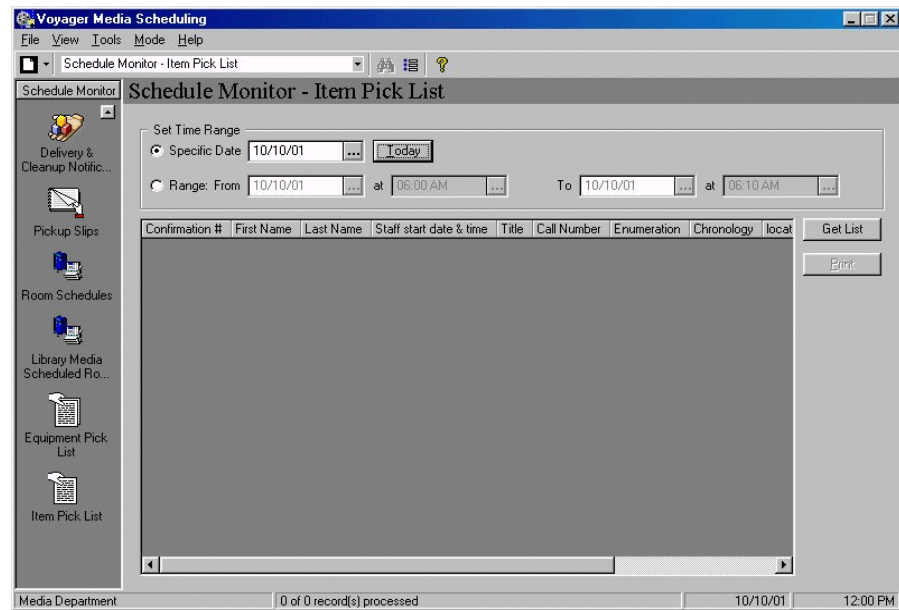

Figure 7-14. Schedule Monitor - Item Pick Up List

You can display the Schedule Monitor - Item Pick-Up List window by clicking the **Item Pick-Up List** button (Figure 7-15) in the list bar.

Figure 7-15. Item Pick-Up List Button

Viewing and Updating the Item Pick Up List

The pick list can be viewed or updated by clicking the **Get List** button. Pressing this button automatically assigns items to bookings for generic media items that are due to be picked up within a certain interval, and then displays all of the items that are to be picked up (both generic and specific).

This interval is set by the **Examine pickup schedule for next...** field on the **Schedule Monitor** Tab in Session Preferences. For more information, see [Schedule Monitor Tab](#) on [page 2-82](#). A message displays that asks whether you want it to assign available items to any generic requests that have been made for times after that interval.

Assigning Generic Media Items

If the period set in the Set Time Range block is later than the automatic booking interval described, you are prompted as to whether you want to assign items to generic bookings that begin after that automatic interval.

The message "Do you want to make generic assignments for the time period you set?" displays. Clicking **Yes** fills generic requests for the time period after the automatic interval described above but before the end of the interval set in the Set Time Range block. It then displays those items. Clicking **No** prevents Media Scheduling from filling generic media item requests that begin after the automatic interval. However, assignments are still made for generic bookings that are within the automatic interval.

Changing the Time Period

If your list contains too many items to be dealt with immediately, or if you simply want your list to reach farther into the future, you can change the time period that the list covers. The farthest ahead that the list can display is closing time for the library two days in advance.

The procedure for changing the time period is shown in [Procedure 7-3, Changing the Time Period for Items](#), on page [7-16](#).

Procedure 7-3. Changing the Time Period for Items

Use the following to change the time period for items.

1. In the Set Time Range block, click the radio button for **Specific Date** or for **Range**.
2. For a Specific Date, enter the date or click the **Today** button for the current date.
3. For a Range, enter the dates and times of the beginning and end of the range.

4. Click **Get List** to refresh the Pick Up list with the new information. You must click the **Get List** button.
-

Printing the Item Pick List

You can print a list of the items currently displayed.

Click the **Print** button to print the list.
