

BuyAccessible Government Product / Service Accessibility Template (GPAT)

Section 508 (<http://section508.gov/index.cfm?fuseAction=policies>) requires that federal agencies electronic and information technology is accessible to people with disabilities. The law applies to all Federal agencies when they develop, procure, maintain, or use electronic and information technology.

Requirements for accessibility based on Section 508 of the Rehabilitation Act of 1973 (29 U.S.C. 794d) (<http://section508.gov/index.cfm?fuseAction=1998Amend>) are determined as applicable to this acquisition based on the following technical provisions: To understand the technical standards that apply to each provision, the respondent should refer to [http://Section 508.gov](http://Section508.gov) at <http://section508.gov/index.cfm?fuseAction=stdsdoc>.

This GPAT is a simple tool to assist Federal contracting and procurement officials in fulfilling the market research requirements associated with Section 508 regulations. The GPAT is intended as a form to be included with government solicitations, to be filled out by solicitation respondents as a part of their proposal to indicate how their proposed solution addresses the applicable Section 508 requirements.

NOTE: Section 508 provisions are determined to apply based in part on EIT requirements characterized using the BuyAccessible Wizard. Provisions based on definite EIT requirements are identified by a "yes" in the Applicable column. Provisions based on possible EIT requirements are identified by a "maybe" in the Applicable column. Provisions not identified with program requirements for this acquisition have no entry in the Applicable column. However, if your product or service deliverable has physical or functional characteristics corresponding to any of the listed EIT accessibility requirements, even those beyond identified program requirements, then the requirement applies and you should provide appropriate accessibility information.

The GPAT is organized as a series of ten tables. The first eight tables reflect accessibility information about EIT products, corresponding to the six technical sections, the functional performance criteria, and the requirements for information, documentation, and support as defined in the Access Board Standard for Section 508. The ninth and tenth tables correspond to accessibility information about information content deliverables and labor hours, respectively.

Please fill the information below as a part of request for accessibility information of your proposed deliverable.

Product Name: Voyager Integrated Library System

Vendor Name: Ex Libris USA, Inc.

Accessibility Information URL (if any): _____

------------------	------------------------------	--------------------------	---------------------	---	------------------------------

1194.21 Software Applications and Operating Systems

<i>Id</i>	<i>Provision Text</i>	<i>Applicable</i>	<i>Notes</i>	<i>How does the EIT meet this requirement?</i>	<i>Please explain</i>
a	When software is designed to run on a system that has a keyboard, product functions shall be executable from a keyboard where the function itself or the result of performing a function can be discerned textually.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Software provides keyboard shortcuts for commands and menu items. Common keys such as arrows and tabs also aid in navigation throughout the user interface.
b	Applications shall not disrupt or disable activated features of other products that are identified as accessibility features, where those features are developed and documented according to industry standards. Applications also shall not disrupt or disable activated features of any operating system that are identified as accessibility features where the application programming interface for those accessibility features has been documented by the manufacturer of the operating system and is available to the product developer.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Software provides user-defined display preferences and visual and auditory alerts as appropriate. Software works within a Windows operating environment, compatible with Windows accessibility features.
c	A well-defined on-screen indication of the current focus shall be provided that moves among interactive interface elements as the input focus changes. The focus shall be programmatically exposed so that assistive technology can track focus and focus	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No	Software works within a Windows operating environment, compatible with Windows

	changes.			<input type="checkbox"/> Don't know	accessibility features.
d	Sufficient information about a user interface element including the identity, operation and state of the element shall be available to assistive technology. When an image represents a program element, the information conveyed by the image must also be available in text.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Text labels are used to describe user interface elements so that assistive technology devices are able to convey what appears in the user interface.
e	When bitmap images are used to identify controls, status indicators, or other programmatic elements, the meaning assigned to those images shall be consistent throughout an application's performance.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Although we have minimal use of bitmap images in the product, they are used consistently in the places where they appear.
f	Textual information shall be provided through operating system functions for displaying text. The minimum information that shall be made available is text content, text input caret location, and text attributes.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Supported via the operating system software.
g	Applications shall not override user selected contrast and color selections and other individual display attributes.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No	This functionality is supported throughout the product by using the Windows

1194.21 Software Applications and Operating Systems

<i>Id</i>	<i>Provision Text</i>	<i>Applicable</i>	<i>Notes</i>	<i>How does the EIT meet this requirement?</i>	<i>Please explain</i>
				<input type="checkbox"/> Don't know	display settings as established in the OS.
h	When animation is displayed, the information shall be displayable in at least one non-animated presentation mode at the option of the user.	Yes		<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input checked="" type="checkbox"/> Don't know	Animation is not used within the Voyager software.
i	Color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Color settings are offered in alternative ways via textual display.
j	When a product permits a user to adjust color and contrast settings, a variety of color selections capable of producing a range of contrast levels shall be provided.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Color settings are provided via the options in the operating system software.
k	Software shall not use flashing or blinking text, objects, or other elements having a flash or blink frequency greater than 2 Hz and lower than 55 Hz.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Software does not use flashing or blinking text, objects, or elements.
l	When electronic forms are used, the form shall allow people using Assistive	Yes		<input checked="" type="checkbox"/> Fully	Form controls are labeled for use

1194.21 Software Applications and Operating Systems

<i>Id</i>	<i>Provision Text</i>	<i>Applicable</i>	<i>Notes</i>	<i>How does the EIT meet this requirement?</i>	<i>Please explain</i>
	Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.			<input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	with assistive technology, and navigation can be done via the keyboard or other pointing device.

1194.22 Web-based Intranet and Internet Information and Applications

<i>Id</i>	<i>Provision Text</i>	<i>Applicable</i>	<i>Notes</i>	<i>How does the EIT meet this requirement?</i>	<i>Please explain</i>
a	A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Text equivalents have been used to label all non-text elements.
b	Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	Yes		<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input checked="" type="checkbox"/> Don't know	Multi-media presentations are not used within the product.
c	Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Users have the ability to turn off all formatting and styles and still have access to the system functionality.

1194.22 Web-based Intranet and Internet Information and Applications

<i>Id</i>	<i>Provision Text</i>	<i>Applicable</i>	<i>Notes</i>	<i>How does the EIT meet this requirement?</i>	<i>Please explain</i>
d	Documents shall be organized so they are readable without requiring an associated style sheet.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Documents have been organized to be read with or without style sheets. It is also possible for the users to apply their own custom style sheets to the documents.
e	Redundant text links shall be provided for each active region of a server-side image map.	Yes		<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input checked="" type="checkbox"/> Don't know	Our product does not use image maps.
f	Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	Yes		<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input checked="" type="checkbox"/> Don't know	Our product does not use image maps.
g	Row and column headers shall be identified for data tables.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	The product makes limited use of tables in the UI. Where used, row and column headers are used to identify the data in the tables.
h	Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	The product makes limited use of tables in the UI. Where used, markup is used to associate data and header cells.

1194.22 Web-based Intranet and Internet Information and Applications

<i>Id</i>	<i>Provision Text</i>	<i>Applicable</i>	<i>Notes</i>	<i>How does the EIT meet this requirement?</i>	<i>Please explain</i>
i	Frames shall be titled with text that facilitates frame identification and navigation.	Yes		<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input checked="" type="checkbox"/> Don't know	We do not use frames within the UI
j	Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Pages were designed to display with minimal flicker.
k	A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Since compliance has already been established, an alternative text-only page is not necessary.
l	When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	The interface was designed to be used without scripting. Where scripting has been used, there are text labels that can be read by assistive technology.
m	When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with 1194.21(a) through (l).	Yes		<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input checked="" type="checkbox"/> Don't know	The user interface does not use applets or plug-ins.
n	When electronic forms are designed to be completed on-line, the form shall allow people using Assistive	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/>	Electronic forms have been designed to allow

	Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.			Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	full compatibility with assistive technology devices.
o	A method shall be provided that permits users to skip repetitive navigation links.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Header navigation can be used to bypass repetitive links in the UI.
p	When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Yes		<input checked="" type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	Time-out settings are controlled by the customer, and an alert is provided before the session times out due to inactivity

1194.23 Telecommunication Products

<i>Id</i>	<i>Provision Text</i>	<i>Applicable</i>	<i>Notes</i>	<i>How does the EIT meet this requirement?</i>	<i>Please explain</i>
a	Telecommunications products or systems which provide a function allowing voice communication and which do not themselves provide a TTY functionality shall provide a standard non-acoustic connection point for TTYs. Microphones shall be capable of being turned on and off to allow the user to intermix speech with TTY use.			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	

1194.23 Telecommunication Products

<i>Id</i>	<i>Provision Text</i>	<i>Applicable</i>	<i>Notes</i>	<i>How does the EIT meet this requirement?</i>	<i>Please explain</i>
b	Telecommunications products which include voice communication functionality shall support all commonly used cross-manufacturer non-proprietary standard TTY signal protocols.			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	
c	Voice mail, auto-attendant, and interactive voice response telecommunications systems shall be usable by TTY users with their TTYs.			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	
d	Voice mail, messaging, auto-attendant, and interactive voice response telecommunications systems that require a response from a user within a time interval, shall give an alert when the time interval is about to run out, and shall provide sufficient time for the user to indicate more time is required.			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	
e	Where provided, caller identification and similar telecommunications functions shall also be available for users of TTYs, and for users who cannot see displays.			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	
f	For transmitted voice signals, telecommunications products shall provide a gain adjustable up to a minimum of 20 dB. For incremental volume control, at least one intermediate step of 12 dB of gain shall be provided.			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	
g	If the telecommunications product allows a user to adjust the receive volume, a function shall be provided to automatically reset the volume to the default level after every use.			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	

1194.23 Telecommunication Products

<i>Id</i>	<i>Provision Text</i>	<i>Applicable</i>	<i>Notes</i>	<i>How does the EIT meet this requirement?</i>	<i>Please explain</i>
h	Where a telecommunications product delivers output by an audio transducer which is normally held up to the ear, a means for effective magnetic wireless coupling to hearing technologies shall be provided.			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	
i	Interference to hearing technologies (including hearing aids, cochlear implants, and assistive listening devices) shall be reduced to the lowest possible level that allows a user of hearing technologies to utilize the telecommunications product.			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	
j	Products that transmit or conduct information or communication, shall pass through cross-manufacturer, non-proprietary, industry-standard codes, translation protocols, formats or other information necessary to provide the information or communication in a usable format. Technologies which use encoding, signal compression, format transformation, or similar techniques shall not remove information needed for access or shall restore it upon delivery.			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	
k[1]	Products which have mechanically operated controls or keys shall comply with the following: Controls and Keys shall be tactilely discernible without activating the controls or keys.			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	
k[2]	Products which have mechanically operated controls or keys shall comply with the following: Controls and Keys shall be operable with one hand and shall not require tight grasping, pinching, twisting of the wrist. The force required to activate controls and keys shall be 5 lbs. (22.2N) maximum.			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	
k[3]	Products which have mechanically operated controls or keys shall comply with the following: If key repeat is			<input type="checkbox"/> Fully <input type="checkbox"/>	

1194.23 Telecommunication Products

<i>Id</i>	<i>Provision Text</i>	<i>Applicable</i>	<i>Notes</i>	<i>How does the EIT meet this requirement?</i>	<i>Please explain</i>
	supported, the delay before repeat shall be adjustable to at least 2 seconds. Key repeat rate shall be adjustable to 2 seconds per character.			Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	
k[4]	Products which have mechanically operated controls or keys shall comply with the following: The status of all locking or toggle controls or keys shall be visually discernible, and discernible either through touch or sound.			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know	

1194.24 Video and Multimedia Products

<i>Id</i>	<i>Provision Text</i>	<i>Applicable</i>	<i>Notes</i>	<i>How does the EIT meet this requirement?</i>	<i>Please explain</i>
a	All analog television displays 13 inches and larger, and computer equipment that includes analog television receiver or display circuitry, shall be equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcast, cable, videotape, and DVD signals. As soon as practicable, but not later than July 1, 2002, widescreen digital television (DTV) displays measuring at least 7.8 inches vertically, DTV sets with conventional displays measuring at least 13 inches vertically, and stand-alone DTV tuners, whether or not they are marketed with display screens, and computer equipment that includes DTV receiver or display circuitry, shall be equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcast,			<input type="checkbox"/> Fully <input type="checkbox"/> Partially <input type="checkbox"/> No <input type="checkbox"/> Don't know
