- Analytics Fulfillment report gives "Item Policy" as “unknown” for some item policies
- Analytics Fulfillment report on overdue items
- Analytics Journal Usage – Titles report gives error "Exceeded configured maximum number of allowed input records"
- Analytics LC Classification code shows Unknown even though a call number is present in Alma
- Analytics library filter not working correctly
- Analytics link in the top bar of the UI
- Analytics reports: sum incorrectly calculated
- Analytics report about loans shows sometimes an empty User Group field
- Analytics report based on a keyword repository search

Ex Libris, a ProQuest Company
Analytics report combining Funds and number of Loans - how to create it?

- Analytics Report includes data that was deleted months ago
- Analytics report only retrieves one PO Line even though the bib record has two linked PO Lines in Alma
- Analytics report on Fines/Fees owed by patrons
- Analytics report on fines and fees Waiving comment
- Analytics report sorting items by LC Call Number
- Analytics report with null values
- Analytics Session Timeout
- Analytics shows multiple Secondary Reporting Codes for a single POL
- Analytics Subjects field under Bibliographic Details cut off at 255 characters
- Analytics Union Report - How To report on portfolios with or without POLines
- Analytics Users report combining two different fields under the “Select only one of the below” section - how to?
- Analytics widgets with a prompt
- Analytics: E-inventory > Bib Details > Author field fields truncated at colon
- An error has occurred while trying to load the Record list” in Metadata Editor, Save and Release
- An external process has changed the original record
- API call limitation Sandbox
- API query results in "Daily account plan limit exceeded" error
- Are EBSCO e-Books Included in Primo Search Results?
- Are encumbrances fully released when an expenditure is generated from an invoice that is created ‘From PO’ in Alma?
- Are Voucher Numbers required in order to close an invoice?
- Article from A-Z Database is not in Primo VE
- Associated PO Lines not appearing on Associated PO Lines tab on Purchase Order Line Details
- Automatic Delete or Suppress Brief Course Reserve Citations when a course ends
- Automatic Renewals and accruing fines
- Automatic renewal done 4 days too early
- Auto renewals for overnight loans
- Availability statement always display "May be full-text" when ALMA is a link resolver for MetaLib and EBSCO records
- Availability web service
- AVE and OWN fields missing from Primo publishing
- Avoid the "Edit Info" functionality in "Manage Patron Services"
- A canceled Lending Request won't update to Completed
- A letter is enabled but the notice does not send
- Backup copy of Alma template record -- *Don't* use this one
- Barcode information not transferred to Alma on RFID by Bibliotheca with new third party software staffConnect
- Barcode search "More Info" shows requests but "Resource Request Monitoring" finds none
- Base URL Configuration
- Bibliographic overlay of portfolio record causes parser not to link to journal level
- Bib record created from purchase request using Approve and Order is suppressed by default
Bib record disappears after overlay
- Binary export file of MARC records is empty and gives an error on unzip
- "Bind Items" button does not always display in the list of items
- Blank item Process Status at bottom of list
- Blank Screen in Alma when connecting to Circulation Desk
- BLDSS - "Cannot send a request that was not located" error message
- Block preferences: "Not Renewable - Item has Requests" is ignored
- Booking request: No items available for the request due to policy
- Booking Requests - how to avoid using Hold Shelf?
- BR3 Usage Data report: all identifiers are saved in the eISSN field
- Browse shelf listing ends with wrong result
- Bursar and Invoice (Finance) output file name (structure)
- Bursar export of credits - is it possible?
- Calendar (Opening Hours) shows last day of month as closed
- Calendar configuration for Opening Hours not kicking in. Why?
- Calendar Import gives error for invalid data in a blank row
- Calendar Management - steps to reduce (or add) hours over the library Standard Opening Hours
- Call number with wildcards
- Call Number won't display in ILLiad Z39.50 client
- Can't Add Local Portfolio to Collection in Alma
- Can't close invoice: "Fund ... belongs to the previous fiscal period for which transactions are not allowed"
- Can't Delete Empty Alma Holdings

- Can't edit contact info for some users
- Can't find PO Line from "Add Invoice Line" menu for a closed PO Line
- Can't log into Alma
- Can't return item from temporary location.
- Can't save a Default Fund to the PO Line information tab
- Can't save EDI information tab "EDI code for institution is mandatory"
- Can't send an Overdue notification for a lost loan
- Cancelling a POL in status "Waiting for invoice"
- Cannot activate this portfolio since its electronic collection is localized more than once in institution zone
- Cannot customize Fines/Fees Behavior table, get 'The field VAT Percentage does not match its definition' error
- Cannot Disable/Enable Letters
- Cannot edit or add Process Type when creating an item - why?
- Cannot find a POL in the list when trying to associate an item/holdings to POL
- Overlay and Merge Fails for Records Locked in MD Editor
- Cannot Place Patron Requests by Scanning Barcode
- Cannot save changes Yes to No for "Display To Public" in Manage License Terms
- Cannot Update and Save 866/863 fields when there are multiple titles with the same accession number in the 852
- Can Alma send the same loan receipt and return receipt to a user and to the printout queue?
- Can an Approved and Paid invoice be edited?
- Can an item be received without an Invoice?
- Can a closed SalesForce case be re-opened?
- Can a Portfolio's Public Note be inherited from the Vendor's Interface record?
- Can a PO Line disencumbrance be re-encumbered after an invoice is deleted?
- Can a Rota template be arranged an ordered list?
- Can a dropdown list of Library/Location be arranged in Alpha order?
- Can Ex Libris Support force close an invoice in Alma?
- Can I change the currency of a POL?
- Can I upload the same invoice file twice?
- Can migration from Voyager create only items and ignore all 'issues'?
- Can more than one field/subfield be specified as e-provider in the migration form, P2E section?
- Can Network Zone Normalization Rules Be Selected In Institution Zones?
- Can't edit Allowed IPs when at Library level of OAI_Definition External System Integration profile
- Can physical items be moved in bulk without creating a transit status?
- Can Primo display Block specific notes?
- Can purged users be viewed once deleted?
- Can same login be shared by multiple operators (e.g. circulation staff)?
- Can we anonymize user information in our Alma Premium Sandbox?
- Can we bulk add/remove items from the e-activation task list?
- Certification Training for Alma - how to register?
- Change a PO Line Vendor
- Change default Acquisition Method for Purchase Order (PO) lines
- Change Ledger (Fund) Code
- Change physical items job : There was a POL linked to a holding record > After the job, the POL link is broken and a new Holding that is created by the job is not linked to POL. Why?
- Change PO line owner with job "Update PO Lines Information - Advanced" not working
- Change Suppress setup in Alma - will it trigger publishing to Primo?
- How to change to "on hold shelf" letter
- Changing 'Check' to 'Cheque' in Payment Information at Circulation Desk
- Changing color and/or logo on ALMA doesn't work
- Changing status "Waiting for manual renewal" in bulk
- Changing the Library's Link Resolver Base URL in bX Hot Articles App
- Changing the process type (work order) in the item record
- Changing the subfield separator on the Metadata Editor
- Changing TOUs - Is it retroactive?
- Character limit of Alma Primary Identifier
- Check should display as payment option in Circulation Desk
- Choosing which service will be displayed in ViewIt when using Direct Linking
- Chrome browser identifies connection as "Not Secure"
- Claim is sent to vendor for a one-time order even though item is received
- Classification code of UNKNOWN is shown in Analytics even though there is an 852$$h
- Cleanup or ongoing maintenance of an Electronic Collection using Excel file
- Clicking Back after adding a brief citation to a reading list changes status to Being Prepared
- Clicking on Manage Fulfillment Options shows error message ‘Some of the existing physical inventory may not be used for fulfilling resource sharing requests due to library policies’
- Closed day used as due date
- Closed Invoices with Payment Status “Not Paid”.
- Combine sets: number of results in the combined set differs from the single set results
- Combine sets of different content types
- Common warnings / errors from offline circ
- Completing borrowing requests that were returned to partner
- Configuration for this: “Warning - Patron does not have resource sharing requesting privileges.”
- Configuration menu for "Subscribers" is not available under "Acquisitions, General"
- Configure Alma Item Circulation Status Label
- Configure FTP Server of Type MVS
- Configure one-item requested titles to be "not available" for requesting
- Configuring Alma to Allow Multiple Requests on A Title
- Configuring Anonymization of fulfillment activities and Archiving historical information
- Configuring CCC Get It Now in Alma
- Configuring COUNTER Subscribers: no "Subscribers" code table available in Alma Acquisition configuration
- Configuring Ebsco API for Full Text Linking via Alma and SFX link resolvers
- Configuring loan limits to exclude Resource Sharing loans
- Configuring parser parameters for O'Reilly electronic collections
- How to Configure Quarterly Prediction Patterns
- Connexion export to Alma is slow
- Consortia cataloging privileges configuration not distributing to all members
- Contact Info in SIS profile
- Continuous POLs reappear in Claim tasklist - how to remove?
- Continuous POL is in status "Sent" instead of "Waiting for Renewal". How to move it along?
- Continuous PO Lines: release encumbances
- Control when ILLiad request appears in Primo’s GetIt tab - guest users, item availability
- Convert a list of values into a filter in Alma Analytics
- Country display in letters
- Course Reserves / Reading List check-list for Alma-Primo
- Course reserve item call number missing
- Courtesy Notice and Auto Renewal
- Create a set to close lost loans
- Create new fiscal year - without rolling funds over
- Create physical item work orders, checkbox "Do not pick from shelf"
- Create set from Analytics - Users
Create Summary field 866/867/868
Create an itemized Users set based on Analytics
Create Work Order linked to the Circulation Desk
Creating a new acquisitions department
Creating a report in Alma Analytics with mathematical computation
Creating duplicates when importing records
Creating POL with ZERO amount for price and no Fund - how to?
Criteria for packaging PO Lines into one PO
Customers can open new cases to report Alma CZ and SFX KB issues using new categories starting from December 2019!
Customer ability to close Salesforce Cases
Customized Letter Content is not included in "Update/Notify Users" Job Emails
Customize Letters - Courtesy and Due Date Letter - Change XSL to reflect date and time
Customize the 'item-in-place' Status Wording
Customizing Letters - Example Reset Password Letter
SIS and Date format with "Z" in User XSD
Date of 2013 added to 008 field of incomplete records
Date range for Alma Reminders cannot be customized
Deactivate portfolios and activate new ones based on spreadsheet loader provided by the vendor
Debugging publishing from Alma to Primo for a specific record
Default Item Location when creating PO Line manually
Default item policy in Resource Sharing receiving item
Defective barcode image printed on request and transit slips
Delay experienced when exporting bib records from OCLC Connexion to Alma
Deleted items in Analytics reports
Deleted item stuck in user account and prevents loaning items to patron, error: "General Error"
DELETE BIB privilege
Delete invoices in status Ready to be paid
Delete Location which has items in temporary location
Delete PO line template
Deleting an electronic collection leaves a descriptive bibliographic record
Deletion of patron physical item request when the item is updated
Deprecating the 'Online User Update' integration profile in favor of Webhooks
Determining Item Availability on a Reading List
Difference between "User Group" and "Patron Group"
Difference between Original Record and Marc Record tabs in Merge Preview (Resolving import issues)
Different number of items in items and HOL list
Different process type drop-down lists in the Scan In Items screen and the Physical Item Editor
different types in the lost loan notification letter
Digitizations requests that are 'stuck' and can't be deleted
Direct link to A-Z list (Primo-Alma integration)
- Disable claim letters sent to vendors
- Disable renewals on requested item which is on loan (recalled)
- Disappearing MARC 003 Field
- Display Logic Rules - select a range of platform specific packages in the ‘with value’ section
- Does "Purge User Records" delete users with an empty purge date?
- Does Alma adjust for Daylight Savings changes?
- Does Alma Analytics store information about courses that are deleted in Alma?
- Does ALMA automatically create a PO for this POL once we have selected "Save & Continue"?
- Does Alma have a "wildcard" that can be used in the display logic rules?
- Does everything in the "waiting for payment" list have to be cleared/closed before fiscal close is done?
- Does the "PDA-Alert PDA Threshold" job need to be activated to generate alert emails?
- Does the bursar export include expired patrons/users fines and fees?
- Does the POLine Receive or Activation Status impact inclusion in Rollover?
- Does the RSS Discovery URL need to be redefined for each additional RSS profile?
- Download Unimported Records and Reload or Rerun
- Do MD Editor and PO line templates in test PROD Alma environment remain after cutover?
- Do overencumbrance rules apply to new order imports?
- Due Back Date Results in Recall
- Due dates have to be entered for each item in reading list
- Due dates of resource sharing loans always moved by one day
- Due date for borrowing resource sharing requests
- Due date in the past
- Due date should be unchanged even if it is a closing date
- Due time should not default to library's closing time
- Duplicate item - inventory number missing
- E-inventory report ; searching for Proxy Enabled
- E-materials appearing once in Alma (IZ), but twice in Primo; FRBR groups
- E-resource has Physical Version at Electronic Location after P2E process but needs to be removed
- EBL/ebrary migration to Ebook Central
- Ebsco Collections without the Ebsco API
- ECT code in Alma XML to Primo - what does it mean?
- Edit function for holding records missing when there is only one holding record
- EDI Invoice: Retrieve VAT amount from MOA+124 of the invoice level
- EDI Invoice: Retrieve Invoice level additional charges amount from MOA+8
- EDI Invoices: Why the Fund isn't being inherited from the PO Line?
- EDI Invoice fails to match Invoice Line with PO Line
- EDI Invoice Import fails with error java.lang.NullPointerException
- EDI ordering for different accounts at B&T (Enriched)
- EDI Order Responses (ORDRSP) fail with: Rejection reason does not exist
- EDI Order Responses - how to load?
EDI POL Sample File - how to create it?

- ejournal statistics - report on active unique titles
- Electronic Collection's Public Note search produces incorrect results
- Electronic collections without a portfolio not found in Advanced Search by Creation Date
- Electronic collection is deactivated but cannot be activated
- Electronic Collection Lifecycle = None
- Electronic holding coverage results in No Full Text, why aren't physical holdings being considered?
- Electronic portfolio issues: Edit/Save and Remove Selected
- Email "From:" is not addressFrom Field in "Borrower Receive Email Letter"
- Email Notifications Stopped Printing (specifically: Hold Request Related Letters)
- Enable Citation Linker on the Primo Main Menu
- Enable Pop-up (block) for patron overdue limits during loan
- Enable request on multiple items of same bibliographic record
- Enabling Aggregate Lost/Overdue Notifications
- Enabling authentication in new premium sandboxes
- Enhancement Process - Common Q&A
- EOD: what user data should be used for mapping to POL Interested User?
- EOD import - inconsistent handling of duplicate records in import file
- EOD for multiple items. When two 949 fields in input file with item information and the same Fund in each field, items were created correctly, but the Fund appears twice in the POL, as if there are two funds.
- Error: "More than one request found for entered item, please enter request ID" during Scan In, how to proceed?
- Cannot delete Alma user because they are assigned to an invoice
- Error: "Unable to update mapping table. A required parameter was not supplied: ill_item_creation_lib_code" for Fulfillment Configuration Other Settings
- Error in the rollover "PO line is linked to more than one transaction"
- Error in To and From Date/Hour message in Calendar Management
- Error in To and From Date/Hour message in Calendar Management
- Error messages when scanning in an item to fulfill a resource sharing lending request
- Error message "Could not create request, default item location is not defined for the resource sharing library" when trying to process ILL Requests
- Error message ‘A subfield separator character may not be used’
- Error message when trying to generate predicted items
- Error on Sandbox: "It is not possible to use this server, server name is not in FtpIncludeList mapping table"
- Error opening record
- Error trying to add portfolios from set to Local Electronic Collection
- Error trying to set up dashboard widget.
- Exclude Acquisitions process status from publishing to OCLC (control when to publish to OCLC)
- Exclude Alma Items from Being Published to Primo
- Exclude or include deleted items in Analytics reports
- Exclude Prediction Pattern Items from display in Primo
- Alma support for ten digit OCLC number expansion?
- Expected Content of Community Zone Updates Task List tabs: "Review" and "All"
- Expected Receipt Date of a POL is in the past - how to fix it?
- Expiration Alert Period
- Exporting Reports as CSV changes the end of MMS ID to 0 if longer than 15 characters
- Export electronic portfolios - no records were found
- Export to ERP job failed (or not ran) - would the invoices be exported with the next its run?
- Export to OCLC job
- Export Users - how to?
- External resources Z39.50 error

- No vendors found in licensor search
- Number of bib headings where no appropriate authorized term was found" in the report of "Authorities - Preferred Term Correction" - what does this label say?
- Number of loans including pre-migration loans
- Number of loans per circulation desk
- OCLC Connexion Client Gateway - Adding Rules
- OCLC Connexion doesn't export; no error message shows up
- OCLC Connexion error: Import failed. Reason: null
- One return receipt letter per patron
- Open Fiscal Period
- Open Letter from Non-Commercial Metadata Suppliers Supporting a More Collaborative and Transparent Approach When Working with Link Resolvers and System Vendors
- Order "Interested In" email is not sent for physical, one-time resources. Why?
- Order Interested In" email is not sent for electronic resources. Why?
- Organization Calendar has today as closed
- Originating system in Analytics
- Outdated User Group in Analytics for patron and borrower details on fulfillment subject area
- Overdue fee is created on top of Lost fines. Only Lost fines should be calculated
- Overdue Loan Not Getting Fines
- Overdue notices vs Overdue and lost loan notification
- Overencumbrance and Overexpenditure Rules - can be inherited from Summary Fund
- Override error message "Accession Number is not unique within this location"
- Override On Shelf Request Policy
- Ovid links resolve to a login page, how to enable journal and article linking?
- OvP: My account: Long lists of loans are not displayed
- pageBean.selectedRequestDepartment", or "pageBean.selectedSetStatus" display for certain Work Orders
- Page number is out of range - for Physical Items Itemized Set
- Resource Sharing Request is in completed status at borrowing library, not at lending library
Can we implement the Touchnet Payment System in Alma?
◦ parameter days_password_change has apparently no effect
◦ Parameter for "Purchase Request Directly" on creating requests for citations
◦ parameter invoice_high_total_price ignored
◦ parameter shortened due date notifications cannot be changed
◦ Particular portfolio has disappeared
◦ Patron data on loans and requests in Analytics
◦ patron hold requests
◦ Patron identification displaying previous patrons
◦ Patron item requests not showing in Task widget
◦ Patron Query Types not available in Fulfillment Configuration Menu
◦ Patron Role has expiry date in the past. Why and how to fix this?
◦ Payment Receipt Letter isn't being attached to User Account
◦ PCI Activated Titles not appearing in Primo
◦ PDA profile deletion
◦ Persistent search for one barcode returns two titles
◦ Personal Delivery Requests is sending "On Hold Shelf Letter" instead of "Full Personal Delivery Letter" email notification. Why?
◦ Photos for user records in Alma
◦ Physical Location External Name change requires set of titles republishing.
◦ Physical Title search for records without inventory - is it supported?
◦ Pickup Locations list for Requests- how to add/remove/manage the selection?
◦ PIN number letter sent to patron although PIN number was not changed
◦ Place in Queue is 0 (zero) - what does it mean?
◦ Place on Hold Shelf Letter not sent for resource sharing items
◦ POL: order sending failed, order stays In Review
◦ POLs stuck in review
◦ POL creation for electronic resource creates duplicate portfolios
◦ POL currency is set to institution default even when undefined for vendor
◦ POL for electronic resource not closed although activated and fully invoiced in Alma
◦ POL mandatory fields
◦ POL not going to review when Review Rule is set
◦ POL Owning Library assigned automatically to portfolios
◦ POL packaging required?
◦ POL search by vendor code with one letter and * (asterisk) is slow
◦ POL with interested users received but no request triggered
◦ Portfolios are suddenly deactivated in Alma despite no user intervention
◦ Portfolio "Test Access" button says: "Some error occurred while retrieving services"
◦ Portfolio activated without reason
◦ Portfolio displays Community Zone coverage instead of the Local threshold
◦ Portfolio doesn't display in Institutional zone; multiple IEE's
- Portfolio Loader - 3 columns for ISSN and 3 for ISBN on template in docportal
- Portfolio Loader Date Fields - will Threshold default to Global or Local
- Portfolio Loader fails with: "Internal error occurred"
- Portfolio was deleted and BIB record can't be found anymore
- Possible reasons for "ExternalSax Handler transform Record To Sip String index out of range: -6"
- POST-method for creating remote digital representation returns an error message
- Post migration clean-up of eResources in Alma
- PO is In Review but POL is already Closed. How to synchronize their status?
- PO Lines created with no status and or Bib description and can not be deleted or canceled.
- PO lines not found in the Electronic Collection Editor
- PO line " is not valid since resource type wasn't specified
- PO Line Alert: Price Limit Reached
- PO line is not valid since organization unit is empty
- PO line not shown in list of POLs when creating an invoice line
- PO Line Rollover job : When, on what stage of the rollover the exchange rate is applied?
- PO numbers are not sequential
- PO Summary: nothing in Library Billing / Shipping Address dropdowns
- Prediction template with empty enumeration level
- Prepopulate proxy on electronic packages with default
- Previous Fiscal Period still appearing as active despite first being deactivated and then closed
- Primo Central Interaction with Uresolver or SFX
- Primo displays available, but item unavailable
- Primo Widget on Alma dashboard- search configuration
- When is a notification sent to interested users
- Print Slip Failed error
- Print Slip is successful - yet nothing is printed (email troubleshoot)
- Problems with 'PO Line - Send EDI' process
- Problem with Preferred Term Correction report download
- Procedure to set SFTP key authentication in Alma
- Processing prepayments in Alma
- ProQuest Dissertations & Theses Global - How to activate it?
- ProQuest Dissertation not linking correctly, atitle field not filled in
- What URL to provide for "ProQuest supported OpenURL metadata fields" at Proquest admin instance?
- Protecting fields from the SIS loader
- Proxy enabled questions
- Pseudo patrons for processing resource sharing lending requests
- Public Note for Portfolios display based on Collection or Service's notes - how to override?
- Publishing and import jobs fail; server issue
- Publishing Dublin Core records to Primo
- Publishing electronic collections results in all members published as deleted
Publish an extract of bib records enhanced with items information
- Publish a random set from Alma Premium Sandbox to Primo - Tips Shared
- Publish records to OCLC - for Multiple Libraries
- Publish to RapidILL via OAI-PMH of holdings and electronic activations
- Purge users based on a set, carefully
- Purge User Records job doesn't work
- Purge user records job on NZ - does it delete records on IZ?
- Questions on the report of the job 'Authorities - Link BIB Headings'
- Question about the Resource Sharing Library field in a user record
- Question on the Preferred Term Correction job report
- Range of IP Addresses Required for Link to Talis Aspire
- Reactivate resource sharing request - on the lender side
- Reading List is not Sorted
- Reading room circulation desk - can it perform regular loans along with reading room loans?
- Recalled overdue fine disappears
- Received borrowing request gets status “Received – not for loan” although the item is loanable.
- Received Items List is unsorted, how to fix this?
- Receive New Material list and migrated Voyager orders
- Receiving Acquisition In Process items in order to avoid In Transit (Work Order at Circulation Desk)
- Receiving Items leads to error "Item cannot be loaned to patron - insufficient due date"
- Records marked as deleted in Primo publishing
- Record appears in the DB, but not available via the repository search or vice versa – requires Re-Indexing by Support
- Record Created By / Edited By
- Refining Result for an e-Book Title Search in Citation Linker
- Refresh of an Alma sandbox
- Refund for a lost loan (lost item) - configuration
- Register for a UStat Account
- Register New User does not assign Roles in Library scope
- Relais : In RS library, for loaned items the due date is always year 2999 at 23:59:59 in spite of TOU. Why?
- Related but not interchangeable titles are displayed in Getit
- Related record is found in the All Titles search but not other searches
- Relationship between Requested Item Due Date and Recall Period
- Relinking a PO line without MMS ID
- Relink Holdings when an inventory is on loan
- Reloading invoice fails
- Removal of Passwords from the Alma Database
- Remove all E-Activation tasks when deleting a package
- Remove all the E-Activation tasks when deleting a package
- Remove Community Zone Bibliographic Records without Portfolios from the Institution Zone
- Remove Control Field 008
- Remove non-Alma Google Scholar Links
- Limiting Operator information exposed in User pop-ups (e.g. home address, telephone)
- remove some of the very many PO Line types which appear in the “Purchase Type” pull down box
- Renaming a Library
- Renewal job does not update subscription end date
- Reports not displaying in Analytics Catalog for some users
- Report of users with role type expiring in a time range
- Report to Ex Libris (CRM Contact) gives error "User doesn't exist"
- Repository Import profile> Single Portfolio takes the portfolio information from the first 856
- Repository Search - How are Results Sorted (Ranked)?
- Repository search facet gives an incorrect count for "Material Type"
- Repository search results sorted by call number are in the incorrect order
- Requesting/recalling books
- Requesting an item when you already have an item of the same BIB record on loan
- Requests are cancelled and items marked missing automatically
- Request button not appearing in Primo service for valid Fulfillment Network users
- Request only shows owning library despite "Pickup in any library in the campus of the resource"
- Request rules go to default even though rules exist for user group
- Request via API cannot be created when pickup location type is home delivery
- Resend "Notifications - Send Periodic Fulfillment Activity Report" - is this possible?
- Resolve error: "Item of the same title is already on loan for this patron. Parallel loan is prohibited."
- Resolving PDA import errors
- Resource Request Hold Shelf Slips are not printed, no error message
- Resource Sharing: Article Lending Request - why is the Issue value in the Volume field?
- Resource Sharing - Completed Requests disappear
- Resource Sharing - How to change the partner if the British Library tells they cannot supply
- Resource Sharing - receiving problem
- Resource Sharing borrowing request is on hold shelf until due date, rather than configured maximum time on hold shelf
- Resource Sharing Lending requests - Clicking on Manage Fulfillment Options shows no services
- Resource sharing library available as a pickup location
- Resource Sharing Partner records in IZ are missing the “Shared barcodes” field, although this field is present in the NZ
- Resource Sharing print slip external request ID barcode is not scannable
- Resource sharing requests
- resource sharing request form via primo allows option to deliver digital items to the library
- Resource Sharing request for multi volume (Broker-Managed Requests). After July 2016 Release, they are displayed in Primo My Library Card as one request. Is this by intention?
- Resource sharing request is not allowed for any format
- Restore accidentally purged patron records
- Restore Community Zone linking parameters (remove override of parser)
Restore Deleted Records
- restore request slip is apparently printed too early
- Return of an an item which is requested for personal delivery
- Roles needed to update repository sets
- RSS Publishing Profile has "alma:" in the XML
- Running an "undelete" process for ebook records
- Salutation string in letters from Alma
- Saved query built using Alma’s classic UI ... must be rebuilt using new advanced search logic
- Scheduling Alma Analytics reports
- Science Direct is not parsing to the article level
- Scopus results show OpenURL Alma links despite embargo
- Searching Portfolios by Local Interface Name
- Searching with "a, an, the" in Alma returns different results
- Search for all items by item status: "in place" or "not in place"
- Search for a given range of call numbers
- search for content of tag 562
- Search Results Counter is an Approximation
- Selecting Monitor Request and Item Processes leads to blank screen
- Self-Check communication fails for users whose name contains diacritics (Unicode characters)
- Selfcheck: Lost and claimed return items not included in list of charged items
- Selfcheck receipts show wrong titles for barcodes
- Self check unit not sending 'on hold' letter
- Sending a resource sharing request using the BLDSS API
- Sending POL via EDI - PO is "In Review", POL is "Ready". How to enable "Sent"?
- Send button in Resource Sharing Borrowing Request
- Send e-mail message to user / patron within User Details screen
- Send Periodic Fulfillment Activity Report - expired and inactive users considered?

Where does the information in the note field of an EDI invoice come from?

Where does the P2E process pull the field/subfields that contain electronic link information from?

Where do the widgets come from?

Where is shipping method displayed in Alma?

Where is the Created on and Created by in the Physical Item Editor that was on the Summary tab?
Where is the "Export Portfolio List" button?
- Where to find Z39.50 targets?
- Where is the ResourceSharingShippingSlipLetter being sent?
- Where to Proxy: on the Collection or Service (or both)?
- Which MARC fields are indexed in each searchable index
- Which recall is cancelled when there are multiple requests and the first request is cancelled?
- Which roles can access the "Monitor jobs" page
- Which roles can use the new Shelf Report feature?
- Which template relates to the Ful Item Change Due Date Letter?
- Which Temporary Item Fields are populated automatically (if any)?
- Who do I contact about additional Alma training?
- Who is "BackOfficeUser"?
- Short loan sends two courtesy reminders
- Why aren't Alma Description Templates updating the format of the Description field of an item record for predicted serial issues?
- Why are all funds not displaying when creating a PO Line?
- Why are all my e-mails from Alma sent with empty text?
- Why are BIBs rejected due to unique constraint during migration?
- Why are changes to fund codes in PO Lines not reflected in Invoices?
- Why are circulation statistics inconsistent between the criteria and results screen in analytics?
- Why are credits and invoices posted in a new fiscal year not associated with that year?
- Why are different results returned in an advanced Physical Items search within Alma than in Analytics?
- Why are emails in vendor and user records SCRUBBED?
- Why are IP login restrictions being ignored?
- Why are my overdue and lost items not receiving the correct status?
- Why are OpenURL links from EBSCOhost failing?
- Why are there ISBN numbers in Analytics that are not part of the MARC record in the Alma UI?
- Why are users rejected with error identifier is already taken across Institution, even though the identifier belongs to the same patron?
- Why are vendor cancellation notices not being received?
- Why a package is not active after P2E?
- Why a request created in Primo is placed on a different Title?
- Why Call Slips don't contain the Item Barcode?
- Why can't I find any patrons when I search by user ID?
- Failed to move item error message
- Why can't standalone portfolios be added by set to a local electronic collection?
- Why can't we find Users by barcode in the Persistent Search Box?
- Why can expired patrons place requests?
- Why didn't the automatic renewal succeed?
- Why did a patron receive two hold notification letters?
- Why did process applying a normalization rule to a set of titles fail?
Why did the Ebook Central job fail?

- Why doesn't SIS User XSD v2 schema update fields?
- Why does "No Campus" appear in the pickup location list for patron requests?
- Why does "PO Line - Claiming" job report always say 0 records processed?
- Why does adding a subfield result in two spaces between the sub-field and the content?
- Why does Alma add portfolios when loading a file of portfolios to be deleted?
- Why does a closed order have a renewal date?
- Why does a PDA delete profile multi-match on the PDA record and a Community Zone record?
- Why does e-resource say "not activated" in cancelled POL, though resource is active?
- Why does override on-shelf request policy not allow requesting of non-requestable items?
- Why does the actual due date and the due date projected in the Alma Fulfillment Configuration Utility differ?
- Why does the auto-renewal rule apply incorrectly?
- Why does the counter in the batch process report not accurately reflect the number of records?
- Why does the metadata editor not allow save and release?
- Why does the Public Name of an Electronic Collection appear twice in Discovery?
- Why don't password changes for Internal users distribute from the Network Zone using the Distribute function?
- Why do all of the users that migrated from Voyager have a status of Active even though they are expired?
- Why do Alma Serial Title searches return less than Voyager Journal Title search?
- How can I create a fund report by fiscal year in Analytics?
- Why do I get an error in Analytics "Users" when adding 2 fields?
- Why do I see different pickup locations in Primo and in Alma?
- Why do I see the outstanding encumbrances whereas no PO lines are open?
- Why do keyword-searches for "All Titles" produce results in the Institution Zone that cannot be found in the Network?
- Why Do One-Time PO Lines Remain in Receiving Workbench Post-Receipt?
- Why do searches for "Electronic Titles", "Physical Titles" or "Digital Titles" produce no results in the Network Zone?
- Why do the encumbrance and disencumbrance timestamp appear to be identical?
- Why do Usage Statistics not Show Up under More Info in a Repository Search?
- Why has the Manage Patron Services link disappeared from the Fulfillment menu in Alma?
- Why isn't an imported record matching an existing record?
- Why isn't the Export job file showing in the "Exported Files" page?
- Why is "Request a different issue" appearing for some records when "General hold request" is hidden?
- Why is a Bib record showing in Primo if it has no holdings or is in a suppressed location?
- Why is a new 035 created when I save or import a record?
- Why is a new MARC record only placed according to its number upon save?
- Why is a PO not closing?
- Why is a recently added general electronic service not displaying?
- Why is a user blocked from checking out items still able to make requests?
- Why is Gale eBook providing two full text links after migration to Alma?
Why is Internal Copy option not on invoice?
- Why is Invoice Line 999995, Type "Adjustment" appearing?
- Why is LDR pos 5 not changed to "u" after the holding record is updated?
- Why is loan being allowed when TOU has "Not For Loan" = True?
- Why is my default proxy appearing twice in the "proxy selected" drop-down (once as the Default)?
- Why is my purchase request released from its assigned user after approval?
- Why is A New "End of Term" Event Not in Effect for Renewals?
- Why is there a discrepancy between the two audit trails in Alma?
- Why is the expected delivery of a PO Line equal to its sent date?
- Why is the first predicted issue generating with the second combined month twice?
- Why is the job taking so much longer than normal?
- Why is Trial still in Draft status after I have Activated it?
- Why item has a Material Type of "ELEC (not listed)."
- Why serial "available" in Alma, is displayed in Primo with yellow dot "Check holdings"?
- Why is the "Activate" button is not shown in the requests list for the items on loan?
- Why is the request allowed on the item level?
- Why is the Restore Request Job Fails?

Widgets for Analytics Reports
- Will changing a holding record during fiscal rollover affect the associated POL?
