What RDA Enhancements does Voyager have?

- **Article Type:** Q&A
- **Product:** Voyager
- **Product Version:** All
- **Relevant for Installation Type:** Dedicated-Direct; Direct; Local; Total Care

**Question**

What RDA Enhancements does Voyager have?

**Answer**

**Voyager 7.2.3 and higher**

- MARC 21 tag tables updated with approved changes from MARC proposals 2010-01 through 2010-05
- Details of changes available on MARC web site: [http://www.loc.gov/marc/marbi/list-p.html](http://www.loc.gov/marc/marbi/list-p.html).

Updated tag tables automatically included in Voyager > Catalog > TagTable > Marc21 or Ocll folders when new clients are installed.

**Voyager 8.2.0 and higher**

- Search indexes updated with new RDA subfields in existing indexes and with new Indexes.
- MARC 21 tag tables have been updated through MARC 21 Update 14 (April 2012)
- OCLC tag tables have been updated through OCLC Technical Bulletin 261 (May 2012).

**Voyager 9.0.0 and higher**

Ability to link to RDA Toolkit from Cataloging client.

**Voyager 9.2.0 and higher**

Option to display 33X information as part of Title Long field in search results in WebVoyage and staff client search.
Additional Information

See Release Notes for Voyager 8.2.0, Voyager 9.0.0 and Voyager 9.2.0
