Is it possible to change default node on Acq. Navigational tree?

- **Article Type:** General
- **Product:** Aleph
- **Product Version:** 18.01

**Description:**
Is it possible to change the default node on a Navigational tree in the left pane of the Acquisitionis client. Specifically can we change the default node in the Administration tab tree to be Vendor, rather then Budget?

**Resolution:**
You cannot customize the Acquisitions client to alter the default node that gets focus when you open the Administration tab in the Navigational pane on the left. This is hard-coded.
