'SFX Sync history' reports layout does not allow all information to be displayed

- **Article Type:** General
- **Product:** Verde
- **Product Version:** 2

**Description:**
In Verde – SFX synchronization reports that indicate changes in SFX (e.g. threshold changes), scroll down to the Object Portfolio Changes section of the report.
The value section of the "To" column has moved to the far right of the screen and you can't see what the value has been changed to.
It is cut off by the size of the window, which cannot be re-sized.
