How to change field name in the Catalog Template, in the Catalog module

- **Product:** Aleph
- **Product Version:** All
- **Relevant for Installation Type:** Dedicated-Direct, Direct, Local, Total Care

**Question**

How to change field name in the Catalog Template, in the Catalog module

**Answer**

1. Go to `/exlibris/aleph/xxx_x/xxx01/pc_tab/catalog`

2. In table: codes.lng
   
   In column 6 of the table, replace the old name with the new name you want.

3. Run **util m 7** (Update Tables Package)

4. Reconnect the GUI
